SCOUTING CANOLA FIELDS IN YELLOWHEAD COUNTY FOR CLUBROOT

Submitted by Yellowhead County

With fall approaching it is time once again to remember that clubroot has been detected in Yellowhead County. Clubroot is a soil-borne disease that reduces yields of cruciferous crops such as canola, mustards and some vegetables.

The disease causes galls

or clubs to form on the root systems of infected plants which then restricts the nutrient and water uptake of the plants reducing the yields of crops. The higher rate of the infection of clubroot in the soil, the more severe the yield loss in the crop will be. In 2015 new clubroot pathotypes were confirmed in the Edmonton region that are able to over-

come resistant varieties of seed.

Please note that Yellowhead County Pest Inspectors will be scouting for this disease in canola and other Brassicaceae fields throughout Yellowhead County from approximately August 30 to September 30.

Continued on Page 2

EVANSBURG RCMP INVESTIGATE DROWNING

Submitted by Evansburg RCMP

On Aug. 1, 2021 at approximately 3:00 p.m., Evansburg RCMP received a report of a possible drowning

near Summer Village of Southview on Lake Isle. Evansburg RCMP, Lac Ste. Anne County Fire Services, Parkland County Fire Services, Drayton Valley Fish and Wildlife and AHS re-

sponded to the area.

Preliminary investigation reveals a canoe turned over into the water from the wake of a passing motor boat.

Scouting Canola Fields in Yellowhead County for Clubroot

Continued from Page 1

Scouts will be taking all possible preventative measures to limit the spread of the disease.

The primary way this disease spreads is by soil movement from infected fields to non-infected fields. This may be done by soil falling off of farm machinery, vehicles, and off-highway vehicles. It may also be spread by wind and water erosion. Equipment sanitation is essential to preventing establishment of clubroot.

Rotation of crops is highly recommended to prevent the severity of clubroot in ones fields.

Continuous cropping of canola may increase the likelihood and severity

of infection. There are no treatments currently available for clubroot infected fields/plants so prevention practices are highly recommended. Some things you can do to prevent establishment of clubroot as:

- Check fields regularly and look for abnormalities such as galls and/or clubs on roots, premature ripening and/or wilting plants
 - Sanitize machinery, vehicles and equipment before moving in to a new area with a solution of 1% bleach and 99% water
 - Use clubroot resistant varieties of seed for planting
- Please see www.clubroot.ca for more details or contact the Yellowhead County Agricultural Department in the Wildwood County Office at: 53404 Rge Rd 92A or

call toll free: 1 800 814-3935

JOKE of the week

Three friends stranded on a deserted island find a magic lamp. Inside it is a genie who agrees to grant each friend one wish.

"I want to go home," says the first friend. The genie grants her wish.

"I want to go home, too," says the second friend. And the genie sends her back home.

"I'm lonely," says the third friend. "I sure wish my friends were back here."

Evansburg RCMP Investigate Drowning

Continued from Page 1

After approximately 30-minutes, occupants of another boat stopped and assisted in pulling the two people out of the water and took them to shore. The 64-year old adult female, of Edmonton, Alta., survived.

However, despite the efforts of emergency crews, the 65-year-old male, of Edmonton, Alta., was pronounced deceased on scene.

RCMP will not be releasing the identity of those involved. No further media releases are anticipated.

BUILD A TERRARIUM AT TIPPLE PARK MUSEUM AUGUST 28TH

Submitted by Tipple Park Museum

Tipple Park Museum is hosting another 'Build a Terrarium' class on Saturday, August 28th, 2021, from 1pm-2pm! This time, we are

hosting the program for teens and adults! If you are interested in learning how to make a terrarium and how to care for succulents, call us at (780) 727-2240 or e-mail us at tippelpark-museum@gmail.com to

reserve one of the limited spots. All materials (plants, bubble jar, moss, and décor) will be provided by the museum for the low cost of 15\$ per person, but if you have any small water-safe items at home that you'd

like to build your terrarium around, feel free to bring it with you. We hope to see you there!

