## \$107,608.30 POKER LOTTO WIN IN ALBERTA BEACH!

Submitted by Alberta Beach

Malcolm Campbell is pretty pleased with his decision to add ALL IN to his POKER LOTTO ticket. The additional \$1 on his ticket purchase made his prize increase 10-fold - from \$10,000 to \$107,608.30!

"I knew it was an instant win

right away," he said. "But, I was surprised when I saw the amount; so I thanked the cashier and left the store."

The Alberta Beach local said he has one big plan for his windfall.

"I'm going to pay off my mortgage!" he said. "After that's paid off, I'm going to put the

rest of the money in the bank."

Campbell purchased his August 31 POKER LOTTO ALL IN ticket at Town Crest Road Rexall, located at 116 Town Crest Road in Fort Saskatchewan. One of the hands on his \$9 ticket matched a Royal Flush, winning \$10,000, plus the \$97,608.30 ALL IN jackpot.

My last 3 years have been full of challenges and rewards as I have represented Ward 1 on the board of Northern Gateway Public Schools. I have been open and honest in bringing forward the concerns of the families in my ward. Working hard to bring information back to our local school councils and parents have been, and will continue to be a top priority of mine. I have made connections across the province, and will continue to lobby for our students.

### About Me

I am Bo Knysh and I am vying for the position of Councillor, Lac Ste. Anne County Division 5 and would appreciate your support. Our family has worked and lived in the area for 30 years. If elected, I will strive to ensure Lac Ste. Anne County Council and Administration becomes Open and Transparent with Accountability to the Ratepayers of our County. This needs to be done to ensure our County becomes a place that we can be proud to raise our children and grandchildren for generations to come. My frustration during the last 2 terms over how the county functions has prompted me to step up and become a part of the solution. Please help me to achieve my goal and Please, VOTE on OCTOBER 18, 2021. Thank You For Your Support. Bo.

# Onoway Legion News

## Continued from Page 1

Continued from Page 1: Because of the uncertainty around Covid, the Calvin Vollrath tour this fall has been cancelled. Watch for information about re-scheduled dates.

Christmas in October

Normally the Legion holds a "Christmas in October" dinner to raise funds for the local food bank. This year, however, because of the re-

duced numbers attending Friday night dinners, this will not happen. Instead, the Legion will make a donation directly to the food bank.

Darts Club

Every Tuesday, doors open at 6:30 for darts, with play beginning at 7:30. You

do not have to be a Legion member to enjoy the evening. No experience necessary. The bar is open. Everyone must be double-vaccinated and masked.

Poppy-decorated Afghan Raffle

Don't forget to buy your tickets on the "Lest we for-

get" patterned afghan being raffled off to raise funds for branch renovations. Raffle tickets are \$2.00 each or 3 for \$5.00, with tickets available at the branch every time it's open. The draw will be held on Remembrance Day.

# ST. ALBERT RCMP INVESTIGATE SEXUAL ASSAULT

Submitted by St. Albert RCMP

On July 24, 2021, a female attended the St. Albert RCMP detachment, reporting that she was sexually assaulted by her Massage Therapist during an appointment. An investigation was conducted by the St. Albert RCMP resulting in a 45 year old male, Rizaldy PARRENO of St. Albert, being charged with Sexual Assault. He has been released from police custody with conditions and is set to appear in court on September 13, 2021.

The St. Albert RCMP General Investigation Section have continued to investigate additional Sexual Assault complaints from victims that have come forward. Rizaldy PARRENO, 45 years old, of St. Albert, has been charged with 7 additional counts of Sexual Assault. He has been released from police custody with conditions and is set to appear in court next on October 18, 2021.

St. Albert Victim Services Unit continues to be engaged to assist and reach out to victims.

