MP SOROKA CALLS FOR MORE SUPPORT FOR AGRICULTURE AND THE TOWN OF JASPER

Submitted by **Gerald Soroka, MP for Yellowhead**

OTTAWA: Gerald Soroka, Member of Parliament for Yellowhead, and Deputy Shadow Minister for Natural Resources (Forestry and Mining) was in Ottawa to take part in the sitting of Parliament on April 29. While in the House he questioned the govern-

ment on its response to the COVID-19 pandemic.

Jasper National Park and the Town of Jasper are both heavily reliant on tourism, which has been shut down due to COVID-19. Each year they pay land rent for municipal purposes such as roads, parks and cemeteries, however this year they cannot afford to do so due to lost revenues.

MP Soroka asked if the

Deputy Prime Minister will "help the towns of Jasper and Banff, the only two municipalities in Canada that pay land rent to the federal government? Will the government eliminate the land rent for this year?" Ms. Freeland failed to indicate whether the government would be offering this relief or not.

COUNCIL PASSES 2020 TAX RATE BYLAW

Submitted by **Parkland County**

Parkland County Council passed the 2020 Tax Rate Bylaw at today's regular Council Meeting, which included a 1.28% decrease in the total tax requirement for the median resident and a 4.41% decrease for a median non-residential prop-

erty.

Property taxes are calculated based on assessment values, which means properties throughout the County will be affected differently. An analysis of market values found that residential values have decreased by approximately 2.36% while non-residential market values have in-

creased by 2.20% over 2019.

The 2020 Property Assessment & Taxation Notices will be mailed out to residential and non-residential property owners before the end of May. Payment is due on or before June 30th.

Submitted by Jakob Kubke – Parkland County Libraries

We've been hearing lots of bad news lately: a certain pandemic and all of its dreadful effects; negative oil prices; and not to mention the distressing Fort McMurray flooding.

But there is some good news! The sun is shining, the snow is gone, and amidst all these recent events, workers have continued to make big strides on the new Entwistle Community Hub. It is true that the pool unfortunately will not be able to open this summer. However, the Hub is on track to be finished by the end of summer! This means that the library will be ready to move in when the time comes. No promises can be made for what day we will open, but it will happen before we

know it! I have been taking this time to prepare for the move – it's a big job!

A big thank-you is in order for the workers who have kept going strong and made lots of progress on the building during this strange time.

We would also like to recognize and thank the Government of Alberta's generous contribution towards this project through the Community Facility Enhancement Program Grant. We are very grateful. And, of course, we are very thankful for Parkland County and all of its employees and residents who support these projects. Yellowhead County has also contributed significantly to this endeavor and many thanks must be extended to our neighbours across the river! This new facility will be a great boon for our communities and

residents of the surrounding areas.

Keep following us on social media for updates. It's coming together quickly.

In the meantime, don't forget that you can access eResource materials while the library buildings – Entwistle, Duffield, Tomahawk, and Keephills – are closed. Simply go to <https://pclibraries.ca/eresources> and find your favourite ebook app, for example Overdrive, Hoopla, or RB Digital. Go ahead and call or email any of our four libraries if you need help throughout the process. Find our contact info here: <https://pclibraries.ca/about-us/libraries>

Entwistle: 780-727-3811
Duffield: 780-892-2644
Tomahawk: 780-339-3935
Keephills: 780-731-0000
Keep your chin up and enjoy the heat!

JOKE of the week

Checking the menu, a restaurant customer ordered a bowl of vegetable soup. After a couple of spoonfuls, he saw a circle of wetness right under the bowl on the tablecloth. He called the waitress over and said, "It's all wet down here. The bowl must be cracked." The waitress said, "You ordered vegetable soup, maybe it has a leek in it."

Family run, local business, we care!

MP Soroka calls for More Support for Agriculture and the Town of Jasper

Continued from Page 1

Soroka went on to question the Minister of Agriculture asking, "Is the government going to announce a program geared specifically to agriculture?" Canadian farmers are playing a vital

role during this crisis, but they need help now.

"...We are working right now to see where the gaps are for the agriculture sector. We will come back with further measures as soon as we can," said Minister Bibeau.

