## COUNTY DECLARES STATE OF AGRICULTURAL DISASTER

**Submitted by Bill Hegy | Mayor, Lac Ste. Anne County**

Sangudo, Alberta, Thursday November 3, 2016 – During the November 2nd Lac Ste. Anne County Development meeting, Council brought forward an addition to the agenda, and unanimously voted to declare a State of Agricultural Disaster due to the weather conditions hampering harvest efforts in the region this fall.

Alberta Crop Report as of October 25th, has reported that ap-

proximately 75% of unharvested regional cereal crops remain standing. Additionally, 84% of the unharvested spring wheat, 64% of the unharvested barley and 79% of the unharvested oats are classified as standing.

"Due to the inclement weather over the harvest season, we understand farmers' profit margins are at extreme risk. We hope to raise awareness to the federal and provincial governments to get programs in place to address the seriousness of this matter by declaring a State of Agricultural Disaster," stated Lac Ste. Anne

County Agricultural Services Board Chairman Ross Bohnet.

The County will notify the provincial and federal governments of its declaration of Agricultural Disaster with the goal of drawing attention to our concerns of regional farmers, and of underscoring the pressing need for a disaster recovery program.

Questions or concerns regarding the State of Agricultural Disaster should be directed to County Agricultural Services at the County office at 1.866.880.5722.

## 4 SCHOOLS SHARE WEEK OF LEARNING!

Submitted by Lisa Bakos

Grade 7 students from 4 schools meet future peers during CTF Week, a unique learning opportunity made possible by small school creativity and collaboration!

Grade 7 students from Grasmere School, Onoway Elementary School, Rich Valley School and Darwell School came together in Alberta Beach last week to participate in Career & Technology (CTF) Week at Grasmere School. The idea

came to principals after hearing about similar programs via the Alberta Rural Education Symposium last Spring and noting how different programs operated.

# ONOWAY AND AREA GEARS UP FOR TASTY GATHERINGS

Submitted by Dolores Fletcher

Need a little motivation to make good on your promise to eat better, make new friends and be more active? Motivation has arrived, thanks to Tasty Gatherings.

The Onoway Seventh Day Adventist Church conducted a community survey over the summer and high on list of the resident's wants was a vegan dinner club.

"We are pleased to launch this club, named Tasty Gatherings, on November 15 at 6 PM," said a representative of the group. "The inaugural meal is vegan sushi, and it's going to be a hands on experience. First, there will be a demonstration, then club participants will learn to roll their own sushi. There is no fish involved and some rolls will be made without nori (seaweed) too."

A variety of complimentary side dishes will also be demonstrated and prepared.

Tasty Gatherings is more than a dinner club. The organizers have plans for many other healthy living/active lifestyle events. Seminars with guest speakers, DVD lectures, and exercise boot camps are just some of the things Tasty Gatherings will be offering in the coming months.

"We are going to do everything we can to help our community reach the health goals they are seeking," confirmed the representative.

Introducing a vegan meal or two into your weekly dinner schedule is an excellent way to increase your intake of fresh produce. It's also a wonderful way to break out of the potato/carrot/lettuce cycle and try exciting new flavours. Starfruit, papaya, bok choy, squash – a world of flavours awaits; and these flavours are going to reinvigorate your health.

