JOKE OF THE WEEK

Max was caught red handed by a police officer in the very act of burglarizing a store. He was quickly brought to trial. "How do you plead?" asked the judge. "Your honor," answered Max. "before I plead guilty or not guilty I ask that the court kindly appoint a lawyer to defend me."

"Max you were caught in the actual commission of a crime. What could any lawyer possibly say in your defense?" That's exactly my point, your honor," said Max. "I'm curious also to hear what he could possibly say!"

Submitted by St. Albert RCMP

St. Albert, Alta. – In March, 2019, St. Albert RCMP Crime Reduction Unit (CRU) began a lengthy identity theft and fraud investigation which lead to a search warrant being executed at a residence in St. Albert, Alta. As a result of the search warrant, police have identified over a hundred victims of identity theft and fraud from all over Central Alberta.

YOUR FAMILY STORIES ARE NEEDED BY THE ALBERTA BEACH MUSEUM

Submitted by Jean Moses, Coordinator | Alberta Beach Museum

Now that spring is here, the Alberta Beach Museum reminds you that we need your stories – about your family, your business, your organization. Those stories will be a key part of the new history book.

A sequel to Spirit and Trails of Lac Ste. Anne is in the works but we can't do it without your help. If your family was in the

last book, we'd like an update. If your family was missed, tell us what about them. We're concentrating on events since 1940, but will go back further if yours was missed originally.

If you lived in the area, were a summer resident, or were just a visitor enjoying our lake, we want to hear from you. The book will cover the eastern area of Lac Ste. Anne, from West Cove to Val Quentin and Alberta Beach, then north to include Sunset Point, Castle Island, Gunn and

Ross Haven. Of course, it will also include families farming in the area, and individuals on acreages.

Of course we want the family history, but what we really want are stories about the things you remember and value from times past. What organizations and businesses do you remember? What did you do for entertainment, or just plain fun (or not so fun) events. Of course, no history book is complete without pictures, notes, or news articles

to accompany the written submissions.

Submissions can be from individuals, families or groups. Our editor will group them as appropriate, and reserves the right to edit all submissions if necessary. We'll accept handwritten or typed stories dropped off at the museum, or we'll arrange for pick-up. Please try to keep submissions to no more than 1 1/2 pages typewritten, so there's room for everyone!

If you provide an original photo, clipping or document, it will be carefully handled, and returned as soon as possible. If you're comfortable on a computer, please submit by email, Facebook Messenger, or snail mail. Digital photos should be scanned at 300 dpi resolution or higher, with people in the photo identified.

If it works better for you, our volunteers will visit with you to record your stories, travelling anywhere in the metro-Edmonton area, if necessary. The Alberta Beach Museum will also host "Memory Meetings" – opportunities for you to gather at the museum to reminisce over coffee/tea and goodies, and have your memories recorded.

We've prepared a few guidelines to get you started. Contact us to get some questions that might help jump-start your stories.

Submit your stories by email to albertabeachmuseum@gmail.com. On Facebook Messenger, search Alberta Beach Museum. Drop off your stories at the museum at 5000 – 47 Ave. (the museum is only open July and August from 1 to 6 pm or by appointment, so please call first to ensure someone will be there). You can mail to Box 68, Alberta Beach, AB T0E 0A0.

If you'd like a visit from a volunteer, leave a message on the answering machine at 780-924-2140. You can also call Jean at 780-984-5955 to arrange for a convenient time.

Publication is planned for early 2020, so we need your submissions as soon as possible. The "deadly deadline" will be this fall.

Holiday Weekend for Everyone

Because Friday, May 17 is the beginning of the long weekend, there'll be no supper at the Legion. Our volunteers like the chance to get away, too!

Did You Know?

The flag at the Legion was at half-staff on Tuesday, April 9 to observe Vimy Ridge Day. That day honours and remembers those who fought in the fierce Battle of Vimy Ridge in France in 1917, a defining moment for Canada as soldiers from several divisions battled together.

