MOBILE MAMMOGRAPHY SERVICE TO VISIT EVANSBURG

Submitted by Alberta Health Services

Women ages 50-74 – the group most at risk of developing breast cancer – will have local access to mammography services when the Alberta Health Services Screen Test program arrives in the community.

A mobile mammography trailer will be stationed at the Evansburg Baptist Church at 4804 48 Avenue on March 30, 31 and April 1, 2021. Residents can book an appointment or learn more about the program by calling 1-800-667-0604.

Screen Test is improving access to cancer screening for hundreds of women in Alberta communities where mammography is not readily available.

COMMUNITY PHYSICIANS WILL SOON ADMINISTER VACCINES

Community physicians will soon begin administering the COVID-19 vaccine, helping more Albertans get their dose as soon as possible.

Submitted by Government of Alberta

Alberta Health has been working with the Alberta Medical Association (AMA) to incorporate community physicians into the vaccine distribution plan as vaccine supply increases.

This has resulted in more than 500 expressions of interest from Alberta physicians and stand-alone clinics. Combined, 185 physician clinics containing 1,100 physicians will create additional capacity for an estimated 14,000 daily doses, as supply allows. Some physicians are already assisting Alberta Health Services (AHS) with vaccine administration.

The first community physicians are expected to begin administering vaccines in their clinics in April. New temporary billing codes are being added to the schedule of medical benefits to allow physicians to bill for this service. A medical bulletin outlining the details will be issued in the coming days.

Alberta Health is currently reviewing all expressions of interest. Once this review is complete, interested physicians will be contacted to: • Validate their interest.

• Organize logistics for supply distribution and record management.

Initially, a limited number of clinics will be able to offer the COVID-19 vaccines; however, vaccine supply is expected to increase during the coming weeks and the number of community clinics administering the vaccine will expand along with supply.

Planning is underway for rapid flow clinics involving physicians and other healthcare professionals that can be used in the future, if needed. These clinics would be used if Alberta received an unexpected surge in vaccine supply.

To date, 368,124 doses of COVID-19 vaccine have been administered in Alberta, with 91,593 people fully immunized with two doses.

Alberta's government is responding to the COVID-19 pandemic by protecting lives and livelihoods with precise measures to bend the curve, sustain small businesses and protect Alberta's health-care system.

Quick facts

• Billing code info will be posted on the Alberta Health Care Insurance Plan Bulletins page

• For rapid flow through clinics, it is expected that an Alternative Relationship Plan

(ARP) will be the method of payment, and discussions with AHS and AMA are underway to finalize.

• There are approximately 5,600 family physicians in Alberta

• Alberta Health and the AMA are working collaboratively to help ensure Alberta's vaccine supply is effectively and efficiently utilized and Albertans have access to information to inform their vaccine decisions from trusted sources.

SERENITY FAMILY SERVICE SOCIETY - YOUR NOT-FOR-PROFIT SOCIETY

OKE of the week

A parishioner was in front of me coming out of church one day, and the preacher was standing at the door as he always is to shake hands. He grabbed the parishioner by the hand and pulled him aside. The Pastor said to him, "You need to join the Army of the Lord!" The parishioner replied, "I'm already in the Army of the Lord, Pastor." Pastor questioned, "How come I don't see you except at Christmas and Easter?" He whispered back, "I'm in the secret service." Constituency Office: #18, 4708 Lac Ste. Anne Trail North P.O. March 23, 2021 CommunityVOICE Page 3 A MESSAGE FROM MLA MARK SMITH

Submitted by MLA Mark Smith | Drayton Valley – Devon Constituency

Alberta's government has introduced two pieces of legislation as part of an ambitious democratic reform package that will strengthen democracy and accountability in Alberta. Bill 52, the Recall Act, would give Albertans the power to initiate a process that could potentially lead to the recall of provincial and municipal elected officials, and Bill 51, the Citizen Initiative Act, would allow Albertans to bring forward important matters to the legislature for consideration. Both pieces of legislation would help strengthen Albertans' roles in our democratic system.

If passed, Bill 52, the Recall Act, would allow Albertans to hold elected officials accountable and replace them if they aren't getting the representation they deserve. It would allow voters to remove elected officials from office, including MLAs, mayors, municipal councillors or school board trustees, providing them with one more tool to hold their elected representatives accountable. This builds on the accountability mechanisms that are currently in place, such as the Municipal Government Act which allows the Municipal Affairs minister to remove elected municipal officials from office under specific circumstances, and the Education Act which includes accountability measures for school board trustees.

