CHERHILL 4-H MULTI CLUB REPORT

Submitted by Owyn Jeffreys, Club Reporter | Cherhill 4-H Multi Club

Our club is still following COVID-19 rules so we have not been able to get

together since November. We were able to have another monthly club meeting on March 5, 2021 which was online using Zoom.

A lot of our club events are still being cancelled or postponed

because of COVID. It did not seem like we had a very busy month but our 4-H club is still very active and we are still working on our projects.

ONOWAY LEGION NEWS

Submitted by Richard Moses

The Onoway Legion will Remain Closed!

The Onoway Legion executive recently held a meeting to discuss re-opening. However, the decision was

to remain closed out of respect for area businesses. With so many businesses struggling to stay afloat, the executive feel that the community will be better served by not opening in competition to those businesses. The decision will be re-vis-

ited in future.

Watch for On-line 50/50 Draw

The legion will be starting an on-line 50/50 draw soon. That means you can enter from home! Watch for details.

MP Gerald Soroka Questions the Government on Its Bungled Quarantine Hotel Scheme

Continued from Page 1

He said:
“Madam Speaker, the government has completely bungled its quarantine hotel scheme. Conservatives have been calling for a post-arrival testing regime since the beginning. The Calgary International Airport pilot project showed that this could be done successfully. I recently met with travel agents to discuss the impacts of COVID on the sector and its path to

recovery.
When will the government abandon its failed hotel quarantine debacle and instead implement post-arrival testing?”

Reply:
Mr. Darren Fisher (Parliamentary Secretary to the Minister of Health, Lib.):

“Madam Speaker, Canada has some of the strictest travel and border measures in the world. New variants of concern have made it very important that we take further steps to protect Ca-

nadians from COVID-19. We have been clear from the start of this pandemic that no one should be travelling. We have to get that message through. Doing so can put people and their loved ones at risk. From the start we have had the safety and health of Canadians in mind, and we will always act to protect that.”

The video of the exchange can be found at: <https://www.facebook.com/GeraldSorokamp/videos/904095350443950/>

SAFE & STRONG FARMS: CANADIAN AGRICULTURAL SAFETY WEEK

Helping producers prevent costly and devastating fires

Canadian Agricultural Safety Week (CASW) is a national public awareness campaign that takes place every year during the third week of March. In 2021, CASW focuses on the importance of farm safety.

Fire is one of the main hazards that can affect an agricultural operation since there are so many ways a fire can start. Fires can start from electrical problems, lightning strikes, improper handling of chemicals and flammable materials, combusting hay or feed, and many other areas.

The County's Farm FireSmart program is designed to help identify and address the unique challenges faced by farmers, ranchers and acreage owners as they prepare for wildfire — or better yet, prevent its occurrence in the first place.

Visit farmfiresmart.ca today and explore videos, news and other resources designed to help maximize the safety of everyone on your farm.

Remember: most farm injuries are preventable. Safety starts with you!

PROTECT YOUR CAR FROM SUN DAMAGE

People know to protect their skin and eyes from the sun. Sun exposure can be dangerous for the body, but the sun's rays also can damage automobiles.

Leaving a vehicle exposed to sunlight for extended periods

of time increases the risk of damage to its interior and exterior. It's important that car and truck owners recognize this so they can mitigate the potential problems sun and heat may cause. Testing conducted at the State Farm® Vehicle Re-

search Facility found interior vehicle air temperatures have been recorded well in excess of 145 F. Interior surfaces exposed to direct sunlight have been recorded at temperatures in excess of 195 F.

The automotive repair service Fix Auto says the sun's ultraviolet rays can cause the vehicle's paint to peel and fade over time. UV rays break down the molecules in the paint and make it appear dull. The company says red paint is particularly susceptible because red paint molecules deteriorate faster in the sun than other paint colors.

To prevent potential sun-related damage, take these precautions.

Avoid direct sunlight. Park in the shade as much as possible.

Crack a window. If it is safe to do so, lower interior air temperature and equalize air pres-

sure by opening up car windows a little.

Use a windshield protector. Reflect sunlight away and keep the vehicle cool with a windshield sun protector that unfolds and slides into place.

Use a protectant wax. A layer of wax can offer another layer of protection against the sun's ultraviolet rays.

Wash the car frequently. Washing and hand-drying the vehicle helps to remove dirt and other debris which can cause micro-scratches in the paint.

Install seat covers. Seat covers can protect leather and fabric upholstery. A leather conditioner can help prevent cracks and tears from sunlight and heat.

These easy steps are simple preventative measures that protect vehicles against sun damage.

It is with very heavy hearts that the family of Philip Rilling of Cherhill, AB announce his passing on February 28 at the age of 51. Phil will always be loved and remembered by his big sister, Leanna (Lloyd Gache) and his treasured niece, Lily Gache all of Sangudo, AB. Also remembering him are his Rilling and McDougall extended families as well as many wonderful friends and neighbors. He was predeceased by his parents Nora in 2020 and Harry in 2013. Phil was born, raised and remained a farmer for all of his life. He had a love for country life, the land and animals-especially his old cat Anderson. Phil attended Cherhill and Sangudo Schools and enjoyed reminiscing about those days with his friends. The city life also called to him from time to time where he made many lasting friendships. He was appreciated for his hard working ethic that always saw him ready to give a helping hand where needed. Playing hockey was one of his favorite pastimes with his friends where many good times were had. Phil had the unique ability to strike up a conversation with just about anyone anywhere, usually finding out some connection that they shared. His laughter, genuine honest

nature and kindness will be so very missed by all. Cremation has taken place. No service has been planned at this time. Donations may be made to a charity of your choice. (1) 16-03

SUDOKU

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