CHILDREN ON-LINE

SOME TIPS FOR CHILDREN ON THE NET

1. Do not use login names or nicknames that will reveal age or gender.
2. Never give out personal identification including friends, addresses, school activities, passwords or real names
3. Everyone is a stranger. Identities can be hijacked or passwords compromised so even your "best friend" online might not be who they say they are.
4. Everyone lies. While this might not be true, it is easier to assume that it is true and to act accordingly.
5. The Internet is NOT secure. It is a shared resource. Email is about as secure as a postcard; Chat is about as private as having a phone call with your parents listening in on the other extension.
6. The people who would harm you have often had lots of time, experience and knowledge on how to trap you. You are an amateur compared to them. They will do everything they can to trick you into trusting them.
7. Do not agree to meet anyone offline.
8. If you are even a little bit suspicious, talk to your parents.

SELF DEFENCE

1. Computers used by children should be placed in a supervised area with the screen facing outwards.
2. All computers that can connect to the Internet should have Anti-Virus Software installed and updated at least weekly, if not daily.
3. All computers that have a dedicated connection (cable/dsl) should also have a firewall device or firewall software installed to block intruders.
4. Never open attachments unless they have been scanned. If you do not know the sender, attachments should be deleted.
5. Use passwords to secure your computer even if you are the only user. If the computer equipment is stolen, all your information could be compromised. Change your password regularly.
6. Disconnect your network connection or turn off your computer when you are not using it.
7. Your computer needs regular maintenance, upkeep and periodic upgrades to keep it functioning well.
8. Always back up your data. Keep the data stored securely and separately from the computer.

TIPS TO STOP SCHOOLYARD BULLYING

- Take it seriously. It's easy to say, "Kids will be kids" and assume it will pass. But if your child is coming home upset and is suddenly anxious about school because of the way a kid (or kids) are treating him, you should pay attention.
- Drop your kid off at school or stand on the sidelines during recess. Bullying tends to occur when adult supervision is lacking, so before school or on the playground at recess.
- Talk to other parents. Young kids are talkers. If you're friendly with a parent in your kid's class, ask them if their child has mentioned anything about kids being picked on at school.
- Tell the teacher. It's really important to let your child's teacher know what your kid is telling you -- especially if someone is getting hit.
- Empower your children. Let your kids know that it's not their fault that they are being bullied. Teach your kids to focus on their own behavior.

ABDUCTION IS NOT A GAME

DON'T TALK TO STRANGERS!

Tips about Strangers

A stranger is anyone you don't know. There is no way to tell by the way a person looks if they are dangerous or not. A dangerous person does not always look mean or scary, so judging by the way people look is a mistake. It's not so easy to tell who is okay and who is not. Just because someone looks nasty doesn't mean that they would hurt you and just because someone looks nice, doesn't mean that they are a nice person.

There is only one person that is with you all the time and can be responsible for keeping you safe at all times. THAT PERSON IS YOU! Safety rules need to apply ALL THE TIME, not just when someone who looks bad or scary is around. One of the most common ways that kids get hurt by strangers is when being friendly and helpful to adults who pretend to need help. When you are without your parents or other adult you know, it is your job to protect yourself. It is not your job to offer help to any adults, even if they ask! A grown-up who needs help should get help from another adult, not a child. So remember, looking out for yourself is your biggest job when you are not with your parents or another adult, so you have permission to ignore or refuse adult requests for help.

Stranger Tips:

- Walk and play with others and use the buddy system. If you walk somewhere, walk with other children.
- Adults do not usually ask children for directions or help, they should be asking other adults. If someone in a car should stop to ask for directions, you should not go near the car.
- Stay an arms reach or more away from strangers. Stand up, back up and run to someone who can help you if you feel afraid.
- If someone is following you on foot or in a car, go to a place where there are other people--to a neighbor's home or into a store, a police station or even a library for instance--and ask for help.
- Never go near a car with someone in it or get into a car without your parents' permission. You should learn whose cars you are allowed to ride in.

