# CITY URGES RESIDENTS TO USE CAUTION WHEN USING FIRE PITS

Submitted by **John R. Statton**

The City of Leduc Fire Services is asking residents to be vigilant and respectful when using residential or public fire pits, especially with the current dry conditions.

"It is imperative that all City residents are conscious of the current dry conditions as we enter the weekend," said Fire Chief George Clancy with Leduc Fire Services. "We have had a few grass fires already this year, and we are preparing for a busy grass fire season ahead."

If residents witness careless use of a fire pit, whether it is residential or public, please notify Leduc Fire Services as soon as possible by calling Fire Services Administration at 780-980-8475 during regular business hours, or 9-1-1 during an emergency.

"Unfortunately, we are not receiving anywhere near the precipitation that we would normally be present this time of year," said Clancy, "and while we have not imposed a fire ban as of today, Leduc Fire Services will continue to monitor the situation closely over the next few weeks."

Please visit [Leduc.ca/fire](http://Leduc.ca/fire) to learn more about this and other safety initiatives from Leduc Fire Services.

# LEDUC COUNTY UNDER A FIRE BAN

Submitted by **Megan Candie**

Leduc County, Alberta – All areas of Leduc County are under a fire ban, effective April 1 at 10 a.m. until further notice, due to extremely dry conditions, forecasted temperatures and windy conditions.

"Leduc County Fire Services has issued a fire ban in an effort to keep the county safe from fire," says Brad Gurmin, Fire Marshal. "With the

cooperation of all residents and visitors, we can minimize the fire risk in the county."

While under a fire ban, Leduc County's fire guardians are prohibited from issuing fire permits, all fire permits previously issued are suspended and all outdoor fires presently burning must be extinguished immediately.

The fire ban prohibits open fires, campfires, fires used for cooking or warmth, burning barrels and the dis-

charge of fireworks.

The fire ban does not apply to fires contained in cooking and heating appliances which are fueled by liquid fuel.

Any individual responsible for setting a fire prohibited under the ban will be responsible for the costs of extinguishing the fire, pursuant to Leduc County bylaws, and may be charged under the Forest and Prairie Protection Act.

**JOKE OF THE WEEK**

With tears in his eyes, the little boy told his kindergarten teacher that only one pair of boots was left in the classroom and they weren't his. The teacher searched and searched, but she couldn't find any other boots.

"Are you sure these boots aren't yours?" she asked.

"I'm sure," the little boy sobbed.  
"Mine had snow on them."

## FIND AND MAINTAIN THE RIGHT CARPET FOR YOU

Carpets provide both practical and aesthetic appeal inside a home. In winter, carpets help keep homes warm, and the right color carpet can add to design schemes.

While rugs may have originated in the Far East, North America also has some rich carpet history. According to The Carpet and Rug Institute, the United States carpet industry began in 1791 when the first woven carpet mill opened in Philadelphia. Others soon followed suit. Tufted carpets and machine-powered manufacturing helped churn out yards upon yards of carpeting, making it a popular, affordable and common addition to homes, especially after the post-World War II housing boom.

Carpeting remains a go-to flooring material in modern homes. In

fact, many homes offer a blend of both carpeting in some rooms and different flooring choices in others.

Upon choosing carpet, it is important that homeowners follow some guidelines to prolong a carpet's longevity and maintain its style. The following are some common carpeting dos and don'ts.

DO consider the room's purpose and foot traffic before shopping for carpeting. Make a list of the attributes desired (e.g., soundproofing, easy care, high pile) and present these to the salesperson so he or she can help you make the best choice.

DON'T rush into flooring choices. Unlike paint colors, flooring materials are more permanent choices that are only updated every several years or more. Weigh all of your options before diving in.

DO consider conservative colors and styles. Neutral hues and patterns will blend better with furniture options. This means you can change furniture out and still keep the existing carpeting, which complements any new pieces. Also, if there's a chance you might sell your home in the near future, buyers tend to look for a neutral color scheme they can make their own.

DON'T skimp on padding to save a few dollars on the carpet installation. The carpeting needs a solid foundation to last and look its best. Inadequate padding can lead to extra and noticeable wear and tear. Invest in a good foundation for the carpeting, like firm, dense padding in high-traffic areas.