St. Albert RCMP encourage any additional victims to come forward

# KEY FINDINGS CURRICULUM ANALYSIS AND CRITIQUE

Submitted by The Alberta Teachers' Association

The Alberta Teachers' Association's Professional Curriculum Analysis and Critique of Alberta Education's 2021 Draft K-6 Curriculum is a detailed analysis and assessment of the draft curriculum by expert teachers.

The 6,500 teacher participants include elementary generalists, subject specialists, diversity specialists, and school and system leaders from across Alberta.

## Key Findings

The draft curriculum does not meet Alberta Education's overall vision, guidelines and considerations for curriculum development.

1 Little relationship between the government's own vision and guidelines for student learning and the draft curriculum

2 Not logically sequenced and not appropriately designed for teacher use

3 Developmentally inappropriate learning outcomes that lack high academic standards and do not adequately describe what students must know and be able to do

4 Narrowly defined content that does not reflect the development of knowledge, understanding and skills for the 21st century

5 Insufficient reinforcement of essential knowledge and skills across subjects

6 Lack of support for all students to do their best in an inclusive classroom, and knowledge outcomes with low-level learning and thinking skills

7 Inclusion of Indigenous content that is not authentic and appears as tokenism

8 Inadequate inclusion of francophone histories, contributions and perspectives

9 Twice as many learning

outcomes as the current curriculum, which means that teachers will have less time to ensure student understanding and that struggling students will be left behind

10 Lack of support for developing students' acceptance of diversity and sense of belonging, empathy and community, and a failure to acknowledge the Alberta Human Rights Act Almost

no content related to gender identity, gender expression and sexual orientation, which discriminates against 2SLGBTQ+ students and their families

11 Lack of respect for Alberta's diversity and support for a peaceful, pluralistic society

12 Failure to address racism, sexism and other forms of bigotry, and the use of language that, in fact, promotes

such bigotry

13 Inclusion of world religions as a mandatory topic in K-12, which infringes on the religious

freedoms of Alberta parents  
14 Language meant for the layperson, not for teachers with professional expertise, and failure to provide the information and flexibility they need to address classroom learning needs

# AS FIRE PREVENTION WEEK APPROACHES, THE SPRUCE GROVE FIRE DEPARTMENT REMINDS RESIDENTS TO “LEARN THE SOUNDS OF FIRE SAFETY”

Submitted by Spruce Grove Fire Department

September 23, 2021 – The Spruce Grove Fire Department is teaming up with the National Fire Protection Association® (NFPA®)—the official sponsor of

Fire Prevention Week for more than 90 years—to promote this year's Fire Prevention Week™ campaign, “Learn the Sounds of Fire Safety™.” This year's campaign, October 3rd - 9th, works to educate everyone about simple but im-

portant actions they can take to keep themselves and those around them safe.

“What do the sounds mean? Is there a beep or a chirp coming out of your smoke or carbon monoxide alarm? Knowing the differ-

ence can save you, your home, and your family,” said Lorraine Carli, vice-president of outreach and advocacy at NFPA.

The Spruce Grove Fire Department encourages all residents to embrace the 2021 Fire Prevention Week theme.

“It's important to learn the different sounds of smoke and carbon monoxide alarms. When an alarm makes noise—a beeping sound or a chirping sound—you must take action!” said Jeffrey Francis, Fire Prevention Officer. “Make sure everyone in the home understands the sounds of the alarms and knows how to respond. To learn the sounds of your specific smoke and carbon monoxide alarms, check the manufacturer's instructions that came in the box, or search the brand and model online.”

The Spruce Grove Fire Department wants to share safety tips to help you “Learn the Sounds of Fire Safety”

- A continuous set of three loud beeps—beep, beep, beep—means smoke or fire. Get out, call 9-1-1, and stay out.
- A single chirp every 30 or 60 seconds means the battery is low and must be changed.
- All smoke alarms must be replaced after 10 years.
- Chirping that continues after the battery has been replaced means the alarm is at the end of its life and the unit must be replaced.
- Make sure your smoke and CO alarms meet the needs of all your family members, including those with sensory or physical disabilities.

