## THORSBY RCMP MAKE AN ARREST IN RELATION TO 2013 BREAK AND ENTER

**Submitted by Thorsby RCMP**

UPDATE #1

Thorsby, Alta. – On Dec. 13, 2013 the Thorsby Arms and Ammo shop was broken into and 12 firearms were stolen. No suspects were identified at the time. After a lengthy investigation which remained opened for over two years and involved Mayerthorpe and Whitecourt RCMP, the Thorsby RCMP with the assistance of the Forensic Identification Section and Edmonton Police

Service have charged one man with 15 criminal code charges.

On Feb. 29, 2016 the Thorsby RCMP laid the following charges against 36-year-old Steve Carrier: 12 counts of possession of property (firearm) obtained by crime; one count of mischief, one count of possession of firearms without holding a license and one count of being an occupant in a motor vehicle in which he knew there was a firearm, all contrary to the Criminal Code of Canada.

In addition Steve Carrier faces

another, unrelated, break and enter charge out of Grande Prairie.

On Mar. 6, 2016 Edmonton Police Service assisted by arresting Carrier and conducting a hearing in relation to Thorsby RCMP's outstanding charges. Carrier is released from custody on several conditions and scheduled to appear in court on Mar. 23, 2016 in Breton Provincial Court.

No additional information shall be forthcoming as this matter is now before the court.

## CHURCH PASTOR CHARGED WITH CHILD LURING

**Submitted by Alberta Law Enforcement Response Teams (ALERT)**

Following an investigation between ALERT and Drayton Valley RCMP, a Church Pastor with the Meewasin Free Methodist Church in Duffield, Alta. has been charged with child luring.

ALERT's Internet Child Exploitation (ICE) team arrested Glenn Harvey Boyde on March 14 and charged the 59-year-old pastor with child luring.

VIDEO: S/Sgt. Paul Czerwonka on child luring charges – [https://youtu.be/i37s7\\_imitM](https://youtu.be/i37s7_imitM)

ICE is an integrated team consisting of Edmonton Police Service and RCMP members, and investigates

offences involving child pornography, any computer-related child sexual abuse, child luring over the Internet, voyeurism involving victims under the age of 18, and child sex trade/tourism.

Back in May 2015, the parents of a 15-year-old girl discovered inappropriate texts messages on her phone. The texts were believed to be from an adult male that was known to the family through the church and youth social gatherings that the girl had participated in. The offense was reported to Drayton Valley RCMP and ICE was notified.

ICE reviewed the text messages and was able to identify Boyde as a suspect. He was employed as a pastor when the alleged offenses took place, however was removed from

his official position shortly after the complaint came forward.

Boyde was released from custody on a number of conditions. His next court appearance is scheduled for March 30 in Stony Plain.

Anyone with information about this investigation, or any child exploitation offence is encouraged to contact police or [cybertip.ca](http://cybertip.ca).

ALERT was established and is funded by the Alberta Government and is a compilation of the province's most sophisticated law enforcement resources committed to tackling serious and organized crime. Members of Alberta Sheriffs, Calgary Police Service, Edmonton Police Service, Lethbridge Police Service, Medicine Hat Police Service, and RCMP work in ALERT.

# ASSIST POLICE TO IDENTIFY SUSPECTS INVOLVED IN BREAK AND ENTER

Submitted by Thorsby/  
 Breton RCMP

File number: 2016277224  
 On March 08, 2016, Thorsby RCMP received a complaint of a Break and Enter into a residence on Range Road 40, near Genesee. The suspects entered the property between the hours of 4:25am on March 07, 2016, and 12:37am March 08, 2016.

Two suspects, and a vehicle were seen on the property. They are described as follows:

- Suspect #1
- Tall, slim build
  - Light, curly hair
  - Caucasian

- Suspect #2
- Female
  - Caucasian
  - Wearing glasses
  - Suspect vehicle
  - Green
  - Ford make
  - Damage to front passenger side

The suspects gained entry by breaking a window. Numerous tools, and accessories were stolen.

If you have any information that could assist in this investigation, please contact the Thorsby RCMP at 780-789-3951; or Crime Stoppers at 1-800-222-8477 or www.crimestoppers.ab.ca.

