ASSISTANCE NEEDED TO LOCATE MISSING MALE

Submitted by Edson RCMP

Edson RCMP continue to ask for the public's assistance to locate 56-year-old Tyrone Kellerman.

Tyrone was last seen at the Edson Wal-Mart on February 13, 2017 at approximately 10:00 a.m. Tyrone may be driving a dark blue 2003 Dodge Ram diesel truck with Alberta plate BFT8284. There is a general concern for his safety and well-being.

Tyrone Kellerman is described

as:

- Caucasian
- 5'9" tall
- 200 lbs.
- Brown hair
- Brown eyes with glasses
- Blue jeans
- Wearing a plaid jacket with red shirt

Edson RCMP are requesting anyone with information regarding this incident to contact them at 780-723-8822 or call your local police. If you want to remain anonymous, you can contact Crime Stoppers by phone at

1-800-222-8477 (TIPS), by internet at www.tipsubmit.com, or by SMS (check your local Crime Stoppers www.crimestoppers.ab.ca for instructions).

CANNABIS ACT – C-45

Submitted by Jim Eglinski, MP – Yellowhead

The Canadian Centre for Substance Abuse says that for youth ages 15-24, marijuana use has dropped from 33% to 24%. Programs that encourage kids to stop using marijuana have been working. Yet on April 13th the Liberal Government introduced C-45, 'Cannabis Act'. This legislation would allow adults age 18 and over to possess up to 30 grams of dried cannabis or its equivalent in public and to buy cannabis from a provincially regulated retailer. However, this legislation fails to address some very important details.

So far there has been little in-

formation on how cannabis will be taxed and how that tax revenue will be shared. Will the GST be applied to pot? Will provincial sales tax also be applied? Will there be some new sort of cannabis tax introduced that shares revenue with the provinces, or will the federal government impose its own tax and tell the provinces to do the same?

The federal government has earmarked \$9.6 million over five years for a "comprehensive public education and awareness campaign," but what will that look like and is that enough money? The Canadian Automobile Association says that level of funding "is clearly inadequate, given the misconceptions

about marijuana's effect on driving."

Furthermore, it appears the Liberal Government wants to create a pot registry, but they are not telling us how much this is going to cost. Health Canada said the system would be designed to collect information about pot products from licensed producers, distributors and retailers. The department added it would allow businesses and regulators to trace all products.

Between this month's introduction of the bill to legalize cannabis, and the 15 months it will take to pass it into law, there are a lot of questions that the Prime Minister is going to have to address.

BUDGET 2017, FAILS OUR CANADIAN ARMED FORCES

Submitted by **Jim Eglinski, MP – Yellowhead**

National defence is clearly not a priority for this Liberal government. For the second year in a row, the budget contained nothing for our men and women in uniform. Instead, the Liberals cut \$8.48 billion, which had been earmarked for military equipment purchases. Coupled with last year's cuts, the Department of

National Defence now faces a \$12 billion shortfall.

Canada needs the ability to defend itself and our allies. Recent examples, including the Liberals' decision to pull our CF-18s out of the fight against ISIS, their preference for fourth generation fighter jets, their lack of increased support for our Ukrainian allies, and their failure to advance important procurement projects, all suggest that the current

Prime Minister expects other countries to do the heavy lifting.

Instead of ensuring that our men and women in uniform have the best equipment, training, and support available, it's looking more and more likely that Canada's military will be scaled back and asked to do more with less.

I will continue to fight for the resources that our Canadian Armed Forces deserve.

EVANSBURG RCMP RECOVER STOLEN COPPER WIRE

Submitted by **Evansburg RCMP**

On April 12, 2017 Evansburg RCMP were called to assist a Yellowhead County Peace Officer with a traffic stop. The investigation discovered several hundred metres of copper wire in the rear of the suspect's pickup truck.

Lawrence Lambert Rehn, age 44 of Wildwood is charged as follows:

- Possession of property obtained by crime under \$5000, s.354(1)(a) of the Criminal Code.

- Breach of recognizance (x3), s.145(3) of the Criminal Code.

- Possession of a controlled substance, s.4(1) of the Controlled Drugs & Substances Act.

Rehn has been released to appear in court on April 24 in Evansburg Provincial Court.

The RCMP in Alberta is working

with private industry, municipal policing partners and government agencies on initiatives aimed at preventing and addressing copper wire theft.

Evansburg RCMP are requesting anyone with information regarding this incident to contact them at 780-727-3654 or call your local police. If you want to remain anonymous, you can contact Crime Stoppers by phone at 1-800-222-8477, by internet at www.tipsubmit.com, or by SMS.

JOKE OF THE WEEK

A man was speaking to God. "God, why did you make women so beautiful?" he asked. God said: "I did that to make you love them". Then the man asked: "Well, God; why did you make them such good cooks?" God said: "I did that to make you love them". The man then asked: "But God, why did you make women so stupid?". God said: "I did that to make them love you!"

OUR DEMOCRACY IS BEING CHALLENGED

Submitted by Jim Eglinski, MP – Yellowhead

The House of Commons Standing Committee on Procedure and House Affairs is debating the possibility of changing the Standing Orders. The Liberal government has signalled they want to change the rules, extensively, quickly, and possibly without the consent of the other political parties in the House of Commons.

