## 17 CHARGES LAID AGAINST 2 MEN IN STOLEN VEHICLES

Submitted by Evansburg RCMP

Entwistle, Alberta – Evansburg RCMP have laid 17 charges against two men following suspicious vehicle complaints in the rural area near Entwistle.

On April 30, Evansburg RCMP responded to a complaint of suspicious vehicles and a collision on Range Road 110. A witness reported that two vehicles were blocking a driveway to a rural property and that the vehicles were driven in a dangerous man-

ner that resulted in a collision with a witness's vehicle. The witness was treated for a minor injury sustained in the collision. Both vehicles sustained minor damage. The suspect vehicles fled prior to police arrival and were not located that night.

On May 1, 2017 Evansburg RCMP were called to another report of suspicious vehicles blocking the driveway of a rural property on Township Road 534. RCMP members responded and located two separate vehicles with drivers inside. RCMP

members determined both vehicles, a black 2005 Ford F-250 and a black 2006 Ford F-250 were stolen. Two adult males were arrested without incident.

Through the course of the investigation, it was determined that the two men and the stolen vehicles were also responsible for the incident on April 30th.

Zane Curtis Bronson, age 30 of No Fixed Address is charged as follows:

## NEW PROJECTS IN THE STONY PLAIN AREA TO SPUR JOB CREATION

Submitted by Jean-Marc Prevost, Press Secretary, Economic Development and Trade | Government of Alberta

The Alberta government is helping communities create jobs and diversify their local economy through the Community and Regional Economic Support (CARES) program.

The Stony Plain region will benefit from \$135,350 in funding through the first CARES intake.

Stony Plain MLA Erin Bab-

cock made the announcement Friday on behalf of Economic Development and Trade Minister Deron Bilous.

“So much of Alberta’s economic strength and entrepreneurial drive is centered in our province’s smaller cities and towns. Every region in Alberta brings multiple strengths to our way of life, whether in energy, agriculture, forestry, mining, tourism or other areas. This funding will help communities with common interests tackle economic development projects that they might not have been able to individual-

ly. Through these projects, local leaders are working together to grow and diversify our economy and make life better for Alberta families.” - Deron Bilous, Minister of Economic Development and Trade

The funding includes:

- \$38,850 to Community Futures Capital Region for their Succession Matching Community Project
- \$71,500 to the Town of Devon for its Attract Investment for High-Value Job Creation project

# New Projects In The Stony Plain Area To Spur Job Creation

Continued From Page 1

- \$25,000 to the Village of Warburg to implement a Regional Economic Development Strategy

The projects will deliver workshops and webinars to engage Alberta entrepreneurs and expand the capacity of Alberta businesses, help diversify the

local industrial base and design a roadmap to a net-zero energy future.

Such initiatives are designed to drive economic development, tourism and job-creation opportunities.

Following the first CARES application intake in 2016, the program evaluated 88 applications from regions and communities, representing approximately

ly \$10.5 million in requested grants. These projects are among many throughout the province receiving support through the first intake of the CARES program.

The second intake for the CARES program is now open and runs until May 31, 2017. Eligibility criteria and more information on how to apply are available at [jobsplan.alberta.ca](http://jobsplan.alberta.ca).

# MENTAL HEALTH AWARENESS & COPING STRATEGIES WORKSHOP

Submitted by Stefan Felsing, Communications Coordinator | Yellowhead County

Trevor Haas, a Mental Health Promotion Facilitator from Alberta Health Services, will be speaking in Wildwood about ways to manage and help others with mental health issues whether it involves family members, co-workers or fellow community members.

Mental Health has a stigma that people do not want to talk about, but when people become aware and understand what

mental health illness is all about, then we can be more informed and help people with mental health issues find the resources they need to help deal with their situations.

The sessions will be at the Wildwood Complex, in the downstairs meeting room, on May 16, 2017, from 1:00 p.m. to 3:30 p.m.

Please register by May 11, 2017, by calling the Yellowhead County Wildwood Office at 780-325-3782 or 1-800-814-3935. Light refreshments will be served.

# GYPSED MAY SCHOOL NEWS

**Submitted by Nikki Gilks, Manager, Communications Services | Grande Yellowhead Public School Division**

Grand Trunk High School, Evansburg

May is a busy month for Grand Trunk High School. Students and staff are busy in their courses and see the diploma exam and Provincial Achievement Test season right around the corner.

