## CAD CRU RECOVER OVER \$50,000 OF STOLEN PROPERTY

Submitted by RCMP Central Alberta District Crime Reduction Unit (CAD CRU)

Leduc, Alberta – The RCMP Central Alberta District CRU team continue to assist detachments and pursue arrests, charges and recover stolen property. Four people have been charged following an investigation which saw the CAD CRU team collaborating with Leduc RCMP CRU and Drug Sections to solve investigations.

On October 25, the CAD CRU team received intelligence from

Leduc RCMP relating to a rural commercial break and enter which occurred in the early morning of October 24. The CAD CRU team were able to link information from the break and enter investigation to independent arrests that they made on October 25, relating to a stolen vehicle.

The CAD CRU had arrested two males in a stolen truck and observed a generator in the back of the truck. After liaising with Leduc RCMP CRU and Drug Sections, a search warrant was obtained and executed at a

residence on Songhurst Place in Leduc on October 26. The search warrant resulted in the seizure of a second stolen generator, tools, car parts, evidence of false identification production, a stolen Polaris Sportsman ATV and seismic recording equipment.

The total value of the property recovered is believed to be well over \$50,000.00.

Two individuals were arrested inside the residence and two outside on the property, all without incident.

## LEDUC COUNTY COUNCIL REAPPOINTS MAYOR DOBLANKO

Submitted by Megan Candie, Communications Coordinator | Leduc County

Mayor Tanni Doblanko was unanimously reappointed to serve her second term as Leduc County mayor at council's organizational meeting today.

Doblanko was nominated by

division six councillor Glenn Belozer to serve her second term as mayor; this was the sole nomination and was carried unanimously.

"In the last year, we have accomplished a lot as a council. It's been a real pleasure to serve as mayor and serve Leduc County, and I look forward to contin-

ue doing so." - Tanni Doblanko, mayor

Doblanko was re-elected to her second term as Leduc County councillor representing division 5 in October 2017; she was appointed to her first term as mayor that same month.

# PARLIAMENT UPDATE – WEEK OF OCTOBER 29, 2018

Submitted by Jim Eglinski, MP – Yellowhead

The following was debated in the House:

- Bill C-76 – Elections Modernization Act (Third Reading)
- Bill C-84 – Criminal Code (bestiality and animal fighting) (Second Reading)
- Bill C-85 – Canada-Israel Free Trade Agreement Implementation Act (Second Reading)
- Bill C-86 – Budget Implementation Act 2018, No. 2 (Second Reading)
- Bill C-375 – Criminal Code (Presence Report, (Third Reading)
- Bill C-376 – Sikh Heritage Month Act (Third Reading)
- Bill C-417 -- An Act to amend the Criminal Code (disclosure of information by

- jurors) (First Reading)
- Bill C-418 – Protection of Freedom of Conscience Act (First Reading)
- Bill C-419 – Credit Card Fairness Act (First Reading)
- Bill C-420 – Canada Labour Code (First Reading)

- disabilities) (Second Hour)
- S-203 – Ending the Captivity of Whales and Dolphins (First Reading)
- S-240 – Criminal Code (Trafficking in Human Organs) (First Reading)

On Monday, I presented a petition calling on the Prime Minister to defend freedom of conscience, thought, and belief by withdrawing the attestation requirement for applicants to the Canada Summer Jobs Program.

Also on Monday, I had the opportunity to ask questions during debate on Bill C-85, which mod-

ernizes the text of the Act and brings it into conformity with Canada’s obligations. You can read all questions, comments, and speeches in the House on the corresponding day’s Hansard at [www.ourcommons.ca/en](http://www.ourcommons.ca/en).

In the Standing Committee on Public Safety and National Security (SECU), we continued the study on M-167, which deals with rural crime. For more information on these meetings, visit: [www.ourcommons.ca/Committees/en/SECU](http://www.ourcommons.ca/Committees/en/SECU).

# TAMPERED HALLOWEEN CANDY INCIDENT

Submitted by Devon RCMP

On Halloween night Devon RCMP were alerted to an incident where pins were found in children's candy.

At 9:12 p.m., the RCMP received a complaint from a Devon citizen that when children came home from trick-or-treating, the alert child checking the candy found a pin in three different treats. Two were candies; a marshmallow based candy and Starburst, and one was a deflated bag of Cheezies. It is believed

that likely those three different treats were all disbursed from the same house.

The pins were described as straight pins with a curved top.

The RCMP have seized the candy and are investigating this incident. No other incidents were reported to the Devon RCMP and parents are requested to check all their children's treats. It has not been determined which home or neighbourhood the candies came from.

"It's lucky that the child in this incident had the awareness to check

the candies prior to them being consumed", says Sergeant Jolene Nason, Devon RCMP Detachment Commander. "This is a very alarming occurrence but we want to assure our Devon citizens that this is the anomaly in our community and we are working to solve this. The safety of our community is an RCMP priority."

If you know anything about this incident, or have information to report, please call the Devon RCMP Detachment at 780-987-3414.

# TAMPERED HALLOWEEN CANDY

Submitted by Thorsby RCMP

On November 2, 2018 the Thorsby RCMP received a complaint that a child found a pin in a Halloween chocolate bar.

An investigation was launched

in the morning shortly after 10:00 a.m., when a local school reported that a student found a pin in a small Coffee Crisp bar. The bar was received by the student while trick-or-treating in Thorsby, and the pin discovered this morning.

The pin is described as a straight pin which looks as if a tip is broken off. The RCMP have not made any connection between this incident and an earlier reported incident in Devon.