If the Legislative Assembly of Alberta passes the Recall Act, Alberta will be the first province that provides the public with the power to initiate a process that could recall mayors, councillors or school board trustees from office. Under the proposed legislation, recall of elected officials becomes an option 18 months after their election. Any Albertan wishing to recall their elected official would need to contact the chief electoral officer, their municipality's chief administrative officer, or their school board secretary. They would

then have 60 days to gather signatures from 40 per cent of the eligible voters for their provincial riding, municipal ward, or school ward, and if successful, a recall vote would be held.

Bill 51, the Citizen Initiative Act, also gives Albertans a more direct role in their democratic system. This legislation would strengthen our democracy by enabling Albertans to initiative legislative action on issues that affect them. If enough support is received through a public petition, Albertans would be able to submit proposed bills and policies to the Legislative Assembly of Alberta for consideration and submit constitutional referendum questions to the provincial government. These proposed changes would complement the work of our elected officials and be a check and balance if Albertans feel their interests are not being considered.

Under this proposed legislation, if an Albertan wanted to bring an initiative forward, they would first need to apply to the Chief Electoral Officer. They would then have 90 days to gather signatures in support of their initiative. For legislative and policy initiatives, petitioners would need the support of 10 per cent of voters province-wide. For constitutional initiatives, they would require the support of 20 per cent of voters province-wide across two-thirds of Alberta's constituencies.

Democratic reform and recall legislation were election platform commitments. Both of these pieces of legislation represent promises made, and promises kept. The Citizen Initiative Act also builds upon Premier Jason Kenney's commitment to introduce citizen initiative legislation when discussing getting a 'fair deal for Alberta.'

More information on both of these pieces of legislation can be found at alberta.ca. Additionally, your United Conservative Caucus is interested in your thoughts on recall legislation. Visit unitedconservativecaucus.ca/recall to have your say.

Page 4 CommunityVOICE March 23, 2021 CANADA AND ALBERTA INVEST IN PROJECTS SUPPORTING AND IMPROVING QUALITY AND SUSTAINABILITY OF PUBLIC FACILITIES

Gerald Soroka, Member of Parliament for Yellowhead, wishes to advise that the Department of Infrastructure and Communities along with Alberta's Ministry of Transportation and Municipal Affairs announced funding for the damaged sections of the Drayton Valley Hospital and Care Centre's roof through the COVID-19 Resilience Infrastructure Stream of the Investing in Canada plan.

The stream of funding dedicated to the Drayton Valley Hospital and Care Centre is part of a 5.9-million-dollar package to be split between three projects, the other two being in Edmonton and Lethbridge.

JOINT SECONDER ON MOTION M-61, A MOTION TO SUPPORT THE OIL AND GAS SECTOR

Gerald Soroka, Member of Parliament for Yellowhead is pleased to advise that he is a joint seconder on Conservative MP Ziad Aboultaif's Motion M-61, 'Motion to Support the Oil and Gas Sector'. The Motion reads " (a) in the opinion of the House, the gov-

COVID-19 NOTICE:

Attendance at the AGM may create a risk of contracting COVID-19. Members with underlying health conditions are strongly urged not to attend the AGM. Attendance at the AGM is not mandatory for members. Anyone with symptoms of COVID-19, with a history of international travel in the prior 14 days, or with close contact with a confirmed case of COVID-19 in the prior 14 days are prohibited from attendance and will not be admitted. 2 meters of distance must be maintained between members of different households, and masks and hand sanitization upon entry are mandatory. Attendees voluntarily assume all risks related to exposure to COVID-19. ernment should recognize that, (i) replacing oil and gas with more environmentally sustainable options is not technologically or economically feasible,

(ii) Canada's energy needs require the use of oil and gas to heat Canadian homes, schools and hospitals, to propel vehicles, to bring food to Canadian tables, and to produce electricity,

(iii) Canadian oil and natural gas are produced with the highest environmental standards in the world, and domestic producers are global environmental leaders and responsible corporate citizens,

(iv) using Canadian resources creates Canadian jobs,

(v) First Nations involved in Canada's oil and gas industry experience significant and profound positive economic effects, including higher rates of employment, higher incomes, and improved health and educational attainments,

(vi) tax revenue from the fossil fuel industry is an important contributor to the national treasury, facilitating transfer payments benefitting all Canadians and allowing Canada to afford the social programs all Canadians depend on; and

(b) the House recognize that, (i) Canada's oil and gas industry from Western to Atlantic Canada is essential to the well-being of the nation and should be celebrated,

(ii) tax and regulatory barriers limiting the responsible growth of Canada's oil and gas industry should be removed."

