## THE EVANSBURG FARMERS' MARKET IS OFF TO A GREAT START!

Submitted by **Rena Traxel, Museum and Farmers' Market Manager**

The Evansburg Farmers' Market is off to a great start! New this year the market has moved to Tipple Park Museum allowing for the market to be both an indoor and outdoor ven-

ue. The market runs at the same time on Saturdays from 10am to 2pm. There is even an area just for kids (and free!)

Opening day, May 14th, saw close to two-hundred shoppers. We are expecting many, many more visitors as the season unfolds and campers flock to the area.

In case you haven't had a chance to check the market out here is a taste of what you will find: home baked goodness including gluten free options, plants, handcrafted interchangeable barrettes and more,

## RECKLESS DRIVING PUTS COUNTY FIREFIGHTERS AT RISK AND ENDS WITH AN ARREST

Submitted by **Stefan Felsing**

(May 19, 2016) – RCMP, Associated Ambulance, Yellowhead County firefighters and a STARS helicopter crew had responded to a severe motor vehicle collision on Highway 748 north-east of Edson this past Monday. Paramedic crews had departed, with fire crews and RCMP members remaining on scene to pack up equipment and secure the area, when a vehicle travelling along the highway did not take the required precautions to stop at the motor vehicle collision scene.

The driver of the vehicle proceeded past a RCMP road block and drove through the scene with no regard for the safety of first responders. The driver had been placed in police custody.

"A driver coming along at this speed through an emergency scene not only puts himself at risk, but all the first responders on the scene working to rescue those already involved in the crash," points out Director of Protective Services for Yellowhead County Albert Bahri. "If the driver had been coming through the incident scene just minutes before this there would have

been a very good chance he could have gone straight into the STARS helicopter that was on the highway. These scenes are stressful enough without something like this happening."

Drivers approaching and going through a response scene are legally required to slow down and follow the emergency responders directing traffic on scene and can be charged if not complying with these safety measures. Firefighters already have many risks to deal with and having this additional threat can multiply their odds of injury or fatality during a response call.

# TREATMENT OF TRAUMA USING EMDR THERAPY

Submitted by **Rebecca Pawlechko**

The word “TRAUMA” sounds severe and extreme...well it can certainly be, as many people have experienced horrific experiences, but “trauma” can also be small and mundane. More or less the term “trauma” includes any life experience or event that leaves a significant lasting impression upon someone. Sometimes we are aware of the “trauma” we have experienced and at other times, we have no idea that a life event has become trapped within our memory or brain. Traumas create negative emotions, such as sadness, anger, frustration, and fear, which in turn cause us to think negative thoughts and engage in negative types of behaviours. This in turn becomes a perpetual cycle locked within our brains. Also, as life continues and we

age, we continue to experience “traumas,” aka life experiences, which begin to compile within our brains, often within our unconscious memories. Within our unconscious memories they sit waiting to surface and impact our lives. There are two parts to our brains and impact our lives. There are two parts to our brains, the right lobe, which is responsible for our feelings and emotions, it is the creative side of our brain, and then there is the left lobe, which is responsible for our rational thoughts, it is the thinking side of our brain. These two lobes are connected by the corpus callosum, which runs down the middle of the two lobes. The corpus callosum allows information to be exchanged between the two lobes. It is speculated that life experiences occur and get “trapped” within one lobe of the brain and therefore are not able to be pro-

cessed properly, this is why they remain “trapped” and continue to impact our lives.

So, what is EMDR and why does it work better than any other type of therapy? EMDR stands for Eye Movement Desensitization and Reprocessing. In 19, Francine Shapiro discovered this amazing type of therapy. EMDR is a well-researched psychological intervention. Those professionals who have been trained in EMDR are required to possess a certain type and level of education. The theory behind EMDR is that “the brain knows what it needs to do to heal.” Therefore, it is a nonverbal type of therapy, in which the client just needs to be open-minded and free to experience the journey.

**JOKE OF THE WEEK**

Walking down the street, a man hears a voice: “Stop! If you take one more step, a brick will fall down and kill you.” The man stopped; a big brick fell in front of him. The astonished man continued walking to the cross walk. The voice shouted, “Stop! If you take one more step, a car will run over you and you will die.” The man stood still; a car came careening around the corner, barely missing him. “Where are you?” the man asked. “Who are you?” “I am your guardian angel,” the voice answered. “Oh yeah?” the man asked. “Where the hell were you when I got married last week?”

# PRIME MINISTER TRUDEAU AND PREMIER NOTLEY SURVEY FIRE DAMAGE

**Submitted by Government of Alberta**

Prime Minister Justin Trudeau and Premier Rachel Notley toured Fort McMurray today and reaffirmed federal disaster recovery support for Alberta.

"I'm grateful the Prime Minister came to see firsthand the challenges faced by the residents of Wood Buffalo. I'd like to again thank the first responders who have worked around the clock to protect homes and who are now stabilizing the community so the rebuilding can start."

