"Be a Good Neighbour" Prize Winners

Continued From Page 1

All of the volunteers that were nominated will receive a toque and a pair of gloves as a thank you for their participation and kindness.

The "Be a Good Neighbour" program encourages community groups, friends and neighbours to shovel the private walkways and driveways of seniors in need and those who are not physically capable of shoveling their sidewalks. In recognition, people were able to display a sign proclaiming "I Have a Good Neighbour".

These volunteers made a difference in the community; they help their neighbours stay connected with other members of the community and keeping sidewalks clear of snow and safe is essential for emergency responders and people that assist housebound individuals.

Yellowhead County FCSS (Family and Community Support Services) are grateful for these volunteers that extend a helping hand to their neighbours. Thank you to all the volunteers and to those that nominated them.

This program will run again next year, and we are hoping for more volunteers being nominated as they make a difference in their community, connect with their neighbours and lend a helping hand. Thank you to all the "Good Neighbours."

FCSS is an 80/20 cost-shared program with the Provincial Government of Alberta and Yellowhead County.

CANADIAN FIDDLE CHAMPION SCOTT WOODS AND HIS BAND PRESENT FIDDLING UP A STORM!

Submitted by Corrine Paradis | SG & District Ag Society

Renowned Canadian Fiddle Champion Scott Woods and his All-Star Band present Fiddling Up A Storm! This uplifting 2 hour Branson-style live show features lots of Canadian Old Time Fiddle music, Traditional Country songs, Western swing tunes, Country Gospel favourites, fancy instrumentals, sweet harmonies, smooth vocals, sensational step dancing, family humour, inspirational stories, and of course some of Scott's famous trick fiddling – front and back somersaults and walking on a barrel – all while playing his fiddle! Joining Scott onstage in Fiddling Up A Storm is:

His sister, Kendra (Woods) Norris – a multi-instrumentalist and certainly no stranger to old time fiddling, having won the Canadian Duet Fiddle Championship title 3 times with Scott, as well as several solo wins in various classes including the 2016 Canadian Open (19-55 division). Also onstage are Canadian Country Music Award Winner and Guitar Player of the Year, Steve Piticco; Bass Player Peter Sisk, Canadian Country Music Award Winner and Drummer of the Year, Bill Carruthers and champion Step Dancer 13-year-old Leo Stock.

Scott Woods is a two-time winner of the Canadian Open Fiddle Contest, two-time winner of the Canadian Grand Masters Fiddle Championship as well as Fiddle Entertainer of the Year. He is known affectionately as 'The Flip-

pin' Fiddle' and tours extensively across Canada and the USA every year raising funds for churches, charities and community service organizations. Scott and the band also tour in Germany.

EXCITEMENT BUILDING FOR THE LOBSTICK 4-H CLUB

Submitted by Wendy Bahrynowski | Lobstick 4-H Club

The last few months have been very busy for the members of the Lobstick 4-H Club..... but it's about to get even more hectic!!!

On March 25, we got a sneak peek at all the members steer and heifer projects. We toured everyone's farms and were very impressed with the progress of all the animals.

The next event planned is the mini show where we will do a practice run before our big show and sale. This show will help the

steers and heifers get used to being in a different environment, it's a great way to gauge how your animal is going to react and just how much more work will be needed. At this mini show members will get tips on grooming and how to show their animal.

The excitement is building for all the members as the BIG DAY is approaching fast, May 28 is the Show and Sale Day!!! Everyone is welcome to come out and show their support for not only our club, but the all the clubs that make up the Drayton Valley 4-H interclub. Come

check it out, I think you will be impressed. It took the members countless hours of work to get their animal projects to this point. Starting last November at weigh day and finishing months later with this big show and sale

And if you are interested in purchasing some quality Alberta beef, there will be 49 steers available for auction that evening. The show starts at 9 am on May 28 at the Drayton Valley Omniplex and will continue throughout the day. The sale will start at 7 pm. Fire Advisory in Effect for the Yellowhead County Fire Permit Area

Continued From Page 1

In conjunction with the current fire permit restrictions, wood products are not being accepted at the County's transfer sites. Transfer site operators are unable to safely burn the wood piles at the transfer stations at this time, and a build-up of fuel stockpiles creates a large fire-hazard for wildfires.

