NOT GETTING YOUR FIRE PERMIT FOR EXISTING OR NEW BURNS MAY COME AT A COST

Submitted by Stefan Felsing, Communications Coordinator | Yellowhead County

Starting March 1, all burning activities in Yellowhead County will require a fire permit, excluding campfires as well as burn barrels in certain locations. Yellowhead County residents are reminded to take extra care while burning this spring as dry conditions and strong winds can fuel fast burning grassfires.

“Fire permits will be required for any new or existing burn in the Yellowhead County Fire

Permit Area,” says Yellowhead County Deputy Fire Chief Cory Chegwyn. “And we’re reminding everyone to take all the necessary precautions during any type of burn on their property.”

If you burn without a permit and accidentally start a wildfire – or even if firefighters are sent to check your burn – you may be held responsible for any firefighting or other costs. Agricultural producers and other businesses, as well as property owners should ensure their fire preparedness plans are in place to quickly respond to potential

wildfire situations.

The Yellowhead County fire permit area covers the area north of Highway 16 and east of Highway 22. Yellowhead County fire permits for this area are free and available through Fire Guardians at either Yellowhead County office. Campground fires and burn barrels within this area, excluding the hamlet of Evansburg, do not require a permit but may be restricted later in the season if fire levels reach a fire ban.

YELLOWHEAD RURAL CRIME WATCH

Submitted by Charlotte Winters, Yellowhead Rural Crimewatch

There was very low attendance at the AGM for Yellowhead Rural Crime Watch on February 25, 2017. Weather and road conditions could have been a big factor. It was decided by the members present, to put the organization into a “sleep mode” till the September 12th, 2017 meeting. There will be no activity during this time. It is hoped that you, the members, will take this time to think about stepping up to form a new executive to

keep Yellowhead Rural Crime Watch alive.

The present Executive will handle any issues that come up till the September meeting. We have many members, but only a few are active. With only 6 meetings a year the executive positions are not demanding. If we do not get a new executive in September, Yellowhead Rural Crime Watch will be dissolved, as laid out in our by-laws. When the group is dissolved, all assets must be disposed of. This means that if anyone wants to start a Crime Watch group again in the future, they will have to start

with nothing again.

County of Parkland peace officers gave a presentation on home safety. Topics presented were simple things like keeping your shrubs and trees from blocking vision of your driveway. It helps to have your home and buildings visible from the main road. Two RCMP officers were also present.

The meeting September 12, 2017 will be your last chance to keep Yellowhead Rural Crime Watch alive! Mark the date on your calendar!

Not Getting your Fire Permit for Existing or New Burns May Come at a Cost

Continued From Page 1

Fire permits for the rest of the county can be obtained by contacting Alberta's Agriculture & Forestry department.

Fire permits lets Yellowhead County know where authorized fires are planned and they help us to notify you if conditions

change. There are a variety of reasons why the fire hazard in your area might go up – and you might not be aware that they're happening. When we have your permit information, we can notify you so you can put out your fire – and avoid starting a bigger one and steer clear of potential charges and monetary costs.

Due to the varying fire permit

requirements for different Fire Protection Zone areas within Yellowhead County, we recommend that residents contact either the Fire Guardians at their local Yellowhead County office or the local Alberta Agriculture and Forestry Department for more information and to obtain a permit.

Tips & Info on new burns and existing winter burns:

- Permits are required for brush piles, transfer sites, and field, grass or stubble burns.
- Fire incidents can be reduced by keeping burns small and by always having firefighting equipment on hand.
- Fires that are not completely extinguished can smolder underground during the winter months and resurface in the spring as a wildfire.

Contact the Yellowhead County Fire Department at 1-800-665-6030 for more information.

RIDING UPDATE – WEEK OF FEBRUARY 27, 2017

Submitted by Jim Eglinski, MP – Yellowhead

Parliament was down this week, allowing me to spend time in the riding. I spoke to students, met with constituents, participated in a press conference in Edmonton, and attended the leadership debate.

Last weekend, I had the privilege of attending the Edson First Responders Dinner, recognizing the great contributions these local heroes make to our community. Having served as an RCMP officer for 35 years, I understand and appreciate the sacrifices these men and women make every day when they go to work.

On Monday, I participated in the Alberta Jobs Taskforce press conference in Edmonton. At the event, we presented a report on the state of jobs and the economy in Alberta. You can read the

report at www.albertajobtaskforce.ca/. In case you missed the press conference, you can watch it on my Facebook page: www.facebook.com/jimeglinski.mp/

On Tuesday, I visited Niton Central School where I had lunch in a restaurant ran by grade 5/6 students! After lunch, I had the opportunity to speak with grade nine students, before attending the Conservative Leadership Debate in Edmonton.