The first week of May marks the beginning of Education Week, and this year, the Grade 9 students, Mrs. Klingspohn, and some parent chaperones, will be heading to Hamilton, Ontario for a YMCA exchange trip. The Hamilton students visited Evansburg at the end of February/beginning of March, and now the Grand Trunk students will be making their visit. We are very excited for our students and hope they have a wonderful time visiting Hamilton.

Some junior and senior high students at Grand Trunk will be participating in a district wide Youth Symposium on ideas for school improvement. These students were selected to attend based on a school based symposium held earlier in April.

The annual Grand Trunk Rock tour that usually runs during Education Week, has been planned for the end of May and beginning of June to align with the Harry Collinge High School Rock Band program. Students will perform in schools in Drayton Valley, Mayerthorpe, Fox Creek, Valley View, and Grande Prairie from May 31st – June 2nd.

Our Grade 8 students continue to participate in the 'It's Cool to Know Your Way in a Relationship' program facilitated by Yellowhead County. The program described in earlier news submissions continues to run on Wednesday mornings at Grand Trunk High School with a different guest presenter every week.

Evansview School, Evansburg  
 With the disappearance – and reappearance – of snow, the staff and students at Evansview are anxious for spring to show up for good! With spring comes a bundle of activities for school students. Many of our Grade 3-6 students practiced their basketball skills intently for the past 6 weeks, and were excited to show off those skills. Our school sent them off with a bang with a pep rally that showcased their newly acquired skills in action-packed series of games against the teachers in front of their peers.

Unfortunately, the scores may have been "lost" ... All three teams also did a fantastic job in their wrap-up tournament at the end of April. Evansview is very proud of all that they have accomplished, and even prouder of the volunteer expertise of our parent coaches. We are extremely fortunate to have tremendous support from our parent community! Evansview School had several presentations this month as well.

Performance First School of Dance joined us early in the month for an exciting showcase featuring many of our own students in several dance numbers. We had a magician from Motivational Magic give a wonder-

fully interactive presentation on resiliency, and the Niton Junction Jumpers demo team joined us in a brilliant kick-off to Jump Rope for Heart. Students feverishly collected pledges in a quest to serve staff members with a pie in the face if they reach their collective fundraising goals. Stay tuned

for the outcome...

At the end of April, we said farewell to our student teacher, Miss Maegen Lynch. Miss Lynch taught in our Grade 1 and Kindergarten classes, as well as worked in the Grade 3/4 classroom. We wish her all the best, and hope to see her again! May is

also the time of year where students will be challenged in their gymnastics skills. Students have been looking forward to this gym unit for a while now and the time has finally arrived!

On May 5th, all classes will be participating in a number of Aboriginal activities as part of Education Week. Many classrooms are also busy this upcoming month with field trips planned. The Grade 2 and 3/4 classes are anxiously anticipating the end of May when they will be travelling to the Telus World of Science in Edmonton. Here they will get to put their science knowledge to the test as they get to create and explore different science findings such as animal life cycles. Students will also participate in various science activities and programs brought into the school near the end of the month.

Spring brings fresh air and new life with it and Evansview School knows this fresh air will reenergize our students to continue to learn and grow this month!

## Continued From Page 6

- May 23 DiscoverE Science Workshop
- May 30 Red & White Day  
Niton Central School, Niton Junction

The year is zipping by with its usual speed and we are now in the final stretch. In the final term, we are focusing on collaborative, cross-graded and projectbased learning challenges for our students. One afternoon every few weeks, we will group our students into cross-graded groups and provide them with materials and the framework for the challenge. Then we will step back and watch as the collaboration and teamwork flourishes! Our first project was using 3 meters of tape and a stack of newspaper to create the tallest, most unique structures. Not only was this an exciting and engaging project, but the students had an opportunity to work with and learn from peers in all different grades.

They aren't the only ones that are having fun though. Our Grade 9 class is learning about government structure and politics. They held elections back in February and they have since created laws, money, a tax system, income and more, for all the junior high students. This is to help them understand political parties and how the government of Canada works. They are all fitting into their roles nicely. We may have some future politicians in our midst.

End of April, we had to say goodbye to our student teacher, Brooke Sterling. Brooke spent the last 6 weeks working with one of our wonderful junior high teachers. Brooke was a very dynamic student teacher, who taught everything from novel studies, Aztec/Spanish unit (which incorporated Aztec law and order, with some role-play of the battle between the Spanish and Aztecs), she took charge of the art/ photography option and has created some very engaging projects in social studies. She also had students create a visual version of an essay. Brooke very quickly became a valued member of our school team. We are sad to see Brooke go, but wish her all the best!