Rachel Notley, Alberta Premier

"Today's announcement is about helping three other EI regions facing tough economic times. The commodities downturn has been particularly difficult for many Canadian communities,

and the EI provisions announced today will make it easier for claimants who are eligible for EI to collect the benefits they need. We lend a hand in tough times. It is who we are, and what we do."

Justin Trudeau, Prime Minister

Prime Minister Trudeau reaffirmed that disaster assistance discussions will be expedited so people can return to their homes as quickly as possible.

The visit was also an opportunity to confirm the federal govern-

ment will expand Employment Insurance benefit eligibility to include the Edmonton region, something Premier Notley has been advocating for since the Federal budget was announced in March. Eligibility now matches that of Calgary and the rest of Alberta.

This extension will mean that those who are eligible for EI can claim an additional five weeks of benefits for regular claimants, and a further 20 weeks of benefits for long-tenured workers. These

benefits will be available for one year – beginning July 3, 2016 – and will apply retroactively to anyone who started a claim on or after January 4, 2015, and is still unemployed.

Quick facts

- More than 90,000 Fort McMurray and Northern Alberta residents are subject to a mandatory evacuation order due to wildfire.

- More than 2,400 structures are estimated to have been destroyed by wildfires in the Wood Buffalo area.

## The Evansburg Farmers' Market Is Off to a Great Start!

Continued From Page 1

leggings, hand-carved leather wallets and belts, delightful bird houses and garden markers, gorgeous stained glass, unique hand stamped cards and candles, yummy Ukraine food (there is even gluten free perogies!), unique jewelry and stunning etchings. Later in the season there will be plenty of vegetables and fruit. If you are interested in becoming a vendor please call Rena at 780-727-2240 or email [tippleparkmuseum@gmail.com](mailto:tippleparkmuseum@gmail.com). Or if there is a product you would like to see please don't hesitate to contact us.

We hope to see you at the Evansburg Farmers' market. Please bring a friend, it will be fun!

# Treatment of Trauma Using EMDR Therapy

Continued From Page 2

EMDR is similar to hypnosis in that the brain naturally will find the memories that are generating the issues, even when they are trapped within the unconscious memory. As EMDR is a nonverbal form of therapy, it is effective with all populations, from children to adulthood. The brain and its memories will guide the healing process. EMDR is used because it is the quickest form of therapy to date, what many people have done within years of traditional talk therapy, they can achieve the same results in 3 to 6 sessions. EMDR is a permanent healing type of therapy, unlike traditional talk types of therapies, which only cause the memories to remain trapped within the unconscious memory. Every "issue" within a person's life is a result of a life of experience,

therefore by determining what the experience(s) are, the person can permanently heal. EMDR works by stimulating both sides of the brain back and forth, this allows the experiences to be retrieved from both the conscious and unconscious memories, and removes the negative emotions from these experiences. When the negative emotions are removed, then negative thought patterns and behaviours can be changed. The reprocessing aspect of EMDR is the generation of positive thought patterns.

# PRIME MINISTER JUSTIN TRUDEAU HONOURS CANADA'S TOP TEACHERS INCLUDING SPRUCE GROVE WINNER SCOTT ONUCZKO

Submitted by Community Voice Reporter

Scott Onuczko from Spruce Grove, AB attended the Prime Minister's Awards for Teaching Excellence and was the recipient of the 2015 Certificate of Excellence. He teaches Communication Technology, grades 10 to 12 at Spruce Grove Composite High School.

Traditional tools and the latest technology both have a place in Scott Onuczko's class—helping students explore their creative sides. Collaborative projects give learners real-world experience. Students enhance their design and production skills, explore interests outside the curriculum and change the world ... one personally designed and silk-screened T-shirt at a time.

### Teaching Approach

Breaking away from the traditional teacher model, Mr. Onuczko designs his classes around his students' passions, areas of ability and learning needs. Recognizing that in the rapidly changing field of communications technology, he cannot always be the expert in the room, he acts as a guide for students as they solve problems and help each other.

### Outstanding Achievements

- Leads collaborative projects that give students real-world experience, including preparing promotional materials for a project to develop math teaching capacity in rural Tanzania and making training videos to teach future health care workers how to interact with patients.
- Created high-quality instruction-

al videos, posted to a file-sharing site, that students use to study software techniques on their own time, so they can use class time to apply what they have learned.

- Developed a comprehensive website to ground students' work in the provincial curriculum; the site features course module outlines, self-evaluation tools, links to professional tutorials and a section for peer feedback, questions and answers, and student-discovered content.

- Organizes an annual international photography field trip as part of the curriculum.

- Created a late-afternoon opportunity for students with a full academic course load, but who still wished to learn about communication technol-

ogy, to complete course projects, for credit.

- Trained two teachers to take over his entry-level communication technology course when it became so popular that there were not enough spaces to meet student demand.

### Rave Reviews

"Being an excellent teacher comes down to balancing curriculum and the personal development of your students and these are both areas Mr. Onuczko excels in fostering in his kids above all." – Former student

"[My son] was inspired [by Mr. Onuczko] to follow his dreams of becoming a teacher, and was able to experience first hand what teaching excellence is all about." – Parent of former student

## SAMUEL BITNER

In honour of Sam Bitner, who passed away April 5, 2016, a celebration of life will be held on Sunday, June 5, 2016 at 2:00 PM at the Proudfoot residence just outside of Evansburg, Alberta.

