RCMP INVESTIGATE BREAK IN TO BANK

Submitted by RCMP Alberta

Winfield, Alberta - On March 8, 2019 at approximately 3:30 am, the Alberta Treasury Branch in Winfield, Alberta was broken into. The suspects gained access

to the bank using a stolen picker truck to break through the front wall. The two male suspects used the picker truck to pull the safe out of the wall causing extensive damage to the bank. The suspects made off with the safe and its contents which in-

cluded Canadian Currency. The suspects used a black dodge ram and a dark coloured GMC pick up as getaway vehicles. This matter is still under investigation and no further information is available at this time.

WORKPLACE ACCIDENT

Submitted by Leduc RCMP

Leduc, Alta – On March 4, 2019 Leduc RCMP, Leduc Fire Services, Alberta Health Services Emergency Services, and Stars air ambulance were dispatched to a workplace accident

in the City of Leduc.

Once Emergency Services arrived on scene it was confirmed that a 45 year old male had died. Next of kin notification has been complete. No one else was injured in the accident.

After a RCMP investigation it

was determined there was nothing suspicious about the accident and the investigation has been handed over to Alberta's Operational Health and Safety.

RCMP will not be commenting any further about the investigation.

WILDFIRE SEASON TRIGGERS IMPORTANT MESSAGE FROM LEDUC FIRE

Submitted by Mariann McLaughlin, Corporate Communications Officer | City of Leduc

With more than 1,100 wildfires

that burned across the province in 2017, City of Leduc Fire Services looks to share vital information to support citizens in proactive measures to prevent wildfire in the Leduc region.

"We're fanning the flame of public education to let people know the risks and the importance of being prepared when faced with a wildfire in our region," says Deputy Fire Chief

Gerry Kelly with Leduc Fire Services. "March 1 is the official launch of wildfire season in Alberta and there no better time than now to learn how to protect your property."

Through the Alberta fire commissioner's office, here are a few actions that will help reduce the risk of wildfire:

- Dispose of yard debris and lawn clippings. They act as a fuel for any ground fire.
- Clear leaves and other vegetative debris from roofs, gutters, porches and decks. This will prevent embers from igniting your home.
- Remove dead vegetation and other items from under your deck/porch and within 10 ft. of your home.
- Residents near parks and treed areas need to be diligent with combustible materials in and around their yards close to their dwellings.
- Remove flammable materials within 10 ft. (urban) or 30 ft. (rural) of your home's foundation and outbuildings, including garages and sheds. Things like wood piles and propane tanks can catch fire and easily spread.
- Prune trees so the lowest branches are 6 – 10 ft. from the ground.

"Wildfire prevention is everyone's duty as it requires a community approach and our goal this year is to reach as many people as possible to raise awareness," says Kelly.

To report a wildfire, call 310-FIRE (3473).

Visit <http://ofc.alberta.ca/alberta-wildfire-season> for more information.

2018 TAX RELIEF FOR LIVESTOCK PRODUCERS

Submitted by Jim Eglinski, MP – Yellowhead

Jim Eglinski, Member of Parliament for Yellowhead, is pleased to advise that Agriculture and Agri-Food Canada has indicated the need to expand the list of designated regions for 2018, with new regions identified for Alberta, Saskatchewan, Manitoba, and Ontario.

The livestock tax deferral provision allows producers in prescribed drought or excess moisture regions to defer a portion

of their 2018 sale proceeds of breeding livestock until 2019 to help replenish their herd. The cost of replacing the animals in 2019 will offset the deferred income, thereby reducing the tax burden associated with the original sale.

Eligibility for the tax deferral is limited to those producers located inside the prescribed areas. Producers in those regions can request the tax deferral when filing their 2018 income tax returns.

“Those in the Yellowhead riding who have experienced forage

shortages for their livestock in 2018, please check out the link below. The tax deferral will help our farmers manage the impacts of drought and be able to focus on rebuilding their herds and businesses,” concluded MP Eglinski.

Prescribed areas can be found at: <http://www.agr.gc.ca/eng/programs-and-services/drought-watch/livestock-tax-deferral-provision/2018-list-of-prescribed-regions/?id=1536603017155>

Letter to the **EDITOR**

CONSERVATIVES DEMAND THAT JUSTIN TRUDEAU RESIGN AMID SNC-LAVALIN AFFAIR

Dear Editor,

Canadians were shocked to hear the explosive testimony of former Attorney General Jody Wilson-Raybould on the SNC-Lavalin affair. Her story was one of inappropriate, and potentially illegal, pressure brought on her by the highest officials of Justin Trudeau's government and Justin Trudeau himself – all to let a Liberal-connected corporation off the hook on corruption charges.