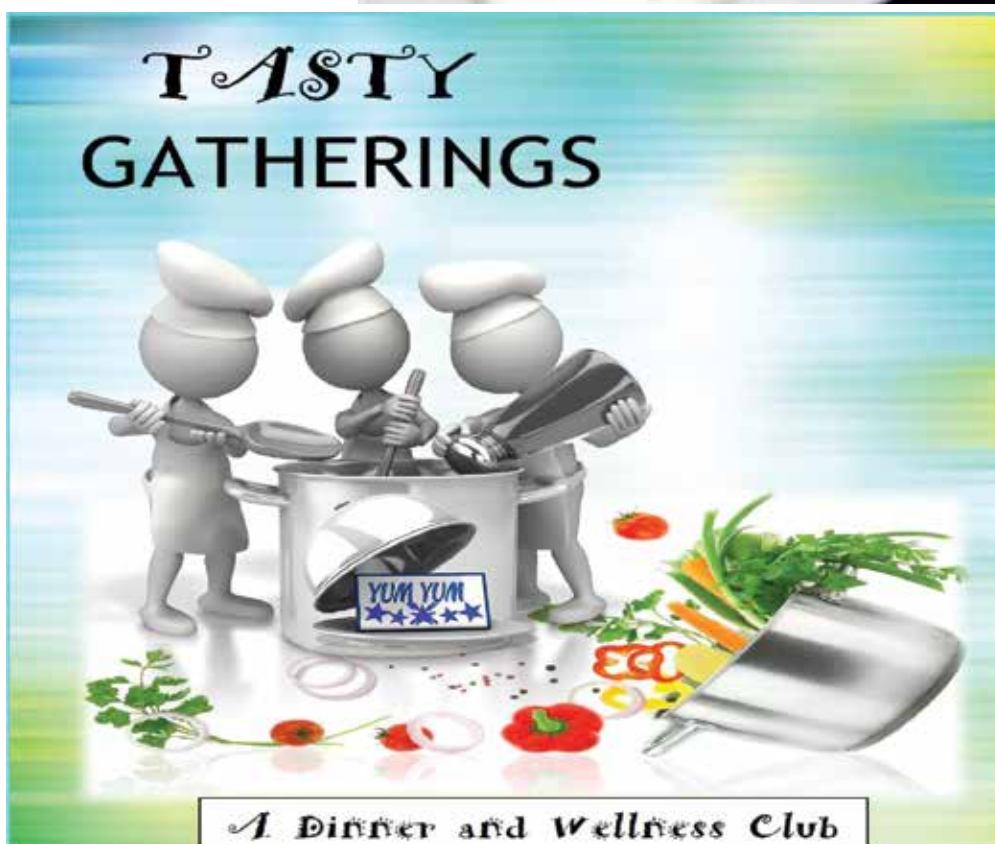

According to an article from Harvard School of Public Health, "A diet rich in vegetables and fruits can lower blood pressure, reduce risk of heart disease and stroke, prevent some types of cancer, lower risk of eye and digestive problems, and have a positive effect upon blood sugar which can help keep appetite in check. Eat a variety of types and colors of produce in order to give your body the mix of nutrients it needs."

With Tasty Gatherings, not only do members get to try a banquet of nutritious flavours and learn new ways

to prepare produce, they also enjoy social interaction, meet people, and make new friends. Being a part of Tasty Gatherings is, simply put, good for your health!

Register today for Tasty Gathering's vegan sushi cooking class on November 15. The cost is just \$15, (which helps to cover food costs) and stay tuned for future news, events, classes and more.

For more information and to register for the vegan sushi cooking class, call Evangeline at 780-967-5461.

## 4 Schools Share Week Of Learning!

### Continued From Page 2

"We wanted to offer students a quality program with a variety of options which is challenging to do on our own given the need for multiple teachers to teach different courses, explains Darwell Principal Lorna Vardy. "We attended a PD session where we heard about a similar program that had great results with students and we began to talk as a group of principals about how we might be able to pool our resources in order to provide students with these opportunities."

Career & Technology Foundations, or CTF, helps students build their understanding of the world around them as they identify and apply career and life skills.

Students develop communication, collaboration, critical thinking, time management and problem-solving skills through hands-on learning ex-

periences. CTF supports the development of literacy, numeracy and competencies which can be developed through student-focused learning opportunities.

CTF also provides a foundation for students to transition into Career and Technology Studies (CTS) in Grades 10 through 12.

But the benefits were twofold. Students from the four schools will transition into Grade 8 at Onoway Jr/Sr High School together next year, and as a result of this opportunity, they won't be strangers.

"Giving students the chance to meet their future OJSH peers, and make new friends with shared interests, is the additional goal of this learning opportunity. The students will come together for another week in January and again in May. There are plans for a dance at the end of the 3rd term," shared Principal Vardy.

