and Rescue volunteers converged on the families last known location in Lac Ste Anne County. They were believed to be using the family UTV side-by-side before travelling out of the area as a family.

Dec. 26, 2023, Parkland RCMP continued search and rescue efforts in an area near the Alexis Bridge, off Range Road 40A. Recovery of the Pelsma family was conducted by members of the Parkland RCMP, Lac Ste Anne County Fire Service and an Underwater Recovery Team.

"This is a sad outcome, the loss of any life is tragic" says Cpl. Patrick Lambert – RCMP Public Information Officer, "The loss of this entire family is truly devastat-

ing over the holidays. Our thoughts are with the community and their extended family."

The three deceased have been taken to the Edmonton Office of the Chief Medical Examiner where an autopsy will be conducted later this week.

The Alberta RCMP remind all Albertans and outdoor enthusiasts of the dangers of unpredictable thin ice and open water. Ice should be at least 15cm thick for a person to walk or skate on, 20cm for a group of people and 25cm for snowmobiling or using off highways vehicles on.

JOKE of the week

On New Year's Eve, Marilyn stood up in the local pub and said that it was time to get ready. At the stroke of midnight, she wanted every husband to be standing next to the one person who made his life worth living. Well, it was kind of embarrassing. As the clock struck, the bartender was almost crushed to death.

SANGUDO HORTICULTURAL CLUB ARTICLE

Submitted by Arlene Gordon

Members of the Sangudo Horticultural Club have a full year planned with an interesting variety of speakers and activities.

2024 begins with the 17th Annual Gardeners Day at the Mayerthorpe Diamond Centre on Saturday, January 20th. The day offers topics of interest for all gardeners, from beginner to experienced. Speaking to the theme Push Your Gardening Boundaries!, our 4 presenters will inspire Zone 3 gardeners to try new kinds

of plants and new ways of growing.

Carmen Lamoureux invites us on a virtual tour through the garden gate of her Calgary property, the Urban Permaculture Project, to see the strategies she has in place to enhance productivity and nurture robust ecosystem health. Cassidy Madsen and Jenn Brennan from Sunstar Nurseries will share their knowledge about trying something new with herbaceous perennials and woody ornamentals. Our Cherhill grower Denise O'Reilly from A'Bundadh

Seeds has tips for extending the season so we can grow a surprising range of edible plants. Clara Qualizza of Meadow and Thicket Farm Flowers has a quick update on the beautiful Wildscaping- New Perennials demonstration project at the George Pegg Botanic Garden. Throughout the day participants will enjoy a catered lunch and shopping at the mini trade show. Check out the registration page on Eventbrite for all the details.

For the rest of the year, meetings are held on the 4th Monday of the month.

As well as hosting guest speakers, we plan summer garden tours, have a plant sale, and work on a hamlet beautification project in Sangudo. This year we have a designated time at each meeting for members to ask/discuss questions. As Club members, we aim to support and encourage one another in the art of gardening. For information about our events, visit the Sangudo Horticultural Club Facebook page or email SangudoHortClub@gmail.com.

IS IT TIME FOR YOUR MAMMOGRAM?

Submitted by Alberta Health Services

Screen Test is coming to Barrhead January 20 to February 2, 2024

Screen Test is a free service provided by Alberta Health Services that offers screening mammograms. Our mobile screening units travel to 121 communities throughout Alberta to provide convenient access to breast cancer screening.

Having regular screening mammograms is the best way to find breast cancer early, before symptoms appear and when treatment may work better.

Who should have a screening mammogram?

If you're 45 to 74, you don't need a referral to have a mammogram. Make screening part of your regular health routine. Plan to have a mammogram every 2 years or as decided by you and your healthcare provider.

If you're 40 to 44 or over 75, discuss the risks and benefits of screening with your healthcare provider. You will need a referral if you're 40 to 44 and it's your first mammogram, or if you're over 75.

Call 1-800-667-0604 (toll-free) to book a mammogram with Screen Test.

Breast density scores are now included in your Screen Test result letter

Breast density is the amount of dense tissue compared to the amount of fat in a person's breasts. It can be harder to find cancer in dense breasts because this tissue appears white on a mammogram, the same colour as many kinds of breast cancer. It's common to have dense breast tissue.

Dense breasts are only one of many risk factors for breast cancer. Other factors, such as age and genetics, have a bigger impact on your overall risk. You can't tell how dense your breasts are by size, look or feel. The only way to find out is by having a mammogram.

Talk to your healthcare provider about your breast

density score and your personal risk of breast cancer. Learn more about breast density on screeningforlife.ca

For more information on Screen Test and breast cancer screening, visit screeningforlife.ca

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
