ENTWISTLE SCHOOL NEWS

Submitted by Les Worthington, Principal

Spring has arrived and Spring Break starts tomorrow. We hope everyone has an opportunity to spend time with family and enjoy what will hopefully be some beautiful weather. Here are a

few highlights from March, as well as things to look forward to in April:

• The boys' basketball team had an amazing season and made it all the way to the finals! Congratulations to the players and coaches on a wonderful and memorable season. The future looks bright for Entwistle Eagles basketball!

• Following us sending out March's newsletter we found out that the Entwistle Eagles archery team finished second at their archery tournament in Drayton Valley.

WILDFIRE HAZARD IN YELLOWHEAD COUNTY FIRE MANAGEMENT AREA

Submitted by Stefan Felsing

Dry and windy conditions persist in the Yellowhead County Fire management Area. While some precipitation has occurred it is not enough to significantly reduce the flammability of the forest and prairie.

Wildfire Hazard

Strong, gusty winds push the wildfire hazard up to HIGH in the Yellowhead County Fire Management Area. Postpone any burning until winds diminish. Remember to check the conditions on your burn permit.

Areas of exposed, dried grass are extremely dry and under these windy conditions a wildfire will spread rapidly. Call 911 to report any fires.

A Fire Advisory is in effect for the Yellowhead County Fire Management Area.

• Fire permits for machine-piled, heavy brush piles, windrows and root piles will NOT be issued until the advisory is lifted.

• All existing fire permits are still valid.

• Fire permits will continue to be issued for burn barrels and smaller, hand-piled brush piles. • Safe campfires are allowed.

The Wildfire Hazard Advisory will continue to be in effect as long as the current conditions continue.

Agriculture and Forestry has issued a similar Advisory in the Green Zone.

Entwistle School News

Continued From Page 1

Great shooting ladies and gentlemen! Several members of the team also participated in NASP nationals in Edmonton. It was great to see such high participation and there were some great results. Later this month (27th) the team will be participating in NASP provincials in Drayton Valley. More information will be coming home as it becomes available

On April 4th students in grades 4 & 5 will be visiting the Telus World of Science.

April 4th-8th will be our third, and final, round of CTF at Seba Beach for students in grades 6-9.

Tuesday, April 19th, . we will be hosting a free Community Breakfast. All are invited to come at 8:00 a.m. and get a healthy start to their day. Thanks to the Friends of Entwistle Learning Society for sponsoring this breakfast. Anyone interested in sponsoring a Community Breakfast can contact the school.

Sunday, April 24th, students will be singing the national anthem in Edmonton at the soccer game between FC Edmonton and Ottawa Fury FC. All tickets are \$15. An order sheet is available in this newsletter and can be brought to the office.

Wednesday, . April 27th, we will be hosting our Kindergarten Orientation. Please call for details.

Celebrations of Learning will take place April 26th-28th. Teachers will notify you which 2 of the 3 nights they are available

If you should ever have any questions, comments, celebrations or concerns please feel free to email (lworthington@psd70. ab.ca) or call me (780-727-3811) at any time.

APRIL IS NATIONAL ORAL HEALTH MONTH

962-9228

962-1021

Do you have ourn disease? Statistics show that over 70% of the adult population has gum disease. You might be unaware that you have gum disease since it is painless. In its early and moderate stages, you may notice your gums bleeding and a bad smell in your mouth. Do not ignore these symptoms! In the severe stage of gum disease, you may notice your teeth moving or shifting. Unfortunately, some people lose their teeth to gum disease. Only regular oral examination can reveal if you have gum disease.

Gum disease is caused by bacteria that doesn't like oxygen. It hides in the depths of the gums and destroys the bone and gum that supports your teeth. Since the bacteria in our mouth enters the blood circulation and spreads in the body, gum disease has been identified as a risk factor for various health problems like heart attack, diabetes, pneumonia, cancer, Alzheimer's, osteoporosis, rheumatoid arthritis and low weight or premature babies.Yes, the health of your mouth impacts the rest of your body! Having your teeth cleaned regularly can help you control your blood pressure and your blood sugar.