MP Soroka stated "The passing of this motion will mean that the House officially recognizes the truths of Canada's Oil and Gas sector, and that is something I am proud to support". POST SECONDARY OPPORTUNITY AT TIPPLE PARK MUSEUM

Submitted by Melissa Killick, Manager | Tipple Park Museum

We are preparing for another Summer here, at Tipple Park Museum which means we are growing our team once again this summer!

Tipple Park Museum is located in the heart of Evansburg, Alberta long the Pembina River Valley. We take pride in our Coal Mining history, cultural programming and educational exhibitions. We are always learning and showcasing new ideas to bring people to our Museum along with growing our team every year.

Tipple Park Museum is cur-

rently seeking a Tour Guide for our 2021 season. We are looking for an individual that can bring high enthusiasm, determination and great team spirit to join our team. The position starts May 5th and ends August 28th.

Please note, you must be a student that is currently enrolled or finishing Post Sec-

ondary. A huge thank you to Young Canada Works for funding this position.

The application deadline is April 14, at 4:00pm. all resumes can be sent to tippleparkmuseum@gmail.com For more information on the job posting, please vis-

it our website: www.tippleparkmuseum.com

NATIONAL INFRASTRUCTURE ASSESSMENT ENGAGEMENT PAPER

Submitted by Gerald Soroka, MP for Yellowhead

OTTAWA: Gerald Soroka, Member of Parliament for Yellowhead, wishes to advise that the Department of Infrastructure and Communities has launched an Engagement Paper on Canada's first National Infrastructure Assessment. This will set out the purpose and benefits of undertaking a National Infrastructure Assessment and seeks input from the public, Indigenous Peoples, provinces, territories, municipalities, and stakeholders on three main priorities of the assessment:

Assessing Canada's

infrastructure needs and establishing a long-term vision;

• Improving coordination among infrastructure owners and funders; and

• Determining the best ways to fund and finance infrastructure.

The National Infrastructure Assessment, once in place,

will help identify Canada's evolving needs and priorities in the built environment and undertake evidence-based long-term planning toward a net-zero emissions future.

Deadline for receiving feedback is June 30, 2021.

More information can be found at: nia-eni-doc-eng. pdf (infrastructure.gc.ca)

HOLDING ELECTED OFFICIALS ACCOUNTABLE IN ALBERTA

Proposed democratic reform legislation will strengthen democracy by allowing Albertans to hold elected officials accountable throughout their terms.

Submitted by Government of Alberta

Bill 52, the Recall Act, would allow Albertans to initiate a process that could lead to removing and replacing elected officials including members of the legislative assembly (MLAs), municipal officials and school trustees during their term.

"Elected officials have a responsibility to Albertans, and Albertans should be able to hold those officials accountable throughout their term, not just at the ballot box. Albertans have told government for years that they want a greater say in the democratic process, and this legislation will help give them that voice." - Jason Kenney, Premier

"Albertans deserve elected officials who uphold their promises and responsibilities.

Through this legislation, Albertans will be able to make sure their representatives can be held even more accountable to those who voted for them." -Kaycee Madu, Minister of Justice and Solicitor General

"We made a campaign promise to bring in recall legislation. This legislation applies to all elected officials and will make them more accountable to Albertans." - Ric McIver, Minister of Municipal Affairs

Under the proposed Recall Act, recall of an elected official becomes an option 18 months after the respective provincial, municipal or school board election. An eligible Albertan could begin the process to have their MLA recalled by applying to the chief electoral officer. In the case of municipal officials, the Albertans would need to notify the chief administrative officer of the municipality. For school board officials, they would apply to the secretary of the relevant school board.

The Albertan would then have 60 days to gather signatures from 40 per cent of eligible voters in their constituency for MLAs. For elected municipal officials, the Albertan would need signatures from electors that represent 40 per cent of the population in the municipality or ward. For school board trustees, the Albertan would have 120 days to gather signatures from 40 per cent of eligible voters in that school district or ward.

If the recall petition is successful, the voters in that MLA's constituency would then vote to determine if they should be recalled. If the vote is successful, the MLA would be removed, and then a byelection would be held to choose a new representative.

If the recall petition for an elected municipal official is successful, the elected official is removed once the petition is presented at the next council meeting. If the recall petition

March 23, 2021 Community VOICE Page 7 OUTSTANDING FIRST YEAR TEACHER FINALIST FOR 2021 EDWIN PARR AWARD

Submitted by GYPSD

Congratulations to teacher Beth Johnson of Grand Trunk High School (GTHS) in Evansburg - this year's finalist as the GYPSD nominee for the Alberta School Boards Association (ASBA), Edwin Parr First Year Teacher Award.

