TIPPLE PARK ACTIVITY

Submitted by Tipple Park

We are hosting a live watercolor demonstration done by local artist Diana Krah at Tipple Park Museum in Evansburg, AB! The

demo will be held on April 13th, 2023, from 1pm to 4pm. The event is free to attend and will be open to the public so there is no need to pre-register. We welcome all interested persons to

come and learn a bit about the methods Diana uses in her painting, as well as appreciate some of the wonderful creations from this local artist.

SCHOLARSHIP OPPORTUNITY FOR WOMEN STUDYING HEALTH & SAFETY

Submitted by MP Gerald Soroka

Gerald Soroka, Member of Parliament for Yellowhead wishes to advise that the Canadian Centre for Occupational Health and Safety (CCOHS) is accepting applications for the 2023 Chad Bradley Scholarship Award.

The \$3,000 scholarship is open to women pursu-

ing education in the field of occupational health and safety from an accredited college or university in Canada.

Candidates are required to submit an essay detailing the reasons why occupational health and safety is their chosen field of study, their motivation and inspiration, and how they will contribute to safe work in

the future.

The entry deadline for the Chad Bradley Scholarship Award is August 31, 2023, at 11:59 p.m. EDT. Full details can be found on: www.ccohs.ca/scholarships

More information on the Chad Bradley Scholarship Award

STONY PLAIN LANDS A SWEET DEAL

Submitted by Town of Stony Plain

The Town of Stony Plain has landed what could be called a sweet deal, thanks in part to a \$2.14-million grant from Alberta's Investment and Growth Fund.

The funding from Alberta's government will help British Columbia sweets company English Bay construct a 100,000-square-foot factory in the town, creating 70 new permanent jobs and

90 construction jobs for Albertans.

"The Investment and Growth Fund has been a great success for Alberta. For every \$1 million that the fund grants, over \$58 million is expected to be spent in the province. These investments create opportunities, build prosperity and provide jobs that support families, pay mortgages and buy groceries."

Rajan Sawhney, Minister of Trade, Immigration and Multiculturalism

Alberta's economy has momentum, and the province is focused on creating jobs and growing and diversifying the economy. The government's commitment to low taxes and reducing red tape has created one

of the friendliest environments for investment and job creators in North America.

English Bay's well-known chocolate bars, candy, cookies, baked goods and nutrition bars are sold across North America. Growing into Stony Plain will help the company benefit from the region's Port Alberta hub, providing the opportunity to ship products to hundreds of destinations worldwide.

"In my many years of growing diverse companies, I find people to be my greatest resource. Our team is exceptional, helping each other across businesses. We have established relationships with the Town of Stony Plain through the development of our other en-

tities and seek to continue growth in Stony Plain with the move of English Bay to this wonderful community."

Jack Seguin, owner and CEO, English Bay

"I'm honoured and elated to welcome English Bay Blending and Fine Chocolates to Stony Plain. English Bay's investment will create valuable jobs, diversify and boost the local economy, and contribute to growing the community. I thank the province of Alberta, as the Investment and Growth Fund was impactful in solidifying the investment in Stony Plain. I share our gratitude with our partners at Edmonton Global, as this is an enormous win for the community and the Edmonton Metropolitan

JOKE of the week

As a first grade teacher, I often hear from my students things going on in their family. Harry's mother was expecting, and naturally Harry was very excited about it. When one day Harry stopped talking about it I was concerned and questioned him why. "Well", Harry said, "my mother told me I could feel the baby moving in her stomach, I thing she ate it!"

Continued from Page 2

Region. Stony Plain is a growing and vibrant community and Mr. Seguin's decision to relocate English Bay's operations here and invest in our community will play an essential role in that growth."

William Choy, mayor, Town of Stony Plain

"We are extremely excited to welcome English Bay into the Edmonton Metropolitan Region. Value-added agriculture holds so much potential for our region. We're one of the few places in the world that produces more food than we consume, and our northern location means we're strategically connected to global markets. We look forward to seeing English Bay benefit from our strong ecosystem

and continue their growth here."