At Karo Dental Care, we screen all our adult new patients for oral cancer with the help of a fluorescent light. Even people who wear dentures can benefit from having their soft tissue checked yearly for oral cancer.

Karo Dental is on the top floor of Karo Centre which is right next to Sobeys in Spruce Grove.We have 3 general dentists and 4 registered dental hygienists who would be happy to have the opportunity to meet you and help you along the road to oral health. Our office is also wheelchair accessible. If you would like to know more about us, please feel free to give us a call, or visit us on our website at www.karodental.ca

Page 4 Community Voice April 12, 2016 STONY PLAIN RCMP INVESTIGATE SERIOUS **INJURY MOTOR VEHICLE COLLISION**

Submitted by Stony Plain RCMP

Stony Plain, Alberta - On April 9, 2016, at approximately 7:42 p.m., the Stony Plain RCMP and emergency services responded to a serious motor vehicle collision at highway 16 and range road 32. Two vehicles were involved in the collision.

There are 5 individuals being transported to Edmonton area hospitals by both STARS Air Ambulance and ground ambulances. Two individuals have sustained life threatening injuries, while the other three individuals are believed to have received serious but non-life threatening injuries.

Alcohol is believed to be a factor in the collision.

The east bound lanes of highway 16 are blocked by the collision. The west bound driving lanes of highway 16 are unaffected by the collision. East bound traffic is being detoured around the collision scene, and will continue to be detoured around the collision scene for several hours.

An update will be provided when new information becomes available.

ALBERTA RCMP OUT THIS PAST LONG WEEKEND PATROLLING ALBERTA'S HIGHWAYS

Submitted by Alberta RCMP

Edmonton, AB – While many Albertans were enjoying time with family friends over the Easter long weekend, the RCMP and Alberta Sheriffs were on duty patrolling the province's roads.

Although some investigations are still underway and not all the

data from police has been tallied yet, overall the RCMP saw a decline in the number of traffic infractions and traffic-related criminal offences in its jurisdiction within Alberta during this past weekend when compared to the Easter long weekend of 2015:

2015: Easter Long Weekend 2015 – c April 3, 2015 – April 6, 2015 Easter Long Weekend 2016 s

– March 25, 2016 – March 28, 2016*

sions: 2015 (28), 2016 (7)

The Black Dirt Company is proud to introduce the summer challenge, Compete to Contribute!

This challenge is for non-profit, incorporated, minor associations in the tri-municipal area. It provides a great opportunity to raise funds for the association while positively impacting your community! The first 10 qualifying online application forms will be accepted, and all acts of service performed by the association minors must be completed by July 30, 2016.

You are a qualifying association if you can answer YES to all of these questions...

- Are you part of a non-profit, incorporated association for youths 6-17 in the trimunicipal region? Eg. Minor Soccer Association, Minor Football Association, 4-H Club
- Are you looking for ways to raise money for your association?
- Would you like to have a positive impact on your community?
- Next Steps:
 - 1. Build a team comprised of members of your association
 - 2. Brainstorm an act of service to be performed by the minors in your association
 - 3. Complete and submit the online application between March 15 and April 15

Some key points for this challenge:

- The challenge invites tri-municipal, non-profit, incorporated, minor associations to brainstorm an act of service that will be performed by the minors and will positively impact the community for a chance to win a monetary award.
- Each team and Landscaper sponsor level will have an interview on the radio station 88.1 The One throughout the course of the challenge to promote their association/company and the positive influence they're having on the community. Including social media, website, and t-shirt awareness.
- Any and all sponsorships will be directly applied to the amounts rewarded to the top three teams, picked by the panel of Landscaper level sponsors.

We are also looking for additional sponsors to help with this fantastic initiative! If you're interested please contact Tegan Colban @ 780-915-8567.