Ms. Johnson is currently teaching high school Math, Chemistry, junior high Health and Wellness and electives, and was excited to be offered her first teaching position at GTHS as she grew up in the neighbouring community of Whitecourt. As part of the selection process, Ms. Johnson presented to the Board of Trustees at the Public Board Meeting on March 10th sharing one of her most successful lessons, her teaching philosophy, her greatest success in teaching since joining GYPSD, and how she has grown as an educator.

Six Edwin Parr Teacher Award winners will be chosen from across Alberta including one from Zone 2/3 - where GYPSD is located. The provincial ASBA Edwin Parr Teacher Awards will be presented to the winners at the ASBA Fall General Meeting, November 14-16, 2021.

ASBA established the Edwin Parr Teacher Award in 1964 to honour Edwin Parr, a respected and loved teacher from the Athabasca area, who had instituted an "Annual Teacher Award" in his school system. All school boards may nominate a first-year teacher along with supporting evidence to demonstrate how the nominee meets the criteria for the award. One nominee from each zone will be selected by the ASBA Award Selection Committee.

Congratulations Beth!

Holding Elected Officials Accountable In Alberta

for a school board trustee is successful, they would be removed from the board. The board would then decide if a byelection is necessary.

Introduction of the Recall Act fulfils a government platform commitment to "introduce a Recall Act based on the provisions contained in the B.C. Recall and Initiative Act, which allow voters to remove their MLA and force a byelection if 40 per cent of eligible voters in a constituency sign a recall petition no sooner than 18 months after an election." The Recall Act is also based on a private member's bill introduced by Devon-Drayton Valley MLA Mark Smith, and adopts recommendations made by the Select Special Democratic Accountability Committee following public consultations on recall and initiative held in 2020.

Quick facts

• Elections Alberta would need to verify the signatures to determine if a recall petition for an MLA is successful.

• There will be limits on how

much Albertans and third parties, like political action committees, can spend on promoting or arguing against a recall petition and recall vote. These limits will be set in regulation.

• For a petition to recall a municipal official or school board trustee, there is a \$500 application fee.

KEY MESSAGES FROM GYPSD'S PUBLIC BOARD MEETING

Submitted by GYPSD

March 10, 2021

District Priority 1: Student Learning

The Board of Trustees enjoyed a virtual classroom visit into the SonRise Christian Program in Grande Cache where the students and teacher Dorothy Bock demonstrated Whole Brain Learning and led the trustees through learning about the different parts of the brain.

The Division is excited for 2021-2022. Pre-registration for

Jr. Kindergarten and Kindergarten is open throughout GYPSD.

CAMPUS GYPSD will provide excellent and personalized distance learning and specialized options for interested students across GYPSD and the province.

GYPSD's commitment to student learning is supported by a range of innovative learning opportunities for students and families throughout our communities. The Division is now an official Home Education provider within the province, in addition to the Christian Learning pilot, and the Learn-at-Home option that offers both virtual access and/or paper products.

DISTRICT PRIORITY 2: Teaching and Leadership Excellence

Board Chair Rosadiuk recognized Substitute Teacher Appreciation Week, acknowledging the important role that substitute teachers play to "help ensure we are providing wonderful instruction in service of our board priority of student learning!'

The Board heard incredible presentations from first year teachers Kayleigh Breen, École

🖉 parkland county

NOTICE OF PUBLIC HEARING

In accordance with the requirements of Section 606 of the Municipal Government Act, as amended, the Council of Parkland County has scheduled a Public Hearing regarding the proposed adoption of Bylaw 2021-04:

Date: April 13, 2021	Time: 9:30 am	The Public Hearing will be held via Zoom electronic meeting platform.
		Virtually participate in the Public Hearing! For instructions, visit <u>www.parklandcounty.com/participate</u> .

Proposed Bylaw 2021-04: Mini Storage

Parkland County has seen increased regional demand for enclosed storage opportunities, such as self-storage for personal and household goods or storage for recreational vehicles, boats and personal vehicles. Currently, the County's Land Use Bylaw 2017-18 does not specifically address this type of use. To address this gap, Bylaw 2021-04 will add "Mini Storage" as a new use class and definition to the Land Use Bylaw and will outline new specific use regulations and fundamental use provisions to ensure land use compatibility.

Hearing Procedure

This is a formal Public Hearing and Council is prepared to hear and receive formal submissions and presentations (verbal or written) from those who wish to speak to the proposed Bylaw. Written submissions or presentations may either be submitted in advance to Planning & Development by 4:00 p.m. on March 31, 2021, or submitted at the commencement of the Public Hearing on April 13, 2021.

