LOW-INCOME SENIORS WILL NOT FACE A REDUCTION IN THEIR GIS OR ALLOWANCE BENEFITS

Submitted by Gerald Soroka, MP for Yellowhead

Wishes to advise low-income seniors that they will not face a reduction in their

GIS or Allowance benefits if they received pandemic benefits in 2021, or if they find they need to access any related benefits in the future.

These payments will alleviate the financial hardship of seniors who qualified and received pandemic benefits in 2020, ...

EDSON & COUNTY RECREATION MULTI-USE FACILITY UPDATE

Submitted by Yellowhead County

The Town of Edson and Yellowhead County are discussing the next steps

for the Joint Recreational Multi-Use Facility Project.

The project's Steering Committee met last week to review two submissions received through the Re-

quest for Proposal process which closed on March 25, 2022. The submissions were priced well over budget at \$84,350,000 ...

Low-Income Seniors Will Not Face A Reduction In Their GIS Or Allowance Benefits

Continued from Page 1

...but who subsequently saw that they counted as income and impacted their GIS or Allowance benefits.

This automatic one-time payment was issued by direct deposit on April 19, 2022. Clients who have not signed up for direct deposit will receive a cheque by mail no later than the end of

April 2022. These payments will support those who saw a loss of GIS or Allowance by compensating them for the full annualized amount of that loss.

Edson & County Recreation Multi-Use Facility Update

.... and \$90,820,000, not including administrative costs for the municipalities. Unfortunately, supply issues, commodity prices, labour shortages and other

international factors hampered the proponents' efforts to remain within the firm \$58 million construction budget target.

Both municipal Councils, as well as the project Steering Committee, plan to

meet in the coming weeks to determine alternative paths forward to ensure an equivalent facility is developed for the community.

One-Time Grant Payment This Week For Guaranteed Income Supplement Recipients Who Received Pandemic Benefits

Continued from Page 1

... or the Canada Recovery Benefit in 2020. This measure was announced in the 2021 Economic and Fiscal Update.

The one-time grant payments will alleviate the financial hardship of seniors who qualified and received pandemic benefits in 2020, and who faced a reduction or loss of GIS benefits in July 2021. The one-time grant payment compensates eligible seniors for the full loss of their GIS or Allowance benefits. The amount is equal to the annualized amount of their reduced payment. For example, if an individual's monthly GIS was reduced by \$100, the individual will receive a \$1,200 one-time grant payment.

Seniors do not need to take any action to receive the one-time grant payment; they will automatically receive it in the same way they receive their GIS payments. These one-time grant payments will be is-

sued by direct deposit on April 19, 2022; clients who have not signed up for direct deposit will receive a cheque by mail by no later than the end of April 2022.

The Government has taken action to prevent future reductions in GIS or Allowance benefits for seniors who received pandemic benefits in 2021 by introducing Bill C-12. Bill C-12, which received Royal Assent on March 3, 2022, amends the Old Age Security Act to exclude any income received under the Canada Emergency Response Benefit, the Canada Recovery Benefit, the Canada Recovery Caregiving Benefit, the Canada Recovery Sickness Benefit and the Canada Worker Lockdown Benefit for the purposes of calculating the amount of GIS and Allowance payable beginning in July 2022.

UPDATE ON SOME OF THE LATEST NEWS COMING OUT OF THE ALBERTA GOVERNMENT

Submitted by Mark Smith, MLA for Drayton Valley

Fighting the federal firearm ban

Alberta chief firearms officer Teri Bryant is raising concerns with the federal firearm ban. The federal measure prohibits more than 1,500 models of firearms and other related firearm components. It also calls for an amnesty period and a federal program to acquire and destroy the firearms. The banning of an arbitrary selection of firearms and imposing unfair costs

and controls on law-abiding gun owners reflects a main concern of Albertans: firearms policies and regulations should be evidence-based instead of ineffective measures that target law-abiding citizens rather than criminals.

Welcoming West Virginia Senator Joe Manchin

United States Senator Joe Manchin of West Virginia visited Alberta to discuss being partners in energy security.

Premier Jason Kenney and Senator Manchin spoke to media about the need to for Canada and the United States to be better

partners in energy security. Manchin, who sits on the U.S. Senate Committee on Energy and Natural Resources, said the U.S. now wishes it didn't kill the Keystone XL pipeline and that he will ask Premier Kenney to testify before the committee on the need for better energy cooperation between Canada and the U.S. on pipelines and energy issues.

Terminating relationships with Russian regions

In response to the unprovoked Russian invasion of Ukraine, the Government of Alberta has terminated its relationship with three

Russian regions.

