JOKE OF THE WEEK

A head teacher is making his rounds of the school when he hears a terrible commotion coming from one of the classrooms. He rushes in and spots one boy, taller than the others, who seems to be making the most noise. He seizes the lad, drags him to the hall, and tells him to wait there until he is excused. Returning to the classroom, the head teacher restores order and lectures the class for half an hour about the importance of good behaviour. 'Now,' he says, 'are there any questions?' One girl stands up timidly. 'Please sir,' she asks, 'may we have our teacher back?'

PEMBINA PIPELINES HELPS FUND YCFD CADETS

Submitted by Dan Ivanov,
Communications Department | Yellowhead County

(July 31, 2018) – YCFD is among the more than 50 fire departments across Canada and the U.S. receiving funding from Pembina Pipeline Corporation through their annual Fire Safety Grant. The funds will be used to source equipment for the

YCFD's newly developed Fire Cadets Program.

Pembina's Fire Safety Grant helps ensure that local fire departments have the resources they need to respond effectively to emergencies. Grant funds can be used towards safety equipment, training or community education.

The Fire Cadet Program is a unique initiative meant to guide

teens towards a prospective career in the field of protective services; but more importantly, the program aims to teach teens crucial life and career skills. The goal is to get local youth to value self-confidence, discipline, and teamwork. Moreover, as they progress through their training, cadets are eligible for a total of 9 credits towards their high school diploma.

Yellowhead County would like to extend a thank you to Pembina Pipelines for their grant contribution and support of the YCFD Fire Cadet Program. Pembina's annual Fire Safety Grant opens every year in the spring, and provides funding to fire departments and emergency responders in communities near Pembina's operations.

ARREST MADE IN SEXUAL ASSAULT

**Submitted by Stony Plain/
Spruce Grove/Enoch RCMP**

On August 14, 2018 at approximately 9:00 p.m. in the area of Onoway, RCMP were called to an attempted sexual assault. A woman in her late 20's told police that she had been out running when she observed a white cube van follow-

ing her. A male driver got out of the van wearing a mask and started chasing her. After a struggle, the woman was able to get to a neighbour's house and call the police.

When RCMP entered the area they immediately located the vehicle and 23-year old, Curtis THIBERT, from Stony Plain was charged with:

- Disguised with the intent to commit an indictable offence
- Sexual assault

THIBERT was released from custody with conditions and will appear in Stony Plain Provincial Court on September 5, 2018.

The Stony Plain/ Spruce Grove/ Enoch RCMP are actively investigating this incident and are asking

any possible witnesses or other victims to come forward. Witnesses, or anybody with information about this incident, can speak with police by attending the detachment or calling 780-968-7200. Should you wish to remain anonymous, you can contact Crime Stoppers by phone at 1-800-222-8477 or by Internet at www.tipsubmit.com.

WARRANT INITIATIVE

**Submitted by Stony Plain/
Spruce Grove/Enoch RCMP**

As part of their crime reduction initiative, Stony Plain/Spruce Grove/Enoch Detachment members are actively seeking those individuals that are wanted on outstanding warrants. "In the past months, our members have executed in excess of 100 warrants of arrest. These were individuals within our detachment area that were wanted on charges from our detachment as well as other jurisdictions within the Province of Alberta" states Sergeant Major Kevin McGillivray.

If you believe you have an out-

standing warrant, police are asking that you attend your closest police detachment with photo identification to turn yourself in. "Over the coming months, we will continue to track down people that are in Spruce Grove, Stony Plain, Enoch and Parkland County" Sergeant Major Kevin McGillivray advises. Police will be attempting to contact wanted individuals at their residence, at their workplace, by telephone or anywhere else they may be located. Phone calls are not to be confused with various scams that are currently taking place. The local detachment will be contacting wanted individuals by phone and

asking that they attend the detachment with photo identification so that they can speak with a police officer in person.

If you believe you may have a warrant for unpaid fines, you may attend your local police detachment or the nearest Alberta Provincial Court House with your photo identification to pay the fine. "Pro-actively taking care of your warrants will prevent you from being disrupted from your workplace, going out to dinner with your family or anything else you may be doing" says Sergeant Major McGillivray.

If you know the whereabouts

of an individual that has an outstanding warrant, please contact the Stony Plain RCMP at (780) 968-7200. If you wish to remain anonymous, you can contact crime stoppers by phone at 1-800-222-8477, by internet at www.tipsubmit.com, or by SMS (www.crimestoppers.ab.ca for instructions). While the police officer will not be able to confirm or discuss the particulars of the warrant with the caller, they will investigate to determine if there is in fact an outstanding warrant and will use the information to assist in locating the individual.

FARMCASH: "A NEW COMPETITIVE OPTION"

CASH ADVANCE PROGRAM PROVIDED BY ALBERTA WHEAT COMMISSION WILL LAUNCH SEPTEMBER 1

Submitted by Alberta Wheat Commission

The Alberta Wheat Commission (AWC) and Agriculture and Agri-Food Canada (AAFC) are pleased to announce another competitive option for Alberta's crop, livestock and honey producers to help manage cash flow throughout the year. Beginning September 1, 2018, AWC will provide cash advances through FarmCash under AAFC's federal Advance Payments Program (APP).