Anyone wishing to make a verbal presentation to Council must notify Planning & Development Services in advance of the Public Hearing by 4:00 p.m., on March 31, 2021. Verbal presentations at the Public Hearing will be limited to a maximum of 10 minutes. Please register at www.parklandcounty.com/participate to speak. Council advises that this is your last opportunity to comment on the proposed Bylaw as Council is unable to receive further submissions after the Public Hearing is closed.

Copies of Proposed Bylaw

Copies of the proposed Bylaw are available free of charge by email or by making an appointment to visit Parkland County Centre during regular business hours (8:30 a.m. to 4:30 p.m., Monday to Friday). If you have any questions related to this Bylaw, please email Rachelle.Trovato@parklandcounty.com.

The personal information you provide will be used for the purpose of the items described above and is collected under the authority of Section 33 (c) of the Freedom of Information and Protection of Privacy (FOIP) Act. If you have any questions about the collection, use, and disclosure of this information, please contact the FOIP Coordinator at Parkland County, 53109A HWY 779, Parkland County, Alberta T7Z 1R1 (780-968-3229) or email foip@parklandcounty.com

Westhaven Elementary School, and Beth Johnson, Grand Trunk High School, both nominated for the Edwin Parr Teacher Award. Each year the Alberta School Board Association (ASBA) honours six outstanding firstyear teachers from across the province with the Edwin Parr . Teacher Award. Mr. Edwin Parr was a school board Trustee and president of the Alberta School Trustees Association from 1956 to 1962.

Superintendent Lewis highlighted:

·Palisades Indigenous Education, April 17th.

•participation in the CASS Zone

2/3 meeting. •work with High School Principals and lead teachers to develop the H paraplatform for the fall.

The Board received reports from Managing Director of Learning Services Aschenmeier on the new Assurance Framework and from Chief Deputy Superintendent Kastrinos on the current state of youth sport and recreation in schools.

DISTRICT PRIORITY 3: Community Engagement

Board Chair Rosadiuk, Vice Chair Zaporosky, Trustees Fate, Karpluk, Aust, Caputo and Fowler are committed to leading advocacy for strong public education, building collaborative relationships and developing solution-focused partnerships to ensure success for GYPSD students and community. Highlights include:

Board Chair Rosadiuk shared appreciation for:

•the efforts and work of the province to present Budget 2021 to support education in Alberta

•the Critical Worker Benefit for Education workers.

•MLA Getson's presentation on government processes to Niton Central Grade 5 and 6 students

•the province's announcement of the modernization at Grand

Trunk High School. The Board of Trustees approved motions to:

•nominate Beth Johnson as GYPSD's Edwin Parr Teaching Award candidate.

•approve GYPSD's Three-Year Capital Plan (2022-2024) and Ten-Year Facilities Plan (2022-2031) for submission to Alberta Education.

Participation and attendance at the ASBA Zone 2/3 Coffee Conversation.

Spring to it! Get started on your Home Improvement To-Do list!

Check out our Spring Home Reno guide for ideas, inspiration, advice and valuable local advertising!

SAFETY FIRST WITH DIY ELECTRICAL WORK

Home improvement projects can help homeowners transform their homes. Such projects are costly, but many homeowners save money by doing some, if not all, of the work themselves.

The Electrical Safety Foundation International, a nonprofit organization dedicated to promoting electrical safety, recommends that homeowners leave electrical work to the professionals. Licensed electricians are well-trained, whereas homeowners may not be skilled enough to avoid accidents or injuries, which can prove fatal when working with electricity.

Homeowners who take the do-it-yourself route with electrical work should consider these safety tips, courtesy of the ESFI, before beginning a home electrical project.

Learn your home electrical system. Home electrical sys-

tems may include power lines, electric meters, service panels, subpanels, wiring, and more. These systems are complex, and homeowners who intend to do some DIY electrical work should familiarize themselves with their home electrical systems prior to beginning any work. The ESFI notes that knowledge of their home electrical systems can help homeowners more safely navigate them and make maintenance easier.

Honestly assess your skills. An honest assessment of skills is absolutely necessary prior to working on an electrical system. According to the National Safety Council, injuries relating to electrical incidents typically fall into one of four categories: electrical shock, electrocution, falls, and burns. Each of these injuries is significant. For example, electric shock, which occurs when electrical current passes over or through a person's body, involves burns, abnormal heart rhythm and unconsciousness. Given the potential for serious injury, the ESFI urges homeowners to make an honest assessment of their skills before they begin working on their home's electrical systems. Little or no experience working with electrical systems should be considered a significant hurdle to any DIY project.