Premier Jason Kenney stated that despite the decades-long relationships, Alberta denounces Russia's invasion of Ukraine and is terminating its relationship with these regions. The relationships between Alberta and Tyumen Oblast, Khanty-Mansi Autonomous Okrug and Yamalo-Nenets Autonomous Okrug began in 1992, 1995 and 1997, respectively. This is the first time the Government of Alberta has terminated relationships with sister regions.

Update On Some Of The Latest News Coming Out Of The Alberta Government

Continued from Page 4

Acting to better support children and youth

Minister of Children's Services Rebecca Schulz has accepted and is implementing all six action items outlined in the Review of Deaths of Children and Youth Receiving Child Intervention Services.

The past two years have been challenging for children, youth, and young adults because of the COVID-19 pandemic and related restrictions. Young adults struggling with addiction have also been particularly hard hit by these events. Alberta's government is responding by making significant investments to improve mental health and addiction care and help youth and young adults recover from the challenges they face. Alberta's government is also enhancing safety planning, oversight and reporting to improve the safety of children and youth receiving intervention services.

Supporting well-being for Indigenous women

Three grants will help provide Indigenous women in Alberta with the skills and support they need to find careers and improve their livelihoods.

Funding to the Institute for the Advancement of Aboriginal Women (IAAW) will support pro-

grams to help Indigenous women find jobs, security and success in Alberta's rapidly recovering economy. With a focus on job readiness, retention and improved access to vital services, these programs will help participants

build skills and confidence by offering customized plans to help develop career paths, from pre-employment training and education to long-term achievements in the workplace. The IAAW will also provide advocacy, re-

ferrals and strategies for mental health, housing, transportation, childcare, and assistance navigating the justice system.

Spring HOME RENO GUIDE

HOW TO ENSURE A SUCCESSFUL BASEMENT REMODEL

Americans continue to fuel remodeling spending across the country, driven by upward growth in real estate prices and the rising cost to trade up to a larger home. Basement renovations are expected to be a hot trend in 2016, as buyers look to maximize available living space rather than move, and as young buyers look to offset the cost of homeownership with potential income suites.

While finishing a basement can be a great alterna-

tive to moving -- especially if you love your neighborhood - there are some challenges homeowners must be aware of when tackling below-grade living spaces. Choosing the right products is vital to the comfort, safety and function of your new living area. Look for products that help to maximize energy efficiency and protect against moisture, fire and noise.

Here are the top points to consider to ensure a successful basement renova-

tion.

Waterproof it. Check the interior foundation and floors to make sure there are no existing moisture issues, water damage or mold problems. Address any primary moisture issues before finishing the space. Examine grading to ensure water runs away from your foundation.

Insulation is key. Insulation plays a critical role in making your basement feel comfortable, while keeping it safe and dry. For the

best results, install a rigid board insulation, like Roxul ComfortBoard IS, against the concrete foundation before you stud the wall. The board is mechanically fastened or adhered to the concrete foundation wall, which prevents thermal bridging through the studs, providing better thermal performance. Finish with a moisture-resistant and dimensionally stable insulation between the studs, like R14 Comfortbatt, ...

Spring HOME RENO GUIDE

How To Ensure A Successful Basement Remodel

Continued from Page 8

...to protect against common basement issues such as mold, mildew and rot.

Choose a functional design. Draw out plans, carefully taking into consideration any low ceilings or small windows. Try to incorporate structural features, such as attractive wood beams, into your design. Keep the space as open as possible. Select lighting that provides a bright, airy feel.

Don't forget to soundproof it. Soundproofing is the ultimate solution to maximize your basement's quiet and privacy. Whether your newfound space will function as a home theatre, music room, home office or playroom, it will benefit from quality acoustic insulation, like Roxul Safe 'n' Sound. Not only is it highly effective, but it's also easy to install.

Consider fire safety. Since many basements are now being renovated as income

suites, fire protection is also a vital consideration. Whenever possible, select building materials with a high fire-resistance rating and look for products that will not off-gas or contribute to toxic smoke in the event of a fire. Include additional exits in your renovation plan and educate yourself on your local fire code.

Before you start your renovation, be sure to check with your municipality to secure the right permits and to ensure that you're

complying with local by-laws and building codes. Finishing a basement can be a smart renovation, if done properly, adding to a home's value, increasing its function and providing greater enjoyment or income potential.

Doing it right the first time.

Spring HOME RENO GUIDE

TOOLS OF THE HOME RENOVATOR'S TRADE

Home renovation projects can be both exciting and tricky. Do-it-yourselfers are inspired by designs showcased in magazines, websites and their own communities. When DIY enthusiasts see a design they like, it's understandable that they may want to emulate these looks at home.

