CALL FOR NOMINATIONS!

Submitted by MP Gerald Soroka

This year marks the 70th anniversary of Her Majesty, Queen Elizabeth II's ascension to the throne. As

Queen of Canada, she has personified the traits of public service, dedication, and sacrifice. As Canada's longest serving monarch, the Queen has been a fixture of our society for sev-

en decades. She has always made known her love for our country.

TRAUMA TRAINING FOR STAFF

Submitted by GYPSD

GYPSD staff and community partners had the opportunity to take the Traumatic Event Systems Model training (TES) training with Bonnie Randall from the North

American Centre for Threat Assessment and Trauma response. The TES model looks at trauma through a systems lens rather than a individual lens.

Edwin Parr Nominees and Finalist

Continued from Page 1

As part of the Board's selection process, three first-year teachers in GYPSD were first nominated by their principals and then invited to present to the Board of Trustees at the Public Board Meeting on March 9th.

Ms. Allers was joined by Edson nominees, Becca Harrison from Mary Bergeron Elemen-

tary, and Ms. Samantha Bunes from Parkland Composite High School. The three nominees shared their most successful lesson, student learning challenges, greatest success in teaching since joining GYPSD, and how they each have grown as an educator this year. All three teachers provided an excellent presentation

and the Board had a difficult decision in only choosing one

of these passionate and dedicated educators.

Six Edwin Parr Teacher Award winners will be chosen from across Alberta including two from Zone 2/3 - where GYPSD is located. The provincial ASBA Edwin Parr Teacher Awards will be presented to the winners at the ASBA 2022 Fall General Meeting.

Congratulations!

LICENCE PLATE STICKER SCAM

Submitted by Government of Alberta

Albertans should be aware of a new consumer scam offering refunds for licence plate expiry stickers.

Service Alberta has heard reports of Albertans receiving text messages falsely claiming to be from Service

Alberta. Scammers are offering \$120 refunds for licence plate stickers via text message and the text includes a link. People who click the link are asked to input their banking information to allegedly receive a refund by direct deposit. These messages are not from Service Alberta.

Service Alberta is not offering refunds due to elimination of licence plate stickers. Albertans who receive this message or any other electronic message claiming to offer refunds for licence plate stickers should not click any links or input any personal or banking information.

Call For Nominations!

Continued from Page 1

The Canadian Platinum Jubilee emblem was created to mark the 70th anniversary of the Queen's ascension. The emblem is a symbolic statement of the enduring relationship between Canada and the Crown.

The Royal Cypher of Her Majesty appears at the centre of the emblem. Below,

is the number 70 in silver white to allude to the metal platinum.

These elements are framed by a seven-sided shape, along with seven maple leaves and seven pearls to mark the seven decades of Her Majesty's reign. The Royal Crown appears at the top of the emblem.

The emblem was designed by Cathy Bursey-Sabourin, Fraser Herald of Arms at

the Canadian Heraldic Authority.

To celebrate this historic occasion, we will be awarding 70 Platinum Jubilee pins to deserving citizens of Yellowhead.

The past few years have been incredibly difficult, but there have been those in our community that have risen to meet the unique challenges we've faced. I believe these actions should

be recognized.

The pins will be given to those who have demonstrated the qualities extolled by Her Majesty the Queen: public service, dedication, and sacrifice.

If you know someone who has gone above and beyond what has been asked of them and you believe is deserving of this award, I invite you to nominate them.

Trauma Training for Staff

Continued from Page 1

TES is responsive in nature and provides VTRA Level 2 trained professionals and leaders with the necessary tools to intervene, prepare and support communities in the aftermath of a traumatic event.

While emergency responders focus on the physical aspects of trauma, TES trained professionals address the more complex and lasting effects of how trauma impacts individuals and systems if left untreated.

According to GYPSD's Divisional Psychologist, Crys-

tal Virtanen, "the training helps staff identify trauma within systems and offers how to support and move forward with positive change in the system that has experienced trauma."