Wildwood School, Wildwood

Our annual Wildwood School Spring Tea is coming this month and this year's theme is 'Canada 150'. The choir will be presenting 'Sing Canada's History' with the help of the Grade 6 students who will be portraying the characters in the vignettes.

The occasion will be started with presentations from the Chime Team and the Grade 4/5 class. Kindergarten to Grade 3 will also be contributing presentations with our Grade 9 students performing one-minute monologues.

The Grade 4/5 class has recently partnered with a nearby school for the purpose of experiencing an exchange of culture. The students from our school will be sharing a variety of experiences with students from Mother Earth's Children's Charter School including fishing, tanning hides, as well as a day with author and order of Canada winner, David Bouchard. As an extension of their Cree language

class, our Grade 6 class will be going to Kelly's Bathtub near Hinton to experience a cultural exchange of their own.

Our primary grades will be examining the natural world down to the insects they may find in it. Soon students in K-3 and 6-9 will be participating in DiscoverE workshops bringing real world applications to the science concepts they have been exploring this school year. Division 3 students will be participating in track and field activities this month and the badminton teams are practicing preparing for games and the GYAC tournament.

Experiencing the culture of others is part of the Wildwood Advantage: Small School, BIG Ideas!

# PARKLAND COUNTY PASSES 2017 TAX RATE BYLAW

## Submitted by Parkland County

Parkland County Council has passed the 2017 Tax Rate Bylaw, which included a 2.61% increase in total property taxes for the average resident. Included in this increase are the education taxes collected on behalf of the Province. The Provincial Education Requisition for Parkland County's residential homeowner has increased by 2.95% over 2016; non-residential has increased by 15.83%.

"Our aim is to provide the highest service levels possible, while keeping the tax increases as low as we can manage," said Mayor Rod Shaigec. "We are proud to have one of the lowest tax increases in the Capital Region," he added.

"Keeping tax increases as low as possible allows for minimal impact on our residents while maximizing the service levels we are able to offer as we work towards our vision of One Parkland: Powerfully Connected," said Mike Heck, CAO.

Property taxes are calculated based on assessment values, which means properties

throughout the County will be affected differently.

An analysis of the residential market values shows a decrease on the typical property of approximately 0.15% over 2016. Non-residential properties saw an increase in market value of 2.71% over 2016.

Parkland County continues to have one of the lowest non-residential tax rates in the region.

Tax notices will be mailed out to residential and non-residential property owners before the end of May. Payment is due on or before June 30th and can be made by mail, night deposit drop-off, in person at Parkland County Centre, at any bank in

Canada, or by phone or internet banking at approved institutions.

Late penalty charges take effect starting July 1st.

**JOKE OF THE WEEK**  
 One early morning, a lady went in to wake up her son.  
 "Wake up, son. It's time to go to school!"  
 Son: "But why Mom? I don't want to go."  
 Mom: "Give me two reasons why you don't want to go."  
 Son: "Well, the kids hate me for one, and the teachers hate me, too!"  
 Mom: "Oh, that's no reason to not to go to school. Come on now and get ready."  
 Son: "Give me two reasons why I should go to school."  
 Mom: "Well, for one, you're 52 years old. And for another, you're the Principall!"

# ART GALLERY UNVEILING

Submitted by **Shayna Powell, Manager | Tipple Park Museum**

Tipple Park Museum was proud to open our new Art exhibit on April 25th in conjunction with the unveiling of Hazel Fausak's memorial bench. Several community members attended the event firstly honoring the lifework of Hazel Fausak. Hazel was instrumental in developing the Pembina Lobstick Historical Society. She dedicated fifty years of her life to her community, by assisting in documenting our collective history with the assistance of Margaret Young, Gladys Schroeder and Doris Winteler. The four women were responsible for the book, Foley Trail which describes the growth of our community from fledgling coal towns to what it is today. In honour of this inspirational woman funds were set aside to build a park bench in Hazel Fausak's memory. The bench was

lovingly made by a long-time friend, Klaus Puhlmann who volunteered to build the bench.

It was astounding to discover how many talented amateur and professional artists are residing in our county. Our gallery is graced with works by professional artists that sell their work both nation and world wide. We also have several items from the Evansburg Art Club and our local schools. There is a silent auction of some of our student's artwork to assist in fundraising for each of their schools. Thanks to all the artists that allowed us to display their work, our gratitude knows no bounds. Please stop by for a visit, take in the marvellous art and rest on our new bench!

