JOKE of the week

A little boy stops in front of a church with his bike and he sees the priest come out. The priest says, "Come inside, I want to show you something." The little boy says to the priest, "But somebody will steal my bike." The priest says to him, "Don't worry, the Holy Spirit will watch it."

So the little boy goes inside and the priest says, "Let me show you how to do the sign of the cross. In the name of the Father, the Son and the Holy Spirit, Amen. Now, you try it." So the boy says, "In the name of the Father and the Son, Amen." The priest asks, "What happened to the Holy Spirit?" The boy replied "He's outside, watching my bike."

ALBERTA RCMP LAUNCHES ONLINE CRIMINAL RECORD CHECKS IN SELECT DETACHMENTS ACROSS THE PROVINCE

Submitted by Alberta RCMP

In an effort to provide simpler, more efficient public service, a pilot of an online criminal record check tool begins Sept. 22, 2021 in select Alberta RCMP detachments. Criminal record check information typically obtained from RCMP detachments can now be accessed online. If this online service option is successful, it will be expanded to other locations.

A criminal record check is obtained to determine if a person has been charged or convicted of a crime. Vulnerable sector checks (VSC) are included in the service provision for criminal record checks. A VSC is a police information check which is done to protect children and other vulnerable people from physical, sexual, mental, and financial abuse. A VSC is the most thorough of all background checks available.

Online criminal record checks will be processed within the same timeframe as they are typically done in person and will be mailed to the applicant, unless arrangements have been made for collection at the detachment. The timing of this tool is important and beneficial, as physical distancing measures have encouraged people to minimize gathering and proximity with others.

only available to the following detachments: Bashaw, Cochrane, Consort, Drayton Valley, Drumheller, Grande Prairie, Provost, St. Albert, St. Paul, Sundre, and Sylvan Lake. Criminal record checks will continue to be available in person at all detachment locations and will be the only option for any location area not covered for the pilot program.

DRIVE HOME A WINNING GOLF TOURNAMENT

The arrival of warmer weather has many Canadians dreaming of the hitting the local golf course. It is also the time that many companies, organizations, charities and other groups start planning their golf tournaments.

Hosting a golf tournament is a great way to entertain customers, thank employees or raise funds for your group. While there are many details to arrange, organizing such an event doesn't have to be distressing.

Experts recommend that you cover the basics first. Picking the right date and a course that is suitable for your group is the first priority. The earlier you do this the better as you will get a wider selection of dates and courses.

Ensuring your guests are well fed and hydrated out on the course should be another priority. In the heat of summer, a good supply food and non-alcoholic beverages will ensure your participants enjoy a healthy and safe

round.

What about prizes? The excitement of winning something is always a big draw, so hit up local businesses, suppliers, business partners and friends for prize donations.

To take your tournament to the next level, you could offer hole-in-one prizes such as a car, boat, trips or cash. "Adding big prizes to your golf tour-

nament doesn't have to be an expensive or worrisome endeavour," says Andrea Martin, Senior Underwriting Manager, Wayfarer Insurance. "You can get insurance coverage that will pay for the prize in the event that a golfer hits an ace."

One of the biggest tips is speak to the professionals at the golf course where you book your tourna-

ment. Often courses will have staff to assist you, or at least literature that will help you plan a successful event.

ALBERTA RCMP MAJOR CRIMES UNIT INVESTIGATING DOUBLE HOMICIDE IN HINTON

Submitted by Alberta RCMP

On Sept. 16, 2021, at approximately 6 p.m., Hinton RCMP responded to a report of a missing 24-year-old female and her 16-month-old toddler who were last seen in Hinton.

Hinton RCMP, along with the assistance of Alberta RCMP Major Crimes, have been investigating this occurrence. The investigation is ongoing in the Hinton area and RCMP can now confirm that both the mother and her child have since been located deceased.

On Sept. 17, 2021, Alberta RCMP Major Crimes arrested

a 53-year-old male in Hinton, in relation to this investigation. He remains in custody at this time.