IN PARTNERSHIP WITH THE UNIVERSITY OF ALBERTA SCHOOL OF BUSINESS, LAUNCHES FREE DIGITAL SUPPORT FOR SMALL BUSINESSES

Submitted by Town of Stony Plain

The Digital Economy Program, in support of small businesses in Alberta, launches today. The program is delivered through a partnership between the Town of Stony Plain, University of Alberta, Business Link, and Digital Main Street. The program is funded by the Government of Alberta, Ministry of Jobs, Economy and Innovation.

The Digital Economy Program is a free program designed to support small businesses as they integrate or upgrade their online operations. This program will allow small businesses to build their online presence, add eCommerce, create a social media plan, and other digital practices to help their business thrive. Over 95% of businesses in Alberta are small businesses, and supporting our small business community is absolutely crucial in the competitive digital landscape. This free service will be a game-changer for many businesses as they adopt new technology to increase sales, and as a result, hire more staff and build our economy.

"I'm thrilled for our home-based and small businesses to participate in this free program and grow as a result of this collaborative partnership between the University of Alberta, Business Link, Digital Mainstreet, and several municipalities throughout the Greater Edmonton Metropolitan Region," says Mayor William Choy. "In total, Stony Plain received \$23,400 through the Digital Economy Program to help 78 local businesses enhance their online presence and get digital in 2022."

"Showcasing a business online and getting connected to the digital marketplace can

be really daunting. The Digital Economy Program will provide practical one-on-one support to small business owners. The program is complimentary and available to those who may not otherwise have the resources or capacity to learn the skills needed to grow their digital presence. I

encourage all small businesses to make the change today. Sign up while spaces last!" says Economic Development Officer Michelle Levasseur.

Applications for the Digital Economy Program are open, and will remain open until March 2023.

To be eligible for the Digital

Economy Program, businesses must fit the following criteria:

- registered in Alberta;
- zero to 49 employees (this includes self-employed business owners with no employees); and,
- home-based or commercial business.

Psst...! Don't get caught by scammers.

The easiest ways to avoid a scam?

Many scammers will say you owe money and demand immediate payment with gift cards or bitcoin. Here's what you can do to be scam smart:

- ☑ **Ask yourself:**
Do I owe them money?
Why is the person pressuring me to act right now?
- ☑ **Learn what payment methods the Government accepts.**

These tips are from Canada.ca/be-scam-smart

MP SOROKA QUESTIONS THE MINISTER ON THE ECONOMY

Submitted by MLA Gerald Soroka MP for Yellowhead

Gerald Soroka, Member of Parliament for Yellowhead, asked the following question in the House:

“Mr. Speaker, \$400 billion in newly created cash has driven up consumer prices, and constituents in my riding, especially seniors, cannot afford their basic necessities. In addition to rising consumer prices, electricity and heating bills are increasing due to the carbon tax, which will increase again on April 1.

When will the Liberal government finally quit making false promises and create a real economic plan for all Canadians, especially those who are struggling to meet their basic needs?”

Reply:
Hon. Chrystia Freeland (Deputy Prime Minister and

Minister of Finance, Lib.):
“Mr. Speaker, the Conservative MP began his question talking about government spending, which he seems to deem excessive. I would like to remind him that he, together with every single Conservative member, actually ran on an elec-

tion platform proposing higher spending in 2021-22 than the Liberals did. They proposed a \$168-billion deficit. We proposed a \$156-billion deficit. Could the party of flip-flops tell Canadians what they stand for today?”

ARTICLE FROM MLA SMITH

Submitted by Mark Smith, MLA for Drayton Valley

More than 350,000 Albertans are of Ukrainian descent, including several in the Alberta Legislature. When fighting in Ukraine began, the government wasted no time in acting to support the people of Ukraine, by contributing a total \$10.3 million to support aid in Ukraine. This included \$5 million donated through the Ukrainian World Congress to equip 5,000 members of the Ukrainian Territorial Defence Force with defensive equipment, including flak jackets, helmets, bullet-proof vests, first-aid kits, night-vision goggles, communications equipment, and essential fuel.

Article from MLA Smith

Continued from Page 9

Ukrainian Albertans have contributed so much to our province's communities, culture, and economy, so I'm glad we could contribute to the effort in Ukraine at a time when support is most needed.