Justin Trudeau simply cannot continue to govern this great nation now that Canadians know what he has done. Ms. Wilson-Raybould's testimony tells the story of a Prime Minister who has lost the moral authority to govern. A Prime Minister who allowed his partisan political motivations to overrule his duty to uphold the law. A Prime Minister who has allowed a systemic culture of corruption to take root in his office.

Andrew Scheer and Canada's Conservatives are calling on Justin Trudeau to resign. Further, we are asking that the RCMP immediately open an investigation into the numerous examples of obstruction of justice that

were detailed in the testimony.

Canada should be a country where we are all equal under the law. Where nobody – regardless of wealth, status, or political connections – is above the law. I believe we can be that country again.

Sincerely,
Jim Eglinski, MP
Yellowhead

Preferred if applicant resides within 1 hr of Onoway, AB. Must pass a drug/alcohol test and have a clean driver's abstract. Comparable wages, clothing allowance and after 3 months - fully paid benefits. Must be willing to work out of town. Accommodations & meals are provided when working away. Please send resumé to info@westcoveexcavating.com.

Canadian Agricultural Safety Week

March 10 - 16, 2019

Leduc County's roots are rich in agriculture. We salute the timeless effort, dedication and commitment of our farm families and agricultural communities.

JOKE OF THE WEEK

An Englishman, a Scotsman and an Irishman were without tickets for the opening ceremonies of the summer Olympics but hoped to be able to talk their way in at the gate. Security was very tight, however, and each of their attempts was met with a stern refusal. While wandering around outside the stadium, the Englishman came upon construction site, which gave him an idea. Grabbing a length of scaffolding, he presented himself at the gate and said, 'Johnson, the pole vault,' and was admitted. The Scotsman, overhearing this, went at once to search the site. When he came up with a sledge hammer, he presented himself at the gate and said, 'McTavish, the hammer.' He was also admitted. The Irishman combed the site for an hour and was nearly ready to give up when he spotted his ticket in. Seizing a roll of barbed wire, he presented himself at the gate and announced, 'O' Sullivan, fencing.'

RCMP – INTERIM MANAGEMENT ADVISORY BOARD

Submitted by Jim Eglinski, MP – Yellowhead

Jim Eglinski, Member of Parliament for Yellowhead, wishes to advise constituents that the Department of Public Safety is taking immediate steps to establish a new Interim Management Advisory Board for the RCMP, to provide advice on the administration and management of the RCMP, and strategies to achieve its objective, by:

- transformation and modernization plans;
- the effective and efficient use of RCMP resources;
- corporate risk and responses to address them;
- policies and management controls that support RCMP operations;
- human resources and labour relations;
- corporate and strategic direction, and implementation plans including, financial and human resources strategies and multi-year plans;

- operating and capital budgets;
- performance measurement and departmental results.

The Governor in Council will appoint up to 13 part-time members to the initial Board by April 1, 2019. Legislative changes will be introduced this spring to the RCMP Act to make the Board permanent.

The mandate of the Board will initially focus on key priorities of RCMP transformation, including supporting the development of a "People First Strategy," RCMP business modernization and employee health and well-being.

"As a former RCMP Officer for 35 years, I welcome the creation of an Interim Management Advisory Board to assist in modernizing the RCMP," concluded MP Eglinski.

For more information visit: <https://www.canada.ca/en/public-safety-canada/news/2019/01/new-interim-management-advisory-board-to-help-drive-rcmp-modernization.html>

PARLIAMENT UPDATE – WEEK OF FEBRUARY 25, 2019

Submitted by Jim Eglinski, MP – Yellowhead

The following was debated in the House:

- C-77 – National Defence Act (Third Reading)
- C-83 – Corrections and Conditional Release Act (Report Stage)
- C-92 – An Act Respecting First Nations, Inuit and Métis Children, Youth and Families (First Reading)
- C-93 – An Act to provide no-cost, expedited record suspensions for simple possession of cannabis (First Reading)
- C-369 – Bills of Exchange Act (Third Reading)
- C-431 – Canada Pension Plan Investment Board Act (First Reading)
- C-432 – Public Servants Disclosure Protection Act (First Reading)
- C-433 – Competition Act (First Reading)
- C-434 – Criminal Code (First Reading)
- C-435 – Rare Disease Day Act (First Reading)
- C-436 – Acromegaly Awareness Day Act (First Reading)
- CPC Opposition Motion – Standing Committee on Justice and Human Rights
- Motion -- 111 – Mennonite Heritage Week
- Motion – 194 – Precarious Employment
- Motion – 206 – To Study Fitness and Physical Activity Levels of Canadian Youth
- S-6 – Canada-Madagascar Tax Convention Implementation Act, 2018 (Referred to Committee)