DO become knowledgeable about different carpet styles, such

as frieze, Berber, Saxony, textured, and more. This will help ensure you make the most educated decision.

DON'T purchase at the first store you visit. Shop around to investigate different pricing and specials. Also, consider the professionalism and expertise of the staff responsible for carpet installation. High-cost carpet may not look very good if it isn't installed correctly.

DO stain-protect rugs and carpeting, which can help repel stains that would otherwise become permanent and can prolong the longevity of the flooring.

DON'T forget to vacuum carpets frequently to prevent ground-in dirt and debris.

DO pick textured carpets to conceal footprints and vacuum track marks.

## TOP 5 HOME PROJECTS TO HELP YOU SAVE MONEY

(MS) - It's remodeling season, and with so many projects on the to-do list, which should you tackle first? While some projects provide great long-term return on investment, a few simple ones

can provide instant savings. Here are the top home spring projects to help you save money:

Caulk around windows and doors - Stop air leaks around your home by sealing existing

gaps and cracks. Use caulking or weather stripping around doors and windows. Installing a door sweep is also a good idea.

Insulate your home - Use insulation with a high R-value, such as Roxul Comfortbatt, which can be used to top up insulation in your attic. Aim for an R-value of 50 or a depth of 16 inches. For whole home efficiency, ensure other areas of your home, such as crawl spaces, basement headers, walls and ceilings, are well insulated. It will keep your house cool in the warm weather and take the stress off your air conditioning unit.

Clean your AC unit - Come spring, it's not uncommon to find an air conditioner's condenser and compressor blocked up with dirt and debris. This can result in greater stress on the unit, caus-

ing it to work harder. Giving it a thorough cleaning is easy and can help maximize your AC unit's service life while minimizing your energy bill.

Plant trees - Direct sunlight can heat up surfaces and building materials, as well as the interior temperature of your home. Consider planting trees in strategic locations to provide shade and reduce cooling costs.

Install a rain barrel - Water is an important, but costly resource. Installing a rain barrel is an easy and affordable measure to reduce your water consumption, while keeping your lawn and garden looking great.

These simple home maintenance tasks can be well worth the effort, potentially providing hundreds of dollars in annual savings.

## HOW TO CREATE EXTRA SPACE FOR GUESTS

Homeowners who enjoy entertaining frequently sometimes host overnight guests. While many hosts and hostesses have spare bedrooms for overnight or long-term guests, many others do not. But those among the latter group willing to get a little creative can find more places for overnight guests to rest their heads.

· **Sofa:** Living room or den sofas can double as bedding for overnight guests. As a short-term solution, a night or two on the couch can be comfortable enough. Be sure to cover the sofa with freshly laundered sheets and provide those amenities one would expect in a guest space. Access to a television, a reading lamp, a fan for some

white noise and a table on which to place a phone or alarm clock are helpful to have. Such items will make guests more comfortable. If your living room or family room has a door that can be closed, this will help create more privacy for guests.

· **Convertible bed:** Marketed frequently under the brand name Murphy Bed, convertible beds can incorporate sleeping options into rooms with limited space. This furniture essentially is a bed that folds vertically or horizontally into a frame. When closed, the bed can look like a decorative storage closet or armoire. Some convertible beds come with bookcase accessories to expand storage space and also make the piece look like a more

cohesive unit. Designers also have experimented with these beds, and some transform from a desk or even from a low-lying bookshelf or bench into a bed.

· **Sofa bed or chair:** Sofa beds and chairs have a fold-out bed nestled beneath their cushions. Depending on the size of the couch, a twin, full or queen-sized bed may be housed within. Sofa beds vary in regard to their comfort levels, so prospective hosts should investigate their options to ensure guests have the most comfortable sleeping situations possible. A bed in a couch can turn an office or living space into a guest sanctuary in a matter of minutes. In addition, some sofa beds also have extra space built within for storing blankets and

pillows. Many popular furniture retailers offer couch brands that can be equipped with a bed. And if space is especially tight, consider a convertible chair that has a twin-sized bed tucked away.

