LSARA ANNUAL GENERAL MEETING

Submitted by Lac Ste. Anne and Communities Ratepayers Association

LSARA (Lac Ste Anne and area Ratepayers Association) will be hosting our Annual General Meeting on Sunday March 31st from 2-4 PM at the GUNN Hall in GUNN, Alberta. Join us to hear updates on what we have been working on for the past year. We have provided the LSAC Council and Administration a very fair opportunity to address issues they campaigned

on. Have they effectively addressed the issues? Have they communicated and been transparent with the Ratepayers?

As it is the Annual General Meeting, we will be once again seeking Executive Members, Directors, Researchers and Advisors. This is an open meeting to the Public. Membership fees were removed for the 2018 term but will be reintroduced for 2019 as we are being charged for obtaining information. We also pay for meeting venues, office supplies. Memberships will

be minimal. \$10 per person or \$20 per household. Joining our Non Profit Association provides us all with the opportunity for a voice. The more voices we have the stronger we are. We invite you to join us on Sunday March 31st. You can always reach us on our Facebook Page Lac Ste Anne Ratepayers Association. On our blog <http://lsaracares.blogspot.ca> or email lsaracares@gmail.com We are always interested in the view points of the Ratepayers and want to hear yours. Hope to see you then.

ONOWAY REGIONAL MEDICAL CLINIC IS UNDERGOING SOME EXCITING CHANGES

Submitted by Lac Ste. Anne County | www.LSAC.ca

From 2008 to 2016, twelve municipalities supported the operations of Onoway Regional Medical Clinic by providing an annual \$76,000 cash subsidy to the clinic's operator. Concerns about the sustainability of a permanent and growing subsidy led these municipal partners to consider alternative fund-

ing structures. A business case was developed that suggested the clinic could be operated for profit without a municipal subsidy, and in January of 2017, six municipal partners (the Town of Onoway; Lac Ste. Anne County; and the Summer Villages of Ross Haven, West Cove, Silver Sands and Val Quentin) assumed operations of Onoway Regional Medical Clinic (ORMC).

The initial commitment was

for a two-year trial to prove a business case for a medical clinic in Onoway operated without subsidy. The results of this trial have been nothing short of remarkable. At the end of the two-year mark, our clinic was operating with a small profit, which was reinvested back into the facility. The clinic exceeded revenue projections by 11% in 2017 and 15% in 2018.

With the departure of Dr. Winterbach earlier this year, we are now focused on recruiting a new third physician. Additionally, we're interested in working with a Primary Care Network to bring the services of nurses, dietitians, therapists, and other specialized medical resources to the com-

munity. Although the ORMC Board and partner municipalities are all supportive of adding these services, the current clinic space limits our ability to house and support these additional services. The ORMC Board has made an official request to its municipal shareholders to support its efforts to improve the variety of services available in the region and help it find a new

larger location for the clinic.

Regardless of the outcome of our request for additional clinic space, we will begin to work through the process of incorporating as a Municipally Controlled Corporation. This process will complete the efforts of our municipal partners to ensure the sustainable and independent operation of Onoway Regional Medical Clinic without a dependence upon municipal subsidies to survive.

A Success Story in Accessible, Family-focused Medical Care

Onoway Regional Medical Clinic continues to accept new patients. With its convenient location next to the pharmacy in Onoway, the clinic's friendly and knowledgeable staff provide a spectrum of essential services from routine check-ups to more specialized treatments such as:

- Medicals & completion of required forms, including driver's medicals, insurance, employer physicals and notes, and Work-

HELP RICH VALLEY BECOME HOCKEYVILLE 2019

Your votes are vital to helping this local community win the grand prize in this year's Canada-wide competition.

The Rich Valley community has been named a Top 4 finalist for Kraft Hockeyville. By demonstrating their passion for hockey and community spirit, Rich Valley's nomination rose to the top of thousands submitted to be selected as a Top 4 Finalist. Learn more about their nomination by visiting their Kraft Hockeyville profile on krafthockeyville.ca.

Winning the Hockeyville competition would have a tremendous impact of the small community of Rich Valley in terms of considerable financial support for the arena; the strengthening of its minor hockey program; and a renewed sense of community pride.

What's at stake?

This year, Kraft Hockeyville is awarding prizes across four communities in Canada:

- One grand prize of hosting an NHL® Game, \$250,000 for arena upgrades and the coveted title of Kraft Hockeyville
- 3 Finalist prizes of \$25,000 each for arena upgrades
- The top 4 finalists will also each receive \$10,000 in hockey equipment through NHLPA Goals and Dreams

We're asking residents to help rally their friends, family and the community at large to vote — and vote often — to help Rich Valley win the title of Kraft Hockeyville 2019.