On Monday, in the Standing Committee on Public Safety and National Security (SECU), we heard witnesses from Public Safety and Emergency Preparedness, Royal Canadian Mounted Police, the Canadian Security Intelligence Service, Canada Border Services Agency, Correctional Service Of Canada, and the Parole

Board of Canada on the Supplementary Estimates (B) 2018-19 and the Interim Estimates 2019-20.

On Wednesday, we heard from witnesses as we continued the study on Cybersecurity in the Financial Sector as a National Economic Security Issue. For more information on these meetings, visit the SECU Committee website at www.ourcommons.ca/Committees/en/SECU

On Thursday, the Speaker of the

House of Commons granted our request for an emergency debate that evening on the topic of the Prime Minister pressuring the former Attorney General to interfere in the prosecution of SNC-Lavalin. You can read comments and questions from Debates on the House Publications page at www.ourcommons.ca/en

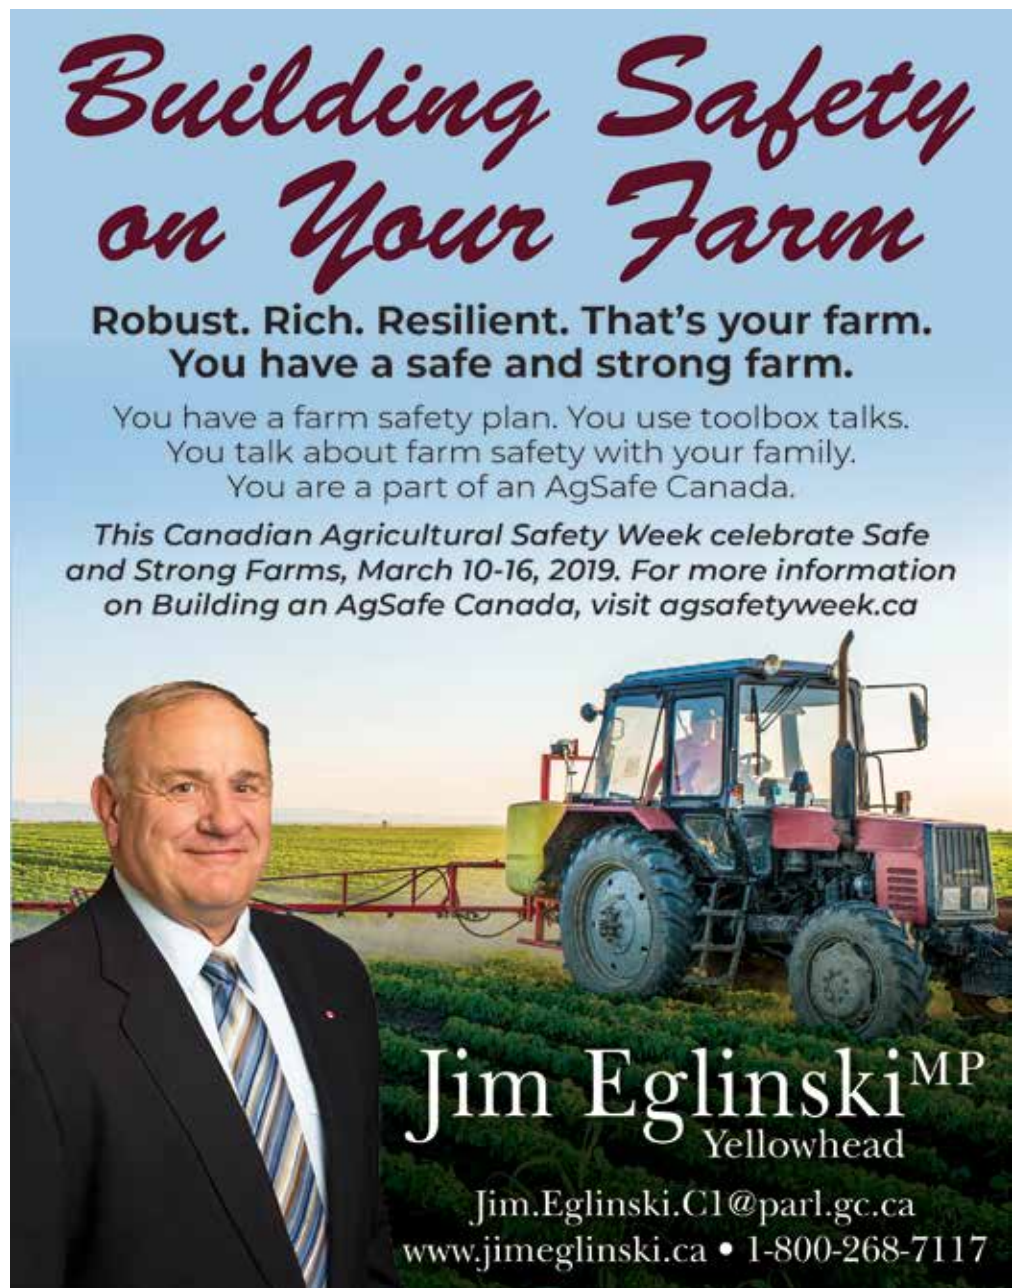

On Friday, I flew back to the riding.

On Saturday, I will have the honour of attending the Edson

First Responders Dinner and Awards Banquet where I will be presenting Fire Chief, Tyler Robinson, his Federal Fire Services Exemplary Service Medal and certificate. Congratulations Fire Chief Robinson!

This week, I attended eight meetings and two events, as well as recorded a message.

I will remain in the riding for the next two weeks while the House is on recess. My next update will be on my travels in the Yellowhead.

BRETON RCMP INVESTIGATE BREAK AND ENTER WHERE SUSPECT WAS CONFRONTED BY HOMEOWNER

Submitted by Breton RCMP Breton, Alta. - On Feb. 7, 2019, at approximately 5:20

p.m., Breton RCMP were noti-
fied of a break and enter to a
rural property in Leduc County.

A male suspect entered a rural
residence and was confronted by
the homeowner at approxima-
tely 3:00 p.m., before fleeing in
an unknown direction. It is not
known if the suspect fled on foot
or in a vehicle.

The suspect is described as:

- Caucasian
- Late 20's to mid 30's
- Approximately 6' 3" tall
- 250 lbs plus
- Husky build
- Black shoulder length hair
- Black goatee
- Big neck
- Light to med blue grimy/oily
baseball hat (unknown if any-
thing on it)
- Black hoody
- Blue jeans
- Gloves
- Big winter boots
- Gruff sounding voice

A composite sketch has been
created of the suspect.

If anyone recognizes the sus-
pect or has any information re-
garding the persons involved,
please contact the Breton RCMP
at (780) 696-3520.

4 REASONS TO SKIP TOPPING OFF