Soroka also questioned the Minister regarding the Canadian Federation of Agriculture's agri-food emergency preparedness plan, concerns surrounding meat processing capacity, and the Minister's failure to implement industry pro-

posed measures such as the set-aside program which has been on her desk for months.

These questions and the Ministers' responses can be viewed at <https://bit.ly/SOROKA>

Council passes 2020 Tax Rate Bylaw

Continued from Page 1

For those experiencing economic hardship, Council voted to eliminate late penalty charges for property taxes for the month of July and August to reduce the economic impact of COVID-19 on residents and business owners. Therefore, late penalty charges will take effect starting September 1st at a rate of 5%. Those

who are able to make their payments on time are encouraged to do so.

Please note: due to COVID-19, payments in person at the Parkland County Centre cannot be made at this time. Alternative payment options include:

- By cheque via the mail. For safety reasons, please do not send cash by mail.

- By cheque via the night drop box on the south side of the Parkland County Centre building. Again, for safety reasons please do not deposit cash in this box.

- By phone or internet banking at approved institutions. Please allow three (3) business days before the due date for the payment to reach us to avoid penalties.

- In person at any

bank

- Signing up for the monthly instalment plan. Learn more about this plan at www.parklandcounty.com/paymentoption or contact the County Centre at 780-968-8888 for details on how to join the monthly instalment plan.

Please visit www.parklandcounty.com/COVID-19 for the latest updates on facility closures.

A MESSAGE FROM MLA MARK SMITH

Submitted by MLA Mark Smith | Drayton Valley – Devon Constituency

This year's spring season has presented many unexpected challenges for our community. Undoubtedly these have been difficult times, both financially and emotionally, for many of us. I want to assure all of my constituents that our government is considering every possible step to support Albertans as we look towards economic recovery.

The COVID-19 pandemic has presented many challenges and uncertainties. Mental health is an important part of our well-being. Our govern-

ment is investing \$53 million to boost mental health services in communities across the province, ensuring that all Albertans have access to the mental health supports that they need. I encourage everyone to reach out to loved ones to help boost their spirits. Resources are also available to anyone who is struggling during COVID-19. The Mental Health Help Line provides 24/7 confidential support at 1-877-303-2642.

Throughout the pandemic, sharing accurate and up-to-date information to the public has been an important component of our province's response. Information on public health guidelines, resources

for coping, and supports for individuals and businesses in Alberta can all be found at alberta.ca/covid19.

We recently announced funding to meet new staffing needs at hard-hit continuing care facilities during COVID-19. New funding will help with staff hiring of health care aides, and will relieve some of the pressures on these facilities during the pandemic. Additional funding will be available to top up wages of an additional \$2 per hour for health-care aides, and create up to one thousand paid student practicum positions to fast-track certification and help meet staffing shortages. In addition, \$24.5 million is

being advanced to continuing care operators to help address immediate cost pressures from the pandemic. Continuing care facilities have been disproportionately affected by the COVID-19 pandemic, and our government is committed to supporting staff and helping residents get the quality and compassionate care they deserve.

And finally, our government has announced new measures to connect and celebrate volunteers during the COVID-19 pandemic. The new Alberta Cares Connector will connect volunteers with organizations during COVID-19, and can be found at volunteerconnector.org. This week, the Alberta Northern Lights Volunteer Recognition Program was also launched. This award program is accepting nominations of any individual or group who is helping make their community a better place. As we respond to COVID-19, Albertans are building on our province's culture of volunteerism by stepping up and finding new ways to support their communities.

Finally, the government has decided that the provincial numbers are trending in a positive direction to the point where we can begin to re-launch the Alberta economy. Assuming that those numbers continue to trend in the appropriate direction we have set the date of May 14th for the launching of the first phase of the economic re-opening. The goal is to allow business to gradually and safely ramp up over a period of time through the 3 stages. It will be important to remember that should at any time this very contagious virus flare up again that the government could move back towards a more restrictive position of self-isolation and the shutting down of businesses. As the economy continues through the 3 phases of the re-launch we must all remember to continue to live the lessons that we have learned about self-isolating and hand washing so that society is safe and working once again.

