LIBERAL INCOMPETENCE IS HURTING SMALL BUSINESS OWNERS

Submitted by MP Gerald Soroka

Gerald Soroka, Member of Parliament for Yellowhead stood in the House today and asked the following question:

“Madam Speaker, after eight years of this Liberal Prime Minister, Vera, a car wash owner in my riding is struggling because of the carbon tax. She says that if she keeps raising

rates in her small rural town, people will stop coming and she will go out of business.

Will the Prime Minister take responsibility for crippling small business owners like Vera and remove the carbon tax? If he won't stop the tax, then get out of the way. Conservatives will keep the heat on and take the tax off.”

Response from TheHon. Julie Dabrusin (Parliamentary

Secretary to the Minister of Natural Resources and to the Minister of Environment and Climate Change, Lib.):

“Madam Speaker, If the Member opposite was talking to his constituents, he might have also been told that in January, they received either a direct deposit payment or a cheque as a climate action incentive and it has been

FORENSIC CRIME SLEUTHS AT GTHS

Submitted by GYPSD

This year at Grand Trunk High School, students have the opportunity to enroll in the Forensic Studies Elective Program. In the first semester, high school stu-

dents from grades ten to twelve are able to take Forensic Studies 25 for three credits. Students can then take Forensic Studies 35 in the second semester to earn three thirty-level credits towards their high school diploma. Junior high students will have the opportunity to experience the field of forensic science through a CTF course in the second semester.

In the Forensic Science

elective, students learned a variety of different skills and acquired a deep base of knowledge about evidence collection and analysis, as well as the ethical complexities that confront experts using forensics evidence to administer justice. Using hands-on activities,

Continued from Page 1

lab demonstrations, and experiential learning, students encountered the roles and responsibilities associated with forensics.

Students also explore career possibilities in the field of forensic science. As part of their career exploration, students were provided with a presentation from Ken Bruns, a retired Forensic Investigator and Detective from the Edmonton Police Service. He covered several different topics, including careers in forensics, the science used in investigations, and the types of equipment forensics investigators use. The presentation also included several demonstrations of actual techniques and materials used by forensic in-

vestigators. Students were able to see how fingerprint powder is used to lift prints off of various surfaces, and how to administer different chemical tests at crime scenes.

For the culminating activity in the Forensic Studies 25 course, students participated in investigating a mock crime scene using all of the skills they had developed throughout the semester to solve a fictional murder. Students analyzed fingerprints, footprints, blood spatter evidence, witness statements, DNA, toxicology, and practiced evidence collection.

JOKE of the week

The wife and I took a long, leisurely drive out to the country and pulled over to fill up our car's gas tank and tires... She was surprised to see that the station had a fee to fill the tires and asked me, "Why in the world do they charge for AIR?!"

I responded, "Inflation."

PARKLAND RCMP WARN OF RECENT AMAZON PHONE SCAMS

Submitted by Parkland RCMP
Parkland RCMP would like to notify the public of a recent surge in scams involving indi-

viduals claiming to work for Amazon.com. Parkland RCMP has received multiple files within the last week involving the following scenario:

A person claiming to be an employee of Amazon calls the victim. The "Amazon employee" states they are attempting to verify a new account in the

customer's name. Upon being advised that it is a fraudulent account, the "Amazon employee" will offer a refund. They instruct the victim to download an app in order to conduct the refund, and complete a form which includes the victim's bank account number. The money then appears to be "refunded" to the account in excess of the stated amount. The "Amazon employee" then instructs the recipient on how to return the money, either via bitcoin deposits or allowing remote access to their accounts through the previously downloaded app. The "refund" subsequently disappears, along with additional funds.

Police are reminding the public not to provide banking information over the phone. If uncertain about any banking activity, call your bank directly.

Bridal Guide

CHOOSING WEDDING COLOR PALETTES

Some brides may feel beholden to the color white on their wedding days, at least in regard to their gowns. Those who do often embrace the opportunity to showcase their personal styles and set the mood for their nuptials by embracing various colors throughout their ceremonies and receptions.

Color can be a critical component when establishing the ambiance for a wedding. Color can evoke certain moods and set the tone for the day. Some colors work better together than others, so while choosing a color scheme may seem like an easy undertaking, some couples may find it requires more careful consideration than they first imagined.