Malcolm Bruce, CEO, Edmonton Global

Alberta's government created the Investment and Growth Fund in 2021, which has helped bring eight companies to Alberta. These companies are expected to create more than 700 permanent full-time jobs and 2,000 part-time and temporary jobs, resulting in \$1 billion in capital spending in Alberta.

"English Bay coming to Stony Plain is extremely exciting news, and I'd like to welcome them to our lovely province. Our government is committed to rural communities like Stony Plain. And through the Investment and Growth Fund's Rural Stream, Alber-

ta's government is helping to expand and diversify our economies and create opportunities."

Searle Turton, MLA for Spruce Grove-Stony Plain

Budget 2023 secures Alberta's future by transforming the health-care system to meet people's needs, sup-

porting Albertans with the high cost of living, keeping our communities safe and driving the economy with more jobs, quality education and continued diversification.

OUR UNITED CONSERVATIVE GOVERNMENT IS COMMITTED TO MAKING LIFE MORE AFFORDABLE FOR ALBERTANS

Submitted by MLA Mark Smith

With inflation on the top of so many minds right now, I am pleased to report that our government's Affordability Action Plan is working. At 3.6 per cent, Alberta has the lowest inflation rate in the country, according to recently released numbers from Statistics Canada. The next closest province is Ontario, where inflation currently sits at 5.1 per cent, followed by Newfoundland and Labrador, where inflation currently sits at 5.4 per cent.

The measures we've introduced, including the fuel

tax cut, natural gas price protection, and electricity rebates are helping Alberta families pay their bills and invest in the future. Unfortunately, the Trudeau-NDP alliance still doesn't get it. On April 1, they hiked the carbon tax again on Albertan and Canadian families by another 30 per cent, and they have plans to more than triple the carbon tax between now and 2030.

According to the independent Parliamentary Budget Officer, the average family will pay \$1,500 more for the carbon tax than they will get back in rebates. At a time when governments like ours are working to make

life more affordable and when families are struggling to cope with inflation, the Trudeau-NDP Alliance is working to make life even harder and more expensive. This is disappointing, but not surprising.

The good news is we won't be deterred. We are going to continue working to make life more affordable for Albertans and grow and diversify the economy. We will also continue working to reduce emissions, as we understand the unique needs of our province and economy much better than Ottawa does.

At the core of our plan to reduce emissions is the Technology Innovation and Emissions Reduction (TIER) system, which is working to manage emissions by supporting investment in innovative technology that cuts emissions, keeps industry competitive, attracts investment, and creates jobs. The TIER system is funded by heavy emitters who are largest source of GHG emissions in our province – not by everyday Albertans. To date, more than \$1 billion from the TIER fund has

been used to support innovative technologies that diversify Alberta's economy and cut emissions, with another \$800 million being invested over the next three years, and an additional \$387 million over four years reserved in the TIER fund for investments in future carbon capture, utilization, and storage projects.

The majority of Albertans are opposed to the carbon tax. Our United Conservative team will continue to fight this carbon tax, which will only make it harder for ordinary families to pay their hockey fees, gas their trucks, take vacations, and invest in the futures.

We will also continue to work to make life more affordable for Albertans. I encourage you to read more about our Affordability Action Plan at Alberta.ca/Affordability. We are standing with Albertans to help them get through this inflation crisis that has been largely driven by out-of-control federal spending policies.

We won't leave any Albertan behind.

BOARD MEETING BRIEF

Submitted by GYPSD

Board Chair Karpluk acknowledged the theme for this year's International Women's Day is DigitALL which aligns with the priority theme for the 67th Session of the Commission on the Status of Women:

"Innovation and technological change, and education in the digital age for achieving gender equality and the empowerment of all women and girls". She also thanked the principals of Jasper, Edson, and the Lobstick zones who shared their collective focus on student learning at the recent community engagement events.

