JOKE of the week

The wife and I took a long, leisurely drive out to the country and pulled over to fill up our car's gas tank and tires...

She was surprised to see that the station had a fee to fill the tires and asked me, "Why in the world do they charge for AIR?!"

I responded, "Inflation."

ST. ALBERT RCMP PROACTIVE PATROLS RECOVER A STOLEN VEHICLE AND FIREARMS

Submitted by St. Albert RCMP

On December 14, 2022 at approximately 12:40 a.m., St. Albert RCMP members were proactively patrolling and located a grey GMC Sierra truck parked on the side of the roadway in Ridgewood Terrace with an obstructed license plate. GMC Sierra trucks are com-

monly stolen thus members stopped to investigate. Police checks on the vehicle license plate and VIN showed the truck was stolen out of Tofield, Alta. on December 11, 2022.

When the stolen truck was seized by police, the following items were located inside:

- A loaded 12 gauge shotgun with a sawed off

barrel, stolen from Viking, Alta.

- A .22 caliber bolt action rifle, stolen from Viking, Alta.

- A loaded .22 caliber magazine

- Numerous boxes of 12 gauge shotgun rounds

- One box of .22 caliber rounds

- Numerous knives

The truck was towed to a

local tow yard and sometime between 2:00 a.m. and 5:50 a.m. an unknown individual(s) broke into the tow yard and the truck was stolen again. Later that morning the stolen truck was recovered in Edmonton by Edmonton Police Service.

St. Albert RCMP continue to investigate but have not identified who may be responsible for these thefts.

GARDNER'S DAY

Submitted by Sangudo Horticulture Club

Members of the Sangudo & District Horticultural Club have a great line up of guest speakers, tours, and activities for 2023. The 16th Annual Gardeners Day is scheduled on Saturday, January 28, 2023 at the Cherhill Community Hall. Our Gardeners Days are excellent motivators to get us out of the house on a winter day. The plans for this year should do just that!

Two guest speakers will share their knowledge of their specialty- The Modern Peony: Cultivating Beauty and Unlocking Landscape Utility plus The Amazing World of Succulents. Nick Maycher of Prairie Peonies will talk about good reasons to grow peonies, their basic growing requirements, suggested cultivars for building a bloom sequence, short types for rock gardens, and best landscapers- peonies that stand up and stand out. Via Zoom, Elaine Rude of Paint-

brush Garden Design will show us why she thinks every garden should include some of the many beautiful succulents. The hardy species thrive in challenging areas of our gardens with minimal care while tender species make great outdoor container arrangements and transition well to spending the winter indoors.

The \$35.00 registration includes a catered lunch, beverages and snacks, a mini-trade show, door prizes, and free garden seeds from A'Bunadh

Seeds for first 75 registered. The registration deadline is January 19.

Our monthly meetings are on the fourth Monday, from September to April, at the Golden Club in Sangudo. For more information about any of our events and to register for the Gardeners Day email sandgudohortclub@gmail.com or call Heather at 780-674-1575. We welcome new to experienced gardeners!

UPDATE & “HOLDING THE LINE”

Submitted by MLA Shane Getson

Firstly, I'd like to wish everyone a Happy New Year! I hope everyone had a chance to catch up with friends, neighbors, and family, truly being able to get some well-deserved downtime. I managed to get time at home to spend with my immediate family, and to just play “Hobby Farmer / Mechanic”, doing my utmost to make a dent in the “Honey Do List” but it turned out to be more of a scratching the surface in the end. It was overall a good break; I'm re-energized and re-focused on the tasks at hand leading up to the general election in the spring.

I'd like to share with you some of the items that my team and I will be taking on over the next few months.

Career Education Task

Force

We have a 16-person team that consists of industry, secondary, and post-secondary personnel of which I was asked to chair by the Minister of Education last summer. Our mission is to review the secondary education system and programs, make recommendations and provide an implementation plan to address the shortfalls that we have when it comes to the education being provided regarding careers. The plan needs to ensure that post-secondary / employers needs are being addressed and ensure that we have a skilled workforce going forward to meet the needs of current and future personnel demands.

Several engagement sessions took place with stakeholder groups, as well as the general public prior to Christ-

mas. On the 11th of January we had a chance to review those results, and review as a team the recommendations that were coming forward by the task force itself. Our next meeting will be used to ratify our recommendations, and I am extremely pleased with the progress to date. We will be bold on several items, and simply bolster or evolve areas that are working well with others, but they will all be able to be implemented and have a meaningful and measurable impact.

As a father of four, a former private industry business owner, and a MLA, I wish to extend my thanks to all the task force members and those that have provided feedback. Your contributions will truly make a difference in how education relevant to careers is delivered for years to come. The final report will be made

available mid-February.