On Wednesday, I had the plea-

sure of meeting Sarah Wheale, who was selected to be on the Prime Minister’s Youth Council in Ottawa. This council of youth and young adults will meet with the Prime Minister multiple times a year to advise him on national issues. Living in our very own Village of Breton, Ms. Wheale has roots in agriculture, has experience in the energy sector and understands the demographics of Alberta. She will be an excellent representative of

this province and our riding.

On Thursday, I spoke to several high school classes at Parkland Composite High School, and the rest of the week was spent in my riding office in Edson meeting with constituents.

I will attend a meeting in Evansburg and meet with constituents on Saturday before heading back to Ottawa on Sunday. My next update will be on the happenings of Parliament as it will sit next week.

SIGN PETITION E-910 – END THE CARBON TAX COVER-UP

Submitted by Jim Eglinski, MP – Yellowhead

Conservatives have been fighting for taxpayers ever since the government announced its carbon tax.

We've been pressing the government for answers on how the Liberal carbon tax will impact low-income Canadians, seniors, youth, and the middle class. Yet, Justin Trudeau's Liberals have decided

to impose a carbon tax on every Canadian, family, and business in Canada – and now they're covering up how much it will cost us.

At first, the Liberals said they didn't have the answers. More re-

cently, heavily censored Finance Canada memos show the government does have answers, but they're covering them up. This has now become known as the "carbon tax cover-up."

Justin Trudeau has promised repeatedly to be transparent with Canadians, and it will be Canadians who have to pay the bill for his carbon tax.

In fact, research shows that low-income Canadians will have the hardest time paying a carbon tax, as this new tax makes the cost of necessities, like home heating, food, and fuel more expensive.

Families, businesses, and all Canadians deserve to know how much this new tax will cost them.

Conservatives are going to keep demanding answers on behalf of taxpayers. We're fighting Justin Trudeau's tax hikes, including the carbon tax, on a daily basis. I encourage everyone to sign petition e-910 at <https://petitions.parl.gc.ca> and demand an end to the carbon tax cover-up.

JOKE OF THE WEEK

An Irishman, by the name of O'Malley proposed to his girl on St. Patrick's Day. He gave her a ring with a synthetic diamond. The excited young lass showed it to her father, a jeweller. He took one look at it and saw it wasn't real. The young lass on learning it wasn't real returned to her future husband. She protested vehemently about his cheapness. 'It was in honour of St. Patrick's Day,' he smiled. 'I gave you a sham rock.'

PARKLAND COUNTY NOTICE OF PUBLIC HEARING

In accordance with the requirements of Section 606 of the Municipal Government Act, as amended, the Council of Parkland County has scheduled a Public Hearings regarding the proposed adoption of the following Bylaw(s):

Date: March 28, 2017
Time: 9:30 a.m.
Location: County Council Chambers

Proposed Bylaw No. 2017-05: New Land Use District: AGI-Agricultural Development District

A new land use district, the "AGI – Agricultural Industry Development District" that accommodates specialized agricultural development in rural Parkland County is proposed to be added to the Land Use Bylaw No. 20-2009. It would allow for more intensive value added agricultural and alternative energy production in rural areas within the County. The proposed district adds the General Industrial/Processing use as permitted within the AGI District where it is not currently permitted in the AGR District when the proposed use:

- supports value added agricultural production;
- provides for generation of alternative energy; or
- provides inputs that directly support the aforementioned sectors, such as biomass.

Any proposed Agricultural Industrial Development must reasonably mitigate impacts to adjacent residences and only be permitted where appropriate.

Date: March 28, 2017
Time: 9:45 a.m.
Location: County Council Chambers

Purpose of Proposed Bylaw No. 2017-03: Entwistle Area Structure Plan Amendments

Amendments to the Entwistle Area Structure Plan Bylaw No. 23-2012 are proposed to introduce more diversity in the types of value added agricultural and agricultural industrial uses to support the Hamlet in the following ways:

- Identifies the need for a range of new value added, agricultural –based industrial and alternative energy-based developments.
- Identifies the CN Railway as an asset and as a catalyst for development.
- Provides accommodation for new agricultural, alternative energy, and agricultural industrial based development in rural and fringe areas.
- Provides direction and clarification for the requirements for Outline Plans, Conceptual Plans and Traffic Impact Assessments to support development proposals.
- Requires compliance with County policies around Dark Sky lighting.
- Provides criteria to ensure the use is appropriate for the location and that nuisances are mitigated by the applicant.

Purpose of Proposed Bylaw No. 2017-04: Redistricting of Pt: NW-21-7-5-W5M

The proposed redistricting changes the subject parcel located at NW-21-7-5-W5M from AGR-Agriculture Restricted District to AGI-Agricultural Industrial Development District. This will allow for a "General Industrial" land use on the site for the purpose of developing a wood pellet processing facility.