Beginning March 29 at 10 pm, Canadians can cast their votes for their favourite finalist at krafthockeyville.ca. Voting will close at 6:30 pm on March 30, with the grand prize winner live announcement later that evening on Hockey Night in Canada on Sportsnet.

This is a very big deal for the Rich Valley community, and for Lac Ste. Anne County in general. Your vote can help keep grassroots hockey alive and well in our rural region.

Spring 2019 HomeRENO

The Businesses in the following Guide can be your One Stop Solution to all your Renovation Needs!

6 OPTIONS FOR FUNDING YOUR NEXT HOME IMPROVEMENT PROJECT

Before starting a home improvement project, either on one's own or with the assistance of a professional contractor, homeowners must first consider the costs involved. According to the home improvement resource HomeAdvisor, more

than one-third of homeowners do not understand what hiring a professional will cost, and then cannot successfully budget and secure financing once they have set their sights on a renovation project.

HomeAdvisor says that some

of the more popular projects, such as remodeling a kitchen or bathroom or building a deck, can cost, on average, \$19,920, \$9,274 and \$6,919, respectively.

Homeowners may find that the more expensive renovations require them to secure some type

of financing. Those who have never before sought such financing may want to consider these options.

1. Cash-out refinancing: With cash-out refinancing, a person will begin the mortgage process anew with the intention of paying off the current mortgage balance, and then taking out additional funds for other purposes. Cash-out refinancing is a way to tap into a home's existing equity for use on improvements or other expenses, such as college tuition.

2. Home equity line of credit: The financial experts at Bankrate indicate that a HELOC works like a credit card, with the house as collateral. There is

HomeRENO

6 Options For Funding Your Next Home Improvement Project

a credit limit, and borrowers can spend up to that limit. The interest rate may or may not be fixed. However, the interest may be tax-deductible if the financing is used to improve, buy or build a home.

3. Home equity loan: Individuals also can borrow against equity in their homes with a fixed interest rate through a home equity loan. Most lenders will calculate 80 percent of the home value and subtract a homeowner's mortgage balance to figure out how much can be borrowed, according to the financial advisory site The Simple Dollar.

4. Personal loan: Homeowners can shop around at various financial institutions for competitive personal loans to be used for home improvement purposes.

Funds may be approved within one business day, which can be ideal for those who want to begin their improvements soon.

5. Personal line of credit: A personal line of credit allows borrowers to borrow only the money needed at the time, and offers a variable interest rate that is generally lower than fixed loan rates. Again, like a credit card, PLOC gives a person a maximum borrowing amount and is ideal for ongoing purchases.

6. Credit cards: In a pinch, credit cards can be used to finance improvements, but they do come with the cost of very high interest rates if the balance is not paid in full by the time the bill comes due. However, for funding smaller projects

and maximizing rewards points through home improvement retailers or specific credit card company promotions, credit cards can be a way to earn various perks in addition to the benefit of improving a home.

Homeowners looking to finance their next improvements should speak to a financial advisor and shop around for the best types of funding for them.

RETHINK YOUR KITCHEN LAYOUT

Kitchens are the most popular rooms in many homes. Even though The U.S. Bureau of Labor Statistics states the average person spends just 68 minutes each weekday consuming food, and around 37 minutes preparing meals, the kitchen is not just

a spot for food. It also is a gathering place for conversation, homework and family time.

In recognition that so much time is spent in this heart of the home, many people are embracing some of the more popular trends concerning kitchen lay-

outs to maximize the comfort and efficiency of these rooms.

Communal zones

Unlike the days of yore when the kitchen was utilitarian, today's home floor plans make kitchens a focal point of a home. Food preparation also is no longer a solitary task. Thanks to larger kitchen footprints and multiple zones set up for meal creation, a greater number of people can hang out in the kitchen and help with meals. You'll find multiple sinks, large islands and more counter space are key components of modern kitchen layouts.

Dining nooks

Kitchen designs are bringing back banquette seating in a cozy nook. This design is a practical use of space, and can fit in large and small kitchens alike. It also can give a kitchen a high-end

look, as built-in banquettes can highlight a bay window or seem custom-made for the space. Banquette seating can fit a number of people comfortably and provides a sensible and casual dining spot solution.

Family table

The trend experts at Southern Living magazine indicate that formal dining and living rooms are now used infrequently. As a result, kitchens have evolved to accommodate meal prep and dining. A large family table in the center of the room brings people into the kitchen to get more involved with food, according to San Francisco designer David Kensington.