Teachers presented options for the courses based on their own interests and talents and in alignment with CTF curriculum outcomes. Students then selected their options based on preference:

- It is Rocket Science - the science and construction of working rockets
- Robotics - designing, building and programming robots
- The Artist in Me - artistic expression and technique through a variety of mediums
- Healthy Living - exploring health and wellness, fitness and nutrition
- World of Wonders - exploring the natural wonders of the world and travel
- Cupcake Wars - baking and experimenting

Teachers and principals from all four schools worked together to make the program possible with

teachers planning courses they've never taught before, creating their curriculum, ensuring its connection to learning competencies and teaching students they've never met before at a school they are not familiar with. Each principal committed to spending time at Grasmere School over the week to help manage the influx of students and share in the showcase. A collaboration Principal Vardy says was well worth it given the engagement of students.

The showcase marked the end of the week for students with parents, family and friends filling the gym to take in their students' work! Another piece of the learning outcomes with students explaining their work and sharing their experience! Looking forward to Term 2 GORD (Grasmere School, Onoway Elementary School, Rich Valley School, Darwell School)!

# GREETINGS FROM THE ONOWAY LEGION

Submitted by Lorinda McCool

This will be a very busy and possibly the most important week of the year for the Legion. Poppies are in several retail outlets in Onoway and Alberta Beach and on November 5th the Lac Ste. Anne Army Cadet Corp was in the community helping with the Poppy campaign. The Onoway Legion Honor Guard visited the Grasmere Elementary School, the Onoway Elementary School and the Onoway Junior/Senior High School for various services and programs. If you wish to attend the Legion Remembrance Day service please be at the NEW Onoway

Junior/Senior High School and seated by 10:15 am as the service will commence at 10:30 am sharp. After the service a parade will be formed and march to the Legion for the re-laying of the official wreaths at the Cenotaph. The Legion will be open for the afternoon and everyone is welcome to visit but please allow our Veterans and Soldiers to enter first as Remembrance Day is for honoring our Veterans and their comrades. Padre Barry Rose will give the blessing after which sandwiches and squares will be served. After 3:00 pm Chili with a bun will be available for \$6.00 while Karaoke by Marty Pritchard will be the entertainment for the afternoon. Please note,

Regular Friday Night Suppers will resume on November 18th.

Christmas in October was extremely successful with the sellout crowd donating \$356.00 as well as 227 pounds of food. The Legion donated all of the proceeds from the roast beef supper which was graciously co-sponsored by Adam Farms Ltd. and Onoway Feed and Seed Ltd. The pumpkin donated by Art and Anne Noble was popular as many customers tried to guess the weight in a 50/50 draw. Bernie Duperon correctly guessed 23.5 pounds, promptly donated the pumpkin back for an auction and Art collected \$155.00 from James Hambling. The travelling pumpkin was again

donated back and finally went home with Wade Neilson for \$65.00. Thank you to everyone for their generosity and donations to the Lac Ste. Anne East Foodbank. Special thanks to Bill Heide and Ellen Carlson for once again providing musical entertainment for everyone's enjoyment. Many volunteers contributed to the success of the meal. Bob C., Jay K., Lorne O., Marcelle J., Cheryl W., Art N. and Ann N. worked tirelessly in the kitchen preparing the meal while Lynn R. bravely tackled all of the dishes, pots and pans. Church volunteers Percy and Pat helped by Scout Harvey along with Leaders and Guides Chantell D., Layla D., Brooke D., Erin L., Keeghan I., Grace L., Angela v L. and Ariana v. L. cleared and cleaned the tables at the end of the meal. Congratulations to Mary Ellen Guidry for winning the free meal voucher, Mary Beamish the meat draw and Jeanne Hodgson the 50/50 draw.

On October 29th Scott Sadler and Don Grant represented the Onoway Legion at the District 8 Euchre competition at the Jasper Place Legion. The team enjoyed the experience but unfortunately will not be progressing any farther. Neil Gorman ran the Larry Miller Memorial dart tournament in Onoway on the same day and awarded the prize money along with the trophy to the Stony Plain team. Congratulations to Roger Salls, Dal Fitzsimmons, Jennifer Hale and Jim Stover for winning first place, St. Albert second place and Onoway third place.

**JOKE OF THE WEEK**

A young man agreed to baby-sit one night so a single mother could have an evening out. At bedtime he sent the youngsters upstairs to bed and settled down to watch football. One child kept creeping down the stairs, but the young man kept sending him back to bed. At 9pm the doorbell rang. It was the next-door neighbor, Mrs. Brown, asking whether her son was there. The young man brusquely replied, "No." Just then a little head appeared over the banister and shouted, "I'm here, Mom, but he won't let me go home!"