Hearing Procedure

This is a formal Public Hearing and Council is prepared to hear and receive formal submissions and presentations (verbal or written) from those who wish to speak to the proposed Bylaw(s). Written submissions or presentations may be submitted to Planning & Development Services by 4:00 p.m., March 17, 2017 or submitted at the commencement of the Public Hearing. Anyone wishing to make a verbal presentation must notify Planning & Development Services by 4:00 p.m., March 23, 2017. Verbal presentations at the Public Hearing will be limited to a maximum of 10 minutes. Anyone wishing to make a verbal presentation who has not made prior arrangements may be allocated a time at the commencement of the Public Hearing. Council advises that this is your last opportunity to comment on the proposed Bylaw(s) as Council is unable to receive further submissions after the Public Hearing is closed.

Copies of Proposed Bylaw(s)

Copies of the proposed Bylaw(s) are available free of charge during regular business hours (8:30 a.m. to 4:30 p.m., Monday to Friday) from Planning & Development Services at the Parkland County Centre. If you have any questions or wish to present a written or verbal submission, please contact Karen Oxley, Planner with Planning & Development Services at 780-968-8443.

YELLOWHEAD COUNTY COMMUNITY HALL ASSESSMENT PROGRAM FUNDING

Submitted by Stefan Felsing, Communications Coordinator | Yellowhead County

Interested community halls

can have facility assessments completed on their buildings with a 20-25 year lifecycle plan provided. Helps to ensure long-term sustainability of communi-

ty halls.

Funds available to complete four assessments in 2017. Funded by Yellowhead County.

Application forms to be filled

out and submitted by March 31st, 2017.

Form available from Yellowhead County Parks & Recreation Department (pick up or email).

YELLOWHEAD COUNTY HOSTING FUNERAL PLANNING WORKSHOPS IN EVANSBURG & NITON

Submitted by Stefan Felsing, Communications Coordinator | Yellowhead County

Planning for a funeral can give a person a lot of anxiety and can be very stressful especially in a very difficult time when a loved one passes away.

The Funeral Planning workshops will enable you to learn all the details and everything involved in planning a funeral to make the next funeral you plan less stressful and give you comfort when you have everything in place.

These workshops will also benefit you in planning your own funeral to ensure that your last wishes will be completed as well as taking the burden away from your family members

when you pass away.

We will be having Lanny Busby and Michelle Martel from Town and Country Funeral Services in Evansburg give a presentation on planning a funeral on March 7 from 6:30 pm to 8:00 pm at the Evansburg Tipple Park Museum.

As well, we will have another funeral planning workshop with the staff of the Edson Funeral Home give a presentation on planning a funeral on March 22 from 6:30 pm to 8:00 pm at the Niton Community Hall.

These workshops are free and light refreshments will be served.

Please register at the Yellowhead County Wildwood Office a week prior to the workshops by calling 780-325-3782 or 1-800-814-3935.

March 12-18, 2017

FARM SAFETY WEEK

Take the time to make a commitment to your farm, your family and yourself. For more information on building a farm safety plan, visit agsafetyweek.ca.

NOW ACCEPTING APPLICATIONS: EQUUS' ONGOING OPERATION ROUND UP HAS BIG IMPACT FOR ALBERTA COMMUNITIES

Submitted by Valdene Callin, Community and Member Relations Coordinator | EQUUS

EQUUS is now accepting funding applications for Operation Round Up, an ongoing program which funds community programs that have long-lasting impacts on youth and seniors in rural Alberta. As the first Canadian organization to be granted permission to implement the Operation Round Up program, EQUUS is pleased to announce the five successful recipients of the first quarter of funding. Congratulations to:

- Junior Achievement of Southern Alberta

- Greenwood Neighbourhood Place Society
- The Town of Sylvan Lake FCSS
- Darwell Betterment Association
- Barrons Eureka Warner FCSS

The funded projects range from educational support which gives more than 500 youth access to financial literacy, entrepreneurship and work readiness courses, to the Leaders of Tomorrow awards which recognizes youth who make a difference in their communities. EQUUS' goal is to fund those rural-based projects and events which positively impact youth and seniors within EQUUS' Service Area.

Funding for the Operation Round Up program is generated by members who have opted to have their distribution charges on their bill 'rounded up' to the next highest dollar. On average, each member contributes about \$6.00 per year to the program. EQUUS members volunteer for the Operation Round Up Committee and decide which programs are funded.

Pat Bourne, EQUUS CEO, said "we are grateful to our members whose generosity is allowing EQUUS to connect and help in the rural communities on behalf of the EQUUS membership".

EQUUS is expecting to donate tens of thousands of dollars to

help build strong rural communities through fostering projects and events that give back to rural Albertans. EQUUS is confident that this first round of funding was just a first-step in helping to support rural Alberta and build on the future sustainability of our rural communities

Community programs interested in applying for the next round of funding through EQUUS' Operation Round Up should do so before March 31 by going to <https://www.equs.ca/community/operation-round-up/>.

To learn more about EQUUS and the Operation Round Up program, please visit www.equs.ca.