With European countries dependence on Russian oil and gas the war in Ukraine is proof that the world needs more Canadian oil and that our country must build energy infrastructure and boost oil exports. Alberta is a rights-respecting liberal democracy with the third largest energy reserves in the world. We can be a major force for global stability by displacing conflict oil from Russia and other dictatorships with Alberta oil.

Albertans are some of the

most generous people on earth. For all those wishing to donate to the humanitarian efforts in Ukraine, please visit the Canada-Ukraine Foundation donation portal at www.CanadaHelps.org.

The situation in Ukraine has put a damper on the good economic news in Alberta, but I still want to update you on some exciting announcements that have happened in our province ever since the government tabled a landmark balanced budget.

The pandemic has highlighted a need to expand our healthcare system and increase capacity. This past week, we announced that Budget 2022 will grow Alberta Health's total operating expense budget by \$600 million this year and by a total of \$1.8 billion by 2024-25. This will ensure we

have the capacity we need to protect patient care and prepare for future health care demands.

We also announced this week that Budget 2022 contains an increase of more than \$700 million over the next three years to support teachers and to address cost pressures in schools, as well as \$110 million in new funding for the next three years to support the mental health and wellbeing of Alberta students.

We also found out this week that Budget 2022 includes about \$2.5 billion over three years in support of our new childcare agreement with the federal government. I am proud to report that since this agreement was announced, Drayton Valley-Devon families are experiencing lower costs for childcare, which remains on target to aver-

age \$10 per day by 2026.

Finally, earlier this week, we announced that Budget 2022 invests almost \$3.7 billion, a 6.3 per cent increase over last year, into continuing care programs and services for seniors and vulnerable Albertans. It also earmarks \$204 million in capital funding over three years to modernize existing continuing care facilities across the province and develop new continuing care spaces for Indigenous Peoples.

With our balance sheet back in the black, the lowest taxes in Canada, and essentially all restrictions now lifted – Alberta is starting to feel like Alberta again. Nowhere is this truer than in Drayton Valley-Devon.

I look forward to providing you with more updates soon.

MP SOROKA ASKS THE MINISTER TO STOP TAX INCREASES

Submitted by Gerald Soroka
MP for Yellowhead

Gerald Soroka, Member of Parliament for Yellowhead, asked the following during Question Period:

"Mr. Speaker, my constituent, Darren, sent me the following message on how inflation is affecting his life. He said, "With payments, registration, repairs and fuel to drive to work, there isn't much motivation to keep working. Then the government takes two-thirds of my income for income taxes, CPP, EI and the carbon tax. I will have to soon borrow money to be able to stay working.

When will this Liberal government start listening to Canadians and stop these continual tax increases?"

Reply:

Terry Beech (Parliamentary Secretary to the Deputy Prime Minister and Minister of Finance, Lib.):

"Mr. Speaker, our government has been focused on affordability issues and issues around inflation. Since taking office in fact, it was our government that implemented a thorough poverty strategy that lifted 1.3 million Canadians out of poverty.

We are investing in programs like childcare that is going to lower the cost of childcare in B.C. by 50% by the end of this year. We are investing in the national housing strategy to make sure people can afford a place to live. These are all measures the Conservatives are not supporting, but we are going to get it done."

HOW TO HANDLE CAR TROUBLE WHILE DRIVING

Sudden car trouble is something no driver wants to experience, but many a driver has been driving down the highway only to feel his or her vehicle start to sputter. Such sputtering might indicate a car is running low on fuel, or it could be a sign of something more serious that requires motorists to think as quickly and safely as possible.

When car trouble strikes while a vehicle is on the road, the first thing many drivers do is check their fuel gauges. A car that runs out of gas is certainly inconvenient, but if you can pull over to the should-

er or make it to the nearest filling station, then this unfortunate situation can be remedied rather easily. But when a car's tank is full and it is still showing signs of trouble, drivers must take steps to protect themselves, their passengers and their vehicles. The following are a few simple tips motorists should keep in mind so they can safely handle any car trouble that may arise while they are out on the road.