The familiar click of the nozzle when filling up at the gas station is recognizable to anyone with a few miles of driving under their belt. Once that nozzle clicks, just about every driver faces the decision of whether or not to squeeze a few extra cents' worth of gas into their vehicles or remove the nozzle from their vehicles, place it back where it belongs and head off on their way.

Such scenes play out every day across the globe, and it's likely that the majority of drivers try to squeeze a few extra drops into their tank. While topping off can seem like a financially savvy way to delay your next trip to the filling station, doing so may only cost drivers and the planet they call home. The following are four great reasons to skip topping off the next time you pull into a filling station.

1. Topping off costs you mon-

ey. According to the Environmental Protection Agency, drivers who top off at the pump are likely paying for gas they're not getting. That's because gas station pumps have vapor recovery systems that feed gas vapors back into their tanks in an effort to decrease air pollution. So any gas that drivers try to pump into their tanks after the nozzle has clicked may only be drawn into the vapor line and fed back into the gas station's tanks and not your vehicle's fuel tank.

2. Topping off may damage your car.

Topping off won't just hurt your pocketbook; it can potentially damage your vehicle as well. Fuel tanks need extra room inside them so gas can expand while the car is being operated. Without room to expand, gas may evaporate into the vehicle's vapor collection system, which can damage the system and produce

greater gas emissions, thereby harming the planet.

3. Topping off can affect the air you breathe.

If you had a choice, would you pay extra for more air pollution? Likely not. But the EPA notes that this is precisely what many people are doing when they top off their gas tanks. When vehicles' fuel tanks are overfilled, gas vapors can escape into the air and produce toxic air pollutants. That adversely affects air quality, which ultimately affects your health as well.

4. Topping off can cost the gas station money.

Many drivers may wonder why gas stations, who would seemingly benefit fi-

nancially from topping off, post signs that forbid topping off. But the EPA notes that gas stations are likely to lose money due to drivers squeezing an extra few cents' worth of gas into their vehicles. That's because topping off can damage the station's vapor recovery systems, causing them to operate improperly and requiring potentially costly maintenance.