Turn the power off. It's essential that the power to the circuit that will be worked on be turned off prior to starting any work. This can be accomplished by switching off the circuit breaker in the main service panel. Similarly, when working on appliances or lamps, make sure the products are unplugged prior to working on them.

Do not touch plumbing or

gas pipes when doing electrical work. The experts at the Indiana Electric Cooperative note that the risk for electrocution is significant when water comes in contact with electricity. It's imperative that homeowners do not touch plumbing and gas pipes when performing a DIY electrical project. Professionals know how to work around such pipes while minimizing their risk for electric shock or worse, and homeowners must familiarize themselves with the techniques professionals rely on to stay safe if they intend to begin DIY electrical projects.

Homeowners are best served by leaving electrical work to the professionals. However, those who insist on doing such work themselves should do their homework and get to know their systems and safety protocols prior to beginning a project.

Community**VOICE** Page 11

The value of the right lighting in a home is undeniable. Lighting can instantly transform a room and create the ambiance homeowners are looking to establish. Though it might be mostly seen as a way to create mood inside a home, lighting also can do much for lawns and gardens.

Backyards have come a long way over the last several decades. Once reserved as play areas for children and stomping grounds for the family dog, backyards have become oases for homeowners and their families. Outdoor living areas are wildly popular, and no such area is complete without exterior lighting. In fact, a recent report from the National Association of Home Builders found that 85 percent of home buyers want exterior lighting, making it the second most desired outdoor feature (patios topped that list).

Exterior lighting can have a dramatic effect on landscaping, and estimates from the online financial resource Kiplinger.com suggest such lighting is inexpensive, with installation averaging roughly \$67 per fixture.

When installing exterior lighting around their landscapes, homeowners can keep various tips in mind to create a relaxing, awe-inspiring mood on their properties at night.

Consider uplights. Uplights are installed in the ground and direct light up at a tree, focusing on its trunk or canopy. This creates a dramatic effect that makes it possible to enjoy majestic trees at night just like you might when spending time in the yard during the day.

Focus on trees. Many homeowners already have exterior lighting lining their walkways and patios, but focusing on trees can create an entirely different look. Though it's possible to install exterior tree lighting on your own, landscaping professionals with lighting experience know which fixtures will pair most effectively with the trees around your property and how to arrange them for maximum effect.

Opt for warm light. Warm white light creates an inviting feel around the property. The exterior lighting experts at Utah Lights acknowledge that choice of lighting is up to homeowners but also note that, in situations with lower levels of ambient light, such as in exterior lights around a property, people typically prefer warmer light. That's because warm light tends to be easier on the eyes and directs attention to the features of the landscape, which is many homeowners' goal when installing exterior lighting in their yards.

Utilize a timer. Modern exterior lighting timers make it easier than ever to control the lights outside a home. Many such timers even adjust for the changing seasons and the shifting hours of daylight. That means homeowners shouldn't have to tinker with the timer once it's set.

Exterior lighting can add significant appeal to a property without breaking the bank.

4919 - 50 Ave, Stony Plain, AB | (780) 963-2272

March 23, 2021

THE AVERAGE TIMELINES FOR POPULAR RENOVATION PROJECTS

Home renovation projects are significant undertakings. Working with skilled and experienced contractors can ensure projects go smoothly and are completed promptly. Timing is a big consideration for homeowners as they begin renovating their homes, and the home improvement experts at HomeAdvisor note that the following are some general timelines for popular renovation projects.

Home addition: Short of a full-scale demolition and rebuild, home additions are the most time-consuming projects homeowners can undertake. HomeAdvisor notes that its survey of customers who recently completed home addition projects reported that the average time from start to finish was between three and four

FREE ESTIMATES CASH N CARRY PRICING

 Huge Selection of Flooring, Carpet, Vinyl, Hardwood • Cabinets

ALL Types of Counter Tops and Back Splashes

IN STORE SPECIALS!!

Hours:

Monday to Friday 9:00AM to 5:30PM Saturday 9:30AM to 4:00PM Closed Sunday 226 McLeod Ave Spruce Grove (780) 960-9212 www.theflooringstore.ca months. Certain variables, including the scale of the project and the local permits process, can extend the time it takes to complete a home addition.