Please join Marion and family to share memories and tall tales Sam would appreciate, with a wiener roast to follow

Feel free, but not obligated, to bring a potluck dish.

Kindly RSVP via email to Kathi Proudfoot at [littleleo62@hotmail.com](mailto:littleleo62@hotmail.com) by May 31, 2016.

# DARWELL PUBLIC LIBRARY NEWS

**Submitted by Sandra Stapaniuk, Library Manager**

We are busily planning the Summer Reading Program for 2016. This year's theme is "WILD". For years, studies have shown that school-age children lose many of their reading skills over the summer months if they do not continue to read. Summer reading clubs first started when library staff realized that they could make a difference. When further studies demonstrated that children who do not learn to read fluently by fourth grade will likely never feel totally comfortable with the printed word, our job was clear. Keep those children reading and make sure they have fun doing so!

We will be participating in the official nation-wide launch for the Summer Reading Program. Mark this date on your calendar: Saturday, June 25, 2016 is Get Your Summer Read On Day. The objective of the day is to raise overall awareness of the program and to see how many single day registrations we can obtain. The program, for children 6 to 13 years of age, will start Thursday, July 14 from 1 - 3PM and run for six consecutive Thursdays until August 18, 2016. Those who register in person on Sat-

urday, June 25, 2016 between 1 and 3 PM will have their picture taken for our wall of fame (props will be provided) and their name will be entered for a chance to win a \$ 15.00 Chapters gift card. The maximum spaces available for the program are 15.

Preschool Story Time continues on Monday mornings, except holidays, from 10:00 to 11:00 AM at the library until May 30, 2016. This is a barrier free program designed to promote early literacy and gives preschool children and their parents/guardians an opportunity to explore a love of reading in a non-judgmental and supportive environment. So mark your calendar and join us for stories, crafts and a snack. Parent/guardian participation is mandatory. This is a free drop in program so pre-registration is not required.

The Colouring Club for all ages continues as an ongoing, free, drop in program during regular library hours until May 31, 2016. We supply the materials (or you can bring your own); coloring pages, crayons, and markers and you supply the inspiration. Bring a friend, relative or just yourself, create, relax and see what the craze is all about. We have had a couple of requests to formalize the colouring club so that people can

learn new techniques such as shading and adding dimension, etc. to your colouring. If you are interested in participating or have the skills to teach others, please contact the library as we are looking at formalizing this program in the fall of 2016.

Wednesday evenings is Family Games Night at the library until May 25, 2016. We have a selection of games for all ages and encourage you to drop by for some good old fashioned fun and refreshments. This is a free drop in program so registration is not required.

The Darwell Library Friends Society will be having a Book Event and Plant Sale on Saturday, May 28, 2016 from 11:00 am to 2:00 pm. Join us at the green shed behind the library. Come and peruse the titles, take what you want and leave a donation of your choosing. Drop by for lunch; we will be serving a meal deal which includes a hotdog, pop and a bag of chips for \$ 5.00. All funds from the donations for books and the proceeds from the meal deal will go towards the completion of the library expansion. And if that is not enough, to make this a little more interesting, Cynthia Lalonde from Lakeshore Fragrant Gardens will be present with a selection of plants. Need a

few last minute additions to your garden, or haven't started yet? Drop by and see what she has to offer. See you there!

The Book Club will be having a potluck and the last meeting before the summer break on Monday, June 6, 2016 at 6:00 p.m. to discuss "Salt to the Sea" by Ruth Sepetys. Do you love to read? Do you like to discuss what you have read with others? We have a few open spots and are always interested in a new perspective to add to our conversation. If you are interested in participating you can register and make arrangements for loan of the current title by calling the library @ 780-892-3746.

The Darwell Public Library Society will be holding their next regular meeting on Monday, May 30, 2016 starting at 7 pm. All meetings are open to the public and everyone is welcome to attend. The Library is open 11:00 am to 4:00 pm on Monday, Tuesday and Thursday and from 5:00 pm to 8:00 pm Wednesday and Friday, closed Saturdays, Sundays and Holidays. You can also find out what is happening at the library by checking our Website [www.darwellpubliclibrary.ab.ca](http://www.darwellpubliclibrary.ab.ca) or like us on Facebook at [www.facebook.com/DarwellPublicLibrary](http://www.facebook.com/DarwellPublicLibrary)

# PHASED RE-ENTRY INTO FORT MCMURRAY EXPECTED TO START JUNE 1

**Submitted by Government of Alberta**

A voluntary, phased re-entry for the safe return of Fort McMurray residents will begin June 1 if future wildfire conditions do not delay restoration efforts.

Re-entry should be complete by June 15, to coincide with full restoration of Northern Lights Regional Health Centre.

We will be directing that schools in the area that were closed during the evacuation will not be conducting formal classes until September.

Residents of homes lost to the fire will have the opportunity to inspect their property and collect any surviving items before cleanup begins.