• Keep a first-aid kit, spare tire and tire jack in the car at all times. Flat tires are no fun, but they are even more of a nuisance

when drivers are not prepared to address them. Always keep a jack and spare tire in your car, even if the spare is a donut you can temporarily use to replace a flat tire until you make it to a filling station or automotive supply store. As an added safety measure, keep a fully stocked first aid kit in your vehicle in case you cut yourself while changing the tire or need to address another medical situation. Visit www.redcross.org for a list of items to include in your automotive emergency kit. Keep a blanket in the trunk as well so your passengers can stay warm

should you experience car trouble on a cold day or night.

• Make note of your surroundings. Some car troubles can only be fixed by the professionals, so pay careful attention to your surroundings in case an issue arises and forces you to pull over and call for help. Always pay attention to mile markers and any landmarks that might help you describe where you are. Car troubles can strike at any time and anywhere, ...

Continued on Page 14

auto TUNE-UP

How To Handle Car Trouble While Driving

Continued from Page 13

... so be sure to pay special attention to your surroundings when driving in unfamiliar areas.

• Pull over. Don't panic if an issue arises suddenly. Remain calm and pull over onto the shoulder. The right shoulder is the area for pulling over on most roads, but you may also use the left shoulder on multilane highways with medians. Try to get as far away from traffic as possible without driving off of level ground, and always use your signals when pulling onto the shoulder. If the vehicle can't make it to the median, put your emergen-

cy flashers on and get out of the car, moving away from both the vehicle and traffic. Immediately call for emergency roadside assistance, alerting the authorities if need be.

• Use flares or triangles to alert other drivers. So long as you are not risking your well-being, you can place flares and/or warning triangles behind your vehicle so oncoming traffic knows to drive around it. The popular not-for-profit motor club AAA recommends placing the first flare or triangle 10 feet directly behind the side of the vehicle that is closest to the road. The second should be placed between 30 and 60

feet (increase the distances as the posted speed limit increases) behind the middle of the bumper, while the third flare or triangle should be placed between 120 and 360 feet behind the vehicle's right side.

• Stay with the vehicle. Once you have called for help and set up flares or triangles, stay with the vehicle, though do so at a safe enough distance so you are not in harm's way.

• Sudden car troubles can be scary, but drivers who approach such issues calmly and quickly can reduce their risk for accident or injury.

3 TIPS TO DRIVE MORE EFFICIENTLY

Unlicensed drivers learning to drive are often taught the benefits of defensive driving. Safety is often the focus of such lessons, but the benefits of driving safely and efficiently extend far beyond safety.

According to the U.S. Department of Energy, aggressive driving can lower gas mileage by roughly 15 to 30 percent at highway speeds. In addition, a 2017 study from researchers at the DOE's Oak Ridge National Laboratory found that aggressive driving can contribute to a reduce fuel efficiency by as much as 40 percent in stop-and-go traffic.

Speeding as well as rapid acceleration and braking

are hallmarks of aggressive driving, and each of these habits puts drivers, their passengers and other motorists at risk of accident and injury. By taking these steps to drive more efficiently, drivers can save money and potentially even lives.

1. Avoid rooftop cargo.

Rooftop cargo units can be beneficial for family vacations or other extended getaways. But using rooftop cargo boxes as traveling storage units for items you don't need on a daily basis or simply keeping empty units attached to vehicle roofs compromises fuel efficiency. Rooftop cargo bins increase the aerodynamic drag on vehicles, forcing them to burn

more fuel than they would need to burn while moving without anything attached to the roof. DOE estimates suggest that large, blunt rooftop cargo boxes can reduce fuel efficiency by as much as 25 percent when a vehicle is moving at speeds between 65 and 75 miles per hour.

2. Don't treat your trunk like a closet.

Trunks are not closets, so resist the temptation to use them to store golf clubs and other items that are better stored in a house or garage. Research has indicated that an extra 100 pounds in a vehicle can reduce gas mileage by about 1 percent. Because that figure is based

on the percentage of extra weight relative to the vehicle's weight, drivers of small vehicles may find using their trunks as closets to be especially costly and inefficient.