Submitted by Betty Williams | Onoway Thrift Store

Betty Williams here, I would like to take this opportunity of wishing my Monday co-workers at the Onoway Thrift Store a very Happy Mother's Day. I am truly grateful to be able to work with 14 wonderful, fun loving, truly awesome and inspiring women. Every Monday they sort household goods and clothing for the shop to sell on Fridays and Saturdays from 10 am to 4 pm.

This shop is run 100% by volunteers. These ladies put in so many

hours in a week (100+) not only sorting and shelving items on Mondays, but take work home.

A bit of background. Our team leader, JEANNETTE HUTCHISON prices the household goods. With 3 people sorting, it makes for a lot of merchandise. Afternoons she heads out back where she spends hours sizing men's and ladies' jeans and dress pants and most times still doing that long after everyone else has gone home.

ELEANOR SNIDER started working with her mother back in 1983. 36 YEARS is a true milestone. She not only sorts incoming household goods, she takes home bags of clothing and cuts them up for rag bags (still only \$8). She also takes home all small toys to clean, bag and price. And last but not least, she takes home burnable clothing. There are days when we can't get it all in the back of her truck.

LUCY STROBL our pottery expert is also out front sorting household goods. She does all the shop's "seasonal" goods (Christmas, Halloween, etc) and prices the items for sale to be ready for the next season. Last year she had 40 boxes of Christmas merchandise ready and waiting for the festive season. Lucy also does the children's books.

BRENDA BRUCH is one of our newer volunteers. A retired nurse is handy to have around for us "maturing matrons". She works out front with Eleanor and Lucy sorting household goods.

A trio of ladies shelves the household goods as they are priced: EVA STELTER (antique china and glass expert). AUDREY WEISE and ELLEN WYNN. They are kept busy from knick-knacks, china, glassware, pictures, books to boots. Replacing old stock with new, tidying, cleaning and rearranging as needed. Eva sets up seasonal shelves (ie: Mother's Day, Father's Day, Camping, etc.) . Eva and Audrey also manage to bake birthday cakes for all.

On Mondays you will find MILDRED HEEKS among the linens, pillows, purses, suitcases, scarves and infant clothes.

The girls in the back that sort clothing: DORIS SCOTT, LOUISE GIBNEY, ROSEANNE LEE, and JOY WELSH (our resident newfie - she told me recently when you go for a walk on the rock, everything is uphill).

RURAL CRIME AWARENESS

Protect machinery from theft by leaving valuables locked in a shed or storage facility and by marking equipment with your drivers licence and province of issue (an engraver can be borrowed free of charge from most local police detachments).

Protect livestock by checking herds regularly and keeping accurate records of livestock born, sold or purchased.

“Grain Fette” or “Grain Guard” is a unique approach to identifying your crops. Small bits of paper, each one imprinted with your special code number, are mixed with grain as grain is being augered into the storage shed. This is approved by the Canadian Grain Commission. The paper used is also digestible in animal feed.

Utilize the Report-A-Poacher Program. Their toll free number is 1-800-642-3800.

Rural Crime Watch Members are concerned citizens who are watchful for unusual activity in their community. They record information on suspicious people and vehicles and pass it along to local police. Join together with your neighbours to install a crime watch program in your area. Do not approach suspicious individuals on your own.

Lawn & Garden

The Businesses in the following Guide can be your One Stop Solution to all your Lawn & Garden Needs!

COMPOST IS PART OF THE CIRCLE OF LIFE IN GARDENS

The season for fresh fruits and vegetables grown right in the backyard is upon us. Warm weather breathes life into fresh berries, tomatoes, eggplant, cucumbers, and many other delectable fruits and vegetables.

Home gardens can be supplemented with delicious finds from the supermarket or farmer's market, including melons, corn and more.