Kitchen remodel: Scale is a big factor to consider when estimating the time it takes to complete various home improvement projects, and kitchen remodels are no exception. Some HomeAdvisor users reported projects taking as long as four months, though the average time reported was roughly six weeks. Projects that require major overhauls like rearranging the plumbing and moving walls will likely take longer than more cosmetic projects that are limited to replacing cabinets and countertops.

Bathroom remodel: More than 1,000 homeowners surveyed by HomeAdvisor reported that bathroom remodels took about 4.5 weeks from start to finish. Small-scale remodels that focus on painting the walls a fresh color and replacing existing tiles can be completed in less than two weeks. But like with kitchen remodels, bathroom remodels that involve replacing plumbing fixtures and removing walls figure to take much longer than that.

Siding installation: HomeAdvisor users report that new siding projects take roughly two weeks from start to finish. That estimate is the same regardless of which materials homeowners are replacing and installing.

Replacement windows: Homeowners who want to replace all the windows in their home can expect such a project to take roughly three weeks. HomeAdvisor notes that such a timeline need not concern homeowners worried that they will be forced to brave the elements during the length of the project. Much of a contractors' time during a window replacement project will be spent on upfront measuring and then ensuring a tight fit once the windows have been installed.

Home renovation trends are ever-changing. Renovations that might have been de rigueur 20 years ago may seem dated now. Recognizing the potentially popular trends of tomorrow is a great way for homeowners to give their homes a fresh new look and put themselves in position to capitalize on popular trends when they put their homes on the market. . That's especially so after 2020, a year when millions of people spent more time at home than ever before. All that time working from home and relaxing at home gave millions of homeowners ideas about what they like about their homes and what they hope to change. The following are some renovation trends that various experts suspect could emerge in 2021. Eco-friendly living: Climate

change, and how to combat it, was a hot button issue during the 2020 presidential election in the United States. So it should come as no surprise that urdesignmag.com, a web magazine that showcases creative trends in design, architecture, art, technology, and fashion, predicts that eco-friendly living solutions figure to be hot commodities in 2021. Eco-friendly appliances, furniture and designs can help to conserve energy and reduce waste, which environmentalists and government agencies like the Environmental Protection Agency note are two critical components in the fight against climate change.

Large windows: Large windows can provide stunning views of the outdoors and allow ample natural light into a home. It may not be a coincidence if large windows prove to be a hot trend in 2021. The COVID-19 pandemic that dominated much of 2020 forced many people to spend considerably more time at home. Darker homes without much natural light can adversely affect mood, especially when people are spending more time at home. HGTV predicts that homeowners will seek ways to bring more natural light into their homes in 2021, and large windows naturally brighten homes while making rooms appear bigger, helping people feel less cramped. That's an especially beneficial characteristic when spending more time indoors at home.

Minimalism: The anticipated popularity of minimalism in 2021 may also be connected to the pandemic. As professionals were forced to work from home and many families spent more time together inside their homes then ever before, they may have recognized a need to cut back on clutter, including extra furniture. A minimalist approach is both simple and clean, which can make homes feel less claustrophobic.

Multi-functional spaces: Homeowners asked a lot of their homes in 2020, as rooms were transformed into multi-functional spaces seemingly overnight. HGTV notes that spending more time at home showed homeowners that it may not make sense to dedicate entire rooms of a home to a single purpose. Renovations that can help homeowners transform rooms into multi-functional spaces figure to be hot commodities in the years ahead.

SPRING 2021

March 23, 2021

Map out the best way to navigate spring driving with our guide that is fully loaded with helpful features for today's drivers. It's your one-stop resource for information, advice and valuable local advertising geared toward all things automotive!

HOW TO EFFECTIVELY SANITIZE A CAR

The COVID-19 pandemic changed the way people live. One readily felt effect was spending more time at home. Vehicles sat idle in driveways and even some automotive insurance providers reduced rates because people were driving much less.

Even with stay-at-home measures in place, people still need to leave their homes to stock up on essentials, such as food or medicine. In other cases, people may have been essential workers who drive for a living, including delivery drivers or health care personnel who were incapable of working from home.

Any time a person goes out in public, he or she runs the risk of contracting viruses. Bacteria and germs may reside on various surfaces, including those inside vehicles.

People want to protect them-

selves and now are more aware of the importance of frequently cleaning and sanitizing their cars. Keeping a vehicle safe to drive without affecting its upholstery or electronic components is paramount.

The Centers for Disease Control and Prevention makes a distinction between cleaning and disinfecting. Cleaning refers to the removal of germs, dirt and impurities from surfaces. It does not kill germs, but can lower their numbers. Disinfecting refers to using chemicals to kill germs on surfaces. The following are some ways to deeply clean and sanitize a car.

