SERENITY FAMILY SERVICE SOCIETY - YOUR NOT-FOR-PROFIT SOCIETY

JOKE of the week

A salesman was demonstrating unbreakable combs in a department store. He was impressing the people who stopped by to look by putting the comb through all sorts of torture and stress.

Finally to impress even the skeptics in the crowd, he bent the comb completely in half, and it snapped with a loud crack. Without missing a beat, he bravely held up both halves of the 'unbreakable' comb for everyone to see and said, "And this, ladies and gentlemen, is what an unbreakable comb looks like on the inside."

GOLFER'S GUIDE

ADJUSTING GOLF SWING GETS EASIER

Golfers rejoice! Those dreaded slices or hooks could become a thing of the distant past thanks to adjustable clubs and drivers. In addition to helping improve accuracy, adjustable clubs also lighten the load in your golf bag.

With a few twists of a wrench or even turning the shaft of the driver itself, golfers can adjust the face angle, loft and lie angle of the driver to hit the ball farther and straighter. Golfers can make small adjustments to create the right loft and improve distance without having to purchase a new club or visit a club fitter.

Many club manufacturers now offer adjustable drivers and other clubs. According to an informal poll on Golf.com, 34 percent of the 2,337 respondents owned an adjustable driver by the end of 2011. The ability to upgrade shafts has also become popular as golfers respond to what the pros are doing.

Adjustable golf clubs enable golfers to walk out onto the course with one driver and a few different shafts. With a couple of clicks from a wrench, a person can have

an entirely new driver. That cuts down on the equipment that needs to be carried and can fine tune a golfer's accuracy. These high-tech clubs are corresponding to changes being made to golf balls. Engineers have reduced the spin on golf balls to help the balls travel farther. To do so, golf experts advise that the ball needs to be hit higher into the air. Adjustable drivers can give players the edge they need to produce the right height and trajectory.

According to data from

golf club manufacturer TaylorMade, 70 percent of consumers who use the company's adjustable drivers adjust their club at least once to get the desired shot. Afterward, 10 to 15 percent of adjustable driver users report further adjustments as they become comfortable with the features.

Although golfers can now put adjustments into their own hands, it is still advisable to get a professional fitting regardless of which clubs are chosen. A certified

club fitter can help a person sort through the myriad options available and make recommendations based on various factors, including the golf ball used.

Those who are not fans of adjustable drivers say that the adjustment mechanisms add weight to the drivers, which can compromise efficiency. However, that isn't stopping larger numbers of golf fans from taking adjustable drivers for a trial run in an effort to improve their game.

ARTICLE FROM MLA BOITCHENKO

Submitted by MLA Boitchenko

Government has no greater duty than keeping people safe – especially children and youth.

When it comes to protecting Albertans from harm, ending human trafficking is a critical priority for our United Conservative government.

Human trafficking is a serious crime that exploits people of all ages and genders. It destroys lives and causes generational trauma. But fighting human trafficking can be challenging, as victims are often forced into silence and secrecy.

In order to effectively fight human trafficking in our province, our United Conservative government created the Human Trafficking Task Force. Chaired by Canadian Country Music Hall of Fame artist and internationally recognized humanitarian Paul Brandt, the Human Trafficking Task

Force consisted of passionate Albertans who are dedicated to fighting human trafficking and supporting survivors. The Human Trafficking Task Force presented our government with a series of recommendations, designed to prevent and combat human trafficking and support human trafficking survivors in our province. We have accepted and are moving to implement those recommendations.

The first recommendation we are moving on is to invest \$4 million over two years to establish the Alberta Office to Combat Trafficking in Persons. This office will facilitate the implementation of the remaining Human Trafficking Task Force recommendations. Organizations such as #NotInMyCity, Native Counselling Services of Alberta, and REACH Edmonton Council for Safer Communities will help set-up and operate this office as community partners. Their

support will be invaluable in connecting survivors and victims of human trafficking to important supports and services that will help them heal and recover from their experiences.

The Alberta Office to Combat Trafficking in Persons will also work to enhance public awareness and establish a more effective data collection process. This data will monitor the effectiveness of service delivery and help close the gaps in tracking cross-jurisdictional human trafficking incidents.

In response to this investment, Mr. Brandt recently said, “This milestone wouldn’t be possible without the countless organizations and individuals who shared their experiences and expertise in our journey with Alberta’s Human Trafficking Task Force. Combating human trafficking requires collective action, and we applaud the province for taking a col-

laborative approach with the community.”

Our United Conservative government remains committed to fighting human trafficking in every corner of the province. Human trafficking is a serious crime that violates the freedoms and rights of individuals, including children and youth, and attempts to destroy all personal identity and relationships. No community in Alberta is immune to the scourge of human trafficking, and we must all work together to prevent and combat this heinous crime.

As Premier Danielle Smith recently said, “We can’t afford to close our eyes to the problem of human trafficking. And we can’t afford to ignore those who are at risk of being trafficked or those who have been trafficked. I’m proud that our government is creating this Office to Combat Trafficking in Persons to keep fighting this scourge on society.”

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