“Many hazards remain in Fort McMurray. We need to address them before it’s safe for residents to return home. We’ve developed a phased and voluntary re-entry plan with the Regional Municipality of Wood Buffalo that begins with the least damaged areas.”

Premier Rachel Notley

“I want to thank both the Premier and the Minister for working and consulting with us on a timetable for re-entry. Safety remains paramount before we can return home, but today’s announcement will bring comfort to all evacuees looking to start rebuilding their lives.”

Brian Jean, MLA, Fort McMurray-Conklin

Residents can only return when five key conditions are met:

- Wildfire is no longer an imminent threat
- Critical infrastructure to support essential services is repaired and restored to provide a basic service level.
- Essential services are restored to basic level, including:
  - Emergency Services (Fire, EMS, Police, 911)
  - Open, safe transportation to, and within, the community (includes traffic controls)
  - Access to emergency medical care and patient transport
  - Access to potable water, electricity and gas
  - Access to food, pharmaceuti-

als, banks and other essentials

- Access to mental health supports

- Hazardous areas are secure
- Local government is re-established

“Safe re-entry is essential to any timing and will not be compromised,” said Mayor Melissa Blake. “It is helpful to have a plan that covers both a high need to respect citizens’ wishes to return with only basic services, as well as an extended range that provides a more comfortable

re-entry timeline.”

Melissa Blake, Mayor, Regional Municipality of Wood Buffalo

The re-entry of residents will occur by zone number to allow for efficient and safe traffic flow up Highway 63. Phased re-entry also ensures that limited services will be available to residents. The re-entry schedule and details for residents will be available online. ([www.emergency.alberta.ca](http://www.emergency.alberta.ca))

Re-entry Schedule

- Zone 1 – Lower Townsite,

Anzac

- Zone 2 (a) – Parsons Creek, Stone Creek, Timberlea North of Confederation

- Zone 2 (b) – Eagle Ridge, Timberlea south of Confederation, Dickensfield

- Zone 3 – Thickwood, Wood Buffalo

- Zone 4 (a) – Gregoire, Saprae Creek Estates

- Zone 4 (b) Waterways, Abasand, Beacon Hill

## BETTER QUALITY OF LIFE

*and a money saver, too!*

You can immediately see and feel the difference Elite makes to the quality of your water and the quality of your life. With Elite conditioned water, you and your family will look and feel better - with noticeable glowing complexions and soft, shiny hair.

Beautifully soft, dazzling whites and brilliant colors will replace the rough, matted clothing and towels your hard water previously produced.

Even housework is less of a chore as conditioned water leaves no bathtub ring, scummy film on shower stalls or unsightly spots on glassware, dishes and fixtures.

Your Elite water conditioner will save you time and money, too. You'll spend significantly less on detergents, cleaning products, conditioners, creams and personal grooming products. In addition, your plumbing fixtures and appliances will be protected against costly repairs or premature replacements.

**QUALITY SALES & SERVICE OF:**

• DISTILLERS	• CHEMICAL-FREE IRON FILTERS

# GOLFER'S GUIDE

## HELP KIDS LEARN THE GAME OF GOLF

Adults who play golf know just

how fun and frustrating the game can be. Whether you're a veteran golfer or someone just learning the links, golf can be challenging.

But as exacting as the game can be, it also can be just as rewarding, even for kids. Children who embrace the game of golf will learn a host of lessons they can apply in all facets of life. A humbling game even for professional golfers, golf can teach kids lessons in humility and the value of persistence even when things aren't going your way.

Golf is also a great way for parents to get kids off the couch and outdoors for some fun in the sun. Instead of spending summer afternoons in front of the television, kids who play golf are out patrolling pristine golf courses while getting some cardiovascular exercise along the way. Golf can also strengthen a child's hand-eye coordination, which can help them in other activities, including many different sports.

Though many people do not begin playing golf until they've reached adulthood, it's never too early for boys and girls to start learning the game of golf. Par-

ents of preschoolers can start their kids off with a toddler play set. Though it's just a toy, a play set can help lay a solid foundation for future golfers. Kids who have watched Mom and Dad play golf or practice their swing can develop their own swings on their play set.

As kids approach school age, don't overlook the nearby putt-putt or miniature golf range as a valuable teaching tool. Miniature golf clubs are small enough for many children to use comfortably, and kids can use miniature golf courses as a place to put any lessons or advice on putting to good use. What's more, a miniature golf course is more than just golf, with creative courses and other fun activities, so kids won't feel overwhelmed with golf.

When kids move on from preschool to elementary school, some might want to tag along with Mom or Dad to the driving range. You should try to avoid overwhelming kids with too much instruction or information. Instead, keep things as simple as possible, teaching them the basic swing and encouraging them no matter how quickly they adapt.

As kids enter middle school and approach high school, those who are enjoying the game of golf can take advantage of the driving range if they haven't already begun to. A driving range typically has markers that indicate the distance of a regular hole, regardless of which tee you will play from on an actual golf course. Kids can aim for holes at shorter distances to learn how far their drives are going. You can then adjust the lessons you teach your children based on how far youngsters can drive the ball.