Off-Highway Vehicles

Remember to check the hot spots on your Off-Highway Vehicle (OHV) and remove debris before and after use.

Safe Campfires Okay

Safe campfires are permitted, but may be restricted in the coming days if conditions worsen. Residents and visitors are urged to be extra cautious with any burning at this time.

UNPRECEDENTED HIGH END ACTIVITY HITS LAKE WABAMUN

Submitted by Wayne William Heine | RE/MAX REAL ESTATE

Despite winter lasting longer than usual Wayne William Heine at Edmonton Lake Property reports high-end activity has been brisk the last few months. Even though lake season doesn't really begin until May, already 5 sales over \$680,000 dollars has happened with two

being over a million dollars which has already matched all of 2017.

Wayne says the known buyers looking for high-end homes is unmatched. In the last 7yrs, he has sold lake property in which Wayne has personally been involved in all MLS sales over \$800,000 in those years at Lake Wabamun. He says the known list of buyers actively looking for lake-front includes surgeons, ceos and even a few NHL

hockey players. This demand is high despite inventory going into May is almost non-existent.

This secret is out of the bag, lake country that gives you a wonderful year-round recreational experience is less than 40 minutes from Edmonton. It is taking off for many reasons including the fact that all new lakefront in Alberta has to be 150 feet from the lake making established subdivisions offering

the only true Lakefront available. In 2012 there were 2 sales over \$500,000, the most expensive being \$525,000. This year we have 5 sales over \$680,000.

This creates a wonderful opportunity for our off lake buyers as well as other lakes. Wayne says we've already had a sale at Isle lake for \$495,000 this year, more expensive than any sale in 2017 on the lake.

Lake communities around the lakes are turning into investment opportunities with the price differences with lakefront being so wide. Wayne states that all lake community owners have wonderful access to the lake as far as boating and beach privileges that are not offered to the general public. Yes, Wayne says membership has its privileges.

I guess while out enjoying lake country in 2018, take a minute to look over our wonderful investment opportunities. You could be adding a whole lot of summer fun to your life and securing your future at the same time. Wayne William Heine is a licensed Realtor with Re/Max Real Estate.

• Motion No. 157 – Visitability
On Wednesday morning, Gordon Brown, Member of Parliament for Leeds—Grenville—Thousand Islands and Rideau Lakes, passed away in his Ottawa office. Gordon was a respected member of the parliamentary community and will be greatly missed by all his colleagues in the House. I would like to extend my condolences to his wife Claudine and his sons, Chance and Tristan, as well as to his family and friends. Out of respect, Parliament closed early on Wednesday after the leaders of each party made a public tribute to Gordon in the House of Commons.

On Thursday, I participated in debate on Bill C-49, which is an omnibus bill that substantially amends 13 different Acts and has consequential impacts on all three modes of transport. You can read comments, speeches, and debates in the House on the corresponding

day's Hansard at www.ourcommons.ca/en.

In the Standing Committee on Canadian Heritage (CHPC), we wrapped up our study on cultural hubs and cultural districts in Canada, as well as began a study on gender parity in cultural organizations. For more information on these meetings, visit the CHPC Committee website at www.ourcommons.ca/Committees/en/CHPC.

[ourcommons.ca/Committees/en/CHPC](http://www.ourcommons.ca/Committees/en/CHPC).

This week, I attended ten meetings and one event. I will be in the riding over the weekend to attend VE Day events at the Edson Legion before returning to Ottawa as the House will resume on Monday. Look for my update next Friday on the happenings of Parliament.

Lawn & Garden

The Businesses in the following Guide can be your One Stop Solution to all your Lawn & Garden Needs!

Lawn & Garden

SELECT THE RIGHT FERTILIZER FOR YOUR NEEDS

For plants to truly flourish, the right growing conditions and soil that offers the right nutrients is of paramount importance. Fertilizer enhances soil so that plants and flowers can thrive. However, fertilizer is not a one-size-fits-all mix.

Choosing fertilizer can be a little overwhelming thanks to the variety of formulations available at neighborhood lawn and garden centers. Shelves contain all-purpose products, such as those billed as vegetable fertilizer, and even formulations geared toward specific flower varieties. Others may feature buzz words like “all-natural” or “organic,” and consumers may not be sure just what they need to keep plants healthy. The following guidelines can help any would-be gardener or landscaper grow more vibrant plants.