# COVID-19 VACCINATION RECORDS AVAILABLE AT REGISTRIES

Submitted by Government of Alberta

Albertans will soon be able to have their COVID-19 vaccination records printed at local registry offices anywhere across the province.

Alberta's government launched a convenient card-sized proof of vaccination that is available easily and quickly through [alberta.ca/CovidRecords](https://alberta.ca/CovidRecords). Starting Sept. 21, and over the following days, Albertans will be able to visit a local registry agent to request a printed version of their vaccination card at no cost. They will need to provide the month and year of any dose of vaccination, their Alberta Personal Health Number and their date of birth.

A printed version of the card will make it easier for Albertans to show their vaccination status to businesses checking patrons for government-issued proof of vaccination under the Restrictions Exemption Program. Albertans seeking a printed version from a registry agent should contact their registry agent first to confirm the service is available.

"We want to make it as easy as possible for Albertans to provide proof of vaccination so they can continue to safely enjoy events and services in their communities. That's why we are working with registry agents across the province to help Albertans get a printed copy of their vaccination records, at no cost, which they can use immediately." Nate Glubish, Minister of Service Alberta

"The participation of registry agents is one more way in which we are making access to vaccination records as simple and straightforward as possible. There are several ways for Albertans to show their vaccination status. For some, obtaining this record from their local registry agent is the best option." Tyler Shandro, Minister of Health

Temporary health measures

are now in effect for restaurants, weddings and funerals, retail, entertainment venues and adult sport and fitness to help slow the spread of COVID-19.

Starting Sept. 20, eligible businesses and events must either implement the Restrictions Exemption Program requiring proof of vaccination, a privately paid negative COVID-19 test result or a valid medical exemption letter from

a physician or nurse practitioner to continue operating as usual, or adhere to all public health measures now in effect.

Albertans are able to use their existing immunization records, including those received at their vaccination appointment or saved from MyHealth Records, after the proof of vaccination requirements are implemented on Sept. 20.

Work is also underway to make proof of vaccination

available through a QR code. A QR code will be an easier, faster and more secure way to share the immunization record when needed. The QR code is expected to be available in the coming weeks.

Eligible Albertans who have not yet received their vaccinations are reminded to book their appointments as soon as possible.

## WHITECOURT TOWN COUNCIL

Submitted by Town of  
Whitecourt

Whitecourt Town Council has approved a street closure request from the Whitecourt Indigenous Friends Society for the National Day for Truth and Reconciliation Walk on the morning of September 30. A procession will begin at the Whitecourt & District Public Library, walk through downtown, and end in Rotary Park. A number of activities will then take place in Rotary Park from 1:00 p.m. to 7:00 p.m., and details can be found on the Whitecourt Indigenous Friends Society's Facebook page.

Whitecourt Town Council has updated the Council Committee policy and is now recruiting for public appointments to a variety of Boards. Share your voice and help shape our community by applying to serve on a Council Committee. Information on public appointment vacancies can be found on [www.whitecourt.ca/Government/How-to-Get-Involved](http://www.whitecourt.ca/Government/How-to-Get-Involved).

Whitecourt Town Council has completed its review of the Policy Manual, and adopted a revised copy in its entirety. A copy of the Manual is available on [www.whitecourt.ca/Reports](http://www.whitecourt.ca/Reports).

Whitecourt and Woodlands County are currently conducting a voluntary arbitration process to complete the Intermunicipal Collaboration Framework. Council has approved the allocation of \$50,000 from the GST Partnership Reserve for expenses related to this process.