REBATES TO HELP ALBERTANS TAP SOLAR RESOURCES

Submitted by Brent Wittmeier, Press Secretary, Environment and Parks | Government of Alberta

The Alberta government is creating a \$36-million rebate program for solar installation on residential and commercial buildings.

Homeowners, businesses and non-profit organizations will receive rebates for rooftop solar panels that meet the Residential and Commercial Solar Program requirements as early as this summer.

"There's a lot of buzz in Alberta around small-scale solar. This program will make solar power affordable for more Albertans, leading to new panels on 10,000 Alberta rooftops by 2020. Along the way, we will create jobs and local expertise in an emerging industry." - Shannon Phillips, Minister of Environment and Parks and Minister Responsible for the Climate Change Office

Solar uptake has doubled in Alberta since 2015, bolstered by initiatives like the Alberta Municipal Solar Program and the On-Farm Solar PV Program.

Over the next five years, the Residential and Commercial Solar Program will build on these existing programs. By 2019, the new program is expected to:

- support the creation of 900 jobs in Alberta's solar sector
- cut solar installation costs by up to 30 per cent for residences, and up to 25 per cent for businesses and non-profits
- reduce greenhouse gas emissions in the province by about a half million tonnes, the equivalent of taking 100,000 passenger vehicles off the road

To ensure Albertans receive timely access, the government is posting a Request for Proposal to identify a third party to deliver the new program. Details will be defined in coming months, including qualifying systems, installation and eligibility requirements.

"The Energy Efficiency Advisory Panel heard that Albertans wanted this program. The Prairies have the best solar resources in Canada, and there are a lot of potential investment opportunities. This is the first of several programs that will help create jobs and diversify Alberta's en-

Minister Shannon Phillips helps install solar panels at Gridworks Solar Energy Training Centre

ergy economy into clean sources of energy." - David Dodge, Chair, Energy Efficiency Alberta

"Albertans are ready to go solar, with growing demand, a world-class solar resource and an eager and capable solar industry. A sustained government push has been the missing piece for creating local jobs and clean energy in our province." - Rob Harlan, Executive Director, Solar Energy Society of Alberta

"We are proud to play a continued role in giving workers the tools they need to thrive in the province's growing renewables sector. Together, we are building a stronger, more prosperous economy for all Albertans." - Randall Benson, Solar Photovoltaic Power System Expert, Gridworks Solar Energy Training Centre

The Residential and Commercial Solar Program is a reinvestment of the carbon levy.

Quick facts

- "Solar photovoltaic" is the scientific term for cells that convert sunlight into electricity.

- Non-profits interested in applying must be registered under the Federal Business Corporations Act and be incorporated and in good-standing under the Societies Act of Alberta, the Agriculture Societies Act, Companies Act - Part 9, or the Canada Not-for-Profit Corporations Act.

- On Dec. 21, 2016, the Government of Alberta amended the Micro-generation Regulation to provide more flexible rules for Albertans generating their own electricity. This increased the size limit of a micro-generation system from one megawatt to five megawatts and allows a solar array to serve adjacent sites (especially helpful for operations with more than one building).

FARM SAFETY WEEK

Preventing Crushes

- From rolling machinery to falling front-end loaders there are countless crush hazards on a farm. While farm operators and workers can't prevent every hazard on a farm, they should prevent every hazard they can by taking simple preventative measures while working.

- Failure to block-up equipment safely can result in a fatal crushing injury. A jack may slip, a hose or overhead support may break, or the equipment may roll. Always take the precaution of placing support blocks under the equipment prior to working with raised machinery for any reason.

FARM SAFETY TIPS

- Hire right - hire the right person and pay them fairly rather than hire an unqualified person for less money then pay for their liability and errors.
- Get a check-up - make sure every worker is checked up on at least every two hours
- Know the code - the Code of Practices for Farm Safety (PEI) has set the industry standard for agriculture
- Train for safety

Farm Safety Week

March 12th-18th

Entanglements

° The average farm is full of machinery and device that can grab, cut, smash and entangle fingers, hands, toes, and feet causing injury to the extremities and even death. The sad truth is that most of these injuries can be avoided.

° Some of the key entanglement prevention measures to implement when working with or near machinery are:

- Before operating any machine or equipment, ensure that all guards are in place and in good condition.
- Wear tight fitting clothing, such as overalls. Avoid wearing any items that could become entangled, such as long coats or scarves.
- Never step over a PTO shaft or conveyer belt while it is still running.

° Ensure that anyone working with augers, PTOs, and other extremely hazardous machinery receives appropriate safety instruction and adequate supervision.

° Keep young children out of the farm or ranch work site, especially areas where there is moving machinery.