**JOKE OF THE WEEK**

A man was in his front yard mowing grass when his beautiful, blond, female neighbor came out of the house and went straight to the mailbox. She opened it, looked inside, slammed it shut, and stormed back into her house. A little later she came out of her house again, went to the mailbox, again opened it, and slammed it shut again. Angrily, back into the house she went. As the man was getting ready to edge the lawn, here she came again. She marched to the mailbox, opened it and then slammed it closed harder than ever. Puzzled by her actions, the man asked her, "Is something wrong?"

To which she replied, "There certainly is! My stupid computer keeps telling me I've got mail!"

# MILLAR WESTERN'S POSITION IN SUNDANCE C POWER PURCHASE ARRANGEMENT TERMINATED

**Submitted by CNW Group Ltd**

EDMONTON, March 24, 2016 / CNW/ - Today, Capital Power Corporation (Capital Power) gave notice of its intent to terminate its role as Buyer of the Sundance C Power Purchase Arrangement (Sundance PPA, the Arrangement), effective March 24, 2016. As a result of Capital Power's termination, Millar Western's role as a member in the Power Syndicate Agreement (Sundance C) is also terminated.

In 2001, Millar Western joined a multi-party syndicate headed by Capital Power to enter into the Sundance PPA. Capital Power has announced it is exercising its right to terminate the Sundance PPA under the Arrangement's Change in Law provisions, following amendments to the Specified Gas Emitters Regulation that became effective in 2016.

At February 29, 2016, the net

book value of Millar Western's position in the Sundance PPA was \$21.0 million. The company expects to record a non-cash charge of \$21 million in the first quarter of 2016 to reflect the termination. There are \$11.1 million in loans associated with the PPA that are now due and payable on June 30, 2016. Between now and 2020, the termination is expected to have a positive impact on the company's

EBITDA.

About Millar Western Forest Products Ltd.:

Millar Western is a family-owned forest products company headquartered in Edmonton and operating a high-yield pulp mill in Whitecourt and dimension lumber mills in Whitecourt and Fox Creek, Alberta.

## METH DEALER ARRESTED

**Submitted by Rocky Mountain House RCMP**

Rocky Mountain House, Alberta - On March 9, 2016, Rocky Mountain House RCMP arrested a methamphetamine dealer during the execution of a search warrant.

On March 9, 2016, Rocky Mountain House RCMP, while acting under the authority of a search warrant, entered a temporary residence at a local motel. The search revealed a quantity of methamphetamine, hashish, hashish oil, cash, a weight scale and other drug trafficking paraphernalia. The accused, Darcy JAYCOCK, 46 years of age, a resident of Rocky Mountain House, was arrested on scene and immediately taken into custody. In this case, there were no weapons seized during the raid. JAYCOCK is well known to police and has a previous criminal record for drug dealing dating back over 20 years. This successful enforcement action is part of the Rocky Mountain House Detachment's crime reduction efforts focused on street-level crime, crime hot spots and prolific drug and alcohol offenders.

# LEDUC MAYOR WINS NATIONAL AWARD FOR SUPPORTING SPORT TOURISM

Submitted by John R. Statton

City of Leduc Mayor Greg Krischke was crowned Sport Tourism Champion of the Year at the Canadian Sport Tourism Alliance's (CSTA) 10th annual PRESTIGE Awards on March 7, 2016.

"I am humbled and honoured

to be the recipient of this prestigious award," said Mayor Greg Krischke. "Sport tourism is a community builder and with our volunteers, staff and great facilities we have become a choice community for events of all kinds and sizes."

Leduc Sport Tourism was a finalist at the awards for Canadian Sport Event of the Year for

the 2015 World Sledge Hockey Challenge.

The PRESTIGE Awards are the CSTA's marquis Program Recognizing Exceptional Sport Tourism Initiatives, Games and Events. The goal of the awards is to shine a spotlight on the dynamic Canadians, places and events that build the sport tourism industry in Canada. The CSTA has over 400 members across the country, including: 145 municipalities, 200 national and provincial sport, multisport and major games organizations, as well as a variety of other sport and sport tourism industry part-

ners.

# FORTISALBERTA ANNOUNCES ITS 2016 EARTH HOUR CHALLENGE RESULTS

**Submitted by FortisAlber-  
ta**

Calgary, Alberta – March 24, 2016 - FortisAlberta, an electricity distribution company that provides service to central and southern Alberta, is excited to share the results of the 2016 Earth Hour Challenge.