The bounty of the garden can be made more abundant and fruitful with the addition of the right soil amendments. Compost is a key element of rich, nutritious soil. Scraps from items that have been grown in the garden can then be reused in the production of the compost that feeds

that same garden. It's a continuous circle of garden life.

Getting started with compost is relatively easy. Homeowners should choose an outdoor space near the garden but far away from the home so that it won't be disturbed by kids or animals. Some people opt for an open compost pile, while others choose closed bins to contain the possible smell and to camouflage the compost. A sunny spot will help the compost to develop faster, according to Good Housekeeping.

The next step is to start gathering the scraps and materials that will go into the compost. Better Homes and Gardens suggests keeping a bucket or bin in the

kitchen to accumulate kitchen scraps. Here are some kitchen-related items that can go into the compost material:

- Eggshells
- Fruit peels
- Vegetable peels and scraps
- Coffee grounds
- Shredded newspaper

In addition to these materials, grass and plant clippings, dry leaves, bark chips, straw, and sawdust from untreated wood can go into the pile. Avoid diseased plants, anything with animal fats, dairy products, and pet feces.

A low-maintenance pile has an equal amount of brown and green plant matter in the com-

post plus moisture to keep the bacteria growing and eating at the right rate. Aerating the compost occasionally, or turning the bin when possible, will allow the compost to blend and work together. Compost will take a few months to form completely, says the Planet Natural Research Center. The finished product will resemble a dark, crumbly soil that smells like fresh earth.

Compost will not only add nutrients to garden soil, but also it can help insulate plants and may prevent some weed growth. It is a good idea to start a compost pile as a free source of nutrition for plants and a method to reduce food waste in an environmentally sound way.

HOW TO CONTROL CRABGRASS BEFORE IT APPEARS

Homeowners who enjoy tending to their lawns know that grass is vulnerable to a host of problems, many of which appear at a time of year when lawn enthusiasts want to showcase the fruits of their lawn-and-garden labors.

Crabgrass is a common problem that appears in summer. According to Lowes, crabgrass plants produce thousands of seeds between mid-summer and early fall. While the first frosts of late-fall or early winter kill the crabgrass plants, the seeds produced by the plants remain dormant throughout winter and then begin to grow as the ground temperature warms up with the spring and summer thaw. As a result, controlling germination, which is the development of a plant from a seed or spore after a period of dormancy, is the key to preventing crabgrass

from becoming an unsightly blemish that can harm your lawn in summer.

A proactive approach to crabgrass can save homeowners the headaches of dealing with this unwanted guest taking over their grass. The following tips, courtesy of Lowes, can help homeowners reduce the likelihood of their lawns being overcome by crabgrass as summer hits full swing.

- Recognize that routine lawn maintenance may not be enough. Even lawns that receive sufficient TLC can fall victim to crabgrass. A proactive, crabgrass-specific approach to lawn maintenance is the most effective way to control the problem before it pops up.

- Apply a pre-emergent herbicide. Pre-emergent herbicides kill crabgrass seedlings as they germinate. While these herbicides are highly effective, they must be applied at precisely

the right time. The right time to apply them depends on weather patterns. For example, Lowes notes that homeowners who live in regions that might have experienced warmer than usual winters will probably need to apply the herbicides earlier than usual. While the manufacturer instructions should always be followed when applying herbicides, it's essential that homeowners take weather patterns into consideration as well.

- Wait until the ground temperature rises above 60 F. Applying herbicides when the ground temperature is below 60 F might render the products ineffective. Gauging soil temperature can be tricky, but Lowes advises monitoring shrubs and trees on the property. Once shrubs begin to bloom and trees bud, herbicide can be applied.

- Wait when treating newly seeded lawns. Pre-emergent herbicides might kill new grass seedlings, so homeowners with newly seeded lawns should wait until they have mowed their lawns three times before applying a herbicide.

- Emphasize uniform application. If a herbicide is not applied uniformly across the lawn, crabgrass can establish itself and ultimately spread to the rest of the lawn.