APP is a federal loan guarantee program which provides agricultural producers with easy access to

low-interest cash advances up to \$400,000 per program year based on the value of their agricultural product, with the Government of Canada paying the interest on the first \$100,000 advanced to a producer and the remaining \$300 thousand at a low interest rate.

FarmCash will offer interest free advances and low interest rates on 45 commodities, including all major crops, livestock and honey, through a fully automated and efficient web-based platform. The Alberta Wheat Commission will administer the program which is designed to help producers meet their financial needs, cash flow obligations and

increase marketing opportunities to improve profitability.

"AWC believes that like any management tool, farmers need options. By launching FarmCash, AWC saw an opportunity not only to introduce a new competitive option into the market but also to better serve Alberta's farmers and help improve long-term profitability." - Kevin Bender, AWC Chair

AWC is committed to administering a fully transparent and accountable business model where 100 per cent of any proceeds from the program will be used to benefit the entire agriculture industry in Alberta.

"Ensuring our programs continue

to respond to the needs of farmers remains a priority for our Government. With its established relationships in the province, AWC is well positioned to offer Alberta farmers an additional option for cash advances that will help producers meet their needs and grow their businesses." - Lawrence MacAulay, Minister of Agriculture and Agri-Food

AWC encourages farmers to sign up to receive notifications here or to call 1-855-376-2274 to learn more about the program. AWC is approved as an official administrator of the Advance Payments Program by Agriculture and Agri-Food Canada.

9 WAYS TO IMPROVE YOUR GOLF GAME

Warmer weather sends scores of golfers to their favorite courses each and every day. Golf is a challenging pastime, but a few pointers can help golfers hone their short games, long games and everything in between.

- Choose the right clubs. There is

more to selecting clubs than pulling any old iron out of your golf bag and whacking away. Wind, hazards and obstructions in landing areas should influence your decision of which club to use. Novice golfers may want to rely on their caddies to make club recommen-

dations, and as they become more confident in their abilities they can start to make their own choices.

- Anchor your feet. Anchor your foot behind the ball to drive the ball further. Right-handed players will keep the right foot anchored, and lefties will do the opposite.

Do not lift your foot prematurely; otherwise, you can lose power and distance.

- Identify your weaknesses. As with any hobby, identifying those areas that need the most work can help you become a better golfer.

Keep track of each shot you take,

and then look at the results to see which areas of your game need the most work.

- **Fix your alignment.** Align your shots by assessing the target from behind the ball. Then set the club-face behind the golf ball and align it with the target before you enter your stance.

- Use your torso for power. The torso is essential to a solid swing. Practice rotating from your core to control your backswing and then maintain the same spine angle and posture on the downswing.

- Use the wind. Not every golf game will be played in perfect weather. A good player knows how to make adjustments for the wind depending on the shot. Use the wind to your advantage when you can, and adjust your swing when hitting into the wind.

- Become a better chipper. Many players put so much emphasis on their backswings and putt shots that they fail to devote any practice

to chips. All shots are important for golfers trying to shed strokes off of their scores.

- **Keep fit.** Maintaining or improving your physical strength and overall health can help your golf

game. Exercise and eat right, and you will have more endurance on the links.

SCOUTING CANOLA FIELDS FOR CLUBROOT

Submitted by Stefan Felsing, Communications Department | Yellowhead County

With fall approaching it is time once again to remember that clubroot has been detected in Yellowhead County. Clubroot is a soil-borne disease that reduces yields of cruciferous crops such as canola, mustards and some vegetables. The disease causes galls or clubs to form on the root systems of infected plants which then restricts the nutrient and water uptake of the plants reducing the yields of crops. The higher rate of the infection of clubroot in the soil, the more severe the yield loss in the crop will be.

Yellowhead County Pest Inspectors will be scouting for this disease in canola and other Brassicaceae fields throughout Yellowhead County from approximately August 28th - September 30th. Scouts will be taking all possible preventative measures to limit the spread of the disease.

The primary way this disease spreads is by soil movement from

infected fields to non-infected fields. This may be done by soil falling off of farm machinery, vehicles, and off-highway vehicles. It may also be spread by wind and water erosion. Equipment sanitation is essential to preventing the establishment of clubroot.

Rotation of crops is highly recommended to prevent the severity of clubroot in ones fields. Continuous cropping of canola may increase the likelihood and severity of infection. There are no treatments currently available for clubroot infected fields/plants so prevention practices are highly recommended. Some things you can do to prevent the establishment of clubroot as:

- Check fields regularly and look for abnormalities such as galls and/or clubs on roots, premature ripening and/or wilting plants
- Sanitize machinery, vehicles and equipment before moving into a new area with a solution of 1% bleach and 99% water
- Use clubroot resistant varieties of seed for planting

In 2015 a new clubroot patho-

type was confirmed in the Edmonton region that is able to overcome resistant varieties of seed. Dr. Stephen Strelkov at the University of Alberta looked at samples collected from several fields and was able to verify higher levels of infection than expected in some clubroot resistant varieties. "This is a different pathotype that none of the commercially available clubroot resistant varieties in Western Canada are effective at managing," says Strelkov.

