## CO2 RACES HELD AT OJSH

Submitted by Wanda Pederson | Onoway Junior Senior High School

One of the option classes of-

ferred to Grade 8 and 9 students at Onoway Junior Senior High School is Construction. Students in junior high are able to take this option for one semester

in each grade. This CTF course offers our students important learning opportunities in the field of woodworking.

## THREE VEHICLE COLLISION ON HIGHWAY 43

Submitted by Stony Plain RCMP

Gunn, Alberta – On February 3, 2018 Stony Plain RCMP responded to a three vehicle collision involving a car and two

semi tractor trailer units. One minor injury has been reported.

Highway 43 west bound between Highway 33 and Range Road 33 was impassable at the time and remained as such for several hours. Motorists were

advised to take an alternate route.

The cause of the collision is currently under investigation. An update will be provided when new information becomes available.

## SERIOUS COLLISION ON HIGHWAY 16A

Submitted by Stony Plain/Spruce Grove/Enoch RCMP

A 21 year old female from Parkland County has died as result of injuries sustained in a collision on Friday.

On February 2, 2018 at ap-

proximately 12:30 p.m., a sedan was travelling east bound on Highway 16-A when it crossed the median and was struck by a west bound pick up. The female driver of the sedan was transported to Hospital in Edmonton where she succumbed to her in-

juries on February 3, 2018. The adult male driver of the pickup was not injured.

No charges are anticipated. Our thoughts are with the involved families during this difficult time.

Names will not be released.

# CO2 Races Held At OJSH

Continued From Page 1

The program for junior high students is at a basic level and it is geared for maximum student knowledge in planning, materials, tools, work habits, safety, and the field of woodworking as a whole. Students develop knowledge and skills in the use of basic hand and power tools. They will have the opportunity to learn how to measure, cut, shape and construct projects made from various types of wood stock.

In semester 1, Mr. Eastman's two Construction 8 classes built CO2 cars as a project and in their final day of class, held races. For the project, students were first handed a very basic 'blueprint' that showed the maximum dimensions of their car. The initial piece of wood that students used to create their racer looked very much like a large wooden door-stop. They crafted it into their own design, keeping in mind

weight, aerodynamics, wheel alignment, center of gravity, etc. for maximum propulsion.

Once everyone had built their car, the students—and some staff—participated in the first annual CO2 Car Race in the gymnasium on Monday and Tuesday, January 29th and 30th. Competition was fierce and the race times were astounding!

Two cars at a time competed in a straight line, racing the length of a volleyball court—19 meters. The fastest time on Monday was Carson Bartel who, with a time of 1.049 seconds, beat Mr. Eastman's own time of 1.069 seconds. In second place to Carson was Jay Bownes with 1.170 seconds.

Next year, Mr. Eastman wants to increase the length of the track so that the effects of aerodynamics and engineering will more evident.

Special guests to watch the race included the Grade 7 classes from OES.

## JOKE OF THE WEEK

Jim asked his friend, Tony, whether he had bought his wife anything for Valentine's Day.

'Yes,' came the answer from Tony who was a bit of a chauvinist, 'I've bought her a belt and a bag.'

'That was very kind of you,' Jim added, 'I hope she appreciated the thought.'

Tony smiled as he replied, 'So do I, and hopefully the vacuum cleaner will work better now.'

# WHY WAS THIS ASSET DUMPED

Submitted by LSARA

Why was it so important to liquidate this Lac Ste. Anne County Ratepayers ASSET without a proper Policy in place as well as no Commercial Appraisal and no fair Tender Process.

Did our CAO and Councillors ensure that the County Ratepayers best interests were taken into consideration?

- 11280 Sq Ft Commercial Building
- 3 Commercial Lots
- No Recent Building Condition Reports
- No Commercial Appraisal to Determine the Actual Value
- No County Motions, Resolutions or Advertising as required by the Municipal Government Act

Do you know if this property was an Asset or a Liability because we sure don't without any Proper Due Process in Place.

LSARA DID send a letter to the CAO and to all of the Councillors in December asking if a policy for the Disposition of County Assets is in place and if not there should be one prior to liquidating any of our Capital Assets this term.

October of 2017 the County of Lac Ste Anne Ratepayers took a giant leap of faith forward and elected four new councillors. Since that time, LSARA has put forward a number of queries to the LSAC council and Administration. Some they have responded to while others they have not.

A few days ago, we told you that the OLD Administration Building had been listed and that there was potentially an offer on the building. 2500 of you viewed that post in 24 hours so that tells us that this is a HOT TOPIC. We also told you that we had asked some questions of council with respect to the listing and potential sale on December 31, 2017. Let us affirm to you, the Ratepayers that this is NOT about the building. This is about process and understanding and ensuring that our current council are being provided with recommendations and advisement in writing of their Legislative responsibilities under the Municipal Government Act.