On March 10th, 2017, Government House Leader, The Honourable Bardish Chagger, quietly released a discussion paper on possible changes to the Standing Orders. The changes proposed would give the government even more power to act in a unilateral manner while taking rights away from the opposition parties. The Government's majority in the House would allow them to change rules that in turn would

have a major effect on all Members of Parliament.

These changes will diminish Parliament and largely strip the opposition of its power to hold the Prime Minister and his government to account. This, in my view, shows a lack of respect for democracy.

I believe that any changes to our rules of democracy must allow elected representatives, a say. One party cannot overrule all the opposition parties.

In the interest of democracy, the Liberal Government should not proceed with any of these changes without the consent of all parties.

The Discussion Paper can be found at:

<https://www.canada.ca/en/leader-government-house-commons/services/reform-standing-orders-house-commons/2017/march.html>

WHAT DOES THE 2017 FEDERAL LIBERAL BUDGET SAY TO SENIORS?

Submitted by Jim Eglinski, MP – Yellowhead

For the first time, the number of seniors in Canada exceeds the number of youth. Right now, one in six Canadians is a senior. In 12 short years that number will be one in four. You would think there would be something in the 2017 Budget for our seniors. Dis-

appointingly, there is not!

Instead, Budget 2017 is hiking taxes and making life more expensive for Canadians; it should have introduced tax measures that would have helped make life more affordable for those living on a fixed income.

There are several features in the Budget that will hurt Canadian seniors:

- Scrapping the Public Transit Tax Credit
 - Eliminating the Family Care-giver Tax Credit
 - The Prime Minister’s refusal to appoint a Minister for Seniors.
- I have presented in the House petitions calling for national strategies for seniors and palliative care. I have also presented a petition calling on the Prime Minister

to appoint a Minister of Seniors. Budget 2017 contained little more than buzzwords and re-packaged ideas. Catch-all policies with the word “senior” stamped on them are not enough to address the very real needs of our aging population. This budget begs the question - why are Canadian seniors being ignored by the Prime Minister?

MP JIM EGLINSKI PARTICIPATES IN THE DEBATE ON THE ROLE OF CO-OPERATIVES

Submitted by Jim Eglinski, MP – Yellowhead

On March 24, MP Jim Eglinski, Member of Parliament for Yellowhead, was pleased to participate in the debate on the role of co-operatives, (Motion 100).

This motion proposes that the government recognize the important role that co-operatives play in the economy and ensure

that they continue to thrive by taking concrete steps in developing a federal co-operative strategy to promote and support Canada’s co-operative sector through consultations with provincial/territorial, Indigenous communities and co-operative groups. The motion also proposes that periodic reports be provided on a pre-established goals and targets.

During the debate, MP Eglinski

stated:
“Housing co-ops make a valuable contribution to affordable housing, providing lodging to approximately 250,000 Canadians. In fact, our previous Conservative Government worked with all governments and Indigenous groups to develop and implement affordable housing solutions by committing close to \$2B to build new units and repair and update

existing social housing. This is why a renewed commitment from the federal and provincial governments to support affordable housing for low-income residents in co-ops and other housing communities is necessary. All Canadians should have a reasonable opportunity to own their own home, and have access to safe and affording housing” concluded MP Eglinski.

MLA UPDATE ON HIGHWAY 628/779

Submitted by MLA Erin Babcock, Stony Plain Constituency Office

Every year when the provincial budget is released Alberta Transportation publishes its three-year Provincial Construction Program that lists every capital project the department is planning to build, or start building, within that timeframe. The list published with our government's release of Budget 2017

includes projects for Highway 628 and Highway 779.

I have worked closely with Transportation Ministry office and I have heard from many of you that you are eager to see these projects move forward. I know from my own commute that these roads have long been in need of repair and issues have gone unaddressed for many years.

I am happy to share our government is planning to start re-

construction and widening of Highway 779 in 2017, between 47 Avenue and Highway 628. The folks at Alberta Transportation are working on final details of the tenders for these contracts so the work can get started this year.

As for Highway 628, the plan is to repave the section between Highway 779 and Golden Spike Road and upgrade the intersections as well. Timeline for the start of this project has yet to be figured out, but we will see some progress on Highway 628 soon.

We're planning to build these projects because our government is focused on making life better for Albertans like the residents of Stony Plain. Road projects like these improve safe connections between communities, support jobs in the construction

sector and improve economic vitality by making it easier for people, goods and services to use our highway system more efficiently.

Budget 2017 invests more than \$3 billion over four years for these kinds of highway projects across Alberta. This investment is part of our overall Capital Plan to build Albertan's economy while protecting essential services and improving access to them.

For more information please visit our Budget 2017 web page: <https://www.alberta.ca/budget.aspx>

For more information on Alberta Transportation's 2017-20 Provincial Construction Program, please visit <http://www.transportation.alberta.ca/614.htm>.

PARLIAMENT UPDATE – WEEK OF APRIL 10, 2017

Submitted by Jim Eglinski, MP – Yellowhead

Last weekend I had the pleasure of attending the Rocky Mountain House Agricultural Society’s “Salute to Agriculture” Banquet in Leslieville. At the event, we recognized the achievements of our local farmers and agricultural community.