Counter culture

Taking a page out of a favorite corner diner or bar, kitchens are increasingly outfitted with a large island flanked by chic

GRAY IS HERE TO STAY IN HOME DESIGNS

Decorating a home in neutral tones has long been recommended as a way to sell a home quickly. But the color gray also provides a blank canvas for homeowners who have no intention of putting their homes on the market anytime

soon. Beige and white have long been go-to colors for neutral living spaces. But many interior decorators now look to gray as the neutral color of choice.

Design experts advise that gray

has a broad range. Gray can include everything from silver to charcoal to a dusty cloud. According to the trendsetters at Glidden Paints, gray coordinates well with other colors. Plus, the neutral appeal of gray boasts a timeless quality.

Gray is not a clear-cut color that's simply a 50-50 blend of white and black. Gray has subtle nuances that can lean toward blues, greens, taupes, and more depending on the lighting and surrounding furnishings. That means that homeowners who are ready to replace their furniture or accessories need not necessarily repaint if they've previously decorated in shades of gray.

Individuals need only replace small items to produce a big effect in rooms where gray is dom-

inant. Because gray is so neutral, it works with soft, calming colors in various pastels, but equally as well with bright reds, yellow and oranges, according to Scott Bodenner, a Brooklyn-based textile designer.

Gray also is a predominant color in natural stones used throughout homes in entryways, bathrooms and kitchens. It can make design sense to maintain continuity throughout by dabbling in gray elsewhere.

Designers have shown how gray does not have to be cold, industrial or gloomy. It can be sophisticated in just about any room of the house. More designers are now leaning toward warmer variations of gray, such as taupes and blends dubbed "greige," that are beautiful but not as stark as pure gray.

WHEN IT CAN BE SMART TO HIRE A PAINTING PRO

Few things can revitalize a home more readily than a fresh coat of paint.

Thanks in part to the affordability of paint and its ease of application, painting is something that even novice DIYers can typically handle. According to the marketing advice guru Brandon Gaille, it is estimated that residential interior paint only lasts around three years before it needs to be updated. Exterior paint can fade, chip and peel due to various environmental factors. As a result, many homes can likely use a fresh coat of paint in at least one room.

As DIY-friendly as painting can be, when attempting to paint the interior or exterior of their homes, homeowners may learn that some painting projects are best left to the professionals. Painting requires skill, patience and a knowledge of how various paints - including finishes for particular applications - will hold up. Novice painters may do more harm than good by dripping paint on expensive carpeting or floors or fail to recognize the nuances that indicate a spot-on painting job.

Professional painters have spent hours upon hours learning the ropes of what works - and what does not. Painters often understand that painstaking preparatory work is crucial to getting pristine finished results. Walls and ceilings must be properly repaired and prepared even before a base coat is applied.

Professional painters also have an eye for details. And because professional painters make a business out of doing interior and exterior surfaces, they understand which techniques can improve efficiency. That means a professional job can typically be completed much more quickly than a DIY project.

Even though some people think they'll save money by painting their own homes, that's not necessarily true. Professionals already have all the equipment necessary, unlike novices who may need to make repeated and potentially costly trips to the hardware store

for supplies. Plus, if mistakes happen, DIYers have to spend additional time and money fixing them.

Safety can be a large motivator for turning painting over to a pro. Navigating exterior areas or tall interior ceilings can be challenging and may require scaffolding or tall

ladders DIYers do not have. Risk of falls or other injuries increase with lack of experience.

Painting can give a home a facelift, and oftentimes it is smart to turn the work over to professionals to ensure the job is done just right.

Auto TUNE-UP

DID YOU KNOW?

Improved performance and reliability has increased the life expectancy of many vehicles. As a result, many drivers are keeping their cars and trucks in excess of 10 years. According to an IHS Markit study, the average age of vehicles

in the United States is a record 11.6 years, with the average length of ownership at 79.3 months, or nearly seven years. Even after an owner has relinquished his or her new vehicle, that used car or truck can go on to provide many more

years of utility for its next owner. Certain models top the charts among the longest kept vehicles, according to iSeeCars, an automotive industry group. These include the Toyota 4Runner, Chevrolet Corvette, Mercedes-Benz SLK, Porsche Boxster, and the Toyota Land Cruiser, which is the longest kept vehicle and also is the automaker's longest-running SUV.

This vehicle is held onto for an average 10.6 years after being bought new. To hold on to their vehicles as long as possible, drivers should follow maintenance schedules, keep their cars and trucks clean and make repairs promptly. When it comes time to get a new vehicle, upkeep can go a long way toward improving resale value or getting back more on trade-ins.

COUNTY ADDRESSES FROZEN CULVERTS

Lac Ste. Anne County is experiencing a significant number of frozen culverts and incidents of ditch glaciation.