The Learning Services Team shared an overview of their work to support student learning: completing a preview of the resource library for kindergarten to grade 6 programs, and completing outcome writing for the new kindergarten to grade 3 curriculum.

Superintendent Lewis provided an update on the Youth Participatory Action Research Project (YPAR) she is supporting with the students in the Superintendent's Youth Council.

The Board received a presentation from each of the three Division candidates for the Edwin Parr Teacher Award: (pictured below with the Board of Trustees, seated in the front row to the right of Trustee Oshanyk) Sammie Weninger from Wildwood Elementary, Rayelle Groat from Summitview Middle School in Grande Cache, and Jaia Sthankiya from Grand Truck High School in Evansburg.

All three of the presentations were outstanding and received accolades from the Board for their obvious passion and dedication to student learning. After long

deliberation, the Board voted. Congratulations to Jaia Sthankiya who is this year's submission for the ASBA Zone 2/3 Edwin Parr Teacher Award for GYPSD!

Bus Driver Harold Hermanrude, a driver with GYPSD since 1994 was recognized as GYPSD's Bus Driver of the Year by the Board and Transportation Director Christine Van Neck. Mr. Hermanrude was applauded for his outstand-

ing service, commitment to safety, and his invaluable, daily contribution of skills, kindness, and teamwork.

Superintendent Lewis shared highlights from her report, which featured professional learning with the principal and assistant principal group, and multiple meetings with Alberta Education and other provincial leaders following the 2023-2024 budget announced for Education. Chief Deputy

Superintendent Constantine Kastrinos will be attending a Teacher Hiring Event in Lethbridge and hopes to inspire new graduates to join the GYPSD team.

The Board heard from Technology Director Lyle Lee and Ed Tech Supervisor Kandis Gilks who shared their work to support the implementation of the new digital report card and their planning for a

Board Meeting Brief

Continued from Page 5

Division-wide collaboration PD taking place in April.

Members of the Board attended the Rural Caucus of Alberta School Board's Spring Meeting and the annual Alberta Rural Education Symposium. In addition to hearing from Premier Smith, the Education Minister, and the Minister of Indigenous Relations, attendees heard from Dr. Michael Ungar on the keys to student resiliency, Dr. Emily Milne on establishing positive relationships with Indigenous Families, and Dr. Clark Banack who invited symposium attendees to consider what rural resilience looked like.

After receiving feedback from GYPSD's Edson area families on a proposed lease request for a cell tower installation on Board-owned

land in Edson, the Board voted down the twenty-year lease request. Over 81% of the surveyed stakeholders did not support the land-use proposal.

The Board Chair thanked the stakeholders who attended the engagement events in Jasper, Edson, and the Lobstick zone.

The Board approved the following motions:

3-Year Capital Plan and 10-Year Facilities Plan

Policy 4, Trustee Code of Conduct

Policy 7, Board Operations
Policy 7 Appendix B, Delegation Protocol

Policy 20, Health and Wellness

Letter of appreciation to the Minister of Education for increases in education funding and an advocacy request to slow the implementation of the new cur-

riculum to one grade per year Letter of advocacy to update the Election Ward description for Grande Cache and the surrounding areas

In support of the Board's new fourth priority, System Health and Wellness, Superintendent Lewis shared the initial conversations she's been having with Ed Can Wellness Consultants who will be leading work with the Division's principals at their April planning retreat.

Chief Deputy Superintendent Kastrinos and HR Manager Meghan Auriat will be visiting every school to ensure all staff groups, including those at Central Office, are aware of the support available to them and how to access those supports as needed.