As a child gets closer to high school, you might want to buy the child his or her own set of clubs. Look for inexpensive clubs (oftentimes, thrift stores or other secondhand retailers have clubs for sale) because growing children will eventually grow out of their first set of clubs. When your child finds a set of clubs that suits him or her, teach the proper way to swing and consider signing up your son or daughter for lessons. Those first few lessons can prove invaluable, turning a pastime into a passion kids will carry with them throughout their lives.

# GOLFER'S GUIDE

## FIVE TOP GOLF TIPS TO HELP BOOST YOUR GAME

(NC) When it comes to golf, it's the little things that can have the biggest impact on your game. Whether it's your first attempt, or 10th season, golf expert Bob Weeks has got you covered at the links this summer with these five tips:

**Choose the right clubs:** Regardless of your experience or skill level, choosing the right equipment can be the difference between duffing it and striking the ball straight down the fairway. It's important to work with a professional to get the clubs best-suited to your game and then, to have them custom fit. You should be fit for the length, loft, lie angle, shaft flex and even the grip size. If your clubs aren't custom fit, it will be

like walking around in shoes that are the wrong size.

**Get on the ball:** Choose the right kind of golf ball for your game. While golf balls all look the same, it's what's inside that determines if it's right for you. Golf balls fall into two categories: distance or control. Distance balls are generally two-piece balls with a large core and a cover. They are harder and better suited for higher handicappers or beginners. Control balls, usually three- or four-piece balls, are softer and spin more meaning they will land on the green and stop. More skillful players should use these.

**Consider the elements:** Weather is always a factor in golf and dealing with it must always be

considered. For instance, in cold temperatures, the ball will travel shorter distances, so take more club. The opposite is true for warmer temperatures. If you're playing into the wind, swing easy as that will keep the ball from spinning too much and rising up into the breezes. And downwind, make sure to judge the intensity of the breezes so you can choose the proper club. Your ball will roll further than normal on a downwind shot so take that into account.

**Putting and chipping is priority:** Lots of players like to boom their drives and will spend a lot of time on the range hitting their drivers. But if you want to improve your scores, you should spend more

time working on your putting and chipping. Since most average players miss a lot of greens, the best way to save strokes is by chipping it close and making more putts. Focus more on your short game than your drive and you will improve.

**Play the 19th hole:** Win or lose, there's no better way to celebrate than hitting the 19th hole. Less is often more in golf and the same applies when considering what to eat and drink after a round. Molson Canadian 67 for example is specially brewed with 67 calories and an ABV of 3% per 341ml, offering a light, refreshing alternative for active players.

# Phased Re-Entry Into Fort McMurray Expected To Start June 1

Continued From Page 11

Before returning to the community, residents are advised to:

- Check the status of your property with the Fire Assessment Tool. Updated maps are expected soon.
- Call your insurance company about what it requires from you regarding information about your property and any damage it may have sustained
- Speak with your mortgage holder/lender about mortgage/

payment options

Residents with the following medical conditions or situations should not return to the community until the Northern Lights Regional Health Centre is fully operational:

- A chronic or acute medical condition, such as asthma
- Anyone requiring regular primary care, specialist care, laboratory or diagnostic services
- Anyone requiring counselling or mental-health services
- Anyone more than 36 weeks

pregnant or with a high-risk pregnancy

- Anyone receiving cancer treatment, dialysis or other specialized medical services
- Anyone requiring home care, home oxygen or home health supports
- Anyone recently discharged from hospital or who has had a transplant

What to expect when you return to the community:

- Most critical infrastructure has been restored, but several

services will not be fully restored immediately.

- A number of fires are still burning in the region. If weather conditions change, there is a possibility of smoke in the air. The smoke may not necessarily be cause for alarm.
- Essential contact information will be provided to assist with issues such as utility connections and protective services (i.e. gas, power, water, phone, police, fire, EMS).

Community Information Centres will open in various locations to provide a variety of services and information, including mental-health supports. Locations will be listed online before May 31.

What residents returning home should bring:

- If possible, bring a three- to seven-day supply of food for you and your pets – including drinking water – as a “boil-water” advisory will remain in place. Your fridge/freezer may not be usable so it is advisable to bring non-perishable goods. You may wish to bring a cooler for perishable items.
- Some pharmacies and the hospital will be functional at basic levels; however, please fill prescriptions before returning to your community.
- Bring long-sleeved shirts, long pants and rubber boots
- Bring flashlights and batteries
- Bring a camera and/or video camera to document any damage to your property for insurance purposes
- Bring hand soap and/or hand sanitizer (at least 60 per cent alcohol)

Transitional Housing  
• If your home was destroyed or severely damaged, government is working on a plan to support your housing needs on an interim basis.