### **Follow these 9 tips to help protect yourself, your family and your property against fire hazards.**

1. Install a fire alarm in every sleeping area and on every level of your home, and be sure to test alarms every month. Working smoke alarms reduce the risk of death in a home fire in half.
2. Check the manufacture date on the back of your home's smoke alarms. Smoke alarms should be replaced at least every 10 years! Batteries should be replaced every year.
3. Never leave burning candles unattended, and always keep matches and lighters out of reach from children.
4. Make a fire action

- plan, so every member of your household knows how to escape and where to meet outdoors.
5. Over half of home heating fire deaths are caused by equipment being placed too close to things that can burn. Make sure furniture, clothing, mattresses and bedding are at least three feet from heating sources.
6. Always turn off space heaters when you leave the room or go to sleep. Space heaters are the cause of about 79 percent of fatal home heating fires.
7. Remain in the kitchen when frying, grilling or

broiling food. Turn off the stove whenever you leave the kitchen, and never leave home while food is cooking.

8. Inspect electrical cords regularly, and replace cords that are cracked or damaged or have broken plugs or loose connections.
9. In the event of a fire, crawl to safety. Use the back of your hand to see if a door is hot before opening it. If it feels hot, try to use another exit.

# CURRICULUM REVIEW SHOWS K-6 DRAFT FAILS TO MEET GOVERNMENT'S OWN STANDARDS

Submitted by The Alberta Teachers' Association

If the Alberta government were grading the new draft K-6 curriculum, it would have to fail itself.

A professional review conducted by the Alberta Teachers' Association, including feedback gained through an online survey, written submissions and focus groups with more than 6,500 teacher participants, assessed the curriculum by comparing the draft to the Government of Alberta's own vision and guidelines. The conclusion of teachers: the draft curriculum does not even meet the government's own standards.

In addition to failing to meet provincial guidelines, other key findings of the report show that the new curriculum has a variety of shortcomings:

1. Not logically sequenced and not appropriately designed for teacher use

2. Narrowly defined content that does not reflect the development of knowledge, understanding and skills for the 21st century

3. Developmentally inappropriate learning outcomes that lack high academic standards and do not adequately describe what students must know and be able to do

4. Inclusion of Indigenous content that is not authentic and appears as tokenism

5. Inadequate inclusion of francophone histories, contributions and perspectives

6. Lack of respect for Alberta's diversity and support for a peaceful, pluralistic society

7. Failure to address racism, sexism and other forms of bigotry, and the use of language that, in fact, promotes such bigotry

8. Inclusion of world religions as a mandatory topic in K-12, which infringes on the religious freedoms of Alberta parents

Although the teaching profession is frustrated by being left out of the curriculum development process, Schilling says teachers are more than willing to assist the government with a rewrite that reflects their extensive expertise and knowledge.

The research follows the release of preliminary survey results showing that 91 per cent of teachers and school administrators are unhappy with the draft curriculum, with three in four teachers stating that they are "very unhappy." The survey also showed that 90 per cent of elementary school teachers feel uncomfortable about teaching the new K-6

curriculum, and 95 per cent of principals feel uncomfortable about supporting the curriculum in their school and community.

The ATA is directing parents and the public who are concerned about the draft curriculum to pledge support for the moratorium and review by visiting curriculum.thelearningteam.ca. Parents are also encouraged to reach

out to their local school trustee candidate to find out where they stand on the draft at vote4kids.ca.

The Alberta Teachers' Association, as the professional organization of teachers, promotes and advances public education, safeguards standards of professional practice and serves as the advocate for its 46,000 members.

## DANGER! GASOLINE

Gasoline can be more dangerous than dynamite since it emits invisible, explosive vapours that ignite easily, even at low temperatures.

- Never store gasoline in basements, pits or other confined areas. Gasoline must be stored in areas that are well ventilated, free from ignition sources & in areas permitted by the National Fire Code of Canada.
- Never smoke while you are handling gasoline or other flammable liquids
- Never use gasoline to start your BBQ or as a cleaner or solvent.