GYPSD MARCH SCHOOL NEWS

Submitted by Nikki Gilks, Manager, Communications Services | Grande Yellowhead Public School Division

Evansview School, Evansburg Convention has a way of reminding us of things, and of affirming what we work on all the time in our school, and this year is no different. Evansview has taken on new changes as we have gained a new principal until the end of this school year, and as such it has reminded us that growth is an important part of the work we do. As a staff, we have discussed that working towards having a 'growth mindset' rather than a 'fixed mindset' is something we can all do and should do. We need to encourage in ourselves

and in students this idea that we are not just what we are and have to accept that we can do no more or no better, but that we are capable of more through work, encouragement, learning and discovery, and that we can change, improve and grow as a person. We can also effect change in those around us. At Evansview, we are encouraging our students through the use of different language and the inspiration of actions that support this growth mindset, its positive vocabulary and ideas, and through supporting learning and growth as an entire school. Our Winter Carnival was an excellent example of this mindset. Students were grouped in cross-graded teams, who then travelled around together to take part in a variety of exciting activities. Students were encouraging, helpful and support-

ive as opposed to being competitive or anxious, and this allowed the vast capabilities of students to shine. Many parent volunteers worked to support this, helping us have a wonderful afternoon of fun and active learning together. We continue to work on acquiring and practicing our growth mindsets as we encourage school spirit with our annual adult vs. student dodgeball game, our school-wide Pink Shirt Day, and our school wide 'Secret Mission' of doing kind things for others every day. We are also looking forward to some relaxing time as we head off into spring break with 'movie madness' on the 23rd. Learning and having fun together can go hand in hand, and it makes it a great experience for all of us here at Evansview School.

Grand Trunk High School, Evansburg Rolling into March, Grand Trunk High School students and staff look forward to making progress in their academic courses, zones tournaments, and the fun activities planned before heading into spring break.

The Senior Grizzlies' and Teddies' basketball teams are geared up to make a charge towards provincials with zone tournaments on the weekend of March 10th and 11th. The Teddies will be playing in their home gym, as Grand Trunk hosts the Girls 1A zones, while the Sr. Boys Grizzlies will be playing their tournament in Breton. We extend our best wishes for success to both teams. If teams are successful at the zone tournaments, they will travel to the 1A provincial tournaments from March 15th to the 18th. The junior high Grizzlies and Teddies finished their seasons with the GYAC tournament hosted in Edson on February 24th and 25th.

The Grade 9 students' YMCA twins arrived in Evansburg on February 26th. Students from Hamilton, Ontario will be visiting Evansburg and participating in many different activities with their Grade 9 GTHS twins. In return, our Grade 9 students will visit Hamilton near the beginning of May. We bid 'Bon Voyage' to the participants of the Europe trip. Mrs. Klingspohn and Grand Trunk students will depart for a European field trip that will visit London, Paris, Florence, and Rome over 10 days.

On March 23rd, Grand Trunk will host its annual "Taste of GT" event for the 3rd year running. This very popular event brings all students and staff together to serve the community in a 'Taste of Edmonton' style food event. The student advisory groups and their teachers work together to create thematic food booths for community members to come and enjoy. All are welcome and invited to attend the event that will start around 11:00am and run until 2:00pm. Remember Spring Break begins on March 24th and runs through April 2nd with classes resuming on April 3rd.

BETTER QUALITY OF LIFE

and a money saver, too!

You can immediately see and feel the difference Elite makes to the quality of your water and the quality of your life. With Elite conditioned water, you and your family will look and feel better - with noticeable glowing complexions and soft, shiny hair.

Beautifully soft, dazzling whites and brilliant colors will replace the rough, matted clothing and towels your hard water previously produced.

Even housework is less of a chore as conditioned water leaves no bathtub ring, scummy film on shower stalls or unsightly spots on glassware, dishes and fixtures.

Your Elite water conditioner will save you time and money, too. You'll spend significantly less on detergents, cleaning products, conditioners, creams and personal grooming products. In addition, your plumbing fixtures and appliances will be protected against costly repairs or premature replacements.

QUALITY SALES & SERVICE OF:

• DISTILLERS	• CHEMICAL-FREE IRON FILTERS
• SUBMERSIBLE PUMPS	• SOFTENERS
• SEPTIC & JET PUMPS	• CHLORINATION SYSTEMS
• PIPE, WIRE & FITTINGS	• MOBILE SHOCK CHLORINATION

"We're recommended the MOST as the company that knows the MOST"

GYPSD March School News

year. Our focus for this math blitz was subtraction and division and how they connect to addition and multiplication. Students from Kindergarten all the way up to Grade 6 were assessed and put into groupings based on their skill level, rather than their grade and sent out to different classes all around the school for the first 25 minutes of each day. From there they receive a math intervention to increase their ability. The students really enjoy this intervention because there are weekly assessments that allow them to move from one group to the next, as they master each skill. The teachers enjoy this intervention because it helps to boost the student's confidence in math and allows them to challenge themselves to work at a higher grade level.

In addition to developing math skills, our Grade 1/2 class has started a passion project that involves learning about eagles through Whiterock Bald Eagles on live camera. First they watched as the eagles built their nest, using twigs, pine needles and feathers. Now they are eagerly waiting for the eggs to be laid. Each day they eat lunch with the eagles and discuss the hunting and eating patterns, living conditions, the interactions between the male and female eagle and much more. They are hoping to watch the eggs being laid soon, as they are very excited to start watching the eagles.