MESSAGE TO MY CONSTITUENTS

Submitted by Gerald Soroka, MP for Yellowhead

The Liberal government announced major firearms policy changes in the middle of a global pandemic that does absolutely nothing to address the real problem – gun violence and illegal weapons in Canada. This is wrong. Members of Parliament should be allowed to debate policy changes and raise their constituents’

concerns. Conservatives have and will always support common-sense firearms policies that keep guns out of the hands of dangerous criminals. We are the only party calling for action to tackle the real issue -- illegal and smuggled guns. According to Peel Region police, 75% of seized illegal handguns are smuggled in from the U.S. This was also confirmed by Ottawa’s police chief.

We want to ensure Canadians are safe and secure in their neighbourhoods, which is why during the last election, Conservatives campaigned on a plan for A Safer Canada. It included the creation of the Canada Border Services Agency (CBSA) Firearms Smuggling Task Force to work with law enforcement to crack down on smuggled guns. It also included making the possession of a smuggled firearm a criminal offence with

a mandatory five-year sentence, as well as better information sharing to allow police forces to better-track illegal firearms.

Residents in Yellowhead and Canadians across the country know that taking firearms away from law-abiding citizens does not do anything to stop dangerous criminals. Conservatives will always support honest firearms owners and focus on cracking down on real criminals.

REGULAR BOARD MEETING HIGHLIGHTS

Submitted by Parkland School Division

April 14, 2020 - The Board of Trustees is pleased to share with all education stakeholders the highlights of our recent Board meeting held on Tuesday, April 14, 2020. The adopted minutes will be available on our website following the next

Regular Board meeting. The Board approved the Three Year Capital Plan 2021-2024 to be submitted to the Government of Alberta. Each year, school jurisdictions submit facility needs for the next three years and await funding and approval from the province. With the pending closure of Seba Beach School at the

end of June 2020, the Board approved the revised attendance areas for Tomahawk School, Entwistle School and Wabamun School. The Board of Trustees is responsible to review Board Policies on an ongoing basis in order to adhere to the requirements necessary to provide excellence in public education and comply

with the Education Act and provincial, as well as federal, legislation. As such, the Board approved the revised Board Policy 13: Appeals Regarding Student Matters. (tracked changes) The Board also changed an upcoming Regular Board (Virtual) Meeting on May 26, 2020 from 6pm to 9:30am.

Lawn & Garden

IMPROVE SOIL QUALITY FOR A BETTER LAWN

A lush, green lawn can vastly improve a home's curb appeal. Thick, healthy grass indicates that homeowners care enough about their properties to invest the time, effort and money to make them beautiful.

According to the landscaping tool company Troy-Bilt, soil fertility is the foundation of healthy lawns. In fact, the quality of the soil is essential whether one is growing acres of grass, potted plants or vegetable garden beds. No matter which type of soil a homeowner is working with, there are various ways to make it better.

Remove thatch

Thatch is a tightly knotted layer of leaves, grass roots, stems, and other debris that accumulates between the grass blades and the soil.

Too much thatch can hinder the movement of water, air and nutrients into the soil. According to organic fertilizer company Organo-Lawn, thatch often occurs if the production of dead organic material in the lawn exceeds the ability of the microorganisms in the soil to break down that organic matter. A half-inch of thatch is normal. If thatch gets too thick, it will need to be removed. The home improvement resource DIY Network says dethatching can take place in the summer, fall and winter using a thatching rake.

Aerate

A lawn aerator will create holes in the soil. This can improve drainage and encourage worms and helpful microorganisms that require oxygen to thrive in the soil.

The Briggs & Stratton Company says the best time to aerate a lawn is during the growing season when the grass can heal and fill in any holes, such as spring and fall. Aeration can help develop deeper grass roots for a healthier lawn.

Test and amend soil

A great lawn has loamy soil, which has a key ratio of clay, silt and sand. Silt is a granular material of a size between sand and clay that originates from quartz and feldspar. It is the most fertile of the three types of soil components. Sand does not retain water, but it helps to create spaces in the soil that permit air to circulate. Clay particles are small and bind together tightly, but clay is naturally nutrient-rich. The home improvement site

BobVila.com says loamy soil should have equal parts sand and silt and half as much clay.