The KEY responsibility of the CAO is very clearly defined in the Municipal Government Act as it is in the CAO Handbook for Alberta Municipal Chief Administrative Officers. Their primary role is to provide background information, conduct research, collect any other relevant facts that will assist council in decision making.

As stated in the MGA, councillors are on council to make decisions by way of resolution or bylaw. A policy is considered a standing resolution of council. A bylaw is generally enforcement related as an example for how many animals can be on a property, noise etc. Other items such as what administration can do with

something or a municipalities stance on an item can be addressed with a policy. In the matters where the MGA is not explicit, council may deal with the matter by way of resolution, which approves a policy. Confused yet? Stick with us.

"Municipalities must also follow the requirements when a bylaw, resolution, meeting, public hearing or something else is required to be advertised to the public (s.606 MGA). It is important to note that a listing does not constitute public notification. Once the property was listed, the notification was already a missed step. For example, if a municipality proposes to make a resolution to transfer or grant an estate or interest in land for less than market value, the proposal must be advertised, (s.70 MGA)" This excerpt is directly from the CAO handbook.

So, the point you ask? They ought to have known as they should have been advised that in order to sell any public asset, which the Old Administration is exactly that, an asset, there should be a Policy for Disposition. We did our research and came up with multiple County, village, summer villages that have such dispositions that instruct council on how to proceed with the disposal of an asset. We also come upon some Inspection reports from the Municipal Government and their agencies wherein they indicated that processes were inadequate for land sales as there was no policy to ensure that the municipality obtained fair market value at the time the land or land/building is sold.

LSARA did our homework and did some market comparisons for the area for a history period. In total there were only 3 sold with the Old Administration building offer accepted on Thursday making it four. One was a restaurant, one a grocery store, one a Quonset. They had varying degrees of land and varying square footage. The restaurant took 328 days to sell for \$45,000. The Grocery store took 440 days to sell for \$86,000. The Quonset was a quicker sale however has different business opportunities and some land selling for \$75,000.

The Old Administration building in Sangudo was LISTED ON DECEMBER 19 2017 at \$99,900 AFTER an offer was presented. A OFFER WAS ACCEPTED BY LSAC ON FEBRUARY 8 2018.

This parcel is 3 lots with 16 stalls for parking and an 11,280 square foot building. It is concrete block construction. It may well be that \$99,000 is all the building and the land is worth, but the point is we DON'T know!

A paper written explaining Acquisitions and Dispositions of Municipal Land by Douglas S. Christie, B.A., LL.B. is a very good read providing information indicating that every municipality is required to pass a by-law establishing procedures for the sale or other

disposition of real property. He indicates that at a minimum three important conditions of sale must exist.

- 1) The property had to be declared surplus by by-law or resolution
- 2) At least one appraisal of the fair market value of the property had to be obtained
- 3) Notice of the proposed sale had to be given to the public

They failed on all three fronts. They initially failed in their listing to disclose any problems as there was not an inspection performed.

They did not advertise that they were going to list the building and in fact have yet to deal with a Motion from November 10, 2016 (812-16) which directed Administration to proceed with a demolition plan and costs to demolish.

There is no report, no further reference as to how this building went from potentially being demolished to all of a sudden, a viable building to sell. It is important to understand that once a motion is made and passed, a new motion must be made to amend or to strike the first. We reviewed all the minutes from November 10th 2016 to current and there is no further reference. With four new Councillors, they should have been advised of this motion and the motion dealt with prior to anything else occurring with the building and land. How many other motions exist where appropriate action has not been undertaken at councils request that the new council is unaware of?

ASSET OR LIABILITY?????????

A few things we know. There were upgrades to the old administration building since the last inspection report that was completed. Things such as new furnaces, plumbing, paint. How much of the old systems that contained asbestos for example were removed, coated? How much has already been re-mediated?

On what evidence are we to be persuaded that this parcel and the building are not worth substantially more?

Some of the questions we asked and information for review we provided in that December 31, 2017 Letter in part:

1. What is the LSAC Policy for liquidation of Municipal Assets? Is it a policy that would meet today's standards and ensure no conflicts of interest in sales/leases exist as part of the policy or decision making?
2. Roles and responsibilities – Who is responsible. Council is responsible to

ensure that Administration drafts and updates policies and procedures. The planning and development manager should be responsible for implementing any policy/procedure with respect to disposition of surplus land and buildings.

3. What is the criteria for disposition process?

4. LSARA insisted that LSAC council immediately create and implement a policy for Disposal of County Assets prior to the disposal of the building. We indicated until a new policy was in place, no further action should be taken with regards to the sale or demolition of the old administration building and the three associated lots.