The Canola Council of Canada has advised that canola growers and agronomists scout their clubroot resistant varieties this summer with extra effort and vigilance. A focused survey in the Edmonton region has been underway to help better understand the pathogen's prevalence and distribution.

LETTER TO THE EDITOR - RE: LAC STE ANNE PARKLAND CONSTITUENCY

Submitted by Brian P. Shabada

As Albertans we have grave concerns with the direction of our current leadership at both the Provincial and the Federal levels. Our roots from a political standpoint have remained Conservative so when the UCP was formed, we joined. Our hope was that we would be able to put some candidates forward that have experience, credibility, humility and a genuine desire to work for the good of all Albertans.

Fast forward a few months and it appears that we are seeing is a very disturbing trend. The candidates that have put forward their nominations come from all walks of life which should imply acceptance and diversity in the Party.

We understand that the UCP party is the only party that runs their nominations the way this process is functioning, with candidates putting themselves forward. The others all select their candidates to put forward in elections. We beg to differ.

What appears to be occurring in the Lac Ste Anne Parkland Constituency mirrors what transpired in the Chestermere-Strathmore Riding. After 5 potential candidates were slated to run for the seat, only Leela Aheer was left standing at the end. The reaches of this discord even saw the President of the UCP interim joint board resign. Jason Kenney appointed Aheer to the UCP Deputy Leader position AFTER she supported the merger of the Wildrose and the Progressive Conservatives. Let's get to the Lac Ste Anne Parkland Constituency.

There were 5 candidates that put their names forward. One, Jerry Molnar, (one of two candidates that are NOT residents of the riding), is no longer in the race as the Committee requested his removal. Not a lot of information forthcoming to the members as to why, but nonetheless, four candidates remain. The second candidate that does not reside in the Constituency is Leah Wood. Yet another former Wildrose that according to Jason Kenney's post is a "Voice of common sense & passionate about the future" (this can be seen on Leah's Facebook). He also in his commendation has put forward her twitter account which has been suspended (Leahwood@sandmanhorse). Her FB accounts have been scrubbed from the internet earlier this year. Her 'ranch'

Facebook page, Bent River Valley Ranch has completely disappeared. The Facebook page she is currently utilizing has a very short history, starting from February 25, 2017.

There are some anomalies that have been presented to the Party by the other 4, (now 3) candidates. Concerns that have been brought forward to them by membership. People who have knowledge of issues of integrity, many that have resulted in court action. Then why would the Party Leader continue with the appearance of support for that one candidate over another? Should he not as the Party Leader

follow the same decorum as the current Board of Executives in the Lac Ste Anne Parkland Constituency and accept the vote of the membership without any bias? What process is being utilized to vet candidates? Is it an equitable process or are they just following the "She Leads" movement that speaks to gender parity, quotas.

As members, we want the BEST candidate to win. We don't want any smatterings of any wrong doing or favoritism to cloud the nomination. We don't want the "sacrificial lamb" that dances to whatever drum is beating. There has also been ru-

mors in our constituency that unfair access to voters information from the two joined parties was utilized. Campaigning began long before the nominations were put forward by and for the Wildrose Candidates. In our opinion, in order for the UCP to rise to the top of the Political House in Alberta, there needs to be a very serious look taken at the candidates they seem to want to push forward. The choice should be the people's, not the parties.

I'm signing with great concern for the integrity of the party and the values I thought it stood for.

CBD is in a class of its own - affordable, high quality, and convenient!

WHAT IS CBD?

Cannabidiol (CBD) is just one of over 85 cannabinoids that is identified in the cannabis plant. CBD is becoming increasingly popular amongst the masses for having a wide scope of medicinal benefits - due to clinical reports and mounds of test data showing little to no side effects and a lack of psychactivity (typically associated with marijuana products and high THC).

Our CBD products are made with certified organic hemp grown in Colorado & Kentucky and we are 100% free of any synthetic or artificial ingredients. We have a very potent and high purity level in our products. Everything is tested in an FDA Approved facility and our products contain 0.3% THC.

Benefits of CBD Oil

- Reduce Nausea & Vomiting
- Suppress Muscle Spasms
- Reduce Seizures & Convulsions

SUDOKU OF THE WEEK

Fun By The Numbers

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

ANSWER:

5	9	6	2	3	4	1	8	7
1	3	4	7	8	6	9	5	2
8	2	7	5	9	1	3	6	4
9	6	2	8	1	7	5	4	3
3	4	1	6	5	2	7	9	8
7	5	8	3	4	9	2	1	6
6	8	3	9	2	5	4	7	1
4	7	9	1	6	3	8	2	5
2	1	5	4	7	8	6	3	9

Like puzzles? Then you'll love sudoku.

This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