Attendees at the recent engagement events were able

to hear the Board's focus on student mental health support through the Pyramid of Supports and the Division's comprehensive support for staff health and wellness. Additionally, stakeholders were asked to identify schoolbased activities and resources that would best support positive mental health and wellness for students, and what changes they suggest to address the impact of cell phone obsession, technology demands, and social media abuse taking place in schools. GYPSD was recently

informed they have received a Mental Health Wellness Grant to hire Wellness Navigators within each of the Board's five high schools.

Help us name Wabamun's South Side Boat Launch!

The South Side Boat Launch will open to the public this summer and Parkland County is looking for your input on what to name it!

How to submit:

- Complete the official submission form on our website or in-person at the Parkland County Centre
- Submissions must be received no later than April 23, 2023

Keep in mind the location, historical significance, and landscape as you brainstorm an original and unique name. Located on Sundance Road, the boat launch is on the south side of Wabamun Lake in Parkland County.

Submissions will be reviewed by County Administration to ensure they meet the criteria. A short list of names will be submitted to Council for final decision.

Learn more and submit your entry at www.parklandcounty.com/BoatLaunch

Proposed Genesee Carbon Capture Project

Join us at a Community Open House

Genesee Community Hall
51020 Range Rd 30, Leduc County
Wednesday, April 12, 2023 from 4 to 8 pm

Join us to learn more about our proposed project to add carbon capture technology to our Genesee Generating Station to reduce emissions when Genesee Units 1 and 2 are repowered to natural gas. The carbon capture equipment will be located on a brownfield site (previously developed land) on the south-side of Capital Power's existing Genesee Generating Station. Our project team will share information about the proposed technology, location and schedule. We'll also be there to answer questions and listen to feedback.

The proposed project is expected to capture up to approximately 3 million tonnes of CO₂ annually using Mitsubishi Heavy Industry's proven Advanced Kansai Mitsubishi Carbon Dioxide Recovery Process™.

Capital Power anticipates submitting regulatory applications for the proposed project in the first half of 2023. Separate applications will be filed to amend the existing approvals for Genesee 1 and 2 to Alberta Environment and Protected Areas (formerly Alberta Environment and Parks) and the Alberta Utilities Commission (AUC).

Pending regulatory approval and a final investment decision, construction is expected to begin in Q2 2024, with an anticipated in-service date in late Q4 2027.

Can't make it in-person? Contact us anytime.

HOW DOES SOLAR ELECTRICITY WORK?

Solar panels are seen more and more on roofs of residential homes and even some businesses. Due in part to more aggressive marketing by solar energy companies, as well as greater awareness by customers, solar energy has become increasingly popular in recent years.

The Solar Energy Industries Association reports that solar energy in the United States is booming. The association offers that, since the passage of The Solar Investment Tax Credit in 2006, solar has

experienced a compound annual growth rate of more than 60 percent.

While many might assume that environmental preservation is the driving force behind the growing popularity of solar energy, it's actually the financial benefits of solar energy that are leading the way. One Block Off the Grid polled nearly 200 solar homeowners to learn more about their motivations for going solar. Roughly 75 percent would not have gone solar if there was no economic benefit to doing

so. A number of people who have switched to solar say they are getting a high rate of return on the investment. The average electricity bill a person saw prior to solar energy hovered around \$177 a month. After the conversion, bills were now as low as \$55.

Those who are still pondering the decision to go solar may want to know more about how it works. Although the guidelines vary depending on location and the energy company issuing the bill, here are some of the basics.

Generating solar electricity

Solar electricity is generated through a process known as the photovoltaic effect. Sunlight shines on solar panels, which are mounted on the roof of the home or in another prominent location. Each panel typically has between 60 to 72 solar cells strung together. These photovoltaic cells use the irradiation in sunlight to stimulate the flow of electrons in the semiconductor material, which creates direct current, or DC,

How Does Solar Electricity Work?

Continued from Page 9

electricity. Systems that directly convert the DC to alternating current, or AC, the type of power voltage used in a house, do so by way of an inverter. The inverter feeds power to the circuit board.