It was a short week in Parliament due to the Easter holiday. The following was debated in the House:

- Bill C-17 – An Act to amend the Yukon Environmental and Socio-economic Assessment Act and

to make a consequential amendment to another Act (Second Reading)

- Bill C-224 – Good Samaritan Drug Overdose Act (Consideration of Messages between the Senate and the House of Commons)

- Bill C-243 - National Maternity Assistance Program Strategy Act (Instruction to Committee)

- Bill C-308 – An Act to provide for the incorporation of the Canadian Broadcasting Corporation and to make consequential amendments to other Acts (Second Reading)

- Question of privilege (denial of access of Members to the Parli-

mentary Precinct raised on March 22, 2017)

On Tuesday, I gave a speech and commented on gender equality for women. You can watch the speech on my Facebook page (www.facebook.com/jimeglinski.mp/) or read it on the corresponding day’s Debates Hansard at: www.parl.gc.ca/HouseChamberBusiness/ChamberHome.aspx

On Wednesday, activist and Nobel Peace Prize winner Malala Yousafzai addressed Parliament after receiving an honorary Canadian citizenship. Originally, she was to be presented the honorary citizenship in 2014, but the October ceremony was cancelled

due to the deadly Parliament Hill attack.

In the Standing Committee on Environment and Sustainable Development (ENVI), we continued our review of The Canadian Environmental Protection Act, 1999. For more information on these meetings, visit: www.parl.gc.ca/Committees/en/ENVI

This week, I attended seven meetings and five events. I will be in the riding this weekend for Easter and the next two weeks, as the House will not be sitting. My next update will be on my travels throughout our beautiful constituency of Yellowhead.

HELP FOR SENIORS TRAVELLING TO MEDICAL APPOINTMENTS

Submitted by Tim Chu, Seniors and Housing | Government of Alberta

Improvements to the medical trip benefit will help low-income

seniors who travel from rural or remote areas of the province for treatment or care.

Budget 2017 invests an additional \$550,000 to help low-income seniors cover costs, like transpor-

tation and accommodation, associated with travel for specialist medical appointments.

The following changes to the Special Needs Assistance medical trip benefit will be effective July

1, 2017:

- Overnight accommodation support increases from \$75 to \$100.

POSITIVE HABITS LAST A LIFETIME

Submitted by Alberta Health Services – used with Permission from Apple Magazine, Spring 2017

When parents and other caregivers have healthy eating habits, that's what children learn.

The eating habits children learn in their early years (birth to six years) last a lifetime. From a young age, we start to learn about food and eating by watching others. When parents and other caregivers have healthy eating habits, that's what children learn.

Ellen Parker's two boys Henry, 3, and Oliver, 5, are learning about healthy foods and healthy eating. She regularly gives them foods such as smoothies with spinach and quinoa and she grates vegetables onto pizzas and into veggie burgers. "They don't even know that they're eating healthy food," she says.

Here are other ways to make healthy eating a habit in your family.

Offer three meals and two to three snacks a day at regular times. Knowing when they'll be eating next helps kids feel safe and keeps them from wanting to eat throughout the day. If your child refuses to eat during a meal and asks for a snack 20 minutes later, it's okay to say no. Simply let them know they need to wait until the next meal or snack time.

Offer new foods often. It can take 15 or more tries before your child accepts a new food. Try offering small amounts of new food at the start of meals when your child is most hungry. Include food that your family likes to eat along with new food prepared in different ways.

Offer choices. Try serving your family a variety of colourful vegetables, fruits and other healthy food, and let your child pick their own food from what you serve. Encourage them to take small amounts at first, and offer more if they are still hungry.

Think beyond a single meal or snack. Once in a while your child may eat little or nothing at a meal or snack. This is natural. Over time, children usually adjust what they eat at other meals and snacks.

If your child won't eat meat and alternatives. You could offer different types of fish, poultry and lean meat. You may need to offer them many times and prepare them in different ways. Other tips: try soft meats such as ground meat or poultry, or dice meat into small bites that your child can easily chew. Meat can also be more appealing when you add it to soups,

stews or tomato sauces. And you can offer other sources of protein such as tofu, beans and legumes, or fish.

If your child won't eat vegetables, you can try these tips. Add vegetables such as carrots, zucchini and beets to soups, stews, casseroles, stir fries or sauces. Cook vegetables to different textures and tastes—such as raw or lightly cooked.

If you're worried your child is not getting enough nutrients, talk to your healthcare provider. For more tips, visit healthyparent-shealhychildren.ca.

LAC STE. ANNE COMMUNITY CHOIR SINGS FOR SPRING

Submitted by Jean Moses | Lac Ste. Anne Community Choir

Members of the Lac Ste. Anne Community Choir, under Director Debbie Rosen and with help from accompanist R.J. Chambers, have been polishing a wide range of popular, ethnic and classical harmonies to celebrate spring.

"The notes are there, but now we need to create the music." Once members hear comments like that, they know the finishing touches

are going on, just in time for the 2017 spring concerts of this popular group. This season, songs range from a well-known country ballad to Scottish traditional to classic choral pieces.

In what is quickly becoming an annual tradition, St. Johns Anglican Church in Onoway (4803-50 St.) hosts the first season performance at 7 p.m. on Wednesday, May 10. Admission is \$15, with children 17 and under free. Tickets are available at the door.