Our Grade 6 class, with the help of their teacher Mr. Meier, all recently received their 'Bachelor of Surgery'. They got suited up in their scrubs, hats and face masks and spent part of their morning in intense contraction surgery. We are happy to report that although many cuts were made, no words were seriously harmed in the making of new words. The level of excitement and engagement through this activity was high and the learning will last far longer than the stitches.

Wildwood School, Wildwood

Building things seems to be the general theme that will be ushering in to spring here at Wildwood School. Kindergarten and Grade 1 students will be independently building structures to illustrate elements of setting from classic nursery rhymes and fairytales. We hear that there may actually be a giant descending a beanstalk in some corner of the room as Mrs. Gerspacher's own personal contribution! In addition, the class will collaboratively build a space ship to illustrate the concept that mankind can only leave

earth's orbit by leaving part of their ship behind. The Kindergarten and Grade 1 students hope to still do some skating before welcoming in spring which they know is fast approaching.

Mrs. Guignon has been collecting building materials of cardboard, egg cartons and other recyclables in preparation for the building challenge that will be taken on by teams of three in the Grade 2 and 3 classroom. Each team needs to construct a house complete with walls, roof, window and door and large enough for one of the team members to enter. Students will be solving some practical problems as well as learning to work collaboratively as a team. Students continue to look forward to their conversations with the Ukraine that take place by Skype.

Our Grade 4 and 5 class will soon be researching how various place names came to be in Canada and Alberta. Students will also be working on their own posters designed to attract immigrants to move west. Students will also be fabricating the types of toys children made and played with when Alberta had just become a province. These students will soon be taking on a multi-paragraph essay on the researched topic of owls. Students will outline, write a first draft, make revisions and then publish a final draft of their essay. Grade 6 students look forward to possibly meeting with a school board trustee and a councillor from Yellowhead County as they examine how local government makes a difference in the lives of citizens.

Grade 7's and 8's are proving that they

can read their textbooks and decipher the internet independently by taking quality notes and by conducting effective internet searches. Soon the Grade 8's will be participating in 'It's Cool to Know Your Way in a Relationship'. The new format of delivering this program has Grade 8 students staying at their schools and the presenters coming to the various schools over a period of weeks. Grade 9's are finishing up their focus on the periodic table just in time to conduct labs involving various chemical reactions. Learning by doing! It's part of the Wildwood Advantage: Small School, BIG Ideas!

Farm Safety

IS EVERYONE'S BUSINESS

Farm Safety Tips

Yellowhead County Agricultural Services Department

- Never adjust machinery when it's powered.
- Don't wear loose fitting clothing around moving machinery parts.
- Obtain proper training for the machinery you are using – and know its limitations.
- Go over basic farm safety knowledge with your kids regularly.

Remember, Yellowhead County's Ag Services offers farming related workshops and information throughout the year.

Call 1-800-814-3935.

Don't forget about the County's Ag Recycling Project.
Go to the County website for more information!"

GUARD YOUR PROFITS

The bottom line for any business is profitability. An important part of maximizing profits is minimizing losses - and that includes non-productive time, costly machinery breakdowns as well as losses due to injury, illness, or death of the farmer, farm family, or farm workers.

Minimizing loss begins with making safety a priority, conducting a safety audit on your farm, keeping all machinery in good repair with guards and shields in place, having adequate accident insurance coverage, training workers in safe practices, leading by example every day.

Farm Safety & Health Week

March 12-18

Teach small children the rudiments of safety, such as which areas are off-limits. As they grow older, explain why certain things are dangerous. When they start helping with the work, make sure they are properly trained, keeping their limited strength and experience in mind. The safe way to do things is not always obvious to a child, so always explain and enforce the safety aspects of the job.

KIDS! HELP NAME 14 RCMP FOALS FOR CANADA 150!

Submitted by Alberta RCMP

Hey kids, the Royal Canadian Mounted Police (RCMP) has a contest just for you! This year, in celebration of Canada's 150th anniversary, the RCMP needs your help to name 14 foals born this spring at the RCMP breeding farm in Pakenham, Ontario. A winner will be selected from each of the 13 provinces and territories in Canada. In addition,

for the first time, an entry submitted by a school class will be selected.

"Here's a chance for kids to be a part of history, by coming up with a name for one of the 14 foals," says Inspector Patrick Egan, Officer in Charge of the Musical Ride. "This year with adding the school class entries, it gives a great opportunity for students to work together and come up with a name. Wouldn't it be cool if your class submitted

the winning name and the foal becomes part of the world-famous Musical Ride some day? It's possible if you send in an entry to the 2017 RCMP "Name the Foal" contest."