## Fire Prevention Patrol

Always keep looking for ways to prevent and protect yourself against fires, especially during

**Fire Prevention Week is October 8-14**

**Try these helpful tips to get you started with fire safety:**

- Replace smoke alarm batteries at least once a year.
- Teach children that fire is a tool, not a toy.
- Replace old, worn or damaged appliance cords.
- Keep matches and lighters in a locked drawer or cabinet, away from small children.
- Test smoke alarms once a month.
- Plan two exits out of every room.
- Always make sure candles, matches and cigarettes are properly extinguished.
- If you believe fire may be outside the room, check the door and doorknob for heat before opening it.
- Practice fire drills at home and at school. Find the fastest, safest exit route.
- In the event of a fire, leave the house quickly and don't go back inside! Call for help from a neighbor's house.

## CONTEMPLATING ANTIQUES? HERE'S HOW TO BUY

Antique furnishings, decor, coins, and toys remain popular among consumers. Unlike the mass-produced merchandise of today, antiques have history, and their endurance through decades, if not centuries, is a testament to the quality craftsmanship and materi-

als used to create these often timeless pieces.

Antiques also might be more affordable than many shoppers think. Savvy shoppers may find mid-range "brown furniture," which constitutes some antique wood pieces, more affordable than

reproductions. Homeowners and apartment dwellers who want their rooms to stand apart often rely on antiques to provide a unique ambiance.

Antique shopping also is a "green" endeavor. Antiquing is an eco-friendly practice, putting to use items that have been recycled and reused.

Antiques also can be a good investment, as they generally retain their value while adding texture, contrast and personality to any room of the house.

Understanding antiques can take time, but even the novice can develop an eye for pieces that strike their fancy. And thanks to the wealth of information about collectibles and antiques available online, shoppers have constant access to information about antiques at their fingertips. Shoppers may even be able to comparison shop on their mobile phones.

Mid-range antiques can be par-

ticularly easy to buy thanks to the available inventory. Novices may want to begin by exploring mid-range antiques. As they gain more knowledge and expertise, shoppers who covet antiques can move on to high-end pieces that are more expensive. Some antiques are put in the same category as fine artwork and are considered just as valuable.

Another reason to browse and shop antiques is to learn about the value of similar items homeowners may already own. For those looking to downsize a collection or simply liquidate an estate, antiquing is a great way to get hands-on experience.

Rummaging through antique stores or markets can be a relaxing experience as well. And many antique enthusiasts find shopping for antiques is like a treasure hunt to find that coveted piece and unearth a bit of history in the process.

# THERE IS NO HEALTH WITHOUT MENTAL HEALTH

Submitted by Alberta Health Services

As the pandemic continues to impact the health of many around the world, Alberta Health Services wants to remind Albertans to take care of their physical health and their mental health as we celebrate Mental Illness Awareness Week Oct. 3 to 9 and World Mental Health Day, Oct. 10.

By the age of 40, about 50 per cent of Canadians will have or has had a mental illness.

Remember, if you are struggling you are not alone. There are supports in place to help you.

Many things can help improve a person's mental health. Building a healthy routine, limiting social media use, and learning to manage worries as well as mindfulness and other coping skills all can have a positive impact.

Create a healthy routine that can include physical activities such as a walk around the neighbourhood and a regular sleep sched-

ule, as well as self-care strategies such as mindfulness or meditation. Connecting with others can have a positive impact on a person's mental health.

Resources and supports, such as Text4Hope and Together all, are available to help you or someone you know. Go to [www.alberta-healthservices.ca/helpin-tough-times](http://www.alberta-healthservices.ca/helpin-tough-times).

You may also wish to talk about your concerns with your partner, your family healthcare provider or someone else you trust.

# ALBERTA RCMP LIVESTOCK INVESTIGATION UNIT CHARGES TWO MALES RELATED TO FRAUDULENT CATTLE PURCHASES IN TOFIELD

Submitted by Alberta RCMP

On Aug. 19, 2021, a report was received by the Alberta RCMP Livestock Investigation Unit regarding alleged fraudulent purchase of cattle in Tofield, Alta.