Earth Hour took place on Saturday, March 19, from 8:30 – 9:30 p.m. and 25 communities within FortisAlberta's service territory participated. This year, grants were increased to a total of \$15,000 to be allocated to the top three communities with reduced consumption to enable municipalities to create or enhance energy efficiencies in their communities.

"Communities came up with their own unique ways to reduce energy consumption during Earth Hour," says Natasha Russell, Corporate Communications Advisor. "Residents were encouraged to turn off unnecessary lights and were also encouraged to participate in community events."

The winners of the Earth Hour grants are those communities that are identified to have had the low-

est electricity consumption during Earth Hour, as compared to the same hour on the previous Saturday. The percentage decrease was used to determine the winners of the grants.

This year's recipients of the Earth Hour grants are:

- First place winners: Village of Glenwood and Village of Hill Spring tie for first place (first and second place grants were combined

and divided by two to ensure fairness). Each community receives \$6,250 each for a 94 per cent decrease in consumption.

- Second place winner: Village of Alix receives \$2,500 grant for an 18.5 per cent decrease in consumption

Thank you to all participating communities who entered the FortisAlberta Earth Hour Challenge!

Visit FortisAlberta for energy

saving tips at [www.fortisalberta.com](http://www.fortisalberta.com).

About FortisAlberta  
As owner and operator of more than 60 per cent of Alberta's total electricity distribution network and more than 120,000 kilometres of power lines, FortisAlberta's focus is the safe and reliable delivery of electricity to its 530,000 customers in 200 communities across Alberta.

## Meth Dealer Arrested

Continued From Page 3

Through intelligence analysis and focused enforcement measures, the detachment crime reduction initiative aims to combat illegal activities to reduce crime and promote safe and secure communities.

JAYCOCK has been charged with numerous drug trafficking related offences and has been remanded in custody until his next court appearance on March 16, 2016.

Rocky Mountain House RCMP will continue to aggressively target individuals involved in illegal activities and will use every possible tool and agency available. The RCMP wishes to remind those that are involved in criminal activity that any assets used to commit a crime will be seized as offence related property.

# Spring 2016 HomeRENO

The Businesses in the following Guide can be your One Stop Solution to all your Renovation Needs!

# SPRING CLEANING PROJECTS YOU DON'T WANT TO FORGET

Spring cleaning is an annual tradition in many households. After a winter spent cooped up indoors, spring cleaning can rejuvenate a household and provide a great chance to rid a home of a season's worth of clutter.

Donating old clothes and cleaning out the garage are popular spring cleaning projects, but there are a host of additional tasks homeowners can tackle to freshen up their homes this spring.

**Floors**  
Simply vacuuming or sweeping the floors might not be enough to banish some of winter's most uninvited guests. Dust has a way of settling into a home over the course of a typical winter, and it's easy for a home's inhabitants to track dirt and debris inside as well. After vacuum-

ing or sweeping floors, go over them with a mop. Doing so can remove any lingering dust, dirt, debris, and allergens the vacuum or broom failed to pick up. Apply wood cleaner and polish to wood floors to make them look even cleaner.

**Baseboards**  
Though baseboards might not seem all that dirty, upon closer inspection homeowners might notice substantial accumulations of dirt and dust. Such dirt and dust may not be removed so easily, so homeowners might need to use hot water and a sponge to remove any debris that is clinging.

**Curtains**  
Curtains also may have absorbed substantial amounts of dust, dirt and debris over the winter. This might be more visible near the end of winter

when more sunlight begins to shine through. Clean the curtains in adherence to the manufacturer instructions before you open windows for the season so any wind that blows in does not spread debris onto nearby furniture. Once the curtains have been washed, opening windows may help them dry more quickly.

**Bathrooms**  
Bathrooms also tend to bear the brunt of winter weather, as mold and grime can accumulate throughout a season in which it's too cold to open bathroom windows to let fresh air in after bathing. Inspect ceilings, tubs, shower stalls, and floors for any signs of mold growth or grime. Mold growth in a home can lead to respiratory problems and exacerbate existing conditions such as asthma, so it's best to inspect bathrooms for

any signs of mold growth throughout winter. If you have let that slip, prioritize such inspections come spring cleaning time.