To qualify, entries must meet the following criteria:

- names must begin with the letter "O";
- an individual entry must include a child's first name only, school, city, province or territory and email address;

• school class entries must include the teacher's name, school, city, province or territory and email address;

- entrants must be 14 years old or younger;
- only one entry per child will be eligible; and
- online entries must be received no later than April 30, 2017.

In the event of duplicate winning names, the first entry received will be accepted.

Winning names will be chosen by instructors of the RCMP Musical Ride Branch. Contest winners will be announced in May, along with the foals' names, on the RCMP website. Winners will receive a number of great RCMP prizes such as a 2017 Musical Ride pennon, a framed picture of the foal, a t-shirt and pins.

Children are encouraged to submit their entries on the Internet at: <http://www.rcmp-grc.gc.ca/mr-ce/foal-poulain-eng.htm>.

If you prefer, send your entry by mail (including school entries), but ensure it is post-marked no later than April 26, 2017 to:

SIMPLE MAINTENANCE PROJECTS TO KEEP CARS RUNNING SMOOTHLY

One of the ways to keep vehicles running strong for years on end is to adhere to the manufacturer's recommended maintenance schedule. Although there are many factors drivers cannot control, including recalls, weather and road conditions, proper maintenance is something drivers can control, and maintaining a vehicle can be very simple.

Oil Changes

Motor oil lubricates the engine and keeps it in good working order. Old oil becomes more viscous and can lose its efficacy. While changing motor oil is important, motorists should follow the owner's manual or the factory maintenance schedule regarding how often it needs to be changed, as all vehicles are not alike. The old myth that cars and

trucks need oil changes at set intervals has changed as digital check capabilities have evolved.

Car computers can now keep track of more than just mileage. Computers now track starts and stops and trip durations to determine when cars need oil changes.

Coolant Levels

Coolant helps prevent vehicles from overheating and also prevents the water that it mixes with in the radiator from freezing or boiling. Coolant is nearly as important as motor oil in vehicle maintenance. Coolant is typically comprised of a 50/50 mix of distilled water and antifreeze. These two substances work together to maintain a proper ratio of heat energy and prevent eventual breakdown and destruction of the

engine.

Coolant is usually changed once per year or at 30,000 miles. This keeps the coolant working properly and will help prevent corrosion and deposits from forming inside the cooling system. Coolant levels might be checked during a full-service oil change appointment.

Check Battery Contacts

Many modern car batteries do not require a lot of maintenance. However, one problem that may occur is a buildup of minerals or corrosion from leaking battery fluid on the contacts. In such instances, use a battery cleaning brush to clean the contacts and then replace the cables.

Tire Maintenance

Properly inflated, balanced and rotated tires make for a smooth,

safe ride. Check that tires are wearing evenly and that the vehicle is not pulling to one side. A lack of tread on tires requires they be replaced. Because tires can be expensive, many drivers put off routine tire maintenance. But this can be a costly mistake. Tires that are worn or not properly inflated can cause skidding, problems braking and accidents. Blowouts also may occur, putting drivers, their passengers and fellow motorists in danger. It's best to be proactive with regard to tire maintenance.

Maintaining a vehicle in adherence to manufacturer guidelines can prolong the life of the car, improve its safety and increase its trade-in or resale value.

FUEL EFFICIENT CARS, TRUCKS AND SUVS

Automobiles impact the environment in various ways. According to National Geographic, cars consume a lot of energy even before they make long road trips, with perhaps 80 to 90 percent of their environmental impact stemming from fuel consumption and emissions. These factors can increase air pollution levels and create greenhouse gases that contribute to climate change.

With this in mind, eco-friendly motorists are increasingly purchasing vehicles with smaller carbon footprints. These include makes and models that have stricter emissions control and vehicles that are more fuel-efficient. Hybrid or electric cars can often drive further before fueling or recharging than less efficient models.

When shopping for new or preowned vehicles, individuals can research cars and trucks that have earned high marks for fuel economy. Various organizations, including the U.S. Department of Energy, Consumer Reports and Kelly Blue Book, routinely rank vehicles based on gas mileage figures and emissions ratings. Eco-friendly cars are beneficial for the environment, and such cars also help drivers' bottom lines.

In 2016, Consumer Reports looked past U.S. Environmental Protection Agency figures and the claims offered by manufacturers with regard to vehicles noted for their fuel efficiency. Consumer Reports measured precise fuel-flow with a device spliced directly into the fuel line. Testing occurred on both a public

highway at 65 mph, as well in a simulated urban/suburban track. Consumer Reports has identified these vehicles as their top picks for energy consumption.

- **Mitsubishi Mirage:** In the subcompact division, this vehicle features a fuel economy of 37 mpg. With its very low sticker price, it can be a smart choice for eco- and budget-conscious buyers.

- **Volkswagen Jetta Hybrid:** This car marries both a battery-powered electric motor and a traditional seven-speed manual transmission. The hybrid earns an overall 37 mpg rating. It's a little bigger than many compact sedans, creating a very comfortable ride.