Topping off at the filling station may seem like a savvy move. But drivers, their vehicles and the planet are best served by taking the pump handle out of the tanks at the familiar sound of the nozzle's click.

DID YOU KNOW?

Sedan owners who suspect they might be part of a dying breed are not wrong to harbor such suspicions, as auto industry insiders note that the production of sedans has been in decline for about a decade. According to LMC Automotive, which tracks the auto industry, many auto manufacturers are responding to consumer demand for taller vehicles by producing more trucks, SUVs and crossovers at the expense of sedans. In fact, LMC Automotive estimates that, by 2022, 84 percent of the vehicles sold by General Motors in the United States will be SUVs or trucks. And GM won't even be leading the pack in that regard, as LMC estimates Ford (90 percent) and Fiat Chrysler (97 percent) will be almost exclusively manufacturing some type of truck or SUV. While trucks and SUVs might first have taken hold of the U.S. automotive market, other countries are now following suit. According to the

automotive research firm JATO Dynamics, SUVs, including crossovers, accounted for more than one in three cars sold across the globe in 2017.

HOW TO REDUCE VEHICLE MAINTENANCE COSTS

Major repairs to a vehicle can be expensive. When unanticipated repairs are necessary, drivers' budgets can be thrown out of whack, potentially causing a domino effect that compromises their ability to pay their bills on time.

Whether your vehicle is brand new, a few years old or reaching milestones on its odometer with every mile driven, there are ways to care for the vehicle so you aren't caught off guard by costly repairs down the road.

- Read your owner's manual. A vehicle owner's manual is a great resource that can help drivers keep their cars and trucks running strong for years. Every vehicle, whether it's purchased brand new from a dealership or preowned from a preowned dealer or private citizen, should come with an owner's manual.

Don't worry if you purchased a preowned vehicle from a private citizen who lost the manual, as many manufacturers have manuals available for free on their websites. Print manuals may cost some money. Drivers may be able to find their manuals elsewhere online on a site such as Justgivemethedammanual.com, which has thousands of manuals from various automakers available. Once you have the manual in hand or on your computer, visit the maintenance section to familiarize yourself with the manufacturer's recommended maintenance guidelines. Adhering to those guidelines is a great way to keep your car running strong for years on end, and it might just save you from the hassle of sudden expensive repairs.

- Protect the engine. The en-

gine is arguably the most expensive part of your vehicle to replace, so protecting it should be a priority. Routine oil changes and oil filter replacements is a great way to protect the engine. Manufacturer guidelines vary in regard to oil change and oil filter replacement intervals, but such recommendations can be found in your manual.

- Hone your DIY skills. Drivers also can save money on maintenance by doing some of their own minor vehicle repairs. YouTube is home to many DIY tutorials that can teach drivers how to change their own oil and replace the filters on their vehicles. Routine repairs are relatively easy, and many tutorials can walk you through them step-by-step. Depending on how much you drive, learning to do your own minor vehicle repairs

may save you hundreds of dollars per year.

- Perform routine inspections. Older vehicles may or may not alert drivers via noises or leaks that they're in need of repair. Routine inspections of hoses, brakes and tires, which should always be properly inflated, can let drivers know if their vehicles are experiencing problems before those problems grow and become something costly.

Vehicle maintenance costs tend to be most expensive when drivers ignore routine maintenance or miss signs that their cars and trucks might be struggling. By adhering to manufacturer maintenance guidelines and paying attention to their vehicles, drivers can reduce the cost of keeping their cars on the road.

Farm Safety & Health Week

March
10-16

Teach small children the rudiments of safety, such as which areas are off-limits. As they grow older, explain why certain things are dangerous. When they start helping with the work, make sure they are properly trained, keeping their limited strength and experience in mind. The safe way to do things is not always obvious to a child, so always explain and enforce the safety aspects of the job.

Farm Safety Week

March 10th-16th

Entanglements

° The average farm is full of machinery and device that can grab, cut, smash and entangle fingers, hands, toes, and feet causing injury to the extremities and even death. The sad truth is that most of these injuries can be avoided.

° Some of the key entanglement prevention measures to implement when working with or near machinery are:

- Before operating any machine or equipment, ensure that all guards are in place and in good condition.
- Wear tight fitting clothing, such as overalls. Avoid wearing any items that could become entangled, such as long coats or scarves.
- Never step over a PTO shaft or conveyer belt while it is still running.