PARKLAND RCMP INVESTIGATING FATAL COLLISION

Submitted by Parkland RCMP

On August 2, 2021 at about 6:44 p.m., a Capital West Traffic Sheriff officer came upon a 2 vehicle collision on Highway 16A and Range Road 20 in Parkland County. The officer noted injuries and a person trapped within one of the vehicles and immediately radioed for help. Parkland RCMP and Capital West Traffic Services members attended to assist while Parkland County Fire and EMS were en-route. Fortis Alberta had also been called requesting an urgent response.

The officers at the scene observed a male in one of the vehicles trapped inside with severe visible injuries. Efforts at providing first aid to the male were attempted but were hampered by fallen power lines near the vehicle. Fortis Alberta was able to attend and quickly cut power to the lines allowing

emergency crews to provide medical assistance and extricate the male however, the male succumbed to his injuries. He was declared deceased by EMS at the scene. The lone female occupant of the oth-

er vehicle was transported to hospital with non-life threatening injuries.

Highway 16A was closed for a number of hours and traffic was re-routed as the RCMP collision reconstructionist

and investigators completed their work. The identity of the deceased male will not be released at this time. Alcohol may be a factor in this collision. The investigation continues.

ANNOUNCES \$100 MILLION IN AGRIRECOVERY FUNDING TO FURTHER SUPPORT FARMERS FACING CONTINUED EXTREME WEATHER

Submitted by Government of Canada

Today, the Minister of Agriculture and Agri-Food, the Honourable Marie-Claude Bibeau, announced that the Government of Canada is making available \$100 million through the AgriRecovery Framework to address the immediate extraordinary costs faced by producers due to the drought and wildfires. This funding is designed to match all provincial AgriRecovery submissions on the 60-40 cost-shared basis outlined under the Canadian Agricultural Partnership. By making funding available now, producers can be assured that they will receive assistance as soon as full assessments are completed.

The Government of Canada is working around the clock to help the governments of Manitoba, Ontario, Saskatchewan, Alberta and British Columbia complete the assessments of the disaster and examine how AgriRecovery can help respond. Once these assessments are completed, the Government of Canada will expedite work to finalize an agreement with each province on support programs. The Government of Canada is open to submissions that include direct assistance to livestock producers for added costs of obtaining livestock feed, transportation and water.

Minister Bibeau also announced that Manitoba is invoking the late participation provision of AgriStability. Provinces affected by drought are encouraged to invoke this provision to allow producers who did not enroll to access program support. Producers can also apply for interim payments under AgriStability, which can help cope with immediate financial challenges. To date, the Government of Canada and the governments of Saskatchewan, Alberta and

Manitoba have agreed to increase the 2021 AgriStability interim benefit payment percentage from 50% to 75%, so producers can access a greater portion of their benefit when needed most. Minister Bibeau repeated the Government of Canada's offer to provinces to raise the AgriStability compensation rate from 70% to 80%. This would provide farmers across the country an additional \$75 million per year, benefitting distressed farmers who need help now more than ever.

Minister Bibeau also announced the designation for Livestock Tax Deferral of additional prescribed drought regions in British Columbia, Alberta, Saskatchewan and Ontario. This adds to the list of prescribed drought regions across Canada announced on July 22, 2021. The designation will allow beef producers who are forced to sell a significant amount of their breeding herd due to drought conditions to offset the resulting revenues with the costs to replace the herd.

AgriInsurance helps producers manage production and quality losses caused by these adverse weather conditions, including drought. Minister Bibeau highlighted the federal support to all Prairie provinces for immediate bilateral adjustments to the cost-shared AgriInsurance program to make drought-damaged crops available for feed. These measures will increase the amount of crops available for livestock producers in this time of need.

The Government of Canada stands with farm families during this difficult time, and is listening to their needs and taking action to respond.

Quick Facts

- AgriRecovery responses that exceed \$60 million in total federal budget require additional program authorities. The Prime Minister has authorized

access to the \$100 million announced today, and this funding will complement the \$25 million in COVID-19 support estimated for 2021-2022, primarily targeted towards the livestock sector in Canada.

- Producers have access to a suite of Business Risk Management (BRM) programs to help them manage significant risks that threaten the viability of their farm and are beyond their capacity to manage.

- On July 22, Minister Bibeau visited Manitoba's Interlake Region, where she met with drought-impacted farmers to see first-hand how drought conditions are creating crop losses, affecting crop quality, and reducing forage and water supplies available to livestock.