Demand and excess

When the demand from a home or business is equal to the amount of solar power being generated, the system is working optimally. When solar power falls a bit short, grid power will make up the deficit. There's also the possibility that excess

electricity will be produced.

In a grid connect system, certain areas may operate with a 1:1 net metering policy, states Solar Reviews, which offers consumer reviews of solar products. This means that the utility company will credit a homeowner 1 to 1 for every kilowatt hour produced in excess because the excess energy goes back into the grid system. This is called "back-feeding" the grid. It's handy for powering homes at night with standard electricity at no additional cost. If the pro-

duction of kwhs exceeds what is purchased from the utility each year, some utility companies will continue to credit for the excess.

Solar electricity systems are changing the way people think about energy. With the financial motivation to do so, consumers who embrace solar energy are helping the environment while also saving money.

HOW TO ADDRESS CEILING STAINS

Many stains are instantly noticeable. But while a wine stain on a light-colored carpet or a gravy stain on a white shirt tend to jump out right away, other stains sneak past our radars every day. Ceiling stains are one type of stain that tend to go unnoticed for long periods of time. But ceiling stains can be unsightly, and some are even indicative of a larger problem, so it pays for homeowners to address stains on their ceilings as soon as possible.

- Start with the source. Low kitchen ceilings tend to fall victim to oil stains, which are an unfortunate side effect of cooking. But not all stains can be so easily traced to their origins. Some ceiling stains, such as those in bathrooms, may be a byproduct of mold, while others may be indicative of plumbing problems. Identifying the source of a stain is often the first step toward eradicating it.

- Fix the problem. Once you have identi-

fied what's causing the stain, fix the problem as soon as possible. Ceiling stains are often indicative of much larger problems, and the longer those problems are allowed to fester, the bigger they become. Some water stains on ceilings result from cracks or joints that have not been adequately sealed or caulked. Reseal or recaulk any cracks you suspect are leading to ceiling stains. If you have determined a leaky roof is behind your stained

ceilings, then have the roof inspected for damage, and prepare yourself to finance a new roof if the inspector determines that's the best solution.

- Cover nearby furniture. If you find ceiling stains above living areas, then be sure to cover the furniture below such ceilings with a tarp. Even if your stain solution will be made primarily of water, you don't want to risk compounding your ceiling stain problem

How To Address Ceiling Stains

Continued from Page 11

by staining your furniture as well.

- Remove the stains. Different stains require different treatments. A solution made of water and bleach may be effective at removing ceiling stains, but only apply such solutions on days when you can open the windows and air out your home. Larger stains may require the application of a stain blocker, which may need to be applied with a roller and brush. No matter the

stain, you need to leave time for the ceiling to dry before you can move on. Opening the windows can prevent your home from being overcome by the smell of bleach and also speed up the time it takes the ceiling to dry.

- Cover the ceiling with primer. Once the ceiling has completely dried, you can apply a stain-blocking primer to prevent future stains. Allow the primer ample time to dry.

- Apply a fresh coat of paint. After the primer

has dried completely, you can then repaint the ceiling. Some paints may blend in even if you only paint the affected areas of the ceiling, but others will require a complete repainting of the ceiling. The eye test will help you determine how much work you have to do in that regard.

STRENGTHENING RURAL HEALTH CARE

Submitted by Government of Alberta

Budget 2023 expands rural health supports so Albertans can have additional access to modern health facilities and the care they need where and when they need it.

Alberta's government is committed to expanding and modernizing rural hospitals and other health facilities across the province to protect quality health care, grow system capacity and support the best frontline health care workers in the world.

Having access to quality health care when and where Albertans need it includes expanding capacity to provide better access for Albertans living in rural and re-

mote areas of the province.

"We are making sure we have the necessary funding in place to build and strengthen health care in our rural communities and address barriers to care for those looking for support and treatment close to home and family. This work includes programs that focus on how to recruit, retain and even train more physicians, nurses and other professionals in areas outside of the cities."