According to the bridal guide A Practical Wedding, wedding colors can give couples a starting-off

point for all of the other details of their weddings. This ensures the wedding ultimately has a cohesive look. Colors need not necessarily match, but borrowing on similar hues can make it easier to plan wedding party wardrobes, flowers, table linens, and much more.

Colors can come from anywhere, but many couples try to coordinate their color schemes with the season in which the wedding takes place. In fact, couples who are finding it difficult to decide on a palette can look to seasonal colors for inspiration. For example, pastels and blooming flowers can set the scene for spring weddings, while jewel tones and rich reds and greens may be fitting for winter ceremonies.

Some couples opt for more

loosely defined color palettes, such as neutral and natural colors. Country and garden weddings can borrow ideas from the landscape, with natural linens paired with wildflowers. Using whites, grays and beiges enables couples to add a pop of color without overwhelming the setting.

Brides magazine suggests that couples avoid choosing too many colors. A maximum of three with one metallic can ensure that things look cohesive without being over-the-top. Also, brides and grooms needn't feel pressured by the "hot" colors of the moment. As with clothing and hairstyles, trends change. It is better to select colors that will stand the test of time and look good for years to come.

Couples may have to incorporate

colors already at their wedding venues into their style. Fortunately many reception sites are outfitted in neutral tones to enable customization.

The wedding resource The Knot also says having a basic knowledge of the color wheel can help. Typically, colors that pair well together are those that are opposites on the color wheel. Also, colors that share proximity on the color wheel will have similar tones and play well together. Examples of opposite colors include purples and yellows, reds and greens, and oranges and blues.

Couples should not be afraid to take some chances with their color palettes, especially if they want to make a bold and modern statement.

You said yes to the dress...
but the fun doesn't stop there!

ALTERNATIVES TO ENGAGEMENT RINGS

Engagement rings are often sizable investments. Money magazine reports the average engagement ring costs around \$5,800. An engagement ring symbolizes the start of a lifelong commitment and may even set the tone for a couple's wedding day.

Jewelry styles are personal, and grooms-to-be should carefully research their significant others' preferences in terms of precious metals, colors and gemstones. Even though tradition holds that a diamond gemstone is classic for engagement rings, these precious stones are not the only options. In fact, before World War II, just 10 percent of proposals involved diamond engagement rings. That number jumped to 80 percent by 1990. However, many modern couples now lean toward other offerings not only for the uniqueness they provide, but also for the potential cost savings.

Those seeking something unique can embrace these engagement ring options.

•Amethyst: This vibrant, lavender-hued stone can be breathtaking when cut the correct way. Purple shades have long been associated with royalty, making an amethyst fitting for such an occasion as special as an engagement. Because amethysts, which are less expensive than diamonds, are a seven on the Mohs scale for gemstone hardness, they can be very durable.

•Knot rings: These rings do not have a center stone. Rather, they're designed to be a tied knot or infinity symbol. These rings can be particularly sentimental as they represent true, unbroken love.

•Opal: Gemstones, like flowers, have been assigned certain meanings. Tying the engagement ring to one of them can infuse more symbolism into the relationship. Opal, for example, represents love, passion, creativity, spontaneity, and inspiration. Those traits seem tailor-made for surprise proposals.

•Sapphire: While sapphire stones

often are blue, they can also be yellow, green, pink, and white. Sapphires are the third hardest mineral. A white sapphire can be the perfect diamond replacement.

•Garnet or ruby: Red is the definitive color of love. A Valentine's Day proposal can be made even more

special by presenting an engagement ring with a red gemstone.

•Moissanite: The jewelry source Brilliant Earth says moissanite is a gemstone first discovered in 1893 by Henri Moissan in a meteorite that fell to earth. It is remarkably similar to a diamond in appearance

and strength. Moissanite also has heightened brilliance, with a refractive index higher than that of a diamond.

Couples have many beautiful alternatives to diamonds that they can explore when shopping for engagement rings.

PARKLAND RCMP ARREST MALE FOLLOWING FIREARM COMPLAINT

Submitted by Parkland RCMP

On January 27th, 2023, at approximately 11:15 p.m., Parkland RCMP received a complaint regarding a male riding a bicycle and checking vehicle door handles in a Spruce Grove neighborhood. Police immediately attended the area and began patrols.

A short time later, Parkland RCMP received a second complaint regarding an individual that alleged-

ly pointed a firearm at the complainant before fleeing on a bicycle. Police contained the neighbourhood. With the assistance of RCMP Police Dog Services and Edmonton Police Service Air One (helicopter), the suspect was successfully arrested and a loaded .22 caliber rifle with sawed-off stock and barrel was recovered.