° Ensure that anyone working with augers, PTOs, and other extremely hazardous machinery receives appropriate safety instruction and adequate supervision.

° Keep young children out of the farm or ranch work site, especially areas where there is moving machinery.

FARM SAFETY & HEALTH WEEK

MARCH 10-16, 2019

Farm Safety Tips

When farming please follow these precautions in order to keep yourself, your family and your workers safe:

- Decrease your risk of being crushed by using lockout procedures before beginning any maintenance or repair work. Lockout means to physically neutralize all energies in a piece of equipment. Machines, devices or power transmission lines can be de-energized by applying blocks to all parts under tension or pressure, bleeding the hydraulic pressure from the lines or by releasing pressure from a coil or spring.
- Provide a safe, fenced play area for all children and supervise closely. The working area of the farm is not a playground any more than a construction site or other industrial area would be a play area. Review the safety rules on your farm with your family often. Fence off all manure, retaining ponds and dugouts, and lock buildings containing hazardous goods.

FARM MARCH 10TH-16TH, 2019 SAFETY WEEK

Preventing Crushes

- From rolling machinery to falling front-end loaders there are countless crush hazards on a farm. While farm operators and workers can't prevent every hazard on a farm, they should prevent every hazard they can by taking simple preventative measures while working.
- Failure to block-up equipment safely can result in a fatal crushing injury. A jack may slip, a hose or overhead support may break, or the equipment may roll. Always take the precaution of placing support blocks under the equipment prior to working with raised machinery for any reason.

TRUDEAU MUST RESIGN AMID SNC-LAVALIN AFFAIR: MP JIM EGLINSKI

Submitted by Jim Eglinski, MP – Yellowhead

February 28, 2019

Jim Eglinski, Member of Member for Yellowhead, today reiterated Conservative Leader Andrew Scheer's demand that Justin Trudeau resign amid the SNC-Lavalin affair.

"Canadians were shocked to hear the explosive testimony of former Attorney General Jody Wilson-Raybould on the SNC-Lavalin affair. It's clear there was inappropriate – and potentially illegal – pressure brought on her

by the highest officials in Justin Trudeau's government, all in a bid to let a Liberal-connected corporation off the hook on corruption charges," said MP Eglinski.

Media began reporting in early February that the Prime Minister's Office (PMO) pressured Justice Minister and Attorney General, Jody Wilson-Raybould, to intervene in the criminal prosecution of Montreal engineering and construction giant SNC-Lavalin Group Inc.

At the Justice Committee, Ms. Wilson-Raybould said, "...I experienced a consistent and sustained

effort by many people within the government to seek to politically interfere in the exercise of prosecutorial discretion in my role as the Attorney General of Canada in an inappropriate effort to secure a deferred prosecution agreement with SNC-Lavalin."

Ms. Wilson-Raybould's testimony tells the story of a Prime Minister who has lost the moral authority to govern. A Prime Minister who allows his partisan political motivations to overrule his duty to uphold the law. A Prime Minister who has allowed a systemic culture of corruption to

take root in his office.

"Canada's Conservatives are calling on Justin Trudeau to resign and the RCMP must immediately open an investigation into the numerous examples of obstruction of justice that was detailed in the testimony," concluded MP Eglinski.

Canada should be a country where we are all equal under the law. Where nobody – regardless of wealth, status or political connections – is above the law. Canada's Conservatives believe we can be that country again.

ALBERTA RCMP WARN PUBLIC OF FRAUDS – OVER 11,000 REPORTS RECEIVED LAST YEAR

Submitted by Alberta RCMP

March is Fraud Prevention Month and in all of 2018, there were over 11,000 reports of fraud within Alberta RCMP jurisdiction. Impersonation and identity related incidents accounted for 14 per cent of all reported frauds for the year.

Protect yourself by learning how to recognize fraud. Here are some tips:

- If it sounds too good to be true, it probably is
- Ignore communication from unknown contacts
- Purchase items from reputable

organizations

- Never send money on a dating site
- Regularly monitor credit card statements for unknown charges
- Research organizations via the Better Business Bureau
- Don't leave personal identification in your vehicle

On March 2, 2019, Alberta RCMP and partners launched Fraud Prevention Month with a public event at West Edmonton Mall. The event took place on Centre Stage. RCMP attended a Southern Alberta event, organized by the Calgary Police Service, on the same day from 9 a.m. to 6 p.m. at CrossIron Mills in

Balzac.