Jason Copping, Minister of Health

Budget 2023 provides \$105 million over three years for the Rural Health Facilities Revitalization Program, including \$75 million in additional funding for capital projects in rural Alberta.

The program supports

strategic renovations and developments in health facilities throughout the province, with an emphasis on emergency departments, EMS stations, surgical and dialysis clinics, and other clinical services to improve access to health care in rural Alberta.

Expanding capacity in the health care system also means having health care workers to fill those spots. In response, Alberta's government launched the Health Workforce Strategy to attract and retain the health care workers needed now and create more training opportunities for local students and internationally trained medical graduates.

"All Albertans, no matter where they live, need

and deserve access to our health system. Physicians are a critical part of that system, especially in rural areas where we are trusted to support the needs of neighbours, friends and colleagues during all phases of life. It is a special calling to work in rural health care, but it can be tremendously rewarding for those who pursue it."

Dr. Cheyanne Vetter, facility medical director, Wainwright Health Centre

Rural Albertans are especially affected by the nationwide shortage of health care workers. To address this growing need, the Health Workforce Strategy provides \$113 million to add 100 residency training spaces for newly

NITRO NUT Mechanical

We now carry Manuli! They are a European manufacturer and they engineer it all in Europe. All of their product is produced in their own factory, no outsource. Adding this in we have been able to gain access to many of the European fittings that have become much more common in North America.

BSPP, Metric Din, Metic cone, JIS.

These fittings are clear across all brands John Deere, Case, New Holland, JCB, Fendt, Massey Ferguson. Many of the implements that have been sold in the last few years have also used these predominantly European fittings.

We offer these services

- CVIP Inspections
- Hydraulic hose crimping and thousands of adapters in stock.
- A/C Repair
- Espar and Webasto Repair, Installation.
- Engine Repair and Rebuilding.
- Power train/Driveline repair and service.
- Suspension and frame repair.
- Two Fully equipped service trucks for mobile needs.

We stock parts for all makes and models of TRUCKS, DRIVELINE & ENGINES.

We repair

- Truck Transport
- Heavy Equipment
- Automotive
- Industrial
- School Bus
- Agriculture

Strengthening Rural Health Care

Continued from Page 14

graduated doctors, particularly in rural areas and specialist fields. Creating these new training spaces will provide more opportunities for Alberta students to learn, train and practise in their home communities.

In addition to this investment, a further \$1 million will go toward exploring ways that regional post-secondary institutions, such as the University of Lethbridge and Northwestern Polytechnic in Grande Prairie, can help deliver medical education outside of Edmonton and Calgary.

"Whether it's emergency care or surgeries, primary care or continuing care, Albertans deserve equitable health care services in their communities. I am proud

of the investments government is making through Budget 2023, both with infrastructure funding and workforce planning strategies, to help support the future of rural health care in our province."

Garth Rowsell, MLA for Vermilion-Lloydminster-Wainwright

This year's budget also funds the new agreement with the Alberta Medical Association, further stabilizing the health system and focusing on Alberta's rural communities. Under the agreement, more than \$250 million over four years will go to addressing pressures, including recruitment and retention programs so more Albertans can access family doctors, and supporting physicians so their practices

remain viable.

Budget 2023 secures Alberta's future by transforming the health care system to meet people's needs, supporting Albertans with the high cost of living, keeping our communities safe and driving the economy with more jobs, quality education and continued diversification.