- **Ford Fusion Hybrid:** With an upscale look, the Ford Fusion Hybrid boasts an overall 39 mpg

and comfortable seats to go with a quiet cabin.

- **Lexus NX 300h and RX 450h:** Lexus earns top marks for fuel economy for both its compact and midsize SUVs. Both deliver an overall mpg of 29.

When ranking their picks for vehicles with high fuel economy, FuelEconomy.gov, the official U.S. government resource for fuel economy information, lists the Hyundai Ioniq Electric, BMW 13 BEV and Tesla Model S AWD- 60D as the most efficient cars. Those who prefer a truck or SUV will find the Chevrolet Colorado 2WD, Chrysler Pacifica Plug-In Hybrid and the Nissan Rogue Hybrid FWD as top contenders.

Fuel-efficient cars and trucks continue to pave the way for more eco-friendly living.

SEARCH WARRANTS LEAD TO CHARGES

**Submitted by Stony Plain/
Spruce Grove/Enoch RCMP**

2017-148604

On January 27, 2017 members of the Spruce Grove/ Stony Plain/ Enoch Serious Crimes Unit executed a CDSA Search Warrant at a residence in Spruce Grove. During the search police located cocaine, Methamphetamine, marihuana and two long barrel firearms with ammunition

that were stored unsafely.

On February 6, 2017 members of the Spruce Grove/ Stony Plain/ Enoch Serious Crimes again executed a CDSA search warrant at that same Spruce Grove residence. As a result of that search police seized Methamphetamine.

Three men from Spruce Grove are now facing several charges as a result of those investigations.

Jason SMOLSKI and Nick WITHEY have been charged with Possession of a controlled substance for the purpose of trafficking Sec 5(2) CDSA, Possession of a controlled substance Sec 4(1) CDSA x 2 and Careless use of a firearm Sec 86(1) CC x 3.

John BIBLE, has been charged with Possession of a controlled substance for the purpose of trafficking Sec 5(2) CDSA, Pos-

session of a controlled substance Sec 4(1) CDSA x 2 and Careless use of a firearm Sec 86(1) CC x 3, Possession of a controlled substance Sec 4(1) CDSA x 2, Fail to comply with conditions of a recognizance Sec 145(3) CC x 3 and Unlawfully cause a child to be drug endangered Sec 7(a) of the Drug Endangered Child Act.

BIBLE has been remanded into custody.

FARM SAFETY & HEALTH WEEK

MARCH 12-18, 2017

Keep an eye for safety

The type of safety eye protection you should wear depends on the hazards in your workplace. If you are working in an area that has particles, flying objects, or dust, you must at least wear safety glasses with side protection (side shields). If you are working with chemicals, you should wear goggles. If you are working near hazardous radiation (welding, lasers, or fibre optics) you must use special-purpose safety glasses, goggles, face shields, or helmets designed for that task.

FARM SAFETY & HEALTH WEEK

MARCH 12-18, 2017

Farm Safety Tips

When farming please follow these precautions in order to keep yourself, your family and your workers safe:

- Decrease your risk of being crushed by using lockout procedures before beginning any maintenance or repair work. Lockout means to physically neutralize all energies in a piece of equipment. Machines, devices or power transmission lines can be de-energized by applying blocks to all parts under tension or pressure, bleeding the hydraulic pressure from the lines or by releasing pressure from a coil or spring.
- Provide a safe, fenced play area for all children and supervise closely. The working area of the farm is not a playground any more than a construction site or other industrial area would be a play area. Review the safety rules on your farm with your family often. Fence off all manure, retaining ponds and dugouts, and lock buildings containing hazardous goods.

Farm Safety & Health Week

March 12th - 18th, 2017

Preventing Pinch Points

- The instant pain followed by a few days of discomfort after catching your finger in a closing door doesn't compare to the destructive force of farm machinery. A pinch-point injury can be seriously disabling and can cause amputation, or even death.
- Often pinch-point injuries are the result of workers who are not properly trained, don't realize the dangers of machinery, or who take shortcuts to get the work done more quickly, but end up injuring themselves instead. Never perform a task without proper training, by taking shortcuts, or bypassing procedures- the consequences could be serious.

SUDOKU OF THE WEEK

Fun By The Numbers

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

	1		8			2	6	
6					9			
7				5		8	3	1
					1	7		
2			7				8	3
	3						4	5
1						3		2
	7		1	3		6		
3	9			8			1	

ANSWER:

4	1	5	8	7	3	2	6	9
6	8	3	2	1	9	5	7	4
7	2	9	4	5	6	8	3	1
8	5	4	3	9	1	7	2	6
2	6	1	7	4	5	9	8	3
9	3	7	6	2	8	1	4	5
1	4	8	9	6	7	3	5	2
5	7	2	1	3	4	6	9	8
3	9	6	5	8	2	4	1	7

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