- AgriRecovery is a federal-provincial-territorial disaster relief framework intended to work together with the core BRM programs to help agricultural producers recover from natural disasters. AgriRecovery helps with the extraordinary costs associated with recovering from disaster events.

- AgriStability is one of the BRM programs under the Canadian Agricultural Partnership. It protects Canadian producers against large declines in farming income for reasons such as production loss, increased costs and market conditions. While the deadline to enroll for the 2021 program year has passed, provinces may request late participation to make the program available to other producers during a crisis situation.

- An interim payment under AgriStability is based on estimates of a participant's program year production margin and reference margin. To receive an interim payment, the participant's estimated production margin must decline by more than 30% of their estimated reference margin. Participants can apply for an interim payment to access

program funds early. Provincial governments can request that the interim payment percentage be increased from 50% to 75%.

- The Livestock Tax Deferral provision allows livestock producers in these regions who reduced their breeding herds by at least 15% due to drought or flooding, to defer a portion of their 2021 income from sales until the 2022 tax year, when the income may be at least partially offset by the cost of reacquiring breeding animals, which may reduce their potential tax burden. Eligible regions are identified based on weather, climate and production data, in consultation with industry and provinces. The criteria for identifying regions for Livestock Tax Deferral is forage shortfalls of 50% or more caused by drought or excess moisture. Agriculture and Agri-Food Canada officials continue to monitor weather, climate and production data from across Canada and will add regions if they meet the eligibility criteria. When prescribed regions are identified, the list is announced publicly and posted to this web page.

- AgriInvest is a self-managed producer-government savings account designed to help producers manage small income declines and make investments to manage risk and improve market income. Canadian agricultural producers can access the funds in their AgriInvest accounts at any time.

- During a crisis such as this, farmers facing the stress and uncertainty of providing for their families may suffer serious mental health impacts. Those needing help are encouraged to reach out for support, and can contact The Do More Ag Foundation, a not-for-profit organization focusing on mental health in agriculture across Canada.

PURE HEMP PRODUCTS
AGING IS INEVITABLE - LOOKING AND FEELING OLD ISN'T!

A Health and Beauty Breakthrough!
Cannabidiol, is one of over 80 active cannabinoid chemicals in the hemp plant. Unlike, THC, it does not produce euphoria or intoxication. It targets specific receptors in the cells of your brain & body. There are many physical and mental benefits to using these products for both treatment and prevention of numerous ailments.

Therapeutic Uses For Pure Hemp
Supports healthy blood sugar levels, promotes healthy energy levels, relieves anxiety, aids in digestion, supports optimal immune function and the regeneration of healthy cells, and promotes a sense of serenity and overall well-being.

Anti-Aging Uses For Pure Hemp
Promotes more youthful skin, provides hydration, enhances radiance, lessens age lines as well as the appearance of dark spots.

KEY BENEFITS
PAIN RELIEF: Known to reduce vomiting & nausea; suppress muscle spasms; reduce seizures & convulsions.
PROMOTES HEALTH: Helps to promote relaxation and overall health.
WELL-BEING: Helps to relieve anxiety, aid in digestion, supports optimal immune function and the regeneration of healthy cells.

PET PRODUCTS

PET CHEW TREATS
KEY BENEFITS
SYNERGISTIC BENEFITS: Can be used in conjunction with regular medications with no side effects.
NO SIDE EFFECTS: Does not damage the liver, kidney or GI Tract like OTC medication.
DIETARY SUPPLEMENT: Can be administered daily as part of your pet's diet.

ORAL SPRAYS & DROPS
KEY BENEFITS
MANAGES PAIN: Helps to treat inflammation, arthritis and joint pain.
TREATS DIGESTIONAL ISSUES: Helps with loss of appetite, nausea, IBS and gastrointestinal swelling.
GENERAL HEALTH: Helps to manage mood, anxiety and general joint pain. For healthy, happy pets.
CONVENIENT: Can be sprayed into pet's mouth or on food.

For more information, Call (780) 907-8642

MLS# E4350284 \$109,900</p>

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

ANSWER:

7	8	9	2	4	3	5	6	1