Damage Assessment Stats:  
• 19,244 structures have been assessed

- 1,921 have been destroyed
- 17,156 are OK to occupy
- 121 are limited to restricted use
- 39 are unsafe to occupy/enter
- Seven are still to be inspected

# YCFD DEPLOYMENT TO FORT MCMURRAY

**Submitted by Stefan Felsing**

(May 10, 2016) – As of May 10, 2016 the Yellowhead County Fire Department (YCFD) currently has six firefighters with two units engaged in on-the-ground fire operations in Fort McMurray. These firefighters are split between Engine 5 with a crew of four and the Incident Support Unit with a crew of two. The two crews are working with firefighters from across the province. Up to this date there have been a total of eighteen Yellowhead County firefighters deployed to Fort McMurray.

The devastation within the

city creates a work environment that is potentially dangerous and stressful for the on-scene emergency responders. The work is hazardous and difficult and requires significant teamwork and organization. Shift rotations have been scheduled to ensure the safety and wellness of on-scene personnel. YCFD firefighters each work for a maximum of 72 hours per rotation as the operational tempo is very high and crews are working with minimal breaks over their three day shift. YCFD have now completed its third crew change.

Firefighting crews are deployed within the city in task groups with

equipment and crews of various types and capabilities from all over Alberta. Engine 5 has been operating throughout the city fighting structure fires and protecting residential and commercial areas from the approaching wildfire.

YCFD Officers have been employed in key roles within the incident command structure. Our captains have been tasked in the staging area to organize crews and delegate assignments. YCFD Deputy Chiefs have been working in the North Sector Command Post directing fire operations within the north half of the city since their arrival on the fourth

of May.

“Yellowhead County will continue to support the firefighting efforts and other disaster assistance requests from Fort McMurray while ensuring that there is adequate staffing within the County’s own region to respond in an effective manner to any potential incidents locally,” says Yellowhead County Director of Protective Services Albert Bahri. “The thoughts of Yellowhead County Council, staff, firefighters, and residents continue to be with all the displaced residents and the emergency response crews operating in Fort McMurray.”

## Planning Construction this Summer?

## Building a Garage or Shop?

### DID YOU KNOW...

- Any concrete ‘Thickened Slab’ larger than 55 sq. m. (24’ x 24.6’) requires engineering
- A pile and grade beam foundation requires engineering
- If your walls exceed 12’ in height, engineering is required

Consult your local Municipality or Authority having Jurisdiction for clarification on permit requirements and requirements for engineering.

# PCHS & BANNISTER GM FUNDRAISER FOR FT MCMURRAY SAT JUNE 4

Submitted by Nikki Gilks

In light of the recent terrible tragedy in Ft McMurray, many of our schools are seeking ways to help out those in need. Here is one I am helping to promote:

Bannister GM in Edson and

Parkland Composite High School in Edson are partnering with a school fundraiser to help out of the community of Ft McMurray. On Saturday, June 4th from 11-4pm, please take a few minutes and come to test drive a new Buick – the school will receive

a donation of \$20 for each test drive, and PCHS is donating the funds to help out Ft McMurray relief efforts. Buick will donate up to \$10,000 for this event so circle the date in your calendar to help out our students achieve their goal to reach out to those in need. (You

must be 18 years of age and maximum two per household).

Please help spread the word for this great cause ~ So proud of the staff and students of Grande Yellowhead!

# GRANDE YELLOWHEAD PUBLIC SCHOOL DIVISION BOARD NEWS

Submitted by Nikki Gilks

MAY 18, 2016  
News in Brief

• Trustees viewed a presentation of the division's Youth

Symposium which was held on May 5, 2016 in Hinton for grade seven and eight students. The students participated in a facilitated conversation with questions that arose from the Tell Them From Me Survey in areas of social engagement, institutional engagement, intellectual engagement, emotional engagement, quality instruction, school context, classroom context, family context, academic outcomes and accountability pillar information.

• Trustees received a letter from the Municipality of Jasper stating the reduction to a continuous 30 km/hr speed zone encompassing the Jasper Jr/Sr High School, Jasper Elementary School, École Desrochers, and Centennial Park.

• A detailed review of the proposed changes to the Alberta School Boards' Association By-laws and its proposed Budget for 2016-2017 was discussed by the Board.

• A report on the collection of instructional material fees for the current year was given.

• Trustees also received updates on two major capital projects:

• the modernization of Grande Cache Community High School (GCCCHS) and the new replacement elementary school in Edson. The modernization project is on target for completion for the start of the 2017 – 2018 school year.

• Alberta Infrastructure has the final tender drawings and specs for the Edson Replacement School and the next step is proceeding to tender.

Our Board of Trustees is comprised of Brenda Rosadiuk, Chair, John Stitzenberger, Vice Chair, Shirley Caputo, Betsy DeClercq, Carol DeMong, Ken Fate, and Joan Zaporosky

# ALBERTA BLUE CROSS IMPLEMENTS SPECIAL MEASURES TO ENSURE UNINTERRUPTED COVERAGE FOR ALBERTANS DISPLACED BY FORT MCMURRAY WILDFIRES

**Submitted by CNW Group Ltd.**

EDMONTON, May 5, 2016 /CNW/ - Alberta Blue Cross is committed to providing uninterrupted coverage to plan members evacuated from the Fort McMurray area due to the wildfire situation and who may have lost their homes. We have implemented a number of special measures to ensure our plan members have continued access to the health coverage they need during this difficult time.