3. Use cruise control when possible.

Cruise control makes it possible for vehicles to maintain constant speeds. That helps drivers ensure they are always obeying the speed limit, and it keeps cars from the constant acceleration and deceleration that wastes fuel.

Efficient driving is safe, cost-effective and eco-friendly. With some simple strategies, drivers can do their part to protect the planet and make roads safer, all while saving money.

NITRO NUT Mechanical

We now carry Manuli! They are a European manufacturer and they engineer it all in Europe. All of their product is produced in their own factory, no outsource. Adding this in we have been able to gain access to many of the European fittings that have become much more common in North America.

BSPP, Metric Din, Metic cone, JIS.

These fittings are clear across all brands John Deere, Case, New Holland, JCB, Fendt, Massey Ferguson. Many of the implements that have been sold in the last few years have also used these predominantly European fittings.

We offer these services

- CVIP Inspections
- Hydraulic hose crimping and thousands of adapters in stock.
- A/C Repair
- Espar and Webasto Repair, Installation.
- Engine Repair and Rebuilding.
- Power train/Driveline repair and service.
- Suspension and frame repair.
- Two Fully equipped service trucks for mobile needs.

WE STOCK PARTS FOR ALL MAKES AND MODELS OF TRUCKS, DRIVELINE & ENGINES.

We repair

- Truck Transport
- Heavy Equipment
- Automotive
- Industrial
- School Bus
- Agriculture

WHAT MATTERS TO YOU - INTERESTING TIMES

Submitted by MLA Shane Getson

There was an old curse that simply stated, "May you live in interesting times". On the surface, sounds like a blessing, no one wants to live a boring life, but it really depends on what your definition of interesting is. We have had 2 long years of interesting, financially, socially, constitutionally, politically, and even the weather has been "Interesting". Initially when I was going to write this note, my primary focus was on the type of leadership we have seen at federal and provincial levels in the country. How some styles of leadership in my opinion have become too polished, and too far removed from being representative of the folks in their constituencies.

Leaders that are more concerned with polls, the next election, rather than putting themselves out on the line, to get eyeball to eyeball not only with the folks that agree with them, but those that don't. An example of this style are the leaders who would have police officers, or muse with the use of military to "Deal With" folks who were in the truck convoys, rather than take the opportunity provided to meet with leaders of those groups themselves to hear their concerns. In my opinion, when that many people show up, who never typically "protest", for

that long, and it's an organic movement you had better take it seriously, and you had better listen.

After being married for 20 years now, I fully acknowledge that I am a work in progress, and that I need to work on myself everyday if I am going to make it another year. It's the process of continuous improvement, compromises, and being part of something larger than yourself, that is also evolving. I am not the best Dad or Husband out there for sure, but I'm going to keep being better than I was the day before. There will be slips, setbacks, and scrapes, but it is something that I made a commitment to do, and I'm not going to let my family down. I think that if us "Politicians" approached our relationship with the people we represent this way, our province and our country would sure as heck be in a better place.

After only being involved in politics for 3 years, I am finding out, is that for some reason I am a threat to some in this arena who are career politicians. As I don't seem to fit the mold of what the "system" has grown to expect. I have also found that the system has fundamentally changed over the last 30 years according to those that were around at that time. I believe that we need to shakeup the system, perhaps look back to how many things used to be done and take the best

items from those periods and implement them to go forward. Humble ourselves, acknowledge that perhaps the new way isn't the best way, and those that have "been there and done that" are the ones that we need to pay more attention too, rather than the latest "Polling" report.

When Old William Shakespeare wrote in Hamlet that there was something rotten in the state of Denmark, he wasn't talking about Denmark, but the leadership at the time in his own country. Mr. Shakespeare wrote for all segments of society, not just for the upper classes, and that is why many of his stories, and the themes resonate today. When I look at our province, and our country, I can definitely relate with the statement, there is something rotten in the state of Denmark. I am encouraged however by all of the true patriotism I've seen lately. People wanting to be engaged in selecting the leaders of tomorrow and being a part of the team that encourages the leaders of today to do the right things, for the right reasons. The best way to do that is to literally buy a membership in a political party, vote on policy, and of course, vote on who you want as leadership to run in the next election.