Page 8 Community Voice April 12, 2016 THE 2016 FEDERAL LIBERAL BUDGET

Submitted by Jim Eglinski, MP – Yellowhead

As the former government, Conservatives left the Liberals with a \$3 billion surplus. We focused on keeping taxes low and supporting policies that helped create more than a million jobs.

The Federal Liberal Budget was to keep an election promise of a \$10 billion deficit. It did not. Instead, the March 22nd Budget is leaving families on the hook for \$29.4 billion. As we all know, borrowed money has to be paid back. To do this, the Liberals will have to raise taxes to reduce the massive debt burden they are building leaving our children and grandchildren with the burden of an increased debt load. As we are not in a recession, there is no need for massive deficit spending.

National Defence will have billions of dollars in planned equipment spending pushed off past the next federal election. The tax credits for post-secondary education and textbooks, the Children's Fitness Tax Credit, and the Children's Arts Tax Credit have been eliminated. Income splitting for families is gone as well.

Low income families will benefit from an increase in the child tax credit. That is, only some families will benefit from these changes while others will be completely left out. Furthermore, the budget aims to increase EI benefits and reduce wait times for people facing unemployment even though this is not accompanied by any plan

📜 parkland

whatsoever to create jobs. I believe Canadians would choose to have a job over EI benefits.

The only mention of agriculture is support for research over the next six years. Another campaign promise broken by the Liberals was to reduce the small business tax rate from 11% to 9%. They are also ending the hiring credit.

There is no provision in the Budget to provide any support to the oil and gas sector and raising taxes on businesses will not help Canadians who have been recently laid off. In fact, Canada's unemployment rate has increased for three consecutive months, despite the Liberal Government spending billions of dollars during the same time period.

Conservatives support investments in clean technology development and innovation in Canada's natural resources sector, but these initiatives must deliver concrete and measurable results for businesses and the environment. Investing in innovation for the sake of investing in innovation is not good enough. These investments should be market driven, enhance Canada's global economic competitiveness, bring our resources to market in the most efficient and environmentally responsible ways, and lead to the growth of high-paying jobs for Canadians.

This Liberal Budget will not stimulate the economy or create jobs. I will stand up for families, farmers, and small businesses!

VSPAPER

SEEKING PUBLIC'S ASSISTANCE TO IDENTIFY SUSPICIOUS MALE

Submitted by RCMP Stony Plain/Spruce Grove/ Enoch Stony Plain Alberta -On March 28th, 2016 at approximately 3:30 PM RCMP responded to a

complaint of a female (14) being approached by a suspicious male while walking. The female was

walking near the 7-11 Store in Stony Plain, at the intersection of Highway 779 and Highway 628. She was approached by a male driving a muddy blue older model truck. The driver of the truck asked her if she wanted a ride, the female refused the offer. The male again insisted on giving her a ride. The female refused a second time at which time the male sped off.

The male is described as follows:

- Caucasian male in his 20s
- Skinny
- · Short fair red hair
- Clean shaven

The male was believed to be wearing

- Black or very dark ball cap
- Black sunglasses
- Denim jacket

• Ring on his right ring finger The suspect vehicle is described as follows:

• Older lighter blue pickup truck (unknown make or model, possibly a Chevy)

• The truck was very muddy, the mud went about halfway up the vehicle

• Silver decals on driver's side • Front grill was gold with silver

• Hood may have had 2 black stripes on it, partially raised

- Rust around wheel wells
- No cap on the back
- 2 doors (not extended)

Police are currently investigating this matter and are seeking the public's assistance. If you have any information about this please call the Stony Plain RCMP Detachment at 780-968-7267 or if you want to remain anonymous, you can contact Crime Stoppers by phoning 1-800-222-8477.

PARLIAMENT UPDATE – WEEK OF MARCH 21, 2016

Submitted by Jim Eglinski, MP – Yellowhead

Due to the Easter holiday, this was a short and, yet, productive week:

• On Monday there was an Opposition Motion by the Conservative Party to recognize the work being done by Canada's Office of Religious Freedom and to call on the government to renew the current mandate of the Office.