Remodeling is one of the larger DIY undertakings, and it goes beyond simple carpentry. Considering demolition, reconstruction,

electrical, plumbing, and masonry work may be part of the DIY package, homeowners who are thinking about renovations must first stock up on the tools and other supplies of the trade. Having the right tools can mean the difference between a job well done and a job that needs to be redone.

- Crowbar or prybar: Before you can put in new construction, you might have to get your

hands dirty with some demolition. Crowbars or prybars can be used to pry up wood slats, remove nails or remove old decking.

- Tool pouch: A tool and fastener pouch gives DIYers a place other than their pockets to store fasteners and hand tools. Pouches can be attached to tool belts for added storage capacity.

- Stud finder: Invest in a more fool-proof method of locating studs

behind drywall then knocking on the wall. Stud finders can provide a picture of studs, pipes and other hidden items inside an entire length of wall. This is essential to driving nails where they belong and can also prevent sending fasteners into wires or nearby plumbing.

- Level: A level is an essential tool for everyone from casual decorators to more involved renovators.

Tools Of The Home Renovator's Trade

Continued from Page 10

Whether hanging pictures or ensuring molding is parallel, levels are must-have tools for DIYers.

- **Safety glasses:** Invest in a pair of safety glasses so no one working on a project deals with obstructed vision. Safety glasses also provide ample eye protection.

- **Extension cords:** If power tools are part of the renovation picture, extension cords can safely extend power where it is needed. Be sure to invest in a gauge that is large enough to handle the amperage of your most powerful tool.

- **Measuring tape:** The “measure twice, cut once” mantra is key to home improvements. To measure accurately each and every time, no tool chest is complete without a sturdy measuring tape.

- **Ladder varieties:** Home improvements aren't always at ground level. Purchase ladders of various heights so you can safely reach various areas of the home and avoid injury. Step stools, a step ladder and an extension ladder all have their purposes on the job.

- **Digital inspection scope:** A scope lets you see inside walls, floors

and ceilings to find the exact location of pipes, wires and joists. It also can be used to seek out the source of clogged drains

or anywhere you desire sight into hard-to-manuever areas.

In addition to these tools, brooms, shop-vacs,

hammers, screwdrivers, wrenches and pliers can complete a DIYer's basic toolbox.

Avian Flu detected in Alberta.

Avian Influenza is highly pathogenic and can be spread to domestic birds by wild bird populations.

HERE'S WHAT TO DO IF YOU SUSPECT AN OUTBREAK.

Bird owners are legally responsible to notify authorities of Avian Influenza and should call a veterinarian or a local office of the CFIA if they suspect their birds are sick with Avian Influenza.

For poultry producers and owners with backyard flocks or pet birds, the Canadian Food Inspection Agency (CFIA) website contains resources on avian flu and biosecurity measures.

www.inspection.canada.ca

Yellowhead County is providing this update as public information and is not directly involved in the notification process, any questions should be directed to the CFIA.

THANK-YOU!

POSSESSION AND PERCEPTION

Submitted by MLA Shane Geston

There is a famous old saying that states “Possession is 9/10 of the law” so if you have it in your hands or caught with it in your hands it can go one of 2 ways for you. When it comes to politics, “Perception is 100 percent of the Law” the real challenge that I’ve found over the last few years is how that perception is created in the first place. The public memory can be short however, when the narrative subtly changes, and given time, can turn a full 180. George Orwell illustrated this perfectly in his book 1984. It’s all about wording and timing and the public is none the wiser. Friends turn into enemies, and saviors turn into sinners.

In Alberta, we have a long fuse but also a hot temper. When Albertans have had enough, it is enough! There are a number of values that the vast majority hold near and dear to their hearts. Honesty, trust, showing respect, and having a strong Work Ethic. Albertans can forgive mistakes, heck even blunders, and are very empathetic when leaders are given extremely difficult circumstances to navigate, but if they can’t trust you, or you drive wedges and disrespect them, they will seldom forget, or forgive.

Over the last year, I have seen some of the worst characteristics from political leaders and corporate media come to the forefront and help form

perceptions that literally have pitted family members against each other. I have seen a population that has been stressed and fearful not only for their safety, but financial security, being fed information that formed their perceptions, and it will take many months more to appreciate the negative consequences on our communities. Trust has been eroded, confidence in our leadership, and in many of our institutions.