Robert Keith Major (age 53) from Hinton, has been charged with two counts of 2nd degree murder and 1 count of indignity to human remains. He has been remanded into custody and is scheduled to make his first court appearance on Tuesday, September 21, 2021 at 10:00 am in Edson Provincial Court.

Investigators have learned that Robert Major lived in the same apartment complex as the 24-year-old female victim

and her 16-month-old child. No other connection has been identified by between the victims and the perpetrator and police are not seeking any other suspects in this case.

Autopsies are taking place at the Edmonton Medical Examiners office today, September 18 and tomorrow, September 19, 2021.

This tragic loss of life is incredibly difficult for all involved, especially the family of the victims. The family has asked for privacy to grieve at this time and of respect for the wishes of the family, the names of the deceased will not be re-

leased by the RCMP.

Autopsies were completed at the Edmonton Office of the Chief Medical Examiner and the manner of death was deemed to be homicide in both autopsies.

Robert Major's next scheduled court appearance in Hinton Provincial Court is Oct. 20, 2021.

Due to inquiries from the public and the media, the Alberta RCMP would like to clarify that Robert Major had not been subject to any Recognition conditions since July of 2020.

MP SOROKA EXPRESSES HIS GRIEF OVER THE TRAGIC LOSS OF MCHALE BUSCH AND NOAH MCCONNELL

Submitted by Gerald Soroka, MP

As the Member of Parliament for Yellowhead, I am completely heartbroken over the heinous crimes that took place in our community of Hinton. I would like to extend my sincere condolences to the family and friends of Mchale Busch and Noah McConnell.

Knowing that a convicted sex offender had the freedom to commit two counts of second-degree murder and take two innocent lives is a complete failure of our justice system. This tragedy has highlighted the need for stricter laws surrounding the parole of sex offenders.

Cody Lee McConnell (spouse/father) started a petition on Change.org that will call on the government to: Amend the Criminal Code of Canada sentencing provisions for repeat sexual offenders by requiring mandatory minimum sentences for offenders with multiple sexual assault

convictions who are designated to be at high risk to reoffend and lifelong parole.

Further, require registered offenders to update their personal information, including address and contact information every month or face jail time.

I strongly support this petition and encourage everyone to take the time to sign it. These are reasonable amendments to the Criminal Code, and I promise to take these much-needed changes to Parliament.

I will be consulting with the Parliamentary Law Clerk and our Conservative Shadow Ministers for Justice and Public Safety and with their support I plan on introducing a Private Member's Bill entitled 'Noah's Law'. I will work towards all party support so that the law is changed once and for all.

Until then, I hope the family and friends of Mchale, and Noah can take solace as our community rallies around them offering our comfort and support in this agonizing times

October 1st - Day of Older Adults in Alberta

Let's celebrate the contributions of older adults, recognize those who support them, and raise awareness of the concerns of older adults!

Seniors are a vital part of our communities. As parents and grandparents, mentors and friends, employees and employers, they make a difference in our lives. It is important that we continue to recognize, celebrate and support seniors during the COVID-19 pandemic.

There are so many great opportunities to stay connected with the older adults in your life, say thank you, make sure they are safe, and see if they need anything. To stay connected safely:

- Make a phone or video call, email or send letters to check in
- Host a family dinner online
- Host a virtual games night with family and friends
- Write letters and send cards, drawings or photos to seniors in local continuing care facilities
- Arrange outdoor visits that observe physical distancing restrictions

- Share stories with seniors and learn about their life experiences and history.

Let's celebrate, support, and keep seniors safe while respecting public health measures in place.

It's time to fall in love with your home all over again!

FACTORS TO CONSIDER WHEN PLANNING A HOME OFFICE

As technology has made working remotely easier, more and more professionals are working from home. Working from home can help working parents save money on childcare costs and help all workers avoid rush hour traffic jams and the costs of commuting to and from the office.