Start with a soil test
It’s difficult to determine what plants need without an accurate picture of what’s going on in the ground. A soil test can paint a picture of what’s going on and indicate if any nutrients are lacking. A common misconception is that gardeners fertilize plants. But fertilizer amends the soil that feeds plants, according to the soil-testing lab professionals at Virginia Tech. Soil types vary by region, and conditions may even vary between spots on a landscape. Testing where the plants will be placed can yield the most accurate results. Soil tests are available at gardening centers and online. Otherwise, landscaping professionals can conduct tests.

Know the N-P-K ratio
Most fertilizers will come with information concerning the nutrients within. Most notably it will

have a breakdown of how much nitrogen (N), phosphorous (P) and potassium (K) is in the mix. Judging by the soil test, gardeners can choose a product that will give them the right ratio to amend the soil for the type of plant they are hoping to grow. Complete fertilizers often have NPK in the formulation. Incomplete fertilizers may have only one or two nutrients. This allows a person to customize fertilizer even more without overdoing it with a particular nutrient.

Grow plant knowledge
A cursory knowledge of the plants being planted in the garden also can be helpful. Gardeners must recognize that some plants will not tolerate excess amounts of a particular fertilizer component, while some may need more. Checking books out of the library, seeking information online and

consulting with landscaping experts will help expand homeowners’ knowledge about plant types and the needs of each particular plant they hope to grow.

Solid and liquid fertilizer
Fertilizers are generally sold in pellets, spikes and liquid forms. Pellets or granules are dispersed over large areas and will gradually offer nutrients when the soil is watered. Liquid fertilizer is concentrated and fast-acting. These may be used for container plants or smaller areas. Spikes usually are placed in houseplants or to feed individual trees or shrubs. Depending on the formulation, fertilizer may need to be reapplied once a month or more. Consult the product packaging for the correct application advice.

Fertilizer amends soil to grow stronger, more resilient plants.

Lawn & Garden

WHEN TO TACKLE WEEDS IN YOUR LAWN

Weeds are the bane of lawn and garden enthusiasts. Weeds can spread rapidly and overrun pristine grass, choking lawns and robbing them of their lush green look. In garden beds, weeds can steal water from thirsty plants, threatening their survival.

A proactive approach that prevents

weed growth is easier and less frustrating than dealing with weeds after they have sprouted. That means addressing weeds before they release seeds, and not waiting so long that the damage is already done. According to the home and landscape experts with This Old House, spray-

ing herbicide for weeds in June and July can address weeds before seeds are set. Tilling and installing a new lawn in late August or the beginning of September can help the lawn establish itself before the first frosts arrive, all the while avoiding weed growth.

The weed control experts at Roundup also suggest a springtime application of weed killer if this is the desired route. Early treatment can prevent weed roots from spreading too far in the soil, which can reduce the chances that weed remnants will be left behind to grow at a later time.

Homeowners with small lawns or gardens or those who prefer hand-weeding or using nonchemical ways to treat weeds must take steps to address the weeds early. Gardeners can try suffocating weeds by placing wood, blocks or plastic over them. Wet newspaper used as mulch can block weed formation and also clear patches of unwanted grass so

that garden beds can be mapped out. Pouring boiling water on weeds or pulling them by hand is more effective when roots are young and have not yet spread.

The UK-based company Lawnsmith also suggests a mid-spring weed killer application. This ensures that all weeds that have surfaced are addressed and that none are missed by weeding too early.

The Idaho-based Town & Country Gardens suggests lawn and garden enthusiasts wait to tackle weeds. By waiting and applying weed treatments in the fall, when dandelions and other weeds are absorbing food and nutrients in larger quantities to survive winter, homeowners can rid their lawns and gardens of weeds efficiently.

Weeds are a nuisance and an eyesore in lawns and gardens. Choosing the right time to treat them can ensure they don't adversely affect lush landscapes and thriving gardens.

RCMP MAKE SIGNIFICANT FIREARM SEIZURE

Submitted by Stony Plain/Spruce Grove/Enoch RCMP

Parkland County, Alberta- Following a thorough investigation that spanned three months and continued intelligence gathering, search warrants were executed and the RCMP have seized dangerous weapons from targeted offenders.