If the lawn is not yet established, loamy soil can be created and then the grass seeds planted. For established soil, after removing thatch and aerating, top-dressing the lawn can help. This involves adding a thin layer of soil over the lawn. It can improve the soil without killing the existing turf. Ideally, it should be done in early fall or spring, as this gives the grass time to grow through three to four more mowings before severe heat or cold sets in.

Healthy soil is vital to a lush lawn. It takes a little work, but improving soil can create vibrant, healthy, green grass.

WHAT MATTERS TO YOU

**Submitted by MLA
Shane Getson - Lac Ste.
Anne-Parkland**

May 06, 2020

The last few months have been “Unprecedented” to be sure. That catch phrase has been used repeatedly, and I honestly believe it is, because hardly any of us in present day have anything to compare it to. I, like many, look for wisdom from my mentors, my elders, and seniors when I personally am in uncharted territory. There is a vast amount of knowledge out there that you will not find on the internet search engines, nor on social media posts. There is an oral history that will unfortunately never be written down, and can only be accessed if we take the time to visit, ask questions, and listen.

I know for certain that I am not the smartest person in most of the rooms I’m in, and humbly look to others for their input and guidance, especially if they have “Been There and Done That”. I can take their advice, apply my own knowledge, review the information at my disposal, and then make my informed decision. It is has kept me out of the glue on more than one occasion, and I greatly appreciate the people who have taken their time over the years to impart their knowledge and experience so, as one man put it, “You don’t repeat my mistakes”.

The present circumstance is unprecedented, and although even many of our elders may not have seen the exact scenario that we see playing out all at once, they indeed have relevant knowledge that will offer us guidance, and also advice on precautions that should be taken. I have listened carefully in the past and will continue to seek council from my mentors, and now

from the constituents and community leaders that I have met over the last year. We will have many challenges ahead of us, and we need to draw on the past, so we can build on the future together, and avoid the missteps of our history. We must make the most of the time and resources we have to build the Alberta of the future that the next generations deserves.

Here are some of the challenges that we will all be facing going forward and, if we are going to overcome, we will need to be working together.

1. Health – The viruses don’t care. They can, and will, attack as many people as they can. So we need to make sure we practice the simple habits for hygiene and social distancing that we have developed over the last month.

2. Economy – This is going to be one of our greatest challenges. In fact, it will in all likelihood be more challenging than COVID itself. This is due to the impact on the global and domestic economy relating to the shutdown that took place due to COVID, compounded by the price war between the Russians and Saudis, the attack internally on our own energy sector, the polarization of issues regarding pillars in the economy, and the lack of support for local and small business.

3. Public Services – there are going to have to be some real sobering discussions, and understanding on what is a “Need” and what is a “Want” when it comes to the services and the amenities that we had at our disposal when we had a robust economy and the realities of our situation today.

4. Identity – Who are we as a province and where do we fit in the confederation.

When I had the great fortune of working on several major pipeline, and facilities

projects in my career, I had my share of interviewing candidates for various positions on the project teams. Accounting, Cost Control, Engineering, Scheduling, Quality Control, Safety, Risk, Construction Management, Project Management and Inspection to name a few. One question that I posed to all of the applicants was “What do you want to be when you grow up?” Most of us have not been asked that since we were kids, you know before we “Knew any better” that if we put our mind to it, that we could be anything, and do anything as long as we were willing to put in the work. We often wanted to be more than one thing, sometimes in succession, sometimes at the same time. The reason that I asked that question is that I wanted to see the spark, I wanted to hear if that person wanted to still grow, I wanted to see if there were things that they wanted to grow into, and that they would want to be part of, as a team, so that they could “Be what they wanted to be” as they grew up with the team.

The successful candidates, always had an answer. They always had a sparkle in their eyes, a fire in their belly, and they worked very hard on something as a team that was bigger than themselves. They were working towards a path of growth that may not be fully realized on the project they were signed up for, but a few years down the road, they would have had a chance to develop the personal skills to grow into “What They Wanted to Be”

I’d like to ask you, the same question, and then apply that same question as to what would you want “Alberta to be” when it grows up. We are a young province, and have been hit very hard over the last few years, so if we look

to older provinces or states, we can see that the successful ones have built out the “Value Added” chains within each of their main pillars of economy. This offers certainty, and stability.