The Alberta RCMP Livestock Investigation Unit's investigation determined suspects had allegedly purchased cattle with a fraudulent cheque and transported the cattle out of province without brand inspection. Livestock Services of Sas-

katchewan were called to assist and a location was identified where the cattle were believed to be grazing.

On Sept. 2, 2021, the Alberta RCMP Livestock Investigation Unit, with assistance of Livestock Services of Saskatchewan, executed a search warrant in Spiritwood, SK, seizing two pure bred Black Angus bulls and locating evidence of additional victims.

On Sept. 16, 2021, a subsequent search warrant was executed where Alberta RCMP Livestock Investigation Unit recovered cattle subject of alleged fraud committed by the same suspects in Thorsby, Alta., and Lloydminster, SK. A total of 19 animals were seized and identified through regis-

tered livestock brands and/or registered pure bred tattoos.

Shane and Shanon Hoff, both of Two Hills, Alta., have both been charged with Fraud Over \$5,000 and are scheduled to appear in Vegreville Provincial Court on Oct. 18, 2021.

Alberta RCMP Livestock Investigation Unit investigators encourage all livestock owners to brand their cattle and horses as this is the primary means of ownership identification and in most cases, relied upon for successful prosecution.

It is notable that Shane and Shanon Hoff are believed to have been involved in similar business transactions.

### Smoke Alarms Checklist

1. Have you installed smoke alarms on every level of your home and near every sleeping area?

2. Have you pushed the "test button" on smoke alarms to ensure everyone will recognize the sound of the alarm?

3. Do you test your smoke alarms once a month to make sure they are working, and replace the batteries every year?

***If you've answered "NO" to any of these questions, it's time to rethink your fire-safety plan.***

## PREPARE

Install smoke alarms on every level of your home, as well as inside and outside every sleeping area.

Test smoke alarms monthly, and replace the batteries if needed.

Purchase and learn how to safely use a fire extinguisher.

Create a fire escape plan with your family, reviewing and practicing it twice a year.

Your fire escape plan should include two exit points from every room, as well as a designated outdoor meeting spot.

Make sure everyone in your family knows when and how to call 911 or the fire department.

## PREVENT

Turn off portable heaters whenever you leave a room or go to sleep.

Keep matches and lighters out of reach from children, and make sure they know never to play with these items.

Replace or repair loose plugs, exposed wiring or frayed extension cords, and avoid overloading outlets and extension cords.

Keep any items that can catch fire at least three feet away from cooking and heating devices.

Remain in the kitchen when frying, grilling or broiling food. Always turn off the stove if you leave the kitchen even for a brief period of time.

## STAY ALIVE

In the event of a fire, yell "Fire" repeatedly and evacuate immediately. Once outside, call 911 and never reenter a burning building for any reason.

If a door or door handle feels warm to the touch, do not open it. Use an alternate escape route.

If you must walk through smoke, get as close to the ground as possible to escape under the smoke, closing doors behind you.

If your clothing catches fire, always remember to stop, drop and roll, covering your face with your hands.

If you can't escape a room, close the door and cover vents and door cracks with a towel or cloth to keep out smoke. Signal for help at the window with a piece of cloth or a flashlight.

## "Stay Fire Smart! Don't Get Burned®"

Make sure you are aware of potential fire hazards in your home and take measures to reduce risks in these areas. Installing adequate smoke alarms is a necessary precaution. Check smoke alarms often. Practice a fire escape plan with your family and practice it regularly.

## Fire Department

When the alarm sounds, the men and women of our fire departments answer the call without hesitation, saving thousands of lives and homes from devastating fires.

During Fire Prevention Week, we salute these brave men and women, who risk their own lives protecting the lives of others. We recognize that each of us has a responsibility to exercise awareness and caution in preventing fires by putting safety first.