“Our hearts truly go out to the thousands of Albertans from Fort McMurray who have been impacted by this crisis,” says Ray Pisani, President and CEO of Alberta Blue Cross. “Many of us have friends, family members and colleagues who have been affected, and Alberta Blue Cross is committed to ensuring that our customers’ access to their benefits is maintained during this time.”

Plan members who require an early prescription refill will be able to do so—they can ask the pharmacist to contact Alberta Blue Cross to confirm their identity to dispense the medication. For other health providers, such as dental offices, chiropractors and physiotherapists, they can call Alberta Blue Cross in the event that a plan member cannot produce their ID card in order to confirm their identity and eligibility for benefits.

Alberta Blue Cross will also defer plan premiums for 60 days for our many individual health plan customers and employer group plan sponsors in Fort McMurray as a measure to ease the burden in the wake of wildfires that have destroyed parts of the community. Existing Alberta Blue Cross individual

health plan customers and businesses with Alberta Blue Cross employer group coverage will be contacted directly by Alberta Blue Cross within the next few weeks to provide details about the premium deferral.

Alberta Blue Cross is working

closely with Alberta Health and Alberta Human Services to ensure uninterrupted coverage for participants in Government of Alberta programs administered by Alberta Blue Cross.

As a show of support to the residents of Fort McMurray, Al-

berta Blue Cross will be making a \$25,000 donation to the Red Cross to assist in relief efforts.

As Alberta’s largest benefit provider, Alberta Blue Cross covers more than 1.6 million Albertans.

# Lawn & Garden

*The Businesses in the following Guide can be your One Stop Solution to all your Lawn & Garden Needs!*

# Lawn & Garden

## WHY HONEYBEES NEED PROTECTION

Honeybees flitting from flower to flower is one of the first signs that warm weather has arrived. Honeybees are a welcome presence in the garden, pollinating plants and contributing to local honey supplies.

Despite their importance in the ecosystem, honeybees are in grave danger. In 2014, U.S. President Barack Obama created a task force comprised of various agencies to address the growing issue of rapidly diminishing honeybees and other pollinating insects. This initiative was a response to reports from American beekeepers indicating hive deaths have been on the rise, gravely affecting the honeybee population. Honeybees pollinate many fruit trees, nut plants and vegetables, play-

ing a crucial role for many nations' food industries.

In addition to government involvement and honeybee conservation methods designed by environmental agencies, there are many things that regular citizens and homeowners can do to protect honeybees this summer. The Environmental Protection Agency and the Pesticide Action Network offer these tips.

- Use caution when applying any pesticides to home gardens. Be especially cautious when applying pesticides when bees are likely to be flying. If you must apply pesticides, do so only after dusk.

- Stagger your planting throughout the growing season. Rather than planting every-

thing at once, stagger planting for flowers and other plants that have blooms. This gives bees plenty of pollen sources throughout early summer and into fall.

- Provide clean sources of water. A small garden feature or a rainwater collection is enough to provide bees with a drink when needed.

- Honeybees and other bees require some sort of shelter. Dead trees and plants provide adequate shelter, so don't be so tempted to pull out all of the undergrowth in the name of aesthetics.

- Plant a garden that will attract bees. Resources for planting a bee-friendly garden can be found by visiting <http://www.panna.org/sites/default/>

files/Bee-FriendlyGardening\_PAN.pdf.

- If you come across a hive, leave it alone. It's best not to disturb a hive and honeybee colony. If bees are located where they can become a nuisance, contact a local bee expert to see if the hive can be moved.

- Think about becoming a beekeeper yourself. There are many different resources available to help you get started.

Bees are being threatened at an alarming rate. Educating yourself about what to do to protect honeybees can help to restore the valuable honeybee population.

# SHENANIGANS IN THE HOUSE

Submitted by Jim Eglinski, MP – Yellowhead

OTTAWA – May 19, 2016 in the House, a very unfortunate situation took place when a member of the New Democratic Party (NDP) was unable to exercise her right to vote and a Conservative member was aggressively escorted by the Prime Minister toward his seat.

There will be many opinions and discussions as to what transpired. As I was there and observed what took place, I want to ensure my constituents have a true understanding of what occurred.

NDP and Conservative members were standing in the centre area of the chamber when both party Whips entered the House. Traditionally, members are to be seated when the Whips enter. The reason why they were not in their place was to demonstrate their objection to Government Motion 6, an unconstitutional move by the Liberal government to curtail the privileges of Members of Parliament. Opposition members were very concerned with the Liberal government's attempt to gain more power over Parliament and stood standing as an act of solidarity and unified objection.

I clearly observed the Prime Minister quickly getting out of his chair, appearing very angry and rushing toward the Conservative Caucus Whip, Gordon Brown. During this advance, the Prime Minister accidentally pushed aside an NDP member. He then took the arm of MP Brown and aggressively guided him toward his chair in the House. Members of the opposition objected, at which point the Prime Minister returned to his seat. He remained there for a very brief moment. He then rose and crossed over to the NDP side of the floor and a verbal confrontation ensued with the NDP leader and others. Members of Parliament from all sides of the House started to leave their seats, at which point the Prime Minister then returned to his.