This issue was precipitated by arctic temperatures, large amounts of insulating snow cover, and groundwater continuing to run throughout the winter months.

Public Works employees are actively thawing culverts throughout the area on numerous roads and approaches within our borders. Thawing culverts is a very time consuming and challenging process. When the warmer weather arrives, it will take some time for the culverts to fully thaw and to handle the

increases in water volume. This may result in water pooling near our infrastructure. Residents are advised to use caution while driving and slow down while crossing these affected areas.

Please report frozen culvert locations to PW@LSAC.ca. Please note that culvert issues will be handled on a basis of urgency. Non-urgent matters will be addressed in the order they are received.

CHANGES TO DUST CONTROL PROGRAM

After much discussion, at the March 14 County Council meeting, Council moved to make some changes to the current dust control program that's provided annually to County residents. Historically, the service has been offered to the residents for private dust control at a subsidized rate. This subsidy, funded by public tax dollars, equated to roughly 55%, meaning residents paid \$400/100 meters toward the full cost of \$877/100 meters.

To make this program fair and equitable, and to avoid any budget implications, Council has elected to discontinue the subsidized rate for private dust control. Rec-

ognizing that there are many residents who utilize the service, the County will continue to offer the service at full application costs. At this time, two dust application options are available:

1. Purchasing Calcium **with** a gravel application = \$877 + GST/ 100 meters (minimum)
2. Purchasing Calcium **without** a gravel application = \$558 + GST/ 100 meters (minimum)

To apply for the dust control program, please visit LSAC.ca/Dust. Please direct any questions regarding the dust control the Public Works department at 780.785.3411 or PW@LSAC.ca.

COUNTY LAUNCHES MUNICIPAL LAND CORPORATION

County Council has initiated a process to establish a Municipally Controlled Corporation (MCC) to provide property development and facility management services desirable to the municipality and for the benefit to residents of Lac Ste. Anne County. This entity will be called Legacy Municipal Land Corporation, or Legacy MLC for short.

Projects that bring significant benefit to regional communities and residents may not always be seen by the private development sector as having sufficient return on investment. Recognizing this economic barrier, the County has decided to establish a Municipally Controlled Corporation (MCC) to provide property development and facility management services for commu-

nity-focused projects.

Municipally controlled corporations (MCCs) are for-profit corporations where a municipality (or group of municipalities) holds more than 50 per cent of the votes in electing directors of the corporation. Controlled corporations are similar to other privately-owned business corporations, but must comply with specific requirements under

the Municipal Government Act and the Control of Corporations Regulation. Although municipalities maintain the controlling interest in these corporations, day-to-day operations occur at arm's length.

More information about Legacy MLC and the Municipally Controlled Corporation process can be found on the County website at LSAC.ca/ Legacy.

ONEIL CARLIER FIGHTS FOR SENIORS AND THEIR HEALTHCARE PROVIDERS

-- Kenney's Plan to Cut and Privatize Health Care Hurts Albertans --

Submitted by Alberta's NDP

Onway — Oneil Carlier applauded Alberta NDP Leader Rachel Notley's announcement this week to open 2,000 more long-term care and dementia beds across the province.

Notley made the announcement today standing next to nurses and caregivers in Lethbridge, which will not only benefit seniors, but also those who take care of them.

"Funding more long-term care beds in every corner of the province ensures that seniors can age close to home and close to family. When

you've worked your entire life to help Alberta prosper, you deserve a government that's there for you when you need it." - Oneil Carlier, Lac Ste. Anne-Parkland candidate

The 2,000 new long-term care beds provide benefits to both patients and their caregivers by:

- Reducing crowding in emergency rooms which helps ER nurses and ER team.
- Helping to improve the responsiveness of our paramedics.
- Reducing wait times.
- Ensuring people who need long-term care are being treated in the proper facility.

• Allowing nurses and other staff to focus on patients who should be treated in hospital.

• Ensuring long-term care nurses and caregivers get the space and resources they need to care for long-term care patients.

Notley's \$170-million strategic investment ensures the 2,000 new long-term care beds are added over the next five years and that the beds already added under her government are kept operational. Since forming government, more than 2,100 long term care and dementia beds have already been added, the seniors' benefit was protected and increased,

and Alberta's first permanent seniors' advocate was appointed.

There are also more doctors and nurses working in Alberta now than ever before thanks to Notley's continued support of our public healthcare system.

"Jason Kenney wants to privatize public health care, but Albertans shouldn't need a credit card to see a doctor or go to an emergency room," said Carlier. "Rachel Notley and our team are fighting to protect and invest in the frontline services that our loved ones depend on."

The more numbers you name, the easier it gets to solve the puzzle!