**Furniture**  
It's easy to overlook furniture when tackling spring cleaning, but dust and dirt can quickly accumulate on couches and chairs over the course of winter. When possible, vacuum furniture to remove any debris that might have accumulated while windows and doors were kept shut, and shampoo any cushions or seat covers that don't pass the smell test.

Spring cleaning encompasses a host of tasks, and homeowners who want a truly clean house should not overlook smaller tasks that can produce big results.

# HOW TO ENSURE A SUCCESSFUL BASEMENT REMODEL

(MS) - By: Scott McGillivray  
Americans continue to fuel remodeling spending across the country, driven by upward growth in real estate prices and the rising cost to trade up to a larger home. Basement renovations are expected to be a hot trend in 2016, as buyers look to maximize available living space rather than move, and as young buyers look to offset the cost of homeownership with potential income suites.

While finishing a basement can be a great alternative to moving -- especially if you love your neighborhood - there are some challenges homeowners must be aware of when tackling below-grade living spaces. Choosing the right products is vital to the comfort, safety and function of your new living area. Look for products that help to maximize energy efficiency and protect against

moisture, fire and noise. Here are the top points to consider to ensure a successful basement renovation.

Waterproof it. Check the interior foundation and floors to make sure there are no existing moisture issues, water damage or mold problems. Address any primary moisture issues before finishing the space. Examine grading to ensure water runs away from your foundation.

Insulation is key. Insulation plays a critical role in making your basement feel comfortable, while keeping it safe and dry. For the best results, install a rigid board insulation, like Roxul ComfortBoard IS, against the concrete foundation before you stud the wall. The board is mechanically fastened or adhered to the concrete foundation wall, which prevents thermal bridging through the studs, providing better thermal

performance. Finish with a moisture-resistant and dimensionally stable insulation between the studs, like R14 Comfortbatt, to protect against common basement issues such as mold, mildew and rot.

Choose a functional design. Draw out plans, carefully taking into consideration any low ceilings or small windows. Try to incorporate structural features, such as attractive wood beams, into your design. Keep the space as open as possible. Select lighting that provides a bright, airy feel.

Don't forget to soundproof it. Soundproofing is the ultimate solution to maximize your basement's quiet and privacy. Whether your newfound space will function as a home theatre, music room, home office or playroom, it will benefit from quality acoustic insulation, like Roxul Safe 'n' Sound. Not only is

it highly effective, but it's also easy to install.

Consider fire safety. Since many basements are now being renovated as income suites, fire protection is also a vital consideration. Whenever possible, select building materials with a high fire-resistance rating and look for products that will not off-gas or contribute to toxic smoke in the event of a fire. Include additional exits in your renovation plan and educate yourself on your local fire code.

Before you start your renovation, be sure to check with your municipality to secure the right permits and to ensure that you're complying with local bylaws and building codes. Finishing a basement can be a smart renovation, if done properly, adding to a home's value, increasing its function and providing greater enjoyment or income potential.

# HOW TO MAKE SPRING PROJECTS MORE ECO-FRIENDLY

The arrival of warmer weather means different things to different people. Some anticipate opportunities for outdoor fun, while others may be considering redecorating or remodeling their homes. For the latter group, home improvement season provides a great opportunity to make homes more eco-friendly.

When planning home improvement projects, it's best to first choose a project and then look for ways to make the project more environmentally friendly. Such an approach may not only benefit the environment, but it also may benefit homeowners' bottom lines.

Interior decorating  
Longer days and warmer temperatures often translate into wanting to freshen up the interior of a home. Heavy draperies and comforters are put away, and lighter fabrics are taken out of storage. Whenever possible, reuse or repurpose items you already have rather than purchasing new items. Longer drapes can be cut and hemmed to be used as window treatments in other rooms. Making a patchwork blanket out of old T-shirts is a crafty project that makes use of items that would otherwise be destined for landfills.

When laundering linens, skip the energy-using dryer and let items line dry in the sun and fresh

air.  
If you decide to purchase some new items, look for products made from sustainable or organic fabrics. Hemp and bamboo textiles have grown in popularity. Hemp and bamboo plants grow quickly, and their durability makes these materials smart choices.

When replacing items around the house, donate older items to a charitable organization.