If you don’t support certain leaders, agree with their messaging, their style of management, well then you are a Fringe Minority, A racist, you indeed are an Anti (pick the subject) and are downright going to tear down the system. Beware of the boogey man, look over there, not here, and lets all turn on that other group they are the problem. The “Woke” style of perception forming and opinion making is not new, nor is it simply reserved for one political camp or another, it has become institutionalized. I am counting on Albertans to do the right thing, and never forgive that behavior, that style of leadership. It has been used to cover up shortcomings and mistakes of the leaders, with the hope to lengthen their careers to the detriment of our province, and our country.

There is a change coming for the better I believe when it comes the calibre of people becoming involved in their communities, and as well as the politics as a whole. This

is starting to upset the establishments, and the “Traditional” organizations that have been in behind the scenes for years giving you the population the candidates to choose from. I believe that we have a chance of making some extremely positive changes going forward, as long as we keep engaged, as long as we hold onto our beliefs and values. We can no longer justify compromising our values, it is because of this that we have reached this inflection point, we are at a point where we can make a very positive change in the right direction.

In a recent townhall I received feedback from a gentleman that was not from our constituency, but still had business connections in our area. He was extremely surprised to hear the discussion focusing on positive items, managing some challenging issues. The panel taking questions from the audience consisted of 2 levels of government, local businesses, and even a school board chair. The audience was engaged, had their questions answered, and even if they didn’t like the answers were appreciative for the information, and that the panel was working towards a solution.

That same gentleman asked me if I could go to his constituency and put on a townhall, because they too needed to hear about all of the other things happening other than the current division items that have his com-

munity fighting amongst each other. Honestly, I was a little taken aback from the request, but was at the same time very happy to hear that our approach of engagement truly had left such a positive impression.

I attribute that tone and that feel of the townhall to the folks in our community who are engaged, stepped away from the computers to express their concerns, and get the feedback in an open environment. There are always going to be a few in the weeds, who have other motivations who want to hijack conversations, but typically they won’t do that on an open microphone, they prefer hit and run engagements, with letter writing campaigns afterwards.

The folks who are showing up, who are pitching in, who are making a difference, who are starting to change the perceptions, who are not the keyboard warriors, but are the lead by example crowd, they are the ones who gave such a great impression to the gent who was visiting. There were a good number that I had only met for the first time, and this was their first “Townhall”. That was extremely encouraging, because with that, we will have a chance of turning things around. Working together we can make some real progress, regardless of who may be the current leaders may be, new leaders are emerging, bucking the system, for all the right reasons.

NEW STAFFING ANNOUNCEMENT - ADMINISTRATIVE CHANGES FOR GRANDE CACHE

Submitted by GYPSD

The Division wishes long-time principal of Grande Cache Community High School (GCCHS), Ms. Jackie Mines, all the best as she retires at the end of this school year.

She became the principal at GCCHS in 2011, following 21 years of service within the Division. Her career began at St Joe's in Whitecourt, where she taught physical education and science. She taught physical education K-12, science, and a number of options including cosmetology over the years before she accepted the principal position.

Principal John Hammer of Summitview Middle School, will be moving over to GCCHS as their principal for the 2022/2023 school year. John became the principal at Summitview in 2013, following six years of service within GYPSD. His career began at Nimitz High School in Houston, Texas, where he taught Grade 10 and 11 students English Language Arts. He has also taught in North Dakota and Kansas before moving to Grande Cache in the fall of 2008 where he spent the next six years teaching Grade 8. John grew up in Starbuck, Minnesota, and received his undergraduate degree from the University of North Dakota. He has started a Master's Degree in Teaching English as a Second Language out of Fort Hays, Kansas. John views literacy and numeracy as the foundation of academic progress which formed his leadership focus in Summitview School, and which he plans to continue over at the high school. Collaboration among staff, principals, parents, students, and central office supports are key to continuous growth in both of these areas. This team approach is also essential in supporting parent, teacher, and student relationships for the purpose of providing the best possible experience for his students. John believes "Relationships are a key component of student and teacher success because students don't care about what you can teach them until they know how much you care about them."

Summitview's current As-

sistant Principal, Ms. Trina McKay, will move into the role of acting Principal for the 2022/2023 school year. Trina is originally from Newfoundland but moved with her family to Grande Cache in May 2008. She completed her Bachelor of Science Degree at Saint Mary's University in Halifax, Nova Scotia, in June 2008, and her Bachelor Education Degree in

Intermediate/Secondary Education from Memorial University. She began teaching at Summitview Middle School as a Grade 8 Math and Science teacher in September 2010, and then became the Learning Support Teacher in 2011. Trina has been the Assistant Principal at Summitview since September 2017. She is looking forward to the opportunity to

expand her leadership skills. "I have appreciated all of the knowledge that I gained in this position as a leader working alongside John Hammer as the Principal. Grande Yellowhead has provided me with enriched professional development and collaborative learning that has inspired me to continue further with leadership."

