WABAMUN & DISTRICT SENIOR'S

Submitted by Charlotte Winters

We have a beautiful facility and would like to see it used more often. Members recently held a brainstorming session. Some ideas brought forward were: to have a movie afternoon, a paint day, exercises, game days, something to cele-

brate our heritage, Mother's day, Father's day, Christmas, and Valentine Day luncheon. New programs and new ideas are welcome. Volunteers are the backbone of any organization, without them, nothing gets accomplished.

Our first activity will be Valentine's Day. February 14 we are hosting a pan-

cake luncheon for members and hopefully, NEW MEMBERS. The menu is pancakes, sausages, strawberries and whipped cream. Lunch will be served from 11:30 to 12:30, with a charge of \$5.00. Please come for lunch!

information on two key youth entrepreneurship programs:

Lemonade Day and the Young Entrepreneurs Training Initiative (YETI) which is being brought into the Yellowhead district for this summer.

Lemonade Day is a free, fun, experiential learning program that

teaches youth how to start, own and operate their own business – a lemonade stand. Participants learn how to create budgets, set profit-making goals, serve customers, repay investors, and give back to the community.

Launched in 2015, YETI is an annual locally-focused, high-speed business training initiative for senior high-school teens.

With start up cash, resources, and guidance from Community Futures staff and community partners, youth turn their business ideas into reality over the eight weeks of summer - and well into the future!

Kindergarten students from Crescent Valley introduced the Board to words and numbers they have learned in Cree, Michif,

and Sauteaux. Indigenous Languages and Cultures teacher Landis Roan, Principal Ryan Maghoun, Kindergarten teacher Ms. Natalie Okoli, and three proud moms also joined the delegation to celebrate the ILC program. Additional pictures from their presentation are available on the Division's website at www.gypsd.ca.

HOW TO AVOID WEDDING RECEPTION SEATING MISTAKES

Weddings are great opportunities for people to gather and celebrate the melding of two families into one. Weddings are a melting pot, and while the ultimate goal is for all guests invited to mingle and have a good time, pre-existing relationships may cause some wedding-day interactions to be strained. However, with careful planning and some best behavior on the parts of all involved, getting hitched can go off without a hitch.

It's possible for guests who may have tumultuous pasts to keep the peace, but

this also can be ensured through careful seating arrangements. This is just one factor couples need to consider when deciding where guests will sit and dine at receptions. It's important to avoid some common mistakes.

Mistake #1: Not having a seating plan. Let guests sit where they want and chaos may ensue. People may think they're entitled to certain seats, may hop into seats vacated by someone getting up to use the restroom or any number of other scenarios. Seating

arrangements also ensure everyone is accounted for across the room.

Mistake #2: Seating families separately. Unless there are rifts between certain family members, it's best to seat parents and children at the same tables.

Mistake #3: Trying to force new friendships. Avoid trying to figure out who will get along by creating a potpourri table. A cousin in a band will not necessarily want to sit next to your coworker who plays guitar simply because they have a shared love of music. A wedding is not the

time to try to create new friendships. If it's meant to be, they'll connect in a more organic way.

Mistake #4: The dreaded kids' table. Young children can probably get away with sitting at a dedicated kids' table, although it may mean their parents have to interrupt their experiences by checking on their kids throughout the night. A bigger faux pas is to sit teenagers or twentysomethings at the kids table even if they seem like youngsters to you.

How To Avoid Wedding Reception Seating Mistakes

Continued from Page 9

Set a strict cut-off age for a children's table.

Mistake #5: Being too strict in seating. It's one thing to direct couples or single-

tons to specific tables, quite another to assign specific seats. Do not dictate exactly where at the table a guest should sit. Some people arrive early, others late, and it is up to them to work out

how to arrange themselves at the table.

Mistake #6: Failing to get family feedback. Always check with your parents and future in-laws as resources about how to seat certain

guests. They'll likely know who will make the best table-mates, especially if couples are not familiar with everyone on the guest list.

Mistake #7: Not being aware of disabilities or needs. Be conscious of guests' needs. An elderly relative may not be comfortable in front of the DJ table. A person in a wheelchair may need easy access to and from the reception room. It's important to be mindful of these special needs.

A seating plan for wedding receptions is an important consideration so that every guest can feel comfortable.

ARTICLE FROM MLA SMITH

Submitted by MLA Mark Smith

As we move into 2023, Alberta's economy continues to show strength and resilience.

Our province created 42,000 full-time jobs in December, and 88,800 new jobs in 2022 (almost 25 per cent of all new jobs created in the country). Further, the jobs outlook is strong for 2023, with forecasters predicting more economic growth and diversification on the horizon.

International credit rating agencies are taking note of Alberta's excellent fiscal management. This past week, Moody's Investors Services upgraded Alberta's credit rating to AA2. This decision speaks volumes about our United Conservative government's management and decision-making as we focus on healthcare, education, the economy, and more.

Investors are also looking at Alberta, once again, as a top destination for their capital. 2021 and 2022

saw major investments from companies like Telus, Mphasis, Amazon, Walmart, Air Products, Dow, PIP International, de Havilland, Phyto Organix Foods, and more. Investment isn't slowing down in 2023, however, with Imperial Oil recently announcing that it is building a \$720 million renewable diesel facility – the largest facility of its kind in Canada – in Alberta's Industrial Heartland. This project will create more than 600 high-paying jobs for Albertans during the construction phase, and more once it is finished.

Opportunities are abounding for workers in manufacturing, technology, food processing, and other burgeoning industries. Even film is booming in Alberta, with several major projects on-the-go, including HBO's the Last of Us, one of the largest film or television projects in Canadian history. Episode one of the Last of Us has drawn over 18 million viewers already and the show, which cost more than \$10 million per epi-

sode to film, has officially been renewed for a second season. The show filmed in locations across Alberta – including Canmore, High River, Fort Macleod, Edmonton, Calgary, and Waterton Lakes National Park – and has been a boon for many local economies.

Our United Conservative government's economic record stands in stark contrast to the NDP's. We're creating hundreds of thousands of new jobs whereas they lost nearly 200,000 jobs over their time in government. We're cutting taxes and balancing the budget whereas they increased taxes on all Albertans and ran massive deficits. And we're attracting investment and overseeing credit rating increases whereas they pushed people and businesses away and oversaw consecutive credit ratings downgrades.

Another thing we are doing to defend to Alberta's economy is opposing Justin Trudeau's "just transition" plan, which would disrupt millions of jobs

across Canada. Instead, we are encouraging the liberal government to work with us on developing federal legislation that will signal to all Canadians and investors from around the world that our governments have worked cooperatively on designing incentives and initiatives to create jobs, reduce emissions, and accelerate investment opportunities.

You can see Alberta's economic recovery taking shape across our province, with people going back to work in a wide variety of fields, industries, and sectors. In every corner of the province and in all sectors of the economy, optimism is growing for the future – and our United Conservative government is working tirelessly to make sure Albertans are going back to work and participating in this renewed Alberta Advantage.

We aren't just cleaning up the NDP's mess. We are building a province that is stronger and more resilient than ever.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