Tipple Park Museum is open Wednesdays-Saturdays from 10:00-5:00 p.m. We house the Evansburg Farmers' Market on Saturdays from 10:00-2:00 p.m. Please contact 780-727-2240 for further information or visit [www.tippleparkmuseum.com](http://www.tippleparkmuseum.com)

# MAKING LIFE BETTER FOR SENIORS

Submitted by MLA Erin Babcock

Seniors have spent their lives helping to make Alberta the wonderful province it is today, and they deserve a government that works to make their lives better. That's why our government is supporting seniors to stay in their homes for longer, making practical changes that make life more affordable, and protecting the programs and services that they count on.

Last summer, I met Mary in Stony Plain who wanted to stay living in her family home as she aged. Mary has mobility issues, and her home needed repairs if she was to stay. With the help of the Seniors Home Adaptation and Repair Program (SHARP), launched in July 2016, she was able to make home repairs and adaptations so she could live in her home longer. She was able to repair her roof, improve her wash-room and make other necessary improvements to keep her home in good condition.

Through low-interest loans, SHARP helps eligible seniors access up to \$40,000 from the equity in their home, to be paid back when the home is sold, or at any time of the senior's choosing. Since the program was launched in July 2016, the Seniors and Housing ministry has received more than 970 applications and has provided about \$6 million in loans. SHARP is just one way our government is working to make life better for Alberta seniors like Mary.

Affordable housing for seniors is a priority for us, and so we are continuing our \$1.2 billion investment over five years, four times what the previous government had budgeted. We are beginning to address the massive maintenance deficit in seniors facilities left behind by the former government. Further, there are now over 40 major construction projects across Alberta that are building new and renovating existing seniors' housing. We have also chosen to keep the Alberta Seniors Benefit steady, because in spite of this tough economy, our government knows thousands of seniors rely on it.

Almost half of seniors in Alberta have received a rebate on the carbon levy. Further, for those seniors who live independently, they can now register for the Residential No-Charge Energy Savings Program.

Starting in April, seniors will be able to have qualified agents visit and install practical, no-charge efficiency products like LED lights, high-efficiency shower heads, advanced power bars, and self-adjusting thermostats in their homes.

We have also increased funding for home and community care by \$200 million to a total of over \$2 billion annually, which will support hundreds more home-care clients receiving personal care. This helps seniors access the services they need in order to continue to live and participate in their communities.

Our government stands by our commitment to creating 2,000 new long-term care beds across Alberta. We are well on our way to fulfilling

this promise. Budget 2017 funds the expansion of the Norwood Capital Care centre in Edmonton and the construction of a whole new facility in the Bridgeland community of Calgary. These two fully public facilities will create hundreds more spaces for seniors to access long-term care.

Any seniors who have experienced the aggressive, misleading sales pitches for furnaces or energy contracts can rest assured now that door-to-door sales of energy products is now against the law. No one should feel pressured or tricked into making a purchase on the spot. Banning these door-to-door sales is a practical change so that scammers at your doors can be charged.

These are just some of the ways that our government is working for Alberta's seniors. Through programs like SHARP and the Residential No-Charge Energy Savings Program, we are making sure seniors stay in their homes and communities longer. With affordable housing being built across Alberta and more money committed to address the former government's significant maintenance deficit, we are keeping seniors' lodges safe and comfortable. Our government recognizes the countless contributions seniors have made to Alberta, and in return we're protecting the things you count on, while working to make your lives better.

# GOLFER'S GUIDE

## TIPS FOR NEWCOMERS TO THE GAME OF GOLF

Few hobbies can be as enjoyable one moment and as frustrating the next as golf. Golfers know a great putt can be quickly followed by a bad tee shot, and maintaining their composure through the highs and lows of the game is a key to success on the links.

Maintaining that composure isn't always easy, even for the professionals. It's even more difficult for beginners, who quickly learn the game of golf involves more than just spending sunny weekend afternoons on pristine golf courses. In fact, golf can be quite demanding, and beginners would be wise to heed a few tips before hitting the course.

\* Don't commit to an expensive set of clubs right off the bat. Golf clubs can be very expensive, so

beginners should buy an affordable secondhand set of clubs so they can get the hang of what they like before spending a lot of money. Visit a pro shop and explain that you are just a beginner. The shop will likely make some valuable suggestions and might even let you try out a pair of clubs. In addition, many driving ranges allow customers to rent clubs, and this can be a great and inexpensive way to find the right clubs for you.

\* Take lessons. Even the very best at self-teaching might find it extremely difficult to become a self-taught golfer. When first trying your hand at golf, take some lessons and don't expect to be playing 18 holes any time soon. Before hitting the course, where you might be discouraged and

you might frustrate those golfing behind you, learn the fundamentals by taking a few lessons at the driving range. Learn from a professional, who won't offer you any hidden secrets to golfing glory (there aren't any) but will offer sound advice on the game's fundamentals.

\* Take the game home with you. Beginners can even take advantage of golf's vast popularity by taking the game home with them. This doesn't mean building a putting green in your backyard. Rather, purchase some instructional DVDs to learn the game during your down time throughout the week. Many golfers don't have time to hit the links during the week, but they do have time to watch some DVDs when they get

home from work. Such instructional DVDs can help you master your grip and stance, which you can then take with you to the course over the weekend.

\* Have fun. Golf is a fun game; it just takes time to hone your skills. But even if you aren't ready for the professional tour after your first few rounds, you can still have fun. Don't let some beginner's frustration, which every golfer experiences, ruin the fun of the game. Take note of your surroundings when you hit the links, and appreciate the time you're spending with your group. If the game becomes more a source of frustration than fun, then take a break and put in some more work away from the course, be it at the driving range or studying at home.

*Men's Night*  
Every Thursday Night at 5:00 p.m.  
at Pineridge Golf Resort

# GOLFER'S GUIDE

## ADJUSTING GOLF SWING GETS EASIER

Golfers rejoice! Those dreaded slices or hooks could become a thing of the distant past thanks to adjustable clubs and drivers. In addition to helping improve accuracy, adjustable clubs also lighten the load in your golf bag.

With a few twists of a wrench or even turning the shaft of the driver itself, golfers can adjust the face angle, loft and lie angle of the driver to hit the ball farther and straighter. Golfers can make small adjustments to create the right loft and improve distance without having to purchase a new club or visit a club fitter.

Many club manufacturers now offer adjustable drivers and other

clubs. According to an informal poll on Golf.com, 34 percent of the 2,337 respondents owned an adjustable driver by the end of 2011. The ability to upgrade shafts has also become popular as golfers respond to what the pros are doing.

Adjustable golf clubs enable golfers to walk out onto the course with one driver and a few different shafts. With a couple of clicks from a wrench, a person can have an entirely new driver. That cuts down on the equipment that needs to be carried and can fine tune a golfer's accuracy. These high-tech clubs are corresponding to changes being made to golf balls. En-

gineers have reduced the spin on golf balls to help the balls travel farther. To do so, golf experts advise that the ball needs to be hit higher into the air. Adjustable drivers can give players the edge they need to produce the right height and trajectory.

According to data from golf club manufacturer TaylorMade, 70 percent of consumers who use the company's adjustable drivers adjust their club at least once to get the desired shot. Afterward, 10 to 15 percent of adjustable driver users report further adjustments as they become comfortable with the features.

Although golfers can now put

adjustments into their own hands, it is still advisable to get a professional fitting regardless of which clubs are chosen. A certified club fitter can help a person sort through the myriad options available and make recommendations based on various factors, including the golf ball used.

Those who are not fans of adjustable drivers say that the adjustment mechanisms add weight to the drivers, which can compromise efficiency. However, that isn't stopping larger numbers of golf fans from taking adjustable drivers for a trial run in an effort to improve their game.

# Lawn & Garden

## SMART WATERING CONSERVES WATER AND SAVES MONEY

Summer heat can be harmful in various ways. People and pets can quickly succumb to the summer sun, which can cause sunburn, heat exhaustion and heat stroke when people and their animals spend too much time outdoors without adequate protection.

Landscapes are also vulnerable to summer heat, which can quickly spoil the most lush lawns and robust gardens. Effective watering can help lawns and gardens withstand summer heat, but improper watering can deprive landscapes of the water they need to survive. Homeowners concerned about their lawns and gardens surviving the summer can take the following approach to conserve water, save money and maintain their landscapes.

• Start early. Homeowners may

feel that the hottest times of the day are when lawns and gardens will be most in need of water, so that's the best time to set sprinklers or grab the hose and get to work. But in many areas, watering between the hours of 11 a.m. and 3 p.m., when summer temperatures tend to peak, can be both wasteful and ineffective. That's because watering between those hours will cause much of the water to quickly evaporate, robbing lawns and gardens of the water they need to withstand the heat. Homeowners who water when water is most likely to evaporate may feel they need to water more, and that only wastes water.

It's best to consult a local landscaping professional in your area to determine the best time to water each day, but in many regions the best time to

water is between 6 a.m. and 10 a.m., when temperatures are generally lower, the sun is not at its peak and winds are not as strong.

• Place sprinklers correctly. If you do not have an in-ground irrigation system and don't intend to install one, you will likely use lawn sprinklers to water the lawn. When placing these sprinklers, turn them on and then document their trajectory before moving on to the next area. You want to make sure the water from the sprinklers is not landing on sidewalks, patios or streets, especially if your community typically institutes drought restrictions that limit how much you can water. In such instances, you'll need to make the best use of the water you're allowed to use, so make sure none of it is watering the driveway.

• Let well-fed lawns go dormant during drought. Lengthy droughts tend to be accompanied by water restrictions, and such restrictions can frustrate homeowners who don't want to see all of the hard work they've put in to this point go to waste. But grass that has thus far been well cared for can withstand drought and still recover when rains once again fall and temperatures cool come autumn. If you plan to let the lawn go dormant, keep kids, pets and visitors off the grass, as dormant lawns are highly susceptible to damage.

Summer is an enjoyable time of year, but lawn and garden enthusiasts may be concerned for their properties when summer heat sets in. A few simple strategies can help lawns make it through the season unscathed.

# Lawn & Garden

## BREAK GROUND WITH THE RIGHT TOOLS

The right tools for the job can be the difference between an interminable landscaping project and one that goes smoothly and efficiently. Aspiring landscapers probably have a few shovels and rakes hanging in their garages and sheds for basic landscaping work. But while such tools are effective for certain projects, when it comes to churning soil for garden beds or digging holes for outdoor structures, additional tools come in handy. It may be well worth a trip to a nearby home center to purchase or rent one of these tools ideal for breaking ground.

### Rototiller

A rototiller, sometimes called just a "tiller," is a powered garden tool designed to loosen soil prior to planting. A rototiller also can help aerate soil during the growing season. Because they reduce

the need for manual spade digging or hoeing, tillers can be useful landscaping tools, particularly for homeowners who want to work efficiently.

Rototillers will break through tough soil and any plant roots. They come in a variety of sizes, and it's best to match the tool to the size of the job. Many homeowners can get by with smaller, less powerful models, especially if the tiller is only necessary at the beginning of planting season. Professional landscapers or those with large swatches of property may benefit from larger models.

### Auger

Augers, both mechanical and manual, are essentially large drill bits that help move materials from one location to another. Augers are typically used to cut holes in landscapes, and they are good

for post-hole drilling, which is part of the process of installing deck footings, fencing posts or other structures. Augers come in a variety of sizes, and homeowners can choose how much power they prefer. Augers can be heavy and cumbersome, and many do-it-yourselfers will find that one-person augers are more than adequate for their projects.

Augers dig deep holes, so it is always smart to have the property surveyed prior to use. This way pipes, gas lines, buried electrical lines, and any other obstructions are clearly identified prior to drilling.

### Cultivator

Cultivators are similar to tillers in that they loosen soil. Cultivators are effective during the growth period of plants, when they can be used to aerate the soil and remove

weeds. Cultivators come in hand-held versions and push models, and some are even motorized. Cultivators get close to plants to remove weeds without disturbing the plant. They also are used to stir in compost or fertilizer.

While many people think cultivators and tillers are the same, that is not the case. The former is less powerful and will mix the soil or stir up the top layer, while the latter can break up moderately hard ground and loosen firm soil.

When using any tools around the garden, wear the proper protection. This includes devices to protect hearing when power tools are in use as well as gloves and safety goggles. Tillers, augers and cultivators have the potential to toss soil and rocks into the air, so make sure others keep their distance while work is in progress.

# SUDOKU OF THE WEEK

## Fun By The Numbers

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

	4			2				3
1	2	9					8	
6		5		8		1		2
2			8	6				9
	7	4					3	6
9							4	1
3				2			7	
8	6							5
			7	5	6			

**ANSWER:**

7	4	6	1	9	2	5	6	3
1	2	9	6	3	5	4	8	7
6	3	5	4	8	7	1	9	2
2	1	3	8	6	4	7	5	9
5	7	4	2	1	9	8	3	6
8	8	6	5	7	3	2	4	1
3	5	1	9	2	8	6	7	4
8	6	7	3	4	1	9	2	5
4	9	2	7	5	6	3	1	8

**Like puzzles?** Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