PREVAIL
CELLULAR HOMEOSTASIS FORMULA **MAX**

A NUTRITIONAL BREAKTHROUGH THAT SUPPORTS YOU ...RIGHT DOWN TO THE LAST CELL!

How do you want your BLOOD to look?

Before PrevailMAX:	After PrevailMAX:
poor circulation	better circulation
low energy	more vitality
brain fog	mental clarity
dehydration	cellular movement
decreased nutrients	nutrient assimilation
pH imbalance	balanced pH
poor endurance	optimal endurance

PrevailMAX™ is a nutritional breakthrough that delivers a rapid increase of internal blood cell pressure to speed absorption, enabling the body to take maximum advantage of the nutrients in foods and supplements. The electrolytes are small enough to penetrate your cell membranes, to bind with your cells, and to be carried wherever they are needed in the body.

At the microscopic level of human cells, **PrevailMAX™** supports healthy cell performance – a nutritional breakthrough for your cells.

When you use **PrevailMAX™**, you will feel more energy and an ability to focus like never before. Take a few sprays today and see just how good you can feel!

ANNOUNCES ADDITIONAL EASING OF BORDER MEASURES EFFECTIVE APRIL 25

Submitted by Government of Canada

The Government of Canada continues to take a risk-based and measured approach to adjusting and easing Canada's border measures. Today, the Government of Canada announced further changes to Canada's border measures for certain eligible travellers.

Effective April 25, 2022, at 00:01:00 EDT, the following easing of border measures will come into effect:

Unvaccinated or partially vaccinated children aged 5-11 who are accompanied by a fully vaccinated parent, step-parent, guardian or tutor will no longer be required to complete a pre-entry COVID-19 test for entry to Canada. Pre-entry tests will still be required for partially vac-

inated or unvaccinated travellers 12 and older who are currently eligible to travel to Canada. Children under 5 years of age are not required to provide a COVID-19 test result.

Additionally, all fully vaccinated travellers will no longer be required to provide a quarantine plan upon entry. This requirement will also be removed for children aged 5-11 who are accompanied by a fully vaccinated parent, step-parent, guardian, or tutor and travellers with a medical contraindication to a COVID-19 vaccine.

Furthermore, fully vaccinated travellers arriving to Canada on or after April 25, 2022, will no longer be federally required to do the following for 14 days after arriving:

- mask while in public spaces;
- monitor and re-

port if they develop signs or symptoms;

- quarantine if another traveller in the same travel group exhibits signs or symptoms or tests positive; and
- maintain a list of close contacts and locations visited.

As a reminder, all travellers are still required to use ArriveCAN (free mobile app or website) to provide mandatory travel information within 72 hours of their arrival to Canada and/or before boarding a plane or cruise ship destined for Canada, including:

- contact and travel information, and
- vaccination information and proof of vaccination (if applicable).

Fully vaccinated travellers who do not submit their information into ArriveCAN:

- won't be eligible for the fully vaccinated traveller exemption (i.e., they may have to submit a pre-entry test result and suitable quarantine plan, quarantine and undergo testing in Canada);

- may face additional delays at the border for public health questioning; and

- may be subject to fines or other enforcement action.

All travellers, regardless of vaccination status, must also continue to wear a mask throughout their entire travel journey.

While some federal requirements are being lifted for certain eligible travellers, all travellers entering Canada by air, land or water must adhere to the federal requirements along with those outlined by their province or territory.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

SAVINGS FOR RURAL ALBERTANS

Sustainability is top-of-mind these days for all of us. Rural Albertans especially, know that saving on essential services IS sustainability for their homes, businesses, farms, and more. As a co-operative, EQUS operates on an at-cost basis, meaning you pay what we pay.

Our focus is on doing what is best for our members. That means providing a high-quality service, at rates that are fair and competitive. EQUS was founded by rural Albertans, to serve rural Albertans. There are no profits, and no shareholders. Simply put, we are accountable to our members.

If you're looking for an alternative to your current electrical distribution service provider, our friendly team would be happy to provide you more information on the benefits of co-operative electricity distribution. Experience the advantage of co-operative power.

To learn more about powering up your home, farm, or business with EQUS, call 310-EQUS. Scan the QR code below with your phone or visit equs.ca/servicearea to learn if you have a choice in your distribution services.

Last year, EQUS members saved over \$13.6 million on their electrical distribution services!