Flowers and plants  
Spring and summer call to mind beautiful blooming plants. Relying on native, sustainable plants is practical, environmentally friendly and cost-effective.

According to the National Wildlife Federation, sustainable plants are native plants. Native plants sustain local wildlife more effectively than non-native alternatives, so include native plants in your sustainable garden. Native plants also are less reliant on pesticides and herbicides to keep them healthy and viable.

Don't forget to bring plants indoors as well. Even though you may be opening the windows more, indoor plants can filter and purify indoor air. The NASA Clean Air Study, led in association with the Associated Landscape Contractors of America, found that certain common indoor plants naturally remove toxic agents such as benzene, form-

aldehyde and trichloroethylene from the air. Efficient air cleaning is accomplished with at least one plant per 100 square feet of home or office space.

Proper disposal  
Spring cleaning is another tradition for many families come the end of winter and dawn of spring. Many people use spring as a time to go through closets and garages to remove items they no longer use or need. In an effort to clean up fast, some people may dispose of chemical products, paints, treated lumber, and many other items in ways that can be damaging to the environment. Always learn local municipal guidelines for proper disposal of potentially harmful products. Area recycling centers may have drop-off areas

for stains and paints, used motor oil and other potentially harmful products.

Before discarding something, see if it can be donated or sold. This will result in fewer items ending up in landfills.

Exercise caution outdoors as well. Runoff from cleaning products used on home siding or driveways can leach into the surrounding soil or find its way into sewage drains that ultimately direct fluids to public waterways. Choose environmentally responsible products whenever possible.

Springtime renovation and cleaning projects provide the perfect opportunity to adopt eco-friendly practices that pay dividends for years to come.

## WASH YOUR CAR LIKE A PRO TO PROTECT ITS VALUE

Vehicle owners know maintaining a vehicle can be a lot of work. Taking the time to properly care for a vehicle can prolong its life expectancy and help owners avoid breakdowns and other issues along the way.

Regular washing is an aspect of vehicle maintenance that some may classify as a purely cosmetic benefit. Certainly a car wash can keep the vehicle looking its best, but there are other advantages to washing as well. Washing offers preventative maintenance for the car's paint and can help prevent rust and corrosion resulting from dirt, acid rain and road salt. Rust can compromise hydraulic brake and fuel lines, as well as many moving parts in the chassis and frame. Corrosion of electrical connectors and other parts under the hood can lead to leaks, electrical shorts and a host of additional problems. It's easy to see how washing the car is more essential than one might have suspected.

If you live in an area with a high amount of dust or industry, you may need to wash your car as frequently as once a week. Drivers who live along or near coastal areas may need to wash their vehicles frequently to combat sea salt buildup. Garage-kept vehicles may be able to go longer between washes, but in general washing a vehicle every two to three weeks is a good rule of thumb. In addition, a good sealant will protect the paint and other trims throughout the year.

The following are some other car-wash tips to follow.

- Always use a proper washing soap solution. This will preserve the car's finish better than other homemade soaps. Avoid using dishwashing liquid, which can strip protective wax coatings.

- Be prompt when cleaning off bugs, sap and bird droppings that may stick to the paint and become difficult to remove over time.

- Wait until a car has cooled down before washing. Heat

speeds up the drying of soap and water and can make it more difficult to clean.

- Always use a clean, non-abrasive sponge. Resist the urge to move the sponge in circles as you clean. Doing so can create noticeable swirl scratch marks. Instead, move the sponge lengthwise across the body panels and hood.

- Keep a separate rinsing bucket to clean the sponge or washing mitt so that dirt is not mixed into the clean, sudsy water.

- Consumer Reports suggests using a soft squeegee to remove most of the water on the body of the car after washing and rinsing. Blot up any extra water with a chamois.

- Wax the car every season to ensure it has maximum protection. In between, apply a liquid spray wax to touch up spots. Water beading is not an ideal indicator of whether or not the car needs a coat of wax.

- Don't forget to pay attention to the interior. Vacuum the carpets regularly to prevent ground-in dirt and routinely clean the upholstery with a product specific to your vehicle's interior, whether that interior is leather or fabric.

Protecting a vehicle investment

involves keeping the car clean. or truck look and perform like new. Know the right ways to help a car new.