If the Policy that previously existed with respect to the Disposition of County Assets no longer exists, when and why was this rescinded? Which leads us to wonder, how many others potentially have disappeared? A policy is created by council resolution and can only be changed or removed by resolution of council.

These questions and recommendations made by LSARA are all based on MGA, written papers by Lawyers who work with the MGA, inspections completed by the Municipal Government of other Counties, Towns. Fair market value can ONLY be determined by way of Certified Appraisal, Not by a Realtor or a County Assessment Department.

This is your dollars we are discussing here folks. Should an appraisal determine that fair market value is the pending sale price, so be it, BUT let's make sure that we have a process, we follow the process, we provide full disclosure as part of our due diligence before we put up any County assets for sale.

LSARA will continue to advocate for the Ratepayers of Lac Ste Anne County. We would like to offer all of our past members and those seeking membership join us at our Annual General Meeting on February 20th, 2018 at 7 PM in the Gunn Hall.

WE are offering FREE membership!!!!

The current executive determined that we would offer free memberships to all of the Ratepayers of Lac Ste Anne County. We are a non-profit association and are able to provide receipts for donations. WE are mighty in numbers.

WE CHOOSE. DO WE LEAD? OR DO WE FOLLOW?

## YOUR DIY WEDDING GUIDE

As the cost of the average wedding continues to rise, it's understandable that couples ready to tie the knot may be seeking any and all ways to save money.

While some aspects of a wedding are better left to the professionals, others are prime for a little do-it-yourself cost cutting. Couples should just be sure they have the skills and resources available to handle portions of their weddings on their own. Otherwise, the cost savings may be negated by trial and error. The following are some areas that may be a good fit for couples looking to try their own DIY techniques.

- **Floral centerpieces:** While floral bouquets and boutonnieres are probably best left to professional florists, couples may want to try making their own reception table centerpieces. Such centerpieces can be simple displays of fresh flowers in vases or more intricate designs. Test out any ideas prior to the wedding. Remember to keep arrangement height in mind. You do not want to obscure the views of seated guests.

- **Cake:** Ask a pastry chef or bakery to make you a small cake that can be used for cake-cutting traditions and photo opportunities, but have your own cake available to serve. Sheet cakes are much less expensive than more intricate tiered cakes, but they can be just as delicious. Guests may not even know the difference if the cake is sliced and served out of the reception site's kitchen. Purchase the cake or make it on your own.

- **Invitations:** Professionally designed invitations can look beautiful, but not everyone has the budget for embossing or engraving and expensive paper stock. Thanks to graphic design and page layout software, computer-savvy couples can design and print their invites right from home. That makes it easy to create a new invitation if you miscounted or if you have a last-min-

ute addition to the guest list.

- **Favors:** Create favors that work with the theme of your wedding and make them yourself. These can be candles, fruit preserves, soaps, baked goods, or anything else that appeals to you. The cost of making them in bulk may turn out to be less than purchasing manufactured items.

Plus, guests get to take home something that came directly from you.

- **Video:** Enlist a friend or family member to capture the wedding and after-party on video for you. You can use video-editing software available through popular apps to piece together your own wedding video memento.

Couples about to tie the knot can become more hands-on in wedding planning and execution. By handling some of the work themselves, couples can save a considerable amount of money. A do-it-yourself approach also may foster feelings of pride in a job well done.

## PLANNING TRICKS THE PROFESSIONALS USE

Wedding planning can be an exciting undertaking, but couples who have already walked down the aisle can attest that wedding planning also can be stressful. Ensuring all of the details come out right can prove overwhelming at times.

Hiring a wedding planner is one way to alleviate some of the stress associated with wedding planning. Couples who do not have the money to hire wedding planner can borrow some of the tips and tricks professionals rely on when planning weddings.

Make guests the first priority  
Even though it may seem like weddings should be geared around couples tying the knot, many wedding planners advise couples to focus on accommodating their guests. Having a handle on the

number of people who will be attending, any of their specific needs (allergies, mobility issues, etc.), providing a comfortable environment (addressing bugs, weather, seating shortages), and knowing how much space guests will require can make choosing a venue that much easier.

Rent what you don't have  
Renting rather than purchasing items can save couples money. Wedding planners do not stockpile items such as tables, chairs and decorations. Instead, they rely on rental companies to provide what is necessary. According to Minneapolis-based professionals The Wedding Guys, even couples working with small budgets can enhance or elevate their weddings by working with rental companies.