On Wednesday, May 17, the

choir will entertain residents at the Chateau Lac Ste. Anne Seniors' Centre (5123 49 Ave.) in Onoway. This 6:30 p.m. performance is an annual gift of music to the Chateau Lac Ste. Anne residents from the choir.

The popular group will also entertain at the Barrhead United Church at 7:30 p.m. on Wednesday, May 24, and at the St. Andrews Church in Spruce Grove at 7 p.m. on Saturday, June 3.

The Lac Ste. Anne Community Choir is open to anyone over

18, whether experienced singers or not. Since it began, the choir has grown from an original five members to over 55 singers. There are no auditions, and there's no need to read music or have choir experience. All a member needs is a love for singing, and a wish to meet other like-minded people. The next season will begin after Labour Day. Watch for details in August.

Questions? Call Eunice at 780-892-3159 or Judey at 780-924-3478.

Help For Seniors Travelling To Medical Appointments

Continued From Page 8

- Minimum travel distance is reduced from 100 to 80 kilometres round-trip in order to qualify for the benefit.

- A one-time benefit of \$85 is provided to help with medical transport costs for a resident mov-

ing from a long-term care facility to another care facility.

- Increased funding is available for seniors who travel more than 400 kilometres to their appointments.

"Seniors built our province and they deserve to retire in dignity. Our government is making life better by protecting and enhanc-

ing seniors' benefits. Today's announcement will help seniors afford to get the care they need." - Lori Sigurdson, Minister of Seniors and Housing

"Our council supports the enhancements to the medical trip benefit and applauds the government's commitment to providing greater supports to rural seniors

who must travel to larger centres for care." - Fred Olsen, president, Alberta Council on Aging

Quick facts

- Seniors may apply for up to \$5,000 per year in medical trip benefits.

- Approximately 1,800 seniors receive assistance each year for medical trip benefits.

EFFICIENCY REBATES SUPPORT HOME IMPROVEMENTS

Submitted by Brent Wittmeier, Environment and Parks | Government of Alberta

A new Energy Efficiency Alberta program will support homeowners and local Alberta contractors through rebates for insulation, tankless hot water heaters and windows.

Beginning April 28, rebates of up to \$3,500 will be available for eligible home improvement products, including insulation for attics,

basements and above-grade walls. Tankless hot water heaters (ENERGY STAR® certified) and triple glaze (low-e, argon) windows will also be available.

To qualify, homeowners must select from a list of Alberta-based registered contractors on efficiencyalberta.ca to install eligible products. Contractors will guide homeowners through the application. Rebates will go directly to the homeowner once each project is complete.

“Energy efficiency makes life more affordable for Albertans. It also creates good jobs. The Home Improvement Rebate will make a practical difference for Alberta families while supporting local contractors and helping to diversify our economy.” - Shannon Phillips, Minister of Environment and Parks and Minister Responsible for the Climate Change Office

“An efficient home is a more comfortable and affordable home. As the Residential Retail Prod-

ucts Program gets fully underway, Albertans will have many opportunities to invest in a wide range of efficiency products to improve their own homes.” - Monica Curtis, CEO, Energy Efficiency Alberta

Contractors who wish to be added to the registry can apply at efficiencyalberta.ca. They must complete a short training course and meet the following criteria:

- be a legally registered business in Alberta
- have current liability insurance
- have current Workers’ Compensation coverage

“All Weather Windows is thrilled to be participating in the Alberta Home Improvement Rebate program. Programs like these are beneficial for Albertans, helping them make informed decisions about energy-efficient products while also saving money on energy costs.” - Richard Scott, president and CEO of All Weather Windows

“During these challenging economic times, companies and households have to focus their spending. Programs like this will help Albertans become more efficient while supporting local businesses. We can’t wait to get started.” - Francis Gough, SuperGreen Solutions Western Canada

The Home Improvement Rebate is one part of Energy Efficiency Alberta’s Residential Retail Products Program, a \$24-million program providing opportunities to purchase energy-efficient appliances and products. More details on other products in the program will be coming soon.

Quick facts
There are three components to Energy Efficiency Alberta’s Residential Retail Products Program:

- Home Improvement Rebates: You can buy eligible products and have them installed by a certified contractor to receive rebates.
- Online Rebates: You will be able to buy qualifying clothes washers, refrigerators and smart thermostats, and apply for rebates online.
- Instant Rebates: You can receive instant point-of-sale rebates on eligible products, such as LED lights, programmable thermostats, water-saving devices, smart power strips and heavy-duty timers.

DARWELL PUBLIC LIBRARY APRIL NEWS

Submitted by Sandra Stepaniuk, Library Manager | Darwell Public Library

Registration is open for Standard First Aid/Level C Refresher being held at the Darwell County Services Building on April 30, 2017 from 8:00 am to 4:30 pm. The cost is \$ 30.00 per person with a minimum of 8 and a maximum of 18. You must produce your unexpired current First Aid Certification. Light refreshments will be supplied but you must bring your own lunch. Pre-registration is required prior to April 27, 2017. For further information and to pre-register please contact the library.