The public received tips on how to prevent fraud, had the opportunity to take photos with a Mountie and Monty the Safety Bear, shred old hard drives, tapes and phones without batteries courtesy of the Electronic Recycling Association, and were entered into a draw for a chance to win a prize basket.

The organizations that attended the Edmonton event are as follows:

- Edmonton Police Service
- ATB Financial
- Competition Bureau
- Better Business Bureau
- Alberta Provincial Rural

Crime Watch Association

- Edmonton Police Commission
- Association of Certified Fraud Examiners
- Bank of Canada
- Electronic Recycling Association

Check out our social media accounts and #StopFraud2019 and #FPM2019 for more fraud education and tips. Follow us on Twitter @RCMPAlberta and on Facebook @RCMPinAlberta.

If you have been the victim of a fraud, report it to your local police service and to the Canadian Anti-Fraud Centre online at: www.antifraudcentre.ca or by calling: 1-888-495-8501.

PLANNING ON AN OUTDOOR ADVENTURE – BE SAFE!

Submitted by Jim Eglinski, MP – Yellowhead

Jim Eglinski, Member of Parliament for Yellowhead, wishes to inform constituents of Public Safety and Emergency Management's funding announcement of \$977,916 to the Search and Rescue Volunteer Association of Canada (SARVAC), for the development and application of a new AdventureSmart Trip App. The funding will also be used to update training for SAR volunteers, data collection and an e-learning platform. The app

will increase safety awareness and spread prevention messages to Canadians.

The app is currently available on iOS and Android devices. The download is free.

In Canada, search and rescue is a responsibility shared by governments, the military, volunteers, and industry groups. There are approximately 15,000 Search and Rescue volunteers across Canada, representing ground, air and maritime domains. Canada's search and rescue area of responsibility is 18 million square kilometres of

land and water and includes the longest coastline in the world.

One of the app's features is to produce a #TripPlan, that can be left with a responsible person when heading out on an outdoor adventure. A plan can help first responders and search and rescue volunteers find a lost or injured person.

The AdventureSmart program, delivered by SARVAC with support from Public Safety Canada, is a national program dedicated to encouraging Canadians and visitors to Canada to get informed and go outdoors.

The three main tenets of the AdventureSmart program are Trip Planning, Training and Taking the Essentials (the three Ts).

"This app will keep you safe. I encourage my constituents who are planning an outdoor adventure to download this app. This will definitely increase the success of a rescue if required," concluded MP Eglinski.

For more information please go to: <https://www.adventuresmart.ca/>

FARM SAFETY & HEALTH WEEK

MARCH 10 - 16, 2019

KEEP AN EYE FOR SAFETY

The type of safety eye protection you should wear depends on the hazards in your workplace. If you are working in an area that has particles, flying objects, or dust, you must at least wear safety glasses with side protection (side shields). If you are working with chemicals, you should wear goggles. If you are working near hazardous radiation (welding, lasers, or fibre optics) you must use special-purpose safety glasses, goggles, face shields, or helmets designed for that task.

FARM SAFETY WEEK

Be SAFE – Plan Ahead Assess Risk

Risk concerns the expected value of results of a situation or event. The value of those results may be positive or negative. In the farming industry, the measure of risk can be rated as high, medium or low. Once the risk has been assessed, through your regular safety checks, employers can determine whether to take immediate action of a hazard or identify those that can be monitored and fixed at a later time. Regular assessment can help with budgeting time and resources for immediate or future repairs.

OPEN FARM DAYS 2019 CALL FOR HOSTS

Submitted by Government of Alberta

Calling all farmers, ranchers and ag-tourism operators: host applications for Alberta Open Farm Days 2019 are now being accepted.

Now entering its seventh year, Open Farm Days features open houses, culinary events and tours at locations across the province. This year's event takes place on Aug. 17 and 18.

Alberta Open Farm Days is an ag-tourism event that offers an opportunity for Albertans and visitors to learn about and experience a rural agricultural lifestyle. The event connects urban and rural Albertans, and supports rural communities. It features farm to table culinary events and free admission to farm tours throughout the weekend.

Last year's event set records for on-farm sales, reaching almost \$190,000 over two days, and host participation was up 30 per cent over 2017. The overall year-over-year growth of Open Farm Days highlights ag-tourism's continued contribution to diversifying Alberta's economy and creating jobs.

Based on this strong performance, officials are hoping for an even bigger and better Open Farm Days showing this year.

"Open Farm Days is an ag-tourism event that helps farmers meet new customers, share their stories and grow their businesses," says Ricardo Miranda, Minister of Culture and Tourism. "It's also a fun and educational way for Albertans and our visitors to experience all the hidden gems rural Alberta has to offer. We hope even more farms and ranches sign up to participate in this year's event."