# SHARING A LASTING LEGACY

Submitted by Martine Lépine, The War Amps

November 2016 – People often can't help but smile when they see six-year-old Kamryn Bond lay a wreath with her friend, Shannon Krasowski, 40, at their local Remembrance Day ceremony. Although an unlikely pair, they are both amputees and are part of a legacy that goes back nearly 100 years.

Kamryn is a member, and Shannon a graduate, of The War Amps Child Amputee (CHAMP) Program. It was war amputee veterans who created The War Amps in 1918, its Key Tag Service in 1946, and later, the CHAMP Program. Since 1975, thousands of child amputees across Canada have received financial assistance for their artificial limbs through CHAMP and attended regional seminars where they learn about growing up as an amputee.

When Kamryn was 11 months old, both of her legs, right hand, and several fingers on her left hand, were amputated due to a respiratory illness. Shannon's left leg was amputated when she was 13 years old due to

bone cancer.

They met three years ago at their local Remembrance Day ceremony. That year, Kamryn watched Shannon lay a wreath on behalf of The War Amps Operation Legacy, but ever since, it has been a tradition they share.

While growing up as a Champ, Shannon met many war amputee veterans and heard their firsthand accounts of the devastation of war. "They passed this legacy to us younger amputees and now it's our turn to share their stories, so that we never forget their sacrifices," she says.

Although Kamryn is still quite young, her mom, Dale, says it is important for her daughter to lay a wreath on Remembrance Day. "It builds the foundation for her to understand how much our war veterans gave up for our freedom."

Dale adds, "We will always be appreciative of the work of the war amputee veterans and the message they have left for young amputees like Kamryn to carry into the future. It is for this reason that she lays a wreath every year in their honour, and will do so for many years to come."

# FARM EFFICIENCY

**Submitted by Oneil Carlier, MLA Whitecourt-St. Anne, Minister of Agriculture and Forestry**

Like all sectors of the economy, agriculture has a role to play in reducing greenhouse gas emissions and a vested interest in reducing the impacts of climate change.

If left unchecked, climate change will undoubtedly have long-term consequences for the length of the growing season,

moisture conditions, the prevalence of extreme weather events and the availability of water.

We know Alberta farmers care about the environment and they have been leaders in making sure their operations are efficient. Many producers are already taking steps to not only to reduce their emissions but also to lower their energy bills.

Our government is here to support them.

We are investing \$10 million

from the Climate Change and Emissions Management Fund that will enhance already successful programs that encourage producers and agriculture-based businesses to adopt new technologies and practices.

This additional \$10 million, means a total of \$15.8 million for these programs over the next two years – almost tripling the funding. We are building on the grant programs currently offered through our Growing Forward 2 suite of programs programs that are in high demand with over 700 applicants a year and consistently oversubscribed.

While Alberta's agriculture community has made some progress over the years to enhance environmental stewardship and adopt new innovative new practices we know that there is still a lot of work to do.

Every two years, Agriculture and Forestry conducts a survey that tracks the adoption of environmentally sustainable practices by the agriculture sector. While

adoption rates were relatively high in areas related to water quality, habitat conservation, and grazing management they were lowest in the adoption of practices related to energy use and climate change at just 16 per cent.

We know that the cost of adopting new technology which can be between \$50,000 - \$150,000 per operation is one of the factors impeding change.

We also know that specific sectors within the agriculture economy greenhouse producers, hog operations, irrigated farms, chicken and egg producers are more intensive users of natural gas and electricity. That is why investing in these programs for farmers, offers an excellent opportunity to reduce the impact of the carbon levy on their operations as well as reduce their environmental footprint.

We will continue to work with stakeholders to develop efficiency programs and allow the industry to seize new economic opportunities in a carbon constrained future.

# SUDOKU OF THE WEEK

## Fun By The Numbers

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

### ANSWER:

4	6	5	1	9	2	3	8	7
9	3	7	6	5	8	2	4	1

**Like puzzles?** Then you'll love sudoku.

This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