Flush out foliage  
Wedding planners know that flowers cost a great deal of money, especially flowers that are not native to the region where couples are getting married. The process of making arrangements can be time-consuming. Also, many flowers no longer produce strong scents because they're bred for longer stems and a lengthy vase life. Interspersing potted plants with arrangements that are lighter on blooms and heavier on filler can help cost-conscious couple stick to budget.

Trust vendors' advice  
Wedding vendors tend to know one another and can be good sources of information. A wedding photographer, for example, may be able to tell couples which reception

venues photograph particularly well, and a reception manager may know which DJs or bands are best at getting guests on the dance floor.

Negotiate before signing the contract  
Wedding planners understand that vendors may be more willing to offer perks or extras rather than adding up a la carte pricing before the contract is signed. This way they secure the reservation on good will. Negotiating for more later on may be difficult.

Get organized  
Organization is key. Brides- and grooms-to-be may want to enlist friends or relatives with a flair for organization to help with details. Borrowing tricks from wedding planners can help couples save money and avoid stress.

## HOW COUPLES CAN BENEFIT FROM HIRING LOCAL WEDDING VENDORS

Local vendors are often a go-to choice when couples are planning their wedding ceremonies and receptions. As the “shop local” movement grows in popularity, weddings present a prime opportunity to embrace this movement.

Couples may have different ideas regarding where to tie the knot, but local vendors can be hired regardless of geography. Brides magazine says the biggest factor influencing wedding location is the size of the guest list and the number of people who wouldn't be able to attend if the wedding was in a particular locale. Hometowns might be the traditional choice regarding wedding location, but the XO Group says one in four couples now host destination weddings.

Once couples choose a town or city to host their weddings, they can begin exploring the benefits of working with locally-based vendors.

### Familiarity

Local vendors will be familiar with the area and possibly even the location where the wedding will be held. That can help couples avoid having to give directions, discuss venue protocols, and handle other tasks that must be worked out with non-local vendors. For example, local photographers familiar with a particular venue will know all of the best places to get shots, and some vendors may have preexisting relationships with venue representatives that could ensure wedding day operations go smoothly.

### Proximity

Local vendors can meet with brides and grooms more readily throughout the planning process, making things less stressful on the happy couple. This also makes it easier to drop off deposits, attend meetings, make fitting appointments, or attend styling sessions.

### Savings

Couples who travel for their weddings and employ local vendors will not have to pack as much. Using local vendors eliminates the need to bring along bulky dresses, decorative items, flowers, and much more. Plus, couples needn't pay to transport and house vendors brought along from

back home.

### Environment

Individuals who take great strides to conserve resources by reducing their energy consumption and protecting the environment often find that shopping local is beneficial. Local vendors are more likely to source

their materials from other local businesses, reducing their carbon footprints along the way. For example, local caterers may rely on local farmers for their foods, affording couples the chance to host eco-friendly or even farm-to-table weddings.

### Customization

Working with local vendors often translates into getting more personalized service and attention than mass retailers or merchants can provide.

Going local when choosing wedding vendors is an increasingly popular choice among couples about to tie the knot.

## BETTER QUALITY OF LIFE

*and a money saver, too!*

You can immediately see and feel the difference Elite makes to the quality of your water and the quality of your life. With Elite conditioned water, you and your family will look and feel better - with noticeable glowing complexions and soft, shiny hair.

Beautifully soft, dazzling whites and brilliant colors will replace the rough, matted clothing and towels your hard water previously produced.

Even housework is less of a chore as conditioned water leaves no bathtub ring, scummy film on shower stalls or unsightly spots on glassware, dishes and fixtures.

Your Elite water conditioner will save you time and money, too. You'll spend significantly less on detergents, cleaning products, conditioners, creams and personal grooming products. In addition, your plumbing fixtures and appliances will be protected against costly repairs or premature replacements.

**QUALITY SALES & SERVICE OF:**

- DISTILLERS
- SUBMERSIBLE PUMPS
- SEPTIC & JET PUMPS
- PIPE, WIRE & FITTINGS
- BOTTLE BUSTER (R.O. WATER COOLER)

# SUDOKU OF THE WEEK

## Fun By The Numbers

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

5		3		6				9
			2	4				6
6				1	4			3
	8	2	3					1
3		5	6				9	8
9			8	2				7
	9			2				
			1			9	8	2
	5		9	6		3	1	

**ANSWER:**

5	4	3	7	8	6	1	2	9
1	7	9	2	3	4	8	5	6
6	2	8	5	9	1	4	7	3
7	8	2	3	5	9	6	4	1
3	1	5	6	4	7	2	9	8
9	6	4	8	1	2	5	3	7
8	9	1	4	2	3	7	6	5
4	3	6	1	7	5	9	8	2
2	5	7	9	6	8	3	1	4

**Like puzzles?** Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