Today, the Liberal government removed Motion 6 from the Order Paper and the actions of the Prime Minister were referred to the Procedure and House Affairs Committee.

At times, tempers do flare, but as your Member of Parliament, I was appalled by the inappropriate actions that took place. I hope all members have learned that we are all accountable for our actions. We should and must act appropriately at all times.

# ROYAL CANADIAN LEGION WILDWOOD BR 149 PARTY IN THE PARK

Submitted by Charlotte Winters

Well not really in the park, but we did celebrate the Grand Opening of our Veteran/Community Park and presentation of the new Community Connector II Bus to the community on May 6. Four years ago our President, Lori Rehn, looked across the street at a vacant lot with nothing but weeds on it. She said that would make a good place for a Cenotaph and Park. Our Cenotaph had been demolished in 1992 when a new Community Hall

was built. We approached the County with the idea of a 99 year lease on the lot for the Legion. We then applied for the Federal War Memorial Grant that was available at the time for a Cenotaph. The Veteran/Community Park was on its way to becoming a reality. It was a 4 year project that took many volunteer hours. Thank you to all of our volunteers! We could not have done it without all of YOU!

The Senior's Transportation bus was in desperate need of replacement and that project only took us 3 years. The Community Connector II is our

new senior's bus which provides service in both Yellowhead County and Parkland County.

Mistress of Ceremonies, Deb Bonham welcomed each dignitary and acknowledged the Veterans, Legion members, Cadets, RCMP, and members of the community in attendance. Following the March of the Color Guard, Legion President, Charlotte Winters gave words of welcome.

Guests attending were, Her Honor, the Honorable Lois E. Mitchell, the Lieutenant Governor of Alberta, with Jim Eglinski, Member of Parliament

for Yellowhead, Oneil Carlier, Member of the Alberta Legislature, Gerald Soroka, Mayor of Yellowhead County, Rod Shaigec Mayor of Parkland County and Wayne Willis, Royal Canadian Legion District Commander of Alberta NWT, Dave Velichko Royal Canadian Legion Deputy District Commander, as well as Yellowhead County Councillors. We appreciate that all of our guests took time to attend our celebration. Guests also included: Veterans, Legion members, and community members who came for the ceremonies. Thank you for your support!

Four plaques to commemorate the grand opening were presented by, Oneil Carlier, Mayor Gerald Soroka, Mayor Rod Shaigec, Cadomin Legion President, Harry Kemble.

Her Honor, the Lieutenant Governor commented on the handwritten invitation and complimented Lori Rehn on her penmanship and her volunteerism! The official ribbon cutting ceremony was performed by Her Honour, Lois E. Mitchell and Lori Rehn. God Save the Queen was played and the dismissal of the Color Guard concluded the ceremony. Everyone was invited into the Legion for lunch. Two special picture cakes were presented and cut and passed out.

Everyone involved in making this day become reality is to be congratulated for their vision, hard work and dedication to their community. The Veteran/Community Park will enjoyed for many years to come and is a beautiful addition to the community of Wildwood.

A big shout out to XM 105 Radio station for their on air promotion. Thank you.

Sadie from a Special Touch did the special decorations for the tables. Deb Bonham did a wonderful job as the Master of Ceremonies, and Colleen Young operated the sound system. There were many volunteers who helped in many other ways and you know who you are! Thank you very much.

Our next project will be the painting of our building along with a window replacement, with the help of grant funding from the Canada 150 Birth-day Celebration program.

Royal Canadian Legion Wildwood Br 149 is very proud of what we have accomplished over the last 5 years. Volunteerism and teamwork lives on in our small Legion.

## Instantly Ageless™

Instantly Ageless™ is a powerful anti-wrinkle microcream that works quickly and effectively to diminish the visible signs of aging. Instantly Ageless™ revives the skin and minimizes the appearance of fine lines and pores for a flawless finish.

### A perfect day starts with perfect skin.

Meticulously developed, our formula is lightweight and contains a skin-conditioning complex of minerals that evens skin tone. Instantly Ageless™ immediately dissolves into the skin, reducing the appearance of wrinkles. It's specifically designed to target areas which have lost elasticity—revealing visibly toned, lifted skin. Users have seen dramatic results in seconds.

A compact, yet powerful alternative to fortify skin affected by free radicals and environmental damage, Instantly Ageless™ is at the forefront of anti-aging technology.

## BENEFITS

- VISIBLY DIMINISHES THE APPEARANCE OF FINE LINES AND WRINKLES
- ERASES THE APPEARANCE OF DARK CIRCLES AND PUFFINESS UNDER THE EYES
- MINIMIZES THE APPEARANCE OF PORES
- HELPS TO EVEN SKIN TEXTURE
- MATTES SKIN FOR A FLAWLESS FINISH
- RESTORES SKIN TO OPTIMUM APPEARANCE

							4	
1	6		7	2	4		9	

### Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