Wash hands. First and foremost, it is crucial to wash your hands before and after using the car. This can reduce the likelihood of growing ill because of transferred viruses or bacteria.

Use rubbing alcohol. Solutions

that contain 70 percent alcohol are effective against many viruses and bacteria, including coronaviruses, says the CDC. Furthermore. Jeff Stout. Executive Director of Global Innovation at Yanfeng Automotive Interiors, says that, for the most part, nearly every interior surface of a vehicle can be cleaned with isopropyl alcohol. Plastic to painted chrome to imitation leather have been tested to ensure they don't degrade when exposed to pure isopropyl alcohol.

Avoid bleach or hydrogen peroxide. While bleach and peroxide are very effective cleaners and sanitizers, they are likely to damage a car's upholstery, according to Consumer Reports.

Use soap and water: Experts say that vigorous washing with a soap-and-water solution can be effective against many contaminants because it breaks down

the protective envelope that surrounds coronaviruses and other germs to disarm them. Friction also can help to break down germ cells during cleaning.

"You want to do the best with what you have, so even soap and water can chip away at the risk," says Stephen Thomas, M.D., Chief of Infectious Diseases and Director of Global Health at Upstate Medical University in Syracuse NY

Address frequently touched surfaces. Pay attention to the steering wheel, door handles, buttons, touchscreen displays, shift lever, and more when sanitizing. Each of these items can harbor germs.

Deep-cleaning vehicle а has become a necessity since COVID-19 emerged. Frequently cleaning and sanitizing can help make vehicles safer to operate.

WHAT TO DO IN THE IMMEDIATE AFTERMATH OF A CAR ACCIDENT

Car accidents happen every day. Though the World Health Organization reports that approximately 1.35 million people die each year as a result of road traffic crashes, many more people walk away from such accidents relatively unscathed. In such instances, knowing what to do in the immediate aftermath of an accident can help drivers and passengers stay safe and start on their road to physical and financial recovery.

No two car accidents are the same, but the Insurance Information Institute recommends anyone involved in a car accident take the following steps to make the most informed decisions in what is often a difficult situation.

· Assess your physical condition. The III recommends people involved in accidents check

themselves for injuries in the immediate aftermath of an accident. Call 911 if you are hurt. If you're seriously injured, try to remain still and only move with the assistance of emergency response personnel.

· Assess passengers' physical condition. Drivers who are not too hurt to move can check on their passengers after assessing their own condition. Before moving a passenger who is injured, speak with an emergency response professional. This person can assess the situation and determine if it's safe to move an injured passenger or if it's best to wait for first responders to arrive on the scene.

· Get to a safe place. If possible, move to the side of the road or a sidewalk. If it's safe to move a vehicle and the vehicle is in a hazardous position, such as in

79CH

the middle of the road, pull it to the side of the road. If the vehicle won't start of you suspect it could be dangerous to move it, leave the car where it is and get

yourself and any passengers who can move to the side of the road or a sidewalk.

What To Do in the Immediate Aftermath of a Car Accident

Continued from Page 17

• Call 911. If you have not already done so, call 911 once you have gotten to a safe place. The III notes that no accident is too minor to involve the police, and some local laws even mandate that all traffic accidents be immediately reported. Be sure to fill out an accident report, which can be vital for drivers who intend to file claims with their insurance providers.

· Turn the vehicle off. If the

vehicle is still running, turn it off. Turn on the vehicle's hazard lights and, if you can physically do so and it's safe to do so, place road flares around the car to warn fellow motorists.

· Exchange information. Exchange contact and insurance information with the other driver once everyone has determined that they are not injured. The III recommends exchanging full names and contact information. Specific information like insurance companies and policy numbers, driver's license numbers and license plate numbers, the exact location of the accident, and the type, color and model of the other driver's vehicle also should be exchanged and noted

• Avoid discussing fault with the other driver. Drivers will not determine who's at fault. Such decisions are made by insurance adjusters. Discussing fault with the other driver in the immediate aftermath of an accident can lead to difficult, potentially heated exchanges.

• Document the accident. The III recommends motorists involved in accidents identify the responding police officers and ask them how to obtain copies of the official accident report. Take pictures and speak with any witnesses, jotting down their names and contact information if possible.

 Notify your insurance provider. Notify your insurance provider as soon as possible. You can even do so from the scene of the accident if you're capable of doing so. This can jump-start the claims process.

Knowing what to do in the immediate aftermath of a car accident can calm drivers' nerves and get them on the road to recovery that much sooner.

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets **ANSWER**:

to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