The colouring club continues daily, during regular library hours, for patrons of all ages. This program is self-directed, we supply the materials you supply the inspiration and fun. We encourage you to ask about our programming and provide ideas for what you would like to see in the library. We look forward to hearing from you.

Wondering what to do with all those items from your spring cleaning? We continue our fundraising efforts to complete the new library expansion. We are currently doing a Value Village donation drive and are looking for your used clothing, shoes, accessories, books, linens and small household items (small items only no furniture). You can pick up a list of acceptable items at the library or find the complete list on our website or facebook page. You can drop off your donations at the library expansion starting

on Mondays and Tuesdays, during regular library hours until May 30, 2017. Should these times not work for you please contact the library to make alternate arrangements.

Spring is here and we are opening the green shed behind the library for our used book sales. Drop by on Tuesday afternoons from 1 to 4 pm. We encourage you to drop by and peruse the titles, take what you want and leave a donation of your choosing. All money received will go directly towards the completion of the library expansion. See you there!

The next Book Club meeting will

be on Monday May 1, 2017 at 7:00 p.m. to discuss "The Tea Girl of Hummingbird Lane" by Lisa See. Do you love to read? Do you like to discuss what you have read with others? We are always interested in a new perspective to add to our conversation. If you are interested in participating you can register and make arrangements for loan of the current title by calling the library @ 780-892-3746.

Beginner Tai Chi at the Darwell Centennial Hall continues Wednesday and Friday mornings from 10 to 11 am and will continue until May 31, 2017. The class is now

full, no drop ins. If you were unable to attend this session please let us know, we have a sign-up sheet at the library and if there is enough interest we would consider holding another class in the future.

The Library is open 11:00 am to 4:00 pm on Monday, Tuesday and Thursday and from 5:00 pm to 8:00 pm Wednesday and Friday, closed Saturdays, Sundays and Holidays. You can also find out what is happening at the library by checking our Website www.darwellpubliclibrary.ab.ca or like or follow us on Facebook at www.facebook.com/DarwellPublicLibrary

BETTER QUALITY OF LIFE

and a money saver, too!

You can immediately see and feel the difference Elite makes to the quality of your water and the quality of your life. With Elite conditioned water, you and your family will look and feel better - with noticeable glowing complexions and soft, shiny hair.

Beautifully soft, dazzling whites and brilliant colors will replace the rough, matted clothing and towels your hard water previously produced.

Even housework is less of a chore as conditioned water leaves no bathtub ring, scummy film on shower stalls or unsightly spots on glassware, dishes and fixtures.

Your Elite water conditioner will save you time and money, too. You'll spend significantly less on detergents, cleaning products, conditioners, creams and personal grooming products. In addition, your plumbing fixtures and appliances will be protected against costly repairs or premature replacements.

QUALITY SALES & SERVICE OF:

- DISTILLERS

"We're recommended the MOST as the company that knows the MOST"

KEEPING YOU AND YOUR COMMUNITY INFORMED!

'COME BE OUR GUESTS!'

Submitted by Nikki Gilks, Manager, Communications Services | Grande Yellowhead Public School Division

Niton students thoroughly enjoyed getting into character as well as demonstrating their cooking skills as they dressed up as 'mouseketeers' for this year's school restaurant "The Mickey Mouse Clubhouse". Twenty-one Grade 6 students along with their teacher Thomas Meier, organized this year's annual fundraiser where students practiced their entrepreneurial skills in setting

up a restaurant in the school. They chose the theme, name, and how they would like to decorate the Science lab into an 'one of a kind' eating establishment. Students created sculpturing masterpieces using platercine, paper mâché, and even brought out the 3D printer to create some great works of Disney magic. The students selected the movies to play during the restaurant's operating hours, made themed t-shirts to wear and even wore Mickey Mouse ears as fun props. "Once again, our kids worked very hard and the experience provid-

ed them with a great mixture of project-based learning with developing real life skills," noted proud teacher Thomas Meier. "Our annual restaurant raises funds for our year-end field trip but we also take 10% of the net proceeds and the students decide which charities they wish to support. This year the students raised \$1,763.70 and chose to send 5% of the proceeds to STARS and 5% to the Alberta Cancer Society."

The students were also given the responsibility of running the restaurant as its hosts/hostesses,

cooks, accountants and taking pre-orders from different classes. The restaurant was open during the lunch hour during the first week of March and students flipped burgers, stuffed tacos in bags, dished out bowls of poutine, and scooped up yummy floats to name just a few of the more popular menu items. Meier continued "This year's fundraiser was an amazing success thanks to the great support from everyone in the community and beyond who came out to 'be our guest!'"

KEY MESSAGES FROM GYPSD PUBLIC BOARD MEETING

Submitted by Nikki Gilks, Manager, Communications Services | Grande Yellow-head Public School Division

April 19, 2017

Capital Projects Update

Facility Services provided their regular updates to the Board on two current capital projects in the Division: the modernization project for Grande Cache Community High School (GCCHS) and the new replacement school in Edson, Mary Bergeron Elementary.

GCCHS: All of the interior finishing work is near completion and the installation of the gym flooring and polished concrete floor has begun. The next two weeks will mostly consist of close-out items and training for staff and maintenance personnel. We are targeting the end of April for substantial completion of this project with only seasonal work remaining, dependent on weather conditions.