· **Bunk beds:** Bunk beds may seem like child's play, but they make great use of vertical space. Share a kid's room with your son or daughter and let the guest take your own bedroom. Otherwise, equip a home office with bunk beds and have two more sleeping spaces available.

Accommodating guests when you don't have a guest bedroom can take some creativity, but those willing to think outside the box can find options that don't compromise guests' comfort.

# HOUSE FIRE COUNTY OF LEDUC – CALMAR

Submitted by Leduc RCMP

At approximately 1230 am Saturday morning, Leduc RCMP and Fire Services/EMS responded to a house fire in the Town of

Calmar. Upon arrival the house was completely full of smoke and the Fire Department was actively attempting to contain the fire. The occupants of the residence were evacuated from the house with the assistance of

a bystander. This male observed the flames and after receiving no response to his repeated knocks, entered the residence by forcing the front door open. He entered and alerted the homeowners to the fire and all individuals were

able to exit safely. The cause of the fire is unknown at this time and continues to be investigated by Fire Services.

## LEDUC CENSUS 2016: CONVENIENT ONLINE ACCESS OR AT YOUR DOOR

Submitted by Mariann McLaughlin

Citizens will be asked how they wish to participate in this year's municipal census – online or at their door – between April 1 and May 31, 2016, with a few enhancements that make the process convenient and efficient.

“Leduc Census 2016 will be completely paperless thanks to the online option and the use of tablets when census workers go door-to-door this year,” says Macarena Hormazabal, deputy city clerk with the City of Leduc. “We’re also pleased to announce

that online census will now be available for the duration of this year’s program, augmented by census workers going into the community, April 23 – May 15.”

Every household will receive a formal letter with a personal identification number (PIN) required to participate online, and this year’s online census will also feature a Leduc Travel Trends survey.

“We’ve also partnered with the Leduc Public Library again this year to offer residents the use of a secure and dedicated computer terminal to complete the census online,” says Hormaza-

bal. To participate, citizens must bring their letter with the PIN. If a resident would like assistance completing their census online, City of Leduc staff will be in attendance at the library on the following dates to lend a hand:

- April 14, 2016, 4:30 p.m. – 6:30 p.m.
- May 19, 2016, 4:30 p.m. – 6:30 p.m.

The City of Leduc has conducted an annual municipal census since 2008 to ensure the City receives provincial funding proportionate with Leduc’s fast growing population. Leduc relies on provincial funding to help offset the

costs of many important services, including infrastructure improvements and maintenance, public library, Family and Community Support Services, and RCMP. Census information is also used by the municipality, school boards and businesses to make informed decisions on programs and services used by residents.

Households that have not participated through online census will receive a visit from a City of Leduc census worker between April 23 and May 31, 2016.

For more information, visit [Census.leduc.ca](http://Census.leduc.ca) or call 780-980-7177.

## NATIONAL RAILWAY SAFETY WEEK

Submitted by Dean Solowan

Rail Safety Week is April 25-May 1, Here at CN we are especially focused on the message “see tracks, think trains.” Every year we see far too many injuries and fatalities as a result of poor decisions. Here are some helpful tips to keep in mind:

Railroad tracks and bridges are private property, and any unauthorized person who is on railway property which is not designated as a crossing, is committing an offence under the law. Too often the penalty paid is death. If caught, you could receive a fine of \$287.00 with mandatory court. Trespassing also includes operating any type of All Terrain Vehicle on or next to the railway tracks.

Walking near the railway tracks with headphones, or any other audio device will interfere with your ability to hear an ap-

proaching train. A train travelling 105km/hr will take up to 2km to stop – that’s more than 18 football fields!

Many photographers don’t even know that trespassing on railway property is illegal. For example by attempting to get this enticing train track “wedding shot”, you and your clients are putting yourself in danger.

The emergency phone number 1800-465-9239 is an important number to remember. This number is displayed on a bright yellow sticker on every cross buck or electronic drop gate. This phone number with detailed information about the location can be used to report suspicious activity, trespass or railway related concerns.

Remember, when it comes to trains: Stay off! Stay Away! Stay Safe!

### Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