• The Liberal Government tabled its 2016-2017 Budget on Tuesday. See where the government is spending your taxes at: http://www.budget.gc.ca/2016/ home-accueil-en.html

• Debate for the Budget was suspended on Wednesday due to the sudden passing of Conservative MP Jim Hillyer. I extend my deepest condolences to his wife, Livi, and their four children. • Debate resumed on Bill C-7, An Act to amend the Public Service Labour Relations Act, the Public Service Labour Relations and Employment Board Act and other Acts and to provide for certain other measures. I spoke on this bill and how it will impact the RCMP on Thursday, March 24. My comments can be found on page 24 of the following link: http://www.parl.gc.ca/content/ hoc/House/421/Debates/035/

HAN035-E.PDF

• For more details on bills before Parliament, please see: http:// www.parl.gc.ca/LEGISInfo/ Home.aspx?language=E&ParliamentSession=42-1

Throughout the week, I attended 7 meetings and 4 events. The House will be down over the course of the next two weeks, and my next update will be on my travels in the riding during that time.

A NEED FOR SPEED CAN HAVE DEADLY CONSEQUENCES

Submitted by Government of Alberta

During the month of April, Alberta Transportation is reminding motorists of the risky consequences of speeding. The faster you are driving, the less time you have to react to anything unexpected. Speeding also reduces the effectiveness of seatbelts and other safety devices such as air bags and side impact beams. By the time you realize you're going too fast – it may be too late.

Demerits for speeding range from two points (exceeding the posted limit by less than 15 km/h) to six points (exceeding the posted limit by more than 50 km/h). Fines for speeding also double when workers are present in construction zones. This includes workers on or near the road who are operating heavy equipment or doing other work in the construction zone.

"Safety should be everyone's priority on the road. We will continue to work with law enforcement and our traffic safety partners to prevent speed related collisions."

Brian Mason, Minister of Transportation

"Leave sooner, drive slower, live longer!"

Dr. Garnet Cummings, Executive Director of the Brain Care Centre

Speed facts

• Between 2010 and 2014, 451 people in Alberta were killed and 11,753 were injured in collisions involving unsafe speed.

Motor vehicle colli-

sions were the second leading cause (after falls) of head injury hospital admissions and accounted for 27

• per cent of brain injuries, with an average of 602 hospital admissions each year.

• In the past 10 years,

there were an average of 1,165 convictions each year for speeding more than 50 km/h over the speed limit.

• Motorists must slow to 60 km/h, or less if the posted speed is lower, when passing emergency vehicles or tow trucks stopped with their lights flashing. Fines for speeding in these circumstances double.

• A vehicle travelling at 50 km/h takes 37 metres to stop, while one moving at 110 km/h needs 126 metres to stop, nearly three times the distance.

FIVE WAYS TO INCREASE HOME FIRE SAFETY

An average of seven Americans die each week as a result of house fires. Most fires occur in residential buildings between the hours of 11 p.m. and 7 a.m., when occupants are most likely to be asleep. Your first line of defense is fire preparedness.

Here's five things you can do to increase your chance of survival in a fire:

· Install smoke alarms on every story of your home and outside sleeping areas. Be sure to test them monthly, clean them every six months and replace batteries in spring and fall. Having working fire alarms can cut your chance of dying in a fire in half!

· Have a fire escape plan for your family and practice it. A small fire can spread rapidly - you may only have minutes or seconds to escape. When going over the details of your escape plan, check windows and doors to ensure all open eas-

building centre

 Renovation & new build experts
 Superior quality lumber · Complete home packages · 3D Estimating Program

Windows & doors
 Custom decks & fence packages

 Flooring & kitchens • Bathrooms • Ceramic Tiles Concrete & landscaping • Electrical supplies

ily. Know your local emergency number (911). Never stop to gather belongings or reenter a home after safely outside.