19-year-old Kaleb Derek Timm, a resident of Onoway, was charged with the following:

- Pointing a Firearm;
- Assault with a weapon;
- Unauthorized possession of firearm;
- Possession of a loaded firearm;
- Possession of a firearm with tampered serial number;
- Common Nuisance.

Kaleb Derek Timm was held for a Judicial Interim Release Hearing and was subsequently released on conditions by a Justice of

the Peace. He is set to appear next at Stony Plain Provincial Court on Feb. 15, 2023.

Parkland RCMP would like to emphasize that although these types of firearms offences are uncommon in Spruce Grove, this incident should act as a reminder of the importance of reporting crimes to police. Attempting to intervene by yourself could put you in harm's way.

MP SOROKA'S STATEMENT ON 8 YEARS OF LIBERAL INCOMPETENCE

Submitted by MP Gerald Soroka

Parliament for Yellowhead, gave the following statement in the House.

Gerald Soroka, Member of "Mr. Speaker every day, I

IT'S CANADA'S
NATIONAL FLAG DAY
FEBRUARY 15, 2023

Gerald Soroka, MP
Yellowhead

gerald.soroka@parl.gc.ca
geraldsorokamp.ca • 780-723-6068

hear from countless people in my riding voicing their frustrations as they try to survive under this Liberal-made affordability crisis.

After eight years under this Liberal government everything in Canada is broken.

After eight years, Canadians are out of money and can't afford to eat, heat, or house themselves.

And just when you think it couldn't get any worse or more expensive, the carbon tax is, again, increasing on April 1st.

It's no surprise Canadians are turning to their food

banks as this is their only means to feed their families.

After eight years, this government has plagued the country with travel woes, passport & immigration backlogs, an affordability crisis, offers MAID as a solution instead of assistance. It eased bail access for criminals, and eliminated mandatory minimum sentencing for offenders.

After eight years, it is time for this Liberal government to come to an end.

Conservatives will keep the heat on and take the tax off."

PARKLAND RCMP SEIZE DRUGS, WEAPONS, FRAUDULENT CARDS AND STOLEN ID

Submitted by Parkland RCMP

On Wednesday, Feb. 1, 2023, the Parkland RCMP Crime Reduction Unit (CRU) received information that a male wanted on numerous Criminal Code warrants was in the community of Spruce Grove. With the assistance of Parkland RCMP Drug Section, the Crime Reduction Unit was successfully able to locate and apprehend 22-year-old Keegan Patrick Dunn Power, of no fixed address.

Police obtained and executed a search warrant for the vehicle that Keegan Power was found operating. The following items were seized:

- 53 grams of Methamphetamine;
- 3.5 grams of Fentanyl;
- 43 individual banking, membership and student cards where names cannot be determined;
- 74 individual bank card,

credit cards, Alberta Health Care cards, drivers licenses and benefits cards;

- Approximately 50 sets of keys, including vehicle, home and mailbox keys of unknown origin;
- Personal banking records;
- Multiple books of blank personal cheque books as well as individual blank cheques and WCB cheques;
- A large quantity of business records with client information;
- Counterfeit American currency;
- A variety of ammunition;
- A prohibited electrical stun baton with handcuffs, masks and break and enter tools;
- Gate and alarm codes for several commercial businesses;
- Personal Canadian income tax returns;
- An electronic bank card / credit card reader;
- Blank Alberta Health Care cards and additional evi-

dence of credit card fraud.

In addition to his original warrants, Keegan Power is charged with the following offences as a result of the search warrant:

- Possession for the purposes of trafficking (Methamphetamine);
- Possession of property obtained by crime under \$5000;
- Drive while prohibited;
- Failing to comply with a Release Order condition x 4;
- Failing to comply with a Probation Order x 2.

Investigation is ongoing into the stolen and/or fraudulent personal items and expected to take some time before further charges can be laid. There are dozens of related theft investigations and police will be attempting to contact victims in attempt to return personal items. Police remind everyone to keep government issued documents (birth certificates and SIN

cards) stored in a safe place to mitigate the risk of identity theft.

Keegan Power has been remanded into custody. His next appearance in court is set for Feb. 15, 2023, at Stony Plain Provincial Court.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

ANSWER:
