BARRHEAD RCMP AND AHS WARN ABOUT CALLER REQUESTING BREAST SELF-EXAM

Submitted by Barrhead RCMP

On Jan. 22, 2018, Barrhead RCMP and Alberta Health Services (AHS) received a report of a man calling a woman in Barrhead, claiming to be from a medical imaging facility.

The caller relays breast screening exam follow up information and advises an immediate breast self-exam must be conducted while on the phone. The caller also asks for the women's per-

sonal information.

Although AHS representatives may call to discuss a mammography details, they will never ask a patient to conduct a breast self-exam over the phone.

If you receive a phone call of this nature, please hang up, note the time and any other call details and do the following:

- Review your phone providers call trace options if available and follow the procedures
- Contact your local police right away

If you are uncertain whether the call is legitimate, you can call the AHS' Screening Program Client Support Line at 1-866-727-3926.

Barrhead and Athabasca RCMP were informed of two similar incidents in the summer of 2017 that occurred with separate women. Police are still investigating these incidents and encourage anyone who has experienced similar calls to please contact your local police.

LSACFS RESCUES LOCAL RESIDENTS

Submitted by Randy Schroeder, County Fire Chief | Lac Ste. Anne County

Through the timely response and diligent efforts of Lac Ste. Anne County Fire Services, Fire Crews responded and rescued two occupants of a home in Lac Ste. Anne County suffering from acute carbon monoxide poisoning in the early morning hours of January 14, 2018.

Lac Ste. Anne County Fire Services, East Station received the dispatch call at 06:01 and responded at 06:05. Carbon monoxide was suspected, as the caller indicated they were unable to

move. The incident took place at a home near Twp 535 and Rge Rd 20 in the County's southeast, 14 minutes drive time from East Fire Station. AHS arrived on scene slightly ahead of Fire Services and informed County Dispatch that the CO monitors thrown into the entrance had immediately gone into alarm; thus, AHS did not enter. LSAC Fire Services arrived on scene at 6:19 and immediately sent in two firefighters with self contained breathing apparatus and found two semiconscious victims on the floor of the master bedroom. These individuals were rescued and given to EMS.

The on-scene EMS supervisor indicated the respective blood gas counts of the victims - a man and a woman, were the highest in anyone he had encountered in living patients. The CO counts in the home measured by LSAC Fire Services and gas company monitors approached 800 ppm in parts of the home and 400 ppm in the bedroom; fatal with 2-3 hours of continuous exposure. Due to overnight sleeping in that environment, the victims are considered lucky to have survived, and extremely fortunate that one of them was able to dial 911.

LSACFS Rescues Local Residents

Continued From Page 1

There were no carbon monoxide alarms in the home. The victims were transported to hospital in Edmonton and treated in a hyperbaric chamber. They are expected to make a full recovery.

The Gas company determined that the boiler (which had failed its last inspection) was the source of the carbon monoxide. It was also leaking raw natural gas, causing the gas air mixture to hit the lower explosive limit while it was being investigated, necessitating the evacuation of emergency service personnel and the gas employee from the home. LSAC Fire Services immediately shut the gas supply to the home off preventing any further issues.

LSAC East Station had 4 members overnight on shift enabling immediate response to this situation with support from

incoming paid on call members as well. Firefighters Mackenzie Maidment and Josh Pare-White made the courageous rescue, supported by six additional firefighters and on-scene EMS personnel; all of whom are heroes.

This incident serves as a sobering reminder to have monitored carbon monoxide detectors in the home on every level, especially near sleeping areas (or at least battery-operated detectors for localized alarms). Gas operated cooking and heating appliances should also be checked and inspected regularly, and maintained in good working order. Lac Ste. Anne Fire Services offers carbon monoxide awareness programs and in-home inspections. To take advantage of these free programs and inspections, please contact Lac Ste. Anne County Fire Services at the main County Administration Office toll-free at 1.866.880.5722.

JOKE OF THE WEEK

A blonde driving a car became lost in a snowstorm. She didn't panic however, because she remembered what her dad had once told her, "If you ever get stuck in a snowstorm, just wait for a snow plow to come by and follow it." Sure enough, pretty soon a snow plow came by, and she started to follow it. She followed the plow for about forty-five minutes. Finally the driver of the truck got out and asked her what she was doing. And she explained that her dad had told her if she ever got stuck in a snow storm, to follow a plow. The driver nodded and said, "Well, I'm done with the Wal-Mart parking lot, do you want to follow me over to Best Buy now?"

Freedom to Read can never be taken for granted. Even in Canada, a free country by world standards, books and magazines are banned at the border. Books are removed from the shelves in Canadian libraries, schools and bookstores every day. Free speech on the Internet is under attack. Few of these stories make headlines, but they affect the right of every Canadian to decide for themselves what they choose to read.

Freedom to Read Week is organized by the Freedom of Expression Committee of the Book and Periodical Council, the umbrella organization for Canadian associations that are or whose members are primarily involved with the writing, editing, translating, publishing, producing, distributing, lending, marketing, reading and selling of written words. This annual event encourages Canadians to think about and reaffirm their commitment to intellectual freedom, which is guaranteed them under the Charter of Rights and Freedoms. There are many ways that you can celebrate Freedom to Read Week between February 25 to March 3, 2018: read a banned book, the list is available at the library or online at freedomtoread.ca, participate in community or library events about freedom of ex-

SUDOKU OF THE WEEK

Fun By The Numbers

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