Economic Corridors

I was very pleased to be named the Parliamentary Secretary for Economic Corridors and assigned to assist the Minister of Transportation & Economic Corridors in delivering on his mandate. I was able to lead a task force over a year ago, which reviewed the rail capacity in the province, logistics, and trade routes in the province, interprovincially, and to garner port access. The recommendations of that report are the foundation of the establishment of the departments focus on corridors, and establishing near, mid, and long term deliverables to help us bolster up existing, and lay the groundwork for new corridors.

Short term deliverables will be to define what an

The proposed amendment and/or application may be reviewed during regular business hours at the County Administration Office located at 56521 Range Road 65 or on the County website at LSAC.ca/Hearings.

LOCATION SKETCH

OK, so what all this fancy language means is that a landowner/developer has applied to the municipality to develop a campground and rezone SE 34-55-01 W5M from Agricultural '2' (AG2) District under Bylaw 22-2017 to Direct Control (DC) Land Use District and to adopt a formal plan known as the Hummocky RV Resort Area Structure Plan.

Before this can happen, a bylaw must be drafted, and a public hearing held first. The ad above is to let folks know about when and where the Public Hearing will take place.

economic corridor is, define which regional corridors, and their collector systems that connect us into deep seaports, or make the much-needed backbone for future expansion or infill. In addition, we will execute memorandums of understandings with regional, provincial, state, and First Nations partners along the corridor routes. We will then identify segments, or critical infrastructure elements that should be either refurbished or built.

Regulatory and compliance items will be reviewed to ensure that within the corridor context, that there will be a “Fast Track” element in which it is clearly understood, the requirements, and timelines needed for regulatory approvals mitigating much of the uncertainty or risks. This will allow not only for a bet-

ter planned growth further improving our economy but also addressing many of the logistics and supply chain challenges that are being experienced by our own area, and in the north particularly.

Formalizing economic corridors will remove many of the impediments that our multiple industries have experienced getting their products to market, as well as constraints that have impeded manufacturing or higher value add processing.

What Matters to You – Pod Cast

I’m taking the plunge into the world of podcasting, as a result of many lessons learned over the last few years. Many times, the “Corporate” media has been difficult to navigate, or to reach folks in our area in a meaningful way. I’ve received a great deal of positive feedback for the op eds in the

local papers, the virtual town halls, and as well as my guest appearances on pod casts hosted by others.

With that, it seemed to be the natural progression to take the bull by the horns as it were and be able to have our own voice, and discussions on what matters to you, in our province, and to advise of the goings on. I’ll also be having several round table discussions, and guests covering a variety of topics but will be starting to address the following themes. Freedoms, Business and Politics, Local events – Places to go, Aviation, Guns and Gear, as well as “Lunch with Lefty”. I plan on doing this show as myself personally, and not as the MLA, so that we can have some very fulsome discussions with the audience and as well as our guests.

Holding the Line

As many would know when I ran for my nomination, and during the general election the theme that I carried was “Let’s Take Our Province Back”. It was bold, and unapologetically targeted on the theme that resonated with a vast majority of folks in our area. We needed a course correction and fast. The theme that seems to be resonating with many now is to “Hold the Line”. We’ve made some fantastic headway when it comes to the economy, the budget, infrastructure, and weathering the “Covid Storm” better than any other province in the country. We have net migration into the province of the Strong and Free not seen since 1957. Alberta quite frankly is “The” place to be in Canada, if you want a fair shake, and a chance to get ahead if you want to take

the opportunities that present themselves. We are far more diverse when it comes to industries than we were a short three years ago, and we have some major project investments to back that up.

I believe that because of how Alberta and Saskatchewan have managed themselves, that to the current federal government we are "outliers" and in a number of cases "Holding unacceptable opinions". What further ex-

acerbates this issue is that the NDP party (federal and provincial, yes, they are one party) supports the liberal policy, propping them up, keeping them artificially in power with their hard left coalition. We are holding the line when it comes to property rights, firearms rights, environmental policy, energy policy, farming, and agriculture. We are not going out and picking fights, but we sure as heck are not going to shy away from extending our full authority

within our own province and protecting the rights of all Albertans. This is becoming a trend between ourselves and Saskatchewan, as well as many other provinces when it comes to our constitution, and provincial authorities.

Over the next several months, I'm sure that there will be challenges, and hurdles quite frankly thrown in our way to try and make us falter, but I'm confident in true Albertan fashion, with grit and determination we

will all pull together to "Hold the Line". We have a province to build, and an example to set within the country, where strength and freedom will remain a virtue.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