- Do not thatch or aerate after applying a herbicide. Thatching or aerating a lawn after applying a herbicide might break the product's chemical barrier, thereby rendering it ineffective.

Crabgrass can quickly spread on an untreated lawn. A proactive approach that prevents its growth can keep lawns looking great through summer.

Happy Mothers Day From Onoway Thrift Store

Continued from Page 12

The girls tirelessly stand there for hours. Bag after bag. The amount of clothing they go thru is amazing. Doris is in really early (before the robins are awake). She starts her day cleaning racks and getting the sorting tables ready to use. I think most Mondays she has the longest shift. Doris takes home plastic store bags to flatten for the store to use on non-bag days. Roseanne takes home fabric to measure, wrap and price.

ASHLEY STEINKE and BONNIE COOPER are our next generation workers. Both are busy mothers of 3. Ashley has been instrumental in getting our shop on Facebook. She helps out all over the shop from sorting clothes, racking clothes, keeping the kids/teens clothes in order. Ashley brought her friend Bonnie in to help out and she mirrors Ashley in the work load. The two of them are a bonus to our Monday crew.

When I started, I sorted clothing. What an eye opener. Then they needed help racking clothes. I like that better, as you are always walk-

ing. I also help out wherever needed. I have also been given the task of greeting cards. (Still only 25 cents) We found out recently that "charitable organizations" would like us to give away any cards we get, so they are now available at the front counter.

We do have two men on our Monday crew, Mel Gibney (Louise's hubby) and Murray Zwickle. They take out bags for the city, empty our garbage bins, empty donation bins and bring household items/clothing inside and never stop. Murray sorts our adult books in between helping Mel.

You ladies are my "sisters", my confidants, my friends. You have passed so much wisdom (using ketchup to shine brass) and you have given me so much laughter. I am thankful to Eleanor for inviting me to volunteer at the Onoway Thrift Shop. I also extend Best Wishes this Mother's Day to all our female volunteers on our Wednesday crew and those that work weekends especially my Saturday partner, Marion Laberge.

HAPPY MOTHER'S DAY my friends, my family. - Betty

CRIME PREVENTION

Use these helpful tips to help keep our community a safe, enjoyable place. Look around your home, school or office and see where you can make a difference.

- Keep an eye out for strange vehicles parked in your area at odd hours or for long periods of time
- Make sure all young children know how to handle possible confrontations with strangers.
- Start teaching children at an early age how to avoid drugs and alcohol.
- Get children involved in organized after-school programs.
- Start, join or reactivate a neighborhood watch program.
- Be aware of your surroundings, especially when walking alone at night.
- Participate in forums which involve local officials, such as city council meetings.
- Reach out to crime victims, their families or others in the community who need support.
- Get to know your neighbors - you may find others with an interest in safety, too.
- Be familiar with members of your local police and fire departments.
- Make sure all street lights in your area are in working order. Alert local officials if they are not.
- Set up buddy systems for teens going out after dark.

BULLYING

Tips for Dealing With Bullying

- 1) Take complaints of bullying seriously. Do not dismiss your child or expect your child to work through the situation alone.
- 2) Praise your child for reporting bullying situations to you and assure your child you will take action.
- 3) Talk to your child's teacher, counselor, or other caregiver about reports of bullying.
- 4) Work together to address the bullying situation. Don't confront the parents of the bully directly.
- 5) Ask your child specific questions about how your child is treated by peers, who he or she eats lunch with, and how other children are treated.
- 6) Teach your child to be assertive. Your child should be able to express feelings and needs clearly, without shouting or other aggressive behavior.

- 7) Provide opportunities for your child to make friends. Identify some of your child's interests and encourage your child to pursue them through sports, clubs, or other group activities.
- 8) Teach your child to identify bullying behaviors. These include hitting, damaging possessions, threatening, name calling, & excluding someone