**JOKE OF THE WEEK**

There were three men on a hill with their watches. The first man threw his watch down the hill and it broke. The second man threw his watch down the hill and it broke. The third man threw his watch down the hill, walked all the way to the bottom, and caught it. The other two men were puzzled and asked the third man how he did it. The third man said, "Easy. My watch is 5 minutes slow!"

## HOW TO SAFEGUARD YOUR VEHICLE FROM THE ELEMENTS

In a perfect world, all vehicle owners would be able to park their cars and trucks in garages. In such a world, automobiles would not be vulnerable to sun, storms and other natural elements that, over time, can contribute to wear and tear.

But many drivers cannot or choose not to park their cars in garages. Some are content to let their vehicles brave the elements, while others look for ways to protect their cars and trucks as much as possible. Drivers who count themselves among the latter group can take

these simple steps to protect their cars and trucks from whatever Mother Nature has in store for them.

- Park in the shade. Parking in the shade can protect both the interior and exterior of a vehicle. Shaded areas protect upholstery and dashboards inside the car from sun-induced fading, while also limiting the damage sun can cause to exterior paint. Faded paint may hurt the resale value of a vehicle, prompting prospective buyers to walk away or at least wonder if a vehicle with a faded exterior was well main-

tained.

- Wash and wax. Washing and waxing a vehicle helps to minimize damage that's inevitable regardless of where drivers park their cars. Dirt and debris litter roadways, and over time cars can collect a large amount of these unwanted stowaways. If dirt and debris are not removed, they can cause long-term damage to vehicle exteriors. Washing and waxing a car can ensure its exterior looks good and reduce the likelihood of rust and other corrosion from occurring.

- Don't write off bird droppings. Some drivers, especially those who do not park their cars and trucks in garages, may write off bird droppings as an annoying yet harmless side effect of vehicle ownership. However, bird droppings are acidic and, if left to their unsightly devices,

can cause permanent damage to vehicle paint. Tree sap is an equally formidable foe, potentially causing scratching because it can be very difficult to remove without spreading. Specially formulated sprays can help drivers remove bird droppings and sap from their vehicles.

- Employ a car cover. Drivers who have garages but use them to store things other than their vehicles can use car covers when parking their cars in their driveways. Covers protect cars from the elements and can be quickly and easily removed.

Nature can be harsh on vehicles. Protecting automobiles from the elements should be a priority for drivers, especially those who do not park their cars and trucks in garages.

**Tel: 780-848-7667**  
**Toll free: 1-800-806-3707**

**DID YOU KNOW?**

Vehicle identification number etching, or "VIN etching," is a theft deterrent in which an automobile's VIN, a 17-character

code consisting of letters and numbers unique to each vehicle, is etched onto the vehicle's windows. Some manufacturers may etch the VIN onto the windows of all of their vehicles, while others may not. Dealerships may charge VIN etching fees to buyers of new vehicles, but buyers should always consult their insurance companies before agreeing to pay such fees. Some insurance providers do not discount premiums for vehicles with VIN etching, while others might. Drivers may not want to pay VIN etching fees if their insurance providers will not discount their premiums, so it pays to consult with providers before purchasing a new vehicle. In addition, drivers who want to save money on etching fees but still do all they can to deter prospective car thieves may want to purchase their own VIN etching kits, which typically cost around \$20.

# Auto TUNE-UP

## NAVIGATE THESE DRIVER ASSISTANCE APPS

It is never a good idea to use smartphones or other devices while behind the wheel. In fact, distracted driving is a key risk factor for automotive accidents. However, certain smartphone applications and features can make road trips and other excursions easier, safer and more enjoyable - provided these apps are used before getting in the car, when safely pulled over, or in the hands of a passenger.

### Make a pitstop

Drivers may not know where to pull off the highway when they need a mid-trip snack or a restroom run. iExit enables you to see all upcoming exits on a particular roadway (when location services are turned on) and which amenities are accessible at each exit. The app also tells driv-

ers which way to go if they need to find gas stations or restaurants. Icons indicating food, fuel, hospitals, and even banks/ATM machines are included to indicate what's available at the exit.

### Popular sights

Field Trip by Google will pull from categories you have selected and your location to indicate potential sites of interest around you. The app works off of recommendations from travel and lifestyle sources, and will provide Bluetooth-enabled alerts when you're close by.

### Fill 'er up

Exclusively for locating fuel stations, GasBuddy also helps drivers compare gas prices so they can save money if they so desire. When fuel costs can make or break a trip, this app will keep

your tank and wallet full.

### Gain performance data

To keep track of vehicle performance, use Dynolicious Classic. While this app's not free, it's less expensive than a visit to a service station. Dynolicious relies on an iPhone's built-in accelerometers to gauge lateral and longitudinal acceleration and horsepower.

### Get trusted repairs

It is important to find a trusted mechanic who will fix a problem for a reasonable price. Repair Pal is an app that has already culled quotes and reviews from nearby mechanics to simplify comparison shopping.

### Navigation made easy

Smartphones already feature built-in map apps that offer navigation and directions, such as those offered by Google and

Apple. But Waze is a community-driven app that provides real-time updates to traffic situations, gas prices, law enforcement sightings, and alternative routes to avoid delays.

### No more lost cars

Finding that elusive parking spot can be challenging. When you finally grab a space in a parking garage or on city streets, you want to make sure you can find your way back there easily. Enter Honk, an app that can mark your vehicle's location with a GPS pin. You can also make text or verbal notes indicating position or how much time you have on a parking meter, as well as use the app to find businesses nearby.

Various apps can be assets to drivers, helping them to save both money and time.