The weekend's selection of experiences also helps showcase the growing number of opportunities available to rural and culinary tourism entrepreneurs. There is a wide range of farms and ranches participating, such as:

- Alpaca, sheep, llama, goat, poultry farms
- Bison and cattle ranches
- Breweries, distilleries, wineries and meaderies
- Corn mazes
- Guest ranches, bed and breakfasts
- Honey, fruit, vegetable, grain and u-pick farms
- Organic operations

- Stables and petting zoos
- Participating hosts can access product development supports such as business coaching, industry learning opportunities and regional networks. The deadline for host applications is May 31.

"Becoming an Open Farm Days host is a great way to grow your business," says Tim

Carson, CEO, Alberta Association of Agricultural Societies. "Farmers and ag-tourism operators tell the story of agriculture in our province, produce some of the world's best food and create unique Alberta ag-tourism experiences."

For more information on Open Farm Days and becoming a host, visit AlbertaFarmDays.ca.

Changing the Future of CBD

PURE HEMP CBD PRODUCTS

AGING IS INEVITABLE - LOOKING AND FEELING OLD ISN'T!

WHAT IS CBD?

A Health and Beauty Breakthrough!

Cannabidiol, CBD, is one of over 80 active cannabinoid chemicals in the hemp plant. CBD, unlike, THC, does not produce euphoria or intoxication. CBD targets specific receptors in the cells of your brain & body. There are many physical and mental benefits to using CBD products for both treatment and prevention of numerous ailments.

Therapeutic Uses For Pure Hemp CBD

Supports healthy blood sugar levels, promotes healthy energy levels, relieves anxiety, aids in digestion, supports optimal immune function and the regeneration of healthy cells, and promotes a sense of serenity and overall well-being.

Anti-Aging Uses For Pure Hemp CBD

Promotes more youthful skin, provides hydration, enhances radiance, lessens age lines as well as the appearance of dark spots.

KEY BENEFITS

PAIN RELIEF: Known to reduce vomiting & nausea; suppress muscle spasms; reduce seizures & convulsions.

PROMOTES HEALTH: Helps to promote relaxation and overall health.

WELL-BEING: Helps to relieve anxiety, aid in digestion, supports optimal immune function and the regeneration of healthy cells.

CBD PET PRODUCTS

PET CHEW TREATS

KEY BENEFITS

SYNERGISTIC BENEFITS: Can be used in conjunction with regular medications with no side effects.

NO SIDE EFFECTS: Does not damage the liver, kidney or GI Tract like OTC medication.

DIETARY SUPPLEMENT: Can be administered daily as part of your pet's diet.

ORAL SPRAYS & DROPS

KEY BENEFITS

MANAGES PAIN: Helps to treat inflammation, arthritis and joint pain.

TREATS DIGESTIONAL ISSUES: Helps with loss of appetite, nausea, IBS and gastrointestinal swelling.

GENERAL HEALTH: Helps to manage mood, anxiety and general joint pain. For healthy, happy pets.

CONVENIENT: Can be sprayed into pet's mouth or on food.

PREVAIL

CELLULAR HOMEOSTASIS FORMULA

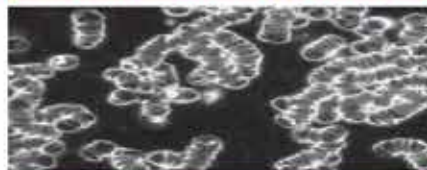

MAX

A NUTRITIONAL BREAKTHROUGH THAT SUPPORTS YOU
...RIGHT DOWN TO THE LAST CELL!

How do you want your
BLOOD to look?

Before PrevailMAX:

poor circulation

low energy

brain fog

dehydration

decreased nutrients

pH imbalance

poor endurance

After PrevailMAX:

better circulation

more vitality

mental clarity

cellular movement

nutrient assimilation

balanced pH

optimal endurance

PrevailMAX™ is a nutritional breakthrough that delivers a rapid increase of internal blood cell pressure to speed absorption, enabling the body to take maximum advantage of the nutrients in foods and supplements. The electrolytes are small enough to penetrate your cell membranes, to bind with your cells, and to be carried wherever they are needed in the body.

At the microscopic level of human cells, **PrevailMAX™** supports healthy cell performance – a nutritional breakthrough for your cells.

When you use **PrevailMAX™**, you will feel more energy and an ability to focus like never before. Take a few sprays today and see just how good you can feel!