I feel that if we dare to dream big again, if we can combine the wisdom of our elders, with the optimism of a child, with the grit, determination, energy and enthusiasm of our working aged population and with a common goal and vision of growing our province together the sky really is the limit. We should never shy away from, or be ashamed of our resource and agriculture sectors, and not be willing to support and grow them, providing what Albertan’s need. These industries have been cornerstones of our economy, and will be for years to come.

We do need to ensure that we have access to markets, and Canada should never be reliant on any foreign nation for our energy needs. We should be able to export our products to responsible trading partners, who are looking to secure their energy needs for years to come from an ethical producer like Alberta.

Given our wide open spaces, clean living, safe society, we have so many attributes that are the envy of most of the world, and we should be eternally grateful for our forefathers for their efforts building a sound foundation. If we are to express our gratitude, and “Pay It Forward” to the next generations it is up to us to not falter under the challenge in the next few years, but to dig deep, bear down, and do the work together. Let’s dream big, and build on the solid foundation to allow the Province to be all that it can be with all the potential it has and with the great people who proudly call themselves Albertans. Stay Strong, Stay Free.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

ANSWER:

4	5	8	2	3	9	6	1	7
1	6	2	5	8	7	4	3	9
3	9	7	1	4	8	2	8	5
7	8	4	3	6	2	5	9	1
9	2	3	7	1	5	8	6	4
6	1	5	4	9	8	7	2	3
5	3	1	8	2	4	9	7	6
2	7	6	9	5	1	3	4	8
8	4	9	6	7	3	1	5	2

		8			9			
1		2		8		4		9

WEEKLY PUZZLE SPONSORED BY:

As your community newspaper, we are committed to delivering the latest and most accurate COVID-19 news and local updates. We also remain dedicated to serving our local advertisers, as they struggle to overcome unprecedented economic challenges resulting from the pandemic.

ADVERTISERS, call 780.962.9228 to learn how we can help you.

In uncertain and troubled times like today, the importance of local news and community connection is more evident than ever. You can help support businesses in our community by purchasing gift cards for later use, frequenting restaurants that are open for takeout or checking to see if your favorite businesses have opened online stores. You can also support the future of local news and reporting by reserving your ad space today and letting our readers know how they can help you!

Together, we are all stronger.

PURE HEMP CBD PRODUCTS

AGING IS INEVITABLE - LOOKING AND FEELING OLD ISN'T!

WHAT IS CBD?

A Health and Beauty Breakthrough!
Cannabidiol, CBD, is one of over 80 active cannabinoid chemicals in the hemp plant. CBD, unlike, THC, does not produce euphoria or intoxication. CBD targets specific receptors in the cells of your brain & body. There are many physical and mental benefits to using CBD products for both treatment and prevention of numerous ailments.

Therapeutic Uses For Pure Hemp CBD

Supports healthy blood sugar levels, promotes healthy energy levels, relieves anxiety, aids in digestion, supports optimal immune function and the regeneration of healthy cells, and promotes a sense of serenity and overall well-being.

KEY BENEFITS

PAIN RELIEF: Known to reduce vomiting & nausea; suppress muscle spasms; reduce seizures & convulsions.

PROMOTES HEALTH: Helps to promote relaxation and overall health.

WELL-BEING: Helps to relieve anxiety, aid in digestion, supports optimal immune function and the regeneration of healthy cells.

CBD PET PRODUCTS

PET CHEW TREATS

KEY BENEFITS

SYNERGISTIC BENEFITS: Can be used in conjunction with regular medications with no side effects.

NO SIDE EFFECTS: Does not damage the liver, kidney or GI Tract like OTC medication.

DIETARY SUPPLEMENT: Can be administered daily as part of your pet's diet.

ORAL SPRAYS & DROPS

KEY BENEFITS

MANAGES PAIN: Helps to treat inflammation, arthritis and joint pain.

TREATS DIGESTIONAL ISSUES: Helps with loss of appetite, nausea, IBS and gastrointestinal swelling.

GENERAL HEALTH: Helps to manage mood, anxiety and general joint pain. For healthy, happy pets.

CONVENIENT: Can be sprayed into pet's mouth or on food.