On April 21, 2018 Stony Plain/Spruce Grove/Enoch RCMP Drug Section with the assistance of the Crime Reduction Unit (CRU) and the General Duty members executed two search warrants. One for a res-

idence in Val Quentin and the other was for a storage locker in the area of Parkland County.

In the course of this search, RCMP seized firearms, suppressors, high capacity magazines, hundreds of rounds of ammunition, cocaine/meth/GHB, \$10 000 cash, and stolen vehicles.

As a result, 34-year-old Jeffery RUSSELL and 27-year-old Quincy MILES were arrested and charged.

RUSSELL was charged with 50 charges, including:

- Possession of a stolen firearm
- Possession of a loaded restricted

firearm

- Possession of a loaded prohibited firearm.
- Possession of a restricted firearm with a defaced serial number.
- Possession of GHB for the purpose of trafficking.
- Possession of meth for the purpose of trafficking.
- Possession of cocaine for the purpose of trafficking.

RUSSELL was remanded into custody and will attend court May 2, 2018 in Stony Plain.

MILES has been charged with:

- possession of a prohibited device
- possession of property obtained by crime over \$5000

MILES was released from custody with conditions to attend court on May 2, 2018 in Stony Plain.

"These are not hunting rifles. In the hands of criminals, these weapons serve no legitimate purpose in our society. I'm pleased that my officers have got them off the streets."

-Staff Sergeant Mike Lokken, Acting Officer in Charge of Stony Plain/Spruce Grove/Enoch RCMP.

"This is just the most recent example of how a coordinated and intelligence-led Crime Reduction Strategy can impact our communities. The amount of firearms and drugs we seized on this one operation alone posed a real and serious threat to the safety of Albertans." - Deputy Commissioner Todd Shean, Commanding Officer of Alberta RCMP

"I would like to commend all investigators and officers involved in this specific case for taking firearms, ammunition and deadly drugs off our streets. Across this province, RCMP do important work day in and day out to ensure Albertans are safe in their homes and communities." - Kathleen Ganley, Minister of Justice and Solicitor General

ALBERTANS ENCOURAGED TO BE EMERGENCY READY

Submitted by **Lauren Arscott, Press Secretary, Municipal Affairs | Government of Alberta**

As part of Emergency Preparedness Week from May 6 to 12, Albertans are being reminded to know the risks, make a plan and build a kit.

The theme of this year's nationwide event is Be Emergency Ready, with the goal of raising awareness that all Canadians have a role to play in building safe and strong communities. There are numerous events taking place across Alberta to mark the week and help Albertans learn more about emergency preparedness.

"As we have seen over the last few years in Alberta, the unthinkable can and will happen. Our government and communities across the province are working hard to plan and prepare. Albertans can also take action to keep themselves and their family safe by making an emergency plan, putting together a 72-hour emergency kit and downloading the Alberta Emergency Alert app."

- Shaye Anderson, Minister of Municipal Affairs

Know the risks

- Know the risks in your community. Contact your municipality to learn about its emergency plan and for advice on identifying risks in your area.

Make a plan

- Make a plan for what your family will do, who they will contact and where they will go during an emergency. Practice the plan regularly. If you have a pet, make sure you have a plan for them as well.

Build a kit

- Alberta families should be prepared to take care of themselves for a minimum of 72 hours during a disaster or emergency. Assemble a 72-hour kit with non-perishable food, water, medication, warm clothing and comfort items. This kit should be prepared in case you need to evacuate quickly. Every vehicle should also be equipped with an emergency kit.

All Albertans are encouraged to download the Alberta Emergency Alert app to their smartphones. Alberta Emergency Alerts are issued to provide critical information about an immediate disaster, where it is occurring and what action you need

to take to stay safe.

Starting this year, Albertans will also receive messages about life threatening emergencies, such as tornadoes, wildfires, floods or Amber Alerts, directly to their compatible cellphones, through a national alerting system. This national system complements the Alberta Emergency Alert system, which issues alerts through radio, television, social media and cellphones for critical and emerging issues in Alberta.

Keep yourself informed before and during an emergency by learning where to access local information about your community.

Minister Anderson joins Alberta Emergency Management Agency staff, reminding Albertans to be prepared by building a 72-hour emergency kit.

SUDOKU OF THE WEEK

Fun By The Numbers

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