Edson: The concrete slab in the east wing has been poured and interior block walls are almost complete. The west wing and gymnasium have

been hoarded in. The contractor is targeting the first part of May to have the building completely enclosed and all concrete slabs poured. An inspection of the modular classrooms was conducted on March 24th and it is anticipated that the new modulars will be picked up around the end of April and stored at lot in Edson prior to installation on the school site.

Other News in Brief

• May 1-5 is Education Week which is celebrated throughout Alberta. This year's theme is 'Learning is a Journey' and schools across the

division have several activities and presentations planned. A full listing of events will be posted on the division's website but everyone is encouraged to contact their local school for updates as more events continue to be added.

• Dual credit opportunities for students continue to expand as the program enters its third year at GYPSD. Partnering with Grande Prairie Regional College and local employers, high school students are able to enrol in first year college courses while attending high school to earn credits at both institutions. Currently twelve students from four high schools have enrolled in power engineering, oil and gas petroleum operator, medical terminology, or psychology courses under the Dual Credit program.

• An update on GYPSD's participation in the province's High School Redesign Pilot Project was provided to trustees. High School Redesign is an evolving project initiated by the Alberta Education designed to transform the high school experience for students, teachers, administrators, and parents. It focuses on nine key pillars that are meant to engage students in their learning experience by developing meaningful relationships, personalizing learning, ensuring flexible learning environments in a welcoming, caring, respectful and safe setting. It stresses the importance of home and community involvement, mastery learning of a rigorous and relevant curriculum, best assessment practices, and empowers teachers to seek professional development to improve their pedagogy.

• The 2017-18 School Calendar received final approval as well as the 2019-20 School Calendar was approved, in principle. The 2018-19 School Calendar was approved in principle in April of 2016. Divisional calendars are developed in alignment with Board Policy 18 - School Calendar which notes the number of annual instructional days to be assigned as well as when holiday breaks and non-instructional days are to be designated. Division calendars can be viewed on the website at <http://www.gypsd.ca/view.php?action=documents&id=1>.

• Trustees approved changes to Policy 12 - Role of the Superintendent including an emphasis on increasing student engagement in their learning.

• A schedule for public board meeting dates for the upcoming school year was established.

Testimonials

"Thank you for working on my horses at the CBHI 2016. They all benefited and were feeling great. The treatment I had myself was so amazing and beneficial. I was experiencing vertigo and feeling nauseous within a half an hour I was feeling so much better and my weekend was great. I did not feel tired and felt very energized. I did have a headache for a short time, a little ache in my shoulder area but that all was very short lived and did not interfere with my day. I really liked my treatment and as a massage therapist would highly recommend this treatment. Thank you Shirley." -Tanya Likes

"I have had BRUTAL sciatica and neck pain for years...chiropractic manages it for brief periods of time...I had one hour long treatment by Shirley Mazeppa and can honestly say I had no pain for weeks after!!!! Improved my mood and allowed me to have day to day tasks not be painful let alone ride!!!! SOOOOOOOOOOOOOOOOOOOOOOOOOO looking forward to my next treatment!!!!!" -Jody Poulin

"I am in disbelief, Shirley Mazeppa brought her PEMF machine to Thorsby where I was competing in a horse event. I have arthritis in both my knees and I was really feeling the hurting today. Shirley hooked me up for 40 minutes on Saturday afternoon, it's now Monday evening and I am still PAIN FREE, my knees feel great. I'll be making a trip to Shirley's next time I start feeling that pain, I won't try to handle it again. Thanks so much Shirley" -Debra Rowney

The Businesses in the following Guide can be your One Stop Solution to all your Renovation Needs!

HomeRENO

STEPS TO TAKE BEFORE AN APPRAISER'S VISIT

Homeowners unfamiliar with the appraisal process might not know if there is anything they can do to make the process go more smoothly. While certain variables involved in the appraisal process, such as location of the home and the value of surrounding homes, are beyond homeowners' control, the Appraisal Institute recommends homeowners take the following steps before an appraiser visits their home.

- Clean the house. A dirty home that is full of clutter will not make the best impression on appraisers. Dirty homes may be vulnerable to insect infestations that can lead to structural problems with the home. While a dirty home is not necessarily an indicator of infestations or a reflection of a home's value, a clean home will create a stronger first impression with the appraiser.

- Make any necessary repairs ahead of the appointment. Homeowners who have been putting off repairs should make them before the appraiser arrives. Homes with repairs that still need to be made will likely be valued less than similar homes with no such repair issues. Though repairs can be costly, investing in home repairs will likely increase both the appraisal and resale value of the home.

- Obtain all necessary documents before the appraiser arrives. Homeowners who have certain documentation at the ready can speed up the appraisal process. Such documentation may include a survey of the house and property; a deed or title report; a recent tax bill; if applicable, a list of items to be sold with the house; purchase history of the home; and the original plans and specifications of the

home.

- Inform the appraiser about recent improvements. Homeowners can inform appraisers about any recent improvements to the home and the cost of those improvements. The value of home

improvements with regard to a home's appraisal value vary depending on a host of variables, but having such information at the ready can help appraisers make the most informed appraisal possible.