ST. ALBERT RCMP SEE AN INCREASE IN MAIL THEFT & THEFT FROM MOTOR VEHICLES

Submitted by St. Albert RCMP

St. Albert RCMP have seen a significant rise in mail thefts over the past month and are encouraging citizens to follow these crime prevention tips to help protect themselves from being victimized:

- Check mailbox daily, as soon as possible after delivery; this will help decrease the chances of the culprit(s) getting a hold of your mail and personal identification/information
- If you are going out of town, have someone you trust collect your mail daily or contact Canada Post to hold your mail until you return
- Report any mail

theft to police

- Report any damage or tampering with the mailbox to Canada Post
 - Do not send cash in the mail
 - Track your parcels being delivered – arrival dates/times
- St. Albert RCMP have also seen an increase in thefts from vehicles. Citizens should never leave any valuables inside their vehicle and always lock the doors. St. Albert RCMP urges the community to “Lock it” and follow #9PMRoutine to help prevent such thefts from occurring.
- #9PMRoutine is a crime prevention initiative in which residents are encouraged to go through this list every night at 9PM

to ensure your property is safe and secure. Setting a recurring alarm on your cell phone can help you remember to:

- Always lock your vehicle doors and utilize a steering wheel lock/alarm/vehicle tracking system
- Remove the garage door opener from your vehicle
- Remove valuables from your vehicle: keys, wallets, purses, shopping bags, coins, electronics, and sunglasses
- Close your overhead garage door
- Park your vehicle inside the garage whenever possible
- Park your vehicle in sight and in a well-lit area if no garage is avail-

able

- Lock the door between your garage and house and all other external doors
 - Ensure all windows are shut and locked (vehicle & residence)
 - Turn on an exterior light
- St. Albert RCMP are asking anyone with information regarding the recent mail thefts or thefts from vehicles to contact the St. Albert RCMP. Also, residents are asked to check home security video and door bells cameras to see if any suspicious people or vehicles have been in the neighbourhood recently at night.

AGRICULTURAL PRODUCERS ACROSS WESTERN CANADA CAN NOW RECEIVE FUNDS ON SPRING FARMCASH ADVANCES

Submitted by Government of Alberta

As of April 1, 2023, agricultural producers in British Columbia, Alberta, Saskatchewan and Manitoba can now receive their spring FarmCash advance of up to \$1 million with the first \$250,000* interest-free and take advantage of opportunities to grow their farms.

While spring applications opened in February, April 1, 2023, marked the official launch of the new federal Advance Payments Program year, allowing for the release of funds to producers who submitted their applications.

FarmCash, under the care of the Alberta Wheat Commission, continues to provide agricultural producers

with access to low-interest (TD prime minus 0.75 per cent) or no-interest cash flow in as few as three to five days, along with responsive and knowledgeable customer service producers can count on.

“The Alberta Wheat Commission (AWC) is proud to administer FarmCash as a service to agricultural producers that allows them to mitigate some of the challenges of modern-day farm financing,” says AWC chair and crop producer near Sexsmith, Alberta, Greg Sears.

“Recently, farmers have taken hits to their bottom line through higher interest rates and volatility in farm input prices. With FarmCash, producers can count on receiving the lowest

lending rate available and having access to cash flow for their farm quickly and easily”.

FarmCash has made it easier than ever to apply, with priority agreement processing on behalf of producers and a new time-saving autofill feature for returning applicants.

“It’s the new way for producers to finance their farm inputs and grow their operation,” says FarmCash chief operating officer Syeda Khurram. “Each growing season is a new opportunity to get your year off to the right start!”

With FarmCash, producers can use the funds to grow their farms by acting as a bridge gap, to purchase crop and livestock inputs, make equipment purchas-

es, or even to realize interest savings by paying off their lines of credit.

Coinciding with the launch of the spring program year, FarmCash recently unveiled a redesigned website to make it easier for producers to find information and resources on the program. Producers can visit the website and apply online for a spring advance without leaving their farm at FarmCashAdvance.com.

The Advance Payments Program is a federal loan program administered by the Alberta Wheat Commission. It offers Canadian farmers marketing flexibility through interest-free and low interest cash advances.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

The Easter Bunny is proud to announce the winners of the Easter Colouring Contest!

Our contest was a huge success! There were so many great entries that it was difficult to choose the winners, but after careful deliberation, we made our decision.

Each winner received a gift bag.