When renovating, consider using fire-rated, noncombustible products. Your choice of insulation, for example, can be vital. Stone wool insulation, like that produced by Roxul, resists temperatures up to approximately 2,150 F. When directly exposed to fire, it will not off-gas, contribute to toxic smoke or promote flames. Fire-resistant building materials can give you extra time to escape when seconds count.

· Purchase a multi-use fire ladder for each bedroom in your home and practice using it. A fire ladder may be your only escape option if flames block critical exits.

· Place fire extinguishers on every level of your home, especially in high-risk areas like the kitchen,

62-257

35 South Ave, Spruce Grove

near fireplaces and in the garage. Use only for small, contained fires that are not spreading rapidly. Know how to operate your extinguisher before an emergency occurs using the PASS method: Pull pin, Aim low, Squeeze lever and Sweep from side to side. The safest option is always to evacuate your home and call for help.

Fire prevention measures are a serious matter in every home. Find out how to keep your home and family safe at nfpa.org or improve your fire safety knowledge by visiting the Roxul website.

CONSIDER MOISTURE ISSUES WHEN CHOOSING INSULATION

(MS) - By Scott McGillivray We insulate our homes primarily to keep them warm in the winter and cool in the summer. As a result, most of us evaluate insulation based on its thermal properties, which is definitely important to consider. However, there is another aspect of wall and ceiling insulation that should be considered before making a final decision, and that's moisture. If you choose the wrong insulation, moisture can seriously damage the longterm performance of the insulation, drastically reducing the benefits it offers to your home.

Although wall and ceiling cavities may be out of sight after a home is built, they are very

important spaces in residential construction and remodeling projects. They play a critical role in managing the interior temperature, noise level, airflow and mold levels. It is important that the insulation in the walls and ceilings works just as well years after installation as it does the day after the project is completed. This means that the insulation needs to stay consistent over time -- any sagging, compressing or rotting will compromise the safety and comfort of your home.

To combat these potential problems, look for insulation that does not absorb water, but repels it. Stone wool insulation, like that produced by Roxul, is a good choice. Water-resistance is important year-round, but especially in summer, when humidity levels rise, and in spring and fall, when rain and moisture levels can increase dramatically. It's vital that your insulation won't compress or sag within the wall or ceiling cavity, because when insulation materials compress and sag, they leave gaps, compromising the thermal performance of the wall. Cold, heat and sound can pass through much more easily, creating a living space that's less comfortable and more expensive to heat and cool.

Another important consideration when choosing insulation is mold resistance. Materials that resist mold growth, like stone wool, are essential to the health of your home and family. Because mold feeds on organic matter, selecting an insulation that is composed of nonorganic matter is ideal to prevent rot.

Keeping moisture and mold at bay with a quality insulation will contribute to a safer indoor environment and provide energy savings and comfort benefits that can last for the lifetime of a home.

HOW TO CREATE EXTRA STORAGE SPACE

Apartment dwellers commonly lament the lack of storage space in their homes. But unless such men and women are willing to pack up and move to a larger apartment or private home, storage will continue to pose a problem. Fortunately, there are many ways to create storage space without knocking down walls.

· Buy furniture that includes storage space. Perhaps the simplest way to create extra storage space is to purchase furniture that doubles as storage. Storage beds make great places to store bulky bedding, including extra bedsheets, blankets and pillows. Living room furniture can also serve dual roles. Dress up a storage chest and use it as your coffee table, and replace old footrests with storage ottomans.

Hang pots and pans. Kitchen cabinet space can be especially scarce in apartments, but that does not mean apartment dwellers must

cook with a single pot and pan. Suspend pots and pans from the ceiling, using the cabinet space you have to store food and other items that might look out of place if left sitting out.

Buy a corner coat rack. Coats take up ample closet space, which apartment dwellers know can be a precious commodity. Rather than reserving half of your closet space for coats, purchase a corner coat rack with multiple hooks at varying heights. This means that all those bulky coats will be stored in one small, vertical space, leaving more room in the closets for the rest of your wardrobe.