The right working environment is essential for men and women who work from home. An environment that's conducive to work can help people increase their productivity and make their employers more likely to allow more employees to work from

home. Professionals who are new to working from home may find it takes some time before they can create the perfect working environment, but the following are a few factors to consider when planning a home office.

Space
One of the disadvantages to working from home is that remote workers don't have access to the same level of equipment as in the main office, such as color copiers or scanners. If you want to include even scaled-down versions of such equipment in your office, you will need am-

ple space. In addition, less spacious home offices can feel too tight and enclosed, making workers uncom-

fortable and less enthusiastic about working every day.

Pick a spot in your home

that affords room for your equipment and the ability to move around so you don't feel cramped

throughout the workday.

Lighting

Lighting is another factor remote workers must consider when they're planning their home offices. Natural light can provide an energetic boost and improve your mood, so choose a room in your home that gets lots of sunlight during the day. Many professionals who work remotely do so from the basements of their homes, which can make it difficult to rely on natural light. If the basement is the only location in your home that can fit a home office, look for lighting sources that replicate daylight so

you are not working in dark quarters. Speak with your physician about how to arrange lighting to reduce eyestrain caused by staring at a computer.

Connectivity

Connectivity also must be considered when planning a home office. While wireless Internet has made Internet dead zones less problematic, certain areas or rooms in your home may still be touch-and-go with regard to Internet connectivity.

Such areas should be avoided when choosing a room for your home office, as it can be difficult to remain productive if your connection to your office's external server is routinely compromised. Find an area where the wireless connection is always strong.

Distractions

While your home might be empty for much of the day, you don't want to be distracted when the kids come home from school or when your spouse or

roommate arrives home from work. Avoid putting your home office too close to popular hangout areas in your home, such as the kitchen and the living room. Instead, choose a room where you have lots of privacy so you can focus on your work and won't be routinely interrupted.

Working from home can pay numerous dividends, but professionals who telework must put careful thought into the rooms or areas of their homes where they plan to work.

AHS POSTPONES SOME NON-URGENT SURGERIES TO CREATE ADDITIONAL HOSPITAL CAPACITY

Submitted by Alberta Health Services

With the rise in COVID-19 cases in the community and the increasing demand on hospital resources, Alberta Health Services (AHS) is taking steps to create additional acute and ICU capacity.

This will result in the postponement of some non-urgent surgeries and procedures to ensure we have the beds and staff required to take care of all patients needing hospital care, including those with COVID-19 as well as other Albertans who are sick or injured.

This proactive approach mirrors similar surgical reductions during previous waves. AHS will maintain emergent, urgent procedures, as well as prioritized cancer surgeries.

These measures will help free up space in our hospitals for patients who need a higher level of care, and allow us to redeploy frontline staff and resources to areas of greatest need.

Any patient whose surgery or procedure is being postponed due to this temporary reduction will be contacted directly by AHS. To date, service adjustments are being planned in two zones.

In the North Zone, approximately 45 elective surgical procedures per week at the Queen Elizabeth II Hospital in Grande Prairie will be postponed starting August 30. This will allow the site to increase bed capacity and create a dedicated COVID-19 unit.

In the Edmonton zone, up to 30 per cent of non-urgent surgeries and procedures will be postponed starting August 30.

AHS is currently working through the province's surgical backlog brought on by the pandemic. For the last two months

we have been operating at 100 per cent of pre-COVID-19 surgical levels, and have been performing more non-urgent scheduled surgeries.

All backlogged surgeries in wave one have been rebooked and 96 per cent of all delayed surgeries from wave one, two and three have been complet-

ed.

We strongly urge all eligible Albertans to get immunized as quickly as possible, and to continue following preventative measures such as staying home when sick.

Alberta Health Services is the provincial health authority responsible for planning and

delivering health supports and services for more than four million adults and children living in Alberta. Its mission is to provide a patient-focused, quality health system that is accessible and sustainable for all Albertans.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