PAINT YOUR HOME'S EXTERIOR LIKE A PRO

Painting is an inexpensive way to transform just about any space. Many people paint the interiors of their homes, but home exteriors also can undergo dramatic makeovers with

fresh coats of paint. Timing the job right and heeding some tips from professionals and do-it-yourselfers who have tread the painting path before you can make the job go smoothly.

Consider the time of year. Consider local weather patterns and forecasts when planning an exterior painting project. Choose a time of year when there is little rain and low humidity, such as autumn. Keep in mind that the paint will require a couple of days to dry completely and cure, and that can be difficult in damp weather. Don't hamper the final outcome with poor timing.

Prepare the painting surfaces. Resist the temptation to start painting straight away. Paint may not adhere to unprepared surfaces, and dirt and other debris may show through and mar the finished product. Repainting a home's exterior will likely involve removing peeling or chip-

ping paint prior to making your first strokes. Wear protective gear when scraping, sanding or brushing old paint, as such tasks can generate dust that can be dangerous to inhale, particularly if the old paint contains lead.

Employ a chlorine bleach solution to kill any mildew and to scrub any dirt from the house. In addition, repair any cracks or imperfections. For example, if you're painting stucco, you may have to fill in any pitting or holes. Use this opportunity to inspect caulking around windows and doors. Recaulk as needed to seal up drafty areas or those that may cause water infiltration prior to painting.

Paint Your Home's Exterior Like A Pro

Continued From Page 20

Prime and cover stains

It may be a little extra work, but apply a quality primer as the first coat to hide any imperfections, such as wood knots or discoloration from weathering. Primer provides a smooth, even surface upon which to put your paint color. Once you have applied the primer, test your paint color in a small, inconspicuous spot to see how the color looks in the daylight. You do not want to paint the entire home only to find out you dislike the color.

Try these painting techniques

Rent a paint sprayer for large surface areas. The sprayer will

produce a more uniform application and is less time-consuming than painting everything with a brush or roller. Make sure you've chosen a high-quality paint, as the added expense is worth it if the paint lasts longer and coats more evenly. Also, if you have purchased multiple cans of paint, mix them all in one large bucket to ensure the same color; otherwise, the colors may not match perfectly.

The experts at HGTV recommend working your way from top to bottom in a smooth, controlled manner, overlapping each stroke by eight inches. Trim and hard-to-reach areas should be left for brush work so you can maintain control over your tools.

If you are painting areas like

steps or staircases, consider adding a little fine-grain sand to the paint to improve traction, as paint can be slippery when wet.

If painting your home's exterior is beyond your capabil-

ities, hire a professional. He or she will get the work done in a timely manner, and you can rest assured that the job will be done correctly.

HOW TO RECOGNIZE WATER DAMAGE IN A HOME

Homes are potentially susceptible to a host of problems. While unforeseen problems can prove costly, homeowners who keep attentive eyes on their homes can oftentimes discover small problems before they escalate.

Water damage is a potentially costly problem that can afflict

any home. Old homes tend to be most susceptible to water damage, and that damage can manifest itself in various ways. The following are some telltale signs of water damage that should give prospective home buyers pause and compel current homeowners to seek professional assistance as soon as possible.

Stains

Many prospective home buyers have been disappointed by the sight of water stains during an open house or home inspection. Water stains tend to be on ceilings and/or walls. Stains on ceilings tend to be round, while wall stains are straight lines down the wall that may or may

not have forced paint to peel. Water stains are not necessarily indicative of a major problem, but homeowners should have the stains examined by a professional while potential buyers should direct their home inspector's attention to the stains.

Deteriorating wood

Wood around windows or doors that is deteriorating may indicate water problems. The wood might be deteriorating because water is infiltrating the wood during storms. Baseboards and molding that is dilapidated or beginning to deteriorate may also indicate water damage.

Buckled drywall or wood

Drywall or wood that is buckled or beginning to buckle is another potential indicator of water damage. Drywall buckles when it gets wet, and that is often a sign that there is a leak behind the drywall. Severely buckled drywall will feel as if it has ridges. Wood also buckles when it is exposed to excess moisture, and this can usually be felt when walking on the wood barefoot or in socks.

Odor

Sometimes water damage is best detected by the smell test. Homeowners who notice the smell of mold or mildew in rooms that previously never emanated such odors might have homes that are in the early stages of water problems. The water damage might be behind the walls, where mold is beginning to form thanks to water damage. Older homes tend to be musty, but call in a professional if you notice that mustiness is more pungent than usual.

Water damage is a potentially costly problem, especially if it goes unnoticed for months or even years. Homeowners and prospective home buyers should be on the lookout for signs of water damage before problems escalate and require expensive repairs.

WEATHER EVERY STORM WITH CONCRETE WALLS

(MS) - Now is the time to take a few precautionary steps toward the utmost security of your home and family in the event of extreme weather occurrences, say officials observing climate change. You may be doing so already, but recent survey findings show that most Americans are worried about the ability to cope with damage caused by severe wind, fire, and flooding. Safety is the main preoccupation, but so are the costs associated with destruction and loss.

“One answer that solves many issues is to opt for the strongest impact-resilient house available,” says Keven Rector at Nudura, a leading name in building with insulated concrete forms. “This ICF method is an advanced departure from traditional wood framing - and our design is recognized to be even more efficient. At the construction site, these compact concrete forms interlock (like Lego) to build a rock solid envelope from 4 to 12 inches thick.”