· Purchase removable shelving units for closets. Closets may have plenty of shelf space up top, but what about all that floor space that's not being put to use? Small, removable shelving units can be placed inside closets so you can make use of the space beneath all those shirts,

dresses and sweaters hanging on hangers.

Purchase an e-reader. Avid readers living in storage-starved apartments can create more space simply by going digital with regard to their favorite hobby. Purchase an

e-reader and store all of your books digitally on your new device and its accompanying cloud storage. This saves you from having to find space to store new books, and you can donate all or some of your existing collection to create more space.

ARE FORMAL SPACES DISAPPEARING?

Formal dining and living spaces could once be found in every home. But such rooms are becoming more and more rare, thanks in large part to the rising popularity of multipurpose open spaces.

As early as 1992, architects and builders were predicting the demise of formal living spaces in homes. At that year's International Geographical Congress, architectural geographer Artimus Keiffer estimated the living room and dining room would disappear from the American residence in the next century, to be replaced by the family-entertainment room and the computer room. According to North Carolina-based builders Stanton Homes, many home buyers have inquired about converting their formal dining rooms into office spaces or rooms to be used for purposes other than dining.

The National Association of Home Builders also released a special report listing home features expected to become the norm within the next several years. More than half of the NAHB study participants expected the living room to merge with other spaces in the home, while 30 percent expected it to vanish to save on square footage.

So what is taking the place of living rooms and dining rooms? Great rooms and open-concept kitchens have steadily caught the eyes of designers and homeowners alike. Such rooms enable a free flow between lounging and entertaining spaces and the heart of the home - the kitchen. Onthe-go families may not be sitting down to the same formal dinners they once were, or they don't need the pomp and circumstance of formal meals. Large eat-in-kitchens function well for family meals and even for entertaining friends in a relaxing way.

Thanks to the advent of wireless technology and mobile devices, home residents no longer need to be relegated to one room in the house for their media watching or computer use. This may have helped to accelerate the disappearance of living rooms. In addition, the concept of devoting one space as a media-free zone (traditional formal living or sitting rooms tend to be tech-free) may seem antiquated to this plugged-in generation. Rooms that are comfortable and serve various purposes better suit today's homeowners.

The rules that once governed the traditional home floor plan are more fluid than ever. Homeowners' preferences are having a greater impact over which rooms are now being included in new homes and which ones are soon to be history.

HOW TO CLEAN AND MAINTAIN STAINLESS STEEL

No matter the style of a homeowner's kitchen, be it modern, traditional or farmhouse, stainless steel appliances can add a pop of shine and a touch of class. Proponents of stainless steel appliances note their easy maintenance, stylish look and durability. Plus, the neutral tone of stainless steel helps it blend in with just about any color palette.

Stainless steel is lauded for its strength and resistance to corrosion and rust. These attributes make it a popular choice in kitchens, where moisture is an issue. Although they are certainly durable choices, stainless steel appliances require maintenance to keep them looking and performing at their best. Considering that stainless steel also costs more than other finish options, taking the time to learn proper care can help protect homeowners' investments.

• Avoid chlorine bleach or other products containing chloride. Although stainless steel is highly resistant to corrosion, it is not completely impervious. Chlorine products can damage the surface of stainless steel appliances and stain them if the chlorine is left to sit.

Do not use metal scourers or coarse abrasives on the stainless steel because such products may scratch the steel. Steel wool pads can leave behind a residue of small metal particles that may eventually rust.

• Baking soda mixed with a little dish soap can be used to remove some tough dirt and stains. Rinse well and towel dry to avoid streaking.

· Clean and wipe the steel in the direction of the "grain." Usually this means working from the top of the appliance and moving down toward the floor.

Consult with the owner's manual before undertaking any maintenance or cleaning. The appliance may have a special coating over the stainless steel to help protect it, and it's best to

know what you're dealing with before getting your hands dirty.

• If you will be trying a cleaning product or scouring method, always test it first in an inconspicuous spot to see if it is effective or harmful.

