### PLEASE PRACTICE FARM TRAFFIC SAFETY

#### Sharing the motorways this harvest season

With harvest in full swing, there is an increase of farming equipment on the region's roadways. When driving during harvest time, please remain mindful of the potential of meeting large agricultural machinery.

Keep your distance from farm equipment on roadways, drive the appropriate speed limit, and stick to your side of the road - especially on curves and hills.

Visit [LSAC.ca/agriculture](http://LSAC.ca/agriculture) for more farm transport safety tips.

# CONSTRUCTION ON 50 STREET/LEGION STREET EXTENSION HAS BEGUN

Submitted by Town of Whitecourt

Equipment has moved on site and site preparation for the 50 Street/Legion Street extension project has begun. Originally identified in the 2017 Sports field Master Plan, this project been part of Whitecourt's capital plan for several years. The

road extension will increase safety and access into Rotary Park and assist with traffic control and reduce congestion. It will also help to revitalize the downtown by providing direct access to Rotary Park from the downtown core. In July 2022, Clark Builders was named the construction manager for the project; and, Kichton

Contracting Ltd, in partnership with Jason Thomas Enterprises, will be completing the site preparation work. Equipment continues to be moved to the site, and fencing will be erected around the main construction area.

Rotary Park will remain open during construction; however, access into the

Park may change as the project progresses.

Park users are asked to obey all posted signs and barricades. Currently, motor vehicle access to Rotary Park remains open; pedestrian access to the Park from 50 Street will be rerouted.

# fall HOME RENO GUIDE

## ROOMS CAN SERVE DOUBLE DUTY

Many homes do not have space for guest rooms, kids' play areas and home theater lounges that are

possible in homes with substantial square footage. But they may not be missing out at all.

While large homes remain popular, many people are embracing the benefits of smaller residences. Small homes help homeowners save money, require less maintenance, have smaller environmental impact, and reduce the temptation to accumulate "stuff."

Owners of small homes or apartments can still enjoy the benefits of larger spaces, they just need to equip rooms to perform double duty.

Living room/guest room entertaining guests is easier when there's a

dedicated space where visitors can feel at home. When furnishing a living room, keep the guest room in mind. A sofa that opens up to a bed or a convertible sectional can be a comfortable place for guests to lay their heads. Side tables provide guests with places to store their belongings, and an empty storage chest can house bed linens or guests' clothing.

Den/playroom Children tend to accumulate toys and games. And as kids grow

*Continued from Page 6*

from children to young adults, their list of must-have items - from video gaming systems to other electronics - grows along with them. Storage can make a room functional for both adults and children. Devote an entire wall to a closet or drawer system where toys can be stored out of sight when necessary. Storage ottomans can be used for extra seating while also providing somewhere for homeowners to stash stuffed animals or games for easy access. When

choosing furniture, look for fabrics that are resistant to stains and modular pieces that can be moved around as necessary to create room for playing or entertaining.

Bedroom/home office  
In 2015, 24 percent of employed people in the United States did some or all of their work at home, says the Bureau of Labor Statistics. Bringing work home means men and women will need a space to work. In tight quarters, bedrooms may be the only available area. An armoire-style desk will

blend in with the decor and can hide paperwork and electronics behind doors. Otherwise, a make-up vanity can serve the dual purpose of providing a place to get ready for a night out and a ready space to house a laptop during the day.

In smaller homes, homeowners may be forced to turn rooms into dual purpose areas.

# CONSERVATIVES ARE ON YOUR SIDE

Submitted by MP Gerald Soroka

As the Official Opposition, we Conservatives tabled the following motion in the House:

"That, in the opinion of the House, given that the government's tax increases

on gas, home heating and, indirectly, groceries, will fuel inflation, and that

the Parliamentary Budget Officer reported the carbon tax costs 60% of

households more than they get back, the government must eliminate its

plan to triple the carbon tax."

The Trudeau Liberal Government plans to raise the carbon tax from the current level of \$50 a tonne to \$170 a tonne by 2030, with increases each and every year even though in 2019 the Liberals promised the plan would not increase the price (carbon tax) post-2022. The Supreme Court of Canada has confirmed that the federal gov-

ernment can impose its own carbon tax as a backstop. This is a problem. Higher gas prices harm household budgets, it also increases transportation costs and in turn raises prices on groceries and other consumer goods – all increasing inflation.

Earlier this year the Bank of Canada stated: "if the charge (carbon tax) were to be removed from the three main fuel components of the consumer price index (gasoline, natural gas and fuel oil) it would reduce the in-

flation rate by 0.4 percentage points. In other words, if that policy had come into effect at the start of the year, January's inflation rate would have been 4.7% instead of 5.1%."

As the Official Opposition we are calling on this Trudeau Liberal government to stop its planned tripling of the carbon tax.

## MP SOROKA'S STATEMENT ON AFFORDABILITY

Submitted by MP Gerald Soroka

Gerald Soroka, Member of Parliament for Yellowhead, gave the following statement in the House.

"Mr. Speaker, our new Conservative leader will put people's pay-cheques, homes, retirement and country first. Canadians have lost hope in this government due to the affordability crisis and service levels. By choosing to retain and increase the carbon tax, this government has failed to secure a brighter future for Canadians, much less remedy the ongoing affordability crisis. This gross mismanagement has resulted in long lineups at airports and passport offices, delays in processing immigration and firearms' applications, and the list goes on.

The Liberals have managed to hike the cost of everything, while offering nothing to serve Canadians' needs. Limiting farmers' fertilizer use and imposing the carbon tax will mean less food production and higher costs for Canadians who are already struggling to afford groceries. Why is the government choosing to decrease the availability of food altogether?

# SUDOKU

*of the week*

**Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

**Like puzzles?** Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