I was very happy to have a table at the capital region gun show that was held at the Stony Plain Heritage

Park this weekend, and speak at an event put on by the Edmonton United Services Institute held at the Alberta Aviation Museum. The event in Edmonton was all about the application and utilization of drones in the military, and for civilian use. The gun show, well, that was all about fantastic grass roots engagements and being able to get out and talk to people again. I'll keep on weathering the storm for as long as needed, thanks for the support.

After the gun show I received a call from a friend who was asking for help from his family in Ukraine that really put things into perspective for me. He said the folks back there were very appreciative for the blankets and pillows, but what they really needed was helmets and body armour. I spent Sunday evening and Monday connecting people so that we could pull together a supply of just that. If you want to help in this regard, please contact my office, so that we can send what the soldiers, and right now everyday citizens need to try keep control of their country. At the end of the day, it's not about us, it's not about politics, it's about friends and family, and doing what we can to be there for them when they need us the most, and that may be in those "Interesting Times"

PURE HEMP PRODUCTS

AGING IS INEVITABLE - LOOKING AND FEELING OLD ISN'T!

A Health and Beauty Breakthrough!

Cannabidiol, is one of over 80 active cannabinoid chemicals in the hemp plant. Unlike, THC, it does not produce euphoria or intoxication. It targets specific receptors in the cells of your brain & body. There are many physical and mental benefits to using these products for both treatment and prevention of numerous ailments.

Therapeutic Uses For Pure Hemp

Supports healthy blood sugar levels, promotes healthy energy levels, relieves anxiety, aids in digestion, supports optimal immune function and the regeneration of healthy cells, and promotes a sense of serenity and overall well-being.

Anti-Aging Uses For Pure Hemp

Promotes more youthful skin, provides hydration, enhances radiance, lessens age lines as well as the appearance of dark spots.

KEY BENEFITS

PAIN RELIEF: Known to reduce vomiting & nausea; suppress muscle spasms; reduce seizures & convulsions.

PROMOTES HEALTH: Helps to promote relaxation and overall health.

WELL-BEING: Helps to relieve anxiety, aid in digestion, supports optimal immune function and the regeneration of healthy cells.

PET PRODUCTS

PET CHEW TREATS

KEY BENEFITS

SYNERGISTIC BENEFITS: Can be used in conjunction with regular medications with no side effects.

NO SIDE EFFECTS: Does not damage the liver, kidney or GI Tract like OTC medication.

DIETARY SUPPLEMENT: Can be administered daily as part of your pet's diet.

ORAL SPRAYS & DROPS

KEY BENEFITS

MANAGES PAIN: Helps to treat inflammation, arthritis and joint pain.

TREATS DIGESTIONAL ISSUES: Helps with loss of appetite, nausea, IBS and gastrointestinal swelling.

GENERAL HEALTH: Helps to manage mood, anxiety and general joint pain. For healthy, happy pets.

CONVENIENT: Can be sprayed into pet's mouth or on food.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

PREVAIL CELLULAR HOMEOSTASIS FORMULA MAX

A NUTRITIONAL BREAKTHROUGH THAT SUPPORTS YOU
...RIGHT DOWN TO THE LAST CELL!

How do you want your
BLOOD to look?

Before PrevailMAX:

- poor circulation
- low energy
- brain fog
- dehydration
- decreased nutrients
- pH imbalance
- poor endurance

After PrevailMAX:

- better circulation
- more vitality
- mental clarity
- cellular movement
- nutrient assimilation
- balanced pH
- optimal endurance

PrevailMAX™ is a nutritional breakthrough that delivers a rapid increase of internal blood cell pressure to speed absorption, enabling the body to take maximum advantage of the nutrients in foods and supplements. The electrolytes are small enough to penetrate your cell membranes, to bind with your cells, and to be carried wherever they are needed in the body.

At the microscopic level of human cells, **PrevailMAX™** supports healthy cell performance – a nutritional breakthrough for your cells.

When you use **PrevailMAX™**, you will feel more energy and an ability to focus like never before. Take a few sprays today and see just how good you can feel!