· Julien, a leader in commercial kitchen equipment, recommends applying cleansers with a soft cloth or sponge. Then wipe dry with a soft, clean cloth or allow to air dry.

Stainless steel remains a popular material in kitchens for sinks and appliances. With care, stainless steel can look like new for years to come.

ALBERTA TRAFFIC SAFETY FOCUS FOR APRIL IS: SPEED

Submitted by Dale Friedel

Speed Facts

• In 2014, a quarter of fatal collisions involved one or more drivers travelling at a speed too great for the given conditions as reported by enforcement agencies

• Speeding doesn't always kill. Brain injuries are a common injury that results from speed-related collisions

• Speeding can cause long-term consequences that affect both you

and your family

• Speeding reduces the effectiveness of seatbelts and other safety devices such as air bags and side impact beams

• Demerits for speeding range from two points (exceeding the posted limit by less than 15 km/h) to six points (exceeding the posted limit by more than 50 km/h)

• Over a five year period, 451 people were killed and 11,753 were injured in collisions involving unsafe speed (2010-2014)

Driving a few km/h over the posted speed limit:

• Decreases your field of vision and your peripheral vision

• Extends the distance required to stop your vehicle

• Increases the chances that you will lose control of your vehicle

• Increases the chance of death or injury if there is a crash

School and playground zones:

• The speed limit in both urban and rural school zones is 30 km/h and is in effect on school days from

8 a.m. to 9:30 a.m., 11:30 a.m. to 1:30 p.m. and 3 p.m. to 4:30 p.m. unless other times are posted by the municipality.

• The speed limit in a playground zone is 30 km/h and is in effect from 8:30 a.m. to one hour after sunset.

• A vehicle is not allowed to pass another vehicle travelling in the same direction in school or playground zones while these zones are in effect.

Emergency vehicles and construction zones:

• Motorists must slow to 60 km/h, or less if the posted speed is lower, when passing emergency vehicles or tow trucks stopped with their lights flashing. Fines for speeding are doubled in these areas.

• Emergency vehicles include fire, police, ambulance, tow trucks, gas disconnection units of a public utility, or designated emergency response units.

• If there are two or more traffic lanes in the same direction as the emergency vehicle or tow truck, you must decrease your speed unless there is one full lane between your vehicle and the stopped emergency vehicle or tow truck that has its flashing lights on. If any part of the emergency vehicle or tow truck extends into a lane, vehicles in the lane beside must also slow down. Vehicles in oncoming traffic lanes do not need to slow down, but should proceed with caution.

• In construction zones, motorists must observe the posted speed. When workers are present, fines for speeding are doubled. Drivers need to look out for workers who are behind construction equipment and less visible.

• Remember to avoid watching the emergency or construction and keep focused on driving!

EXPERIENCE what it's like to be **flawless.**

Instantly Ageless™

Instantly Ageless[™] is a powerful anti-wrinkle microcream that works quickly and effectively to diminish the visible signs of aging. Instantly Ageless[™] revives the skin and minimizes the appearance of fine lines and pores for a flawless finish.

A perfect day starts with perfect skin.

Meticulously developed, our formula is lightweight and contains a skin-conditioning complex of minerals that evens skin tone. Instantly Ageless[™] immediately dissolves into the skin, reducing the appearance of wrinkles. It's specifically designed to target areas which have lost elasticity—revealing visibly toned, lifted skin. Users have seen dramatic results in seconds. A compact, yet powerful alternative to fortify skin affected by free radicals and environmental damage, Instantly Ageless™ is at the forefront of anti-aging technology.

BENEFITS

- VISIBLY DIMINISHES THE APPEARANCE OF FINE LINES AND WRINKLES
- ERASES THE APPEARANCE OF DARK CIRCLES AND PUFFINESS UNDER THE EYES
- MINIMIZES THE APPEARANCE OF PORES
- HELPS TO EVEN SKIN TEXTURE
- MATTES SKIN FOR A FLAWLESS FINISH
- RESTORES SKIN TO OPTIMUM APPEARANCE