And, says Rector, this construction innovation gives homeowners far more for their investment, such as:

Walls to weather any storm - If high winds and fire are a concern, data shows that an ICF home delivers hurricane and tornado impact-resistance up to 250 miles per hour - and the fire protection rating is up to four hours.

Energy bills with a smile - Concrete walls vastly reduce air infiltration as compared to wood walls, and that is the key to lower energy consumption. This saving is even more pronounced, says Rector, if builders use the most advanced ICFs available. The Nudura design, for instance, combines two panels of thick (EPS) foam with the structural strength and thermal mass of concrete. The resulting envelope produces an energy efficiency rating as high as R-50 (compared to an average R-20 in wood structures) saving you

up to 50 percent on your utility bills.

Temperature consistency - The outside cold air easily travels through wood-framed walls, causing thermal bridging that produces drafts and chilly spots inside your home. Walls with a solid concrete core prevent thermal bridging so even tem-

peratures result throughout the house.

Better, breathable air - Mold, mildew, and toxins associated with wood structures are also diminished.

Shut out the noise - Solid concrete is an effective sound barrier. It dampens sound vibrations from outside noise such as

traffic, trains and neighborhood parties. This internal peace and quiet is a welcomed bonus.

Rock solid asset - It is generally expected that a stronger, safer, storm resistant, greener home - and one that is cost efficient with less maintenance and repair - will steadily increase in resale value.

HOW TO MAKE SURE YOUR NEW HOME IS BUILT FASTER

If you're in the market for a newly built home, you probably have a long list of requirements for your builder. Everyone's list is different, but one common element is that your new home needs to be ready quickly, or at the very least, on time. Yet we've all heard the horror stories of construction delays and families having to move out of their old homes before their new ones are ready. Fortunately, there's a way you can help ensure your home is built faster - ask your builder to use insulated concrete forms.

"A huge step forward is to replace the traditional wood fram-

ing of your house with what we call ICFs - insulated concrete forms," says Keven Rector at Nudura, a leading name in this technology. "ICF construction assures the adherence to American building codes, it takes up less shipping space, requires less manpower at the site, and the assembly is faster than wood framing. Time-strapped builders and eager homeowners benefit equally from this efficiency."

The compact ICFs are delivered to the construction site, where each form interlocks with the next to quickly assemble one strong monolithic wall.

How To Make Sure Your New Home Is Built Faster

Continued from Page 24

ICFs also do more than get you into your new home quicker - they maximize energy efficiency, reduce drafts and cold spots, form an effective barrier to unwanted outside noise, and make your home less prone to mold. In addition, homes built with insulated concrete wall systems are more environmentally friendly and disaster-resilient.

“Our advanced design combines two panels of thick (EPS) foam with the structural strength and thermal mass of concrete,” Rector explains. “The resulting envelope immediately gives

your house hurricane wind-resistance up to 250 miles per hour. Concrete walls also deliver an energy efficiency rating as high as R-50 (compared to an average R-20 in wood structures), saving you up to 70 percent on utility bills. With the concrete option, countless trees remain untouched and with lowered energy consumption and less tapping of natural resources every day, imagine how much your house will contribute to recapturing a sustainable environment over the years.”

If you want your builder to use ICFs, be sure to discuss it early in the plans. Find more information online at nudura.com.

We're here for your next home & building project.

Obituaries

Edward Norman Johnsen
June 29th, 1936 – April 22nd, 2017
On Saturday, April 22, 2017, Edward Johnsen of Drayton Valley passed away peacefully at the age of 80 years.

Ed leaves to cherish his memory, his wife of 54 years, Kay-Ellen, their children; Troy (Davina), Cheryl, David (Amber), and Andrew (Nicole), seven grandchildren; Meghann, Kylee (Frank), Katelyn (Chris), Sarah, Bethany, Sienna, and Harper, two great grandchildren; Mya and Brynn as well as numerous dear family and friends.

Ed was predeceased by his father Sigurd Johnsen, mother Toby Renner, stepfather Adolph Renner, his brother Larry Renner and his granddaughter Ashley.

Funeral Services will be held on Friday, April 28, 2017 at 1:00 pm at the Entwistle Community Church with Interment to follow at the Entwistle Cemetery.

If friends so desire memorial donations may be made to the Drayton Valley Health Services Foundation, 4550 Madsen Ave, Drayton Valley, AB T7A 1N8.

SUDOKU OF THE WEEK

Fun By The Numbers

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

6	9			5				2
			6				7	
	4	7		8	9	1	5	
	2	4			8			7
	8		4		3	2	1	
			7	6		5	8	4
			8				9	
	3				1	7	6	
	6	8	5	3	7	4		1

ANSWER:

6	9	3	1	7	5	8	4	2
8	5	1	6	2	4	9	7	3
2	4	7	3	8	9	1	5	6
5	2	4	9	1	8	6	3	7
7	8	6	4	5	3	2	1	9
3	1	9	7	6	2	5	8	4
1	7	2	8	4	6	3	9	5
4	3	5	2	9	1	7	6	8
9	6	8	5	3	7	4	2	1

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
