JOKE of the week

An elderly couple had been experiencing declining memories, so they decided to take a power memory class where one is taught to remember things by association. A few days after the class, the old man was outside talking with his neighbor about how much the class helped him. "What was the name of the instructor?" asked the neighbor. "Oh, ummmm, let's see," the old man pondered. "You know that flower, you know, the one that smells really nice but has those prickly thorns, what's that flower's name?" "A rose?" asked the neighbor. "Yes, that's it," replied the old man. He then turned toward his house and shouted, "Hey, Rose, what's the name of the instructor we took the memory class from?"

GOOD DRIVERS IN ALBERTA PAY MILLIONS MORE IN PREMIUMS TO SUBSIDIZE AUTO INSURANCE FOR WORST DRIVERS

Submitted by Insurance Bureau of Canada

IBC calls for changes to outdated regulatory system

Insurance Bureau of Canada (IBC) is calling for an immediate overhaul of Alberta's 20-year-old grid rating system after a report by Deloitte LLP found that some of Alberta's worst drivers are receiving an annual auto insurance subsidy of as much as \$10,000.

Alberta's grid rating system is unique in Canada in that it caps the premiums of high-risk drivers. This means no matter how many at-fault collisions or infractions they have, high-risk drivers will never pay more than a set maximum amount. Because these drivers pay less than required for auto insurance, drivers with safe driving habits pay a higher premium to make up the difference.

Established in 2004, the grid was originally intended to ensure that new drivers could access an affordable premium. However, the number of drivers protected by the grid cap has grown dramatically and today, the majority are not new drivers.

IBC commissioned Deloitte LLP to assess Alberta's auto insurance grid rating system to determine if it's aligned with its original intent. Here are some of the key findings of the Deloitte report:

- Safe drivers in Alberta pay \$180 million annually in auto insurance premiums – or \$65 per driver – to subsidize the premiums of high-risk drivers.
- 52% of drivers subsidized by the grid have more than 7 years of driving experience and are not the new drivers that the system was intend-

ed to support.

- On average, high-risk drivers in Alberta with a history of at-fault claims and infractions receive an annual subsidy of \$2,516.

- On average, Alberta's worst drivers with an extensive history of claims and infractions receive an annual subsidy of \$9,859.

Each and every day, the grid system penalizes safe drivers in Alberta by charging them higher premiums," said Aaron Sutherland, Vice-President, Pacific and Western, IBC. "Insurance encourages safe driving habits and is a vital public safety tool. There is no public-policy rationale for subsidizing the premiums of high-risk drivers with a history of at-fault claims and/or infractions. This is unfair and works against the very thing the government should seek to

encourage – safe driving."

It is clear that the grid no longer meets its original purpose and places a significant strain on the affordability of auto insurance for good drivers. Given the province's focus on improving affordability, IBC recommends the grid be removed – or substantially reformed – to strike a better balance for the majority of Albertans who drive safely.

"Good drivers deserve to see the financial benefit of safe driving habits and a clean driving record," said Sutherland. "The government is considering options to bring long-term stability to Alberta's auto insurance market and as part of that process, it must consider removing or replacing the grid system."

Your Guide to Planning Your Big Day

Filled with helpful planning advice, savvy how-to tips and the latest wedding trends, as well as a host of local wedding vendors here to help you plan the perfect day!

Bridal Guide

YOUR WEDDING TIMELINE GUIDE

Wedding planning involves many movable pieces that ultimately need to come together on the big day. Planning is typically a months-long process, and adhering to certain monthly bench-

marks can help couples stay the course.

Brides magazine offers that the perfect engagement period is 12 to 14 months, which affords ample time to get organized and work with

vendors. With that in mind, here's a 12-month timeline for couples getting ready to say "I do."

12 months out

At the start of the planning process, establish your bud-

get, hire a wedding planner (optional), choose the wedding party, pick a date, and start to assemble a cursory guest list. This also is a great time to begin touring venues to get a feel for potential ceremony and reception locales.

11 months out

Now is the time to get a firm handle on the theme and scope of the wedding. Start picking wedding colors and overall design. Also, interview and hire vendors, such as photographers, bands and videographers. These vendors tend to book up quickly as wedding season draws near, so it's never too early to book them.

10 months out

This is a good time to start shopping for a wedding gown because it might take some trial and error to find the perfect dress. You also can start shopping for wedding party attire at this time. Check with formalwear vendors to see how long it will take for the gowns to arrive in the shop for alterations. If you haven't already done so, be sure to book the wedding venue.

8 months out

Reception halls may have their own schedules, but you should think about setting your menu at this time, including deciding if you will host a seated dinner, a buffet or something else.

Your Wedding Timeline Guide

Continued from Page 8

Eight months out also is a good time to finalize the guest list and send save-the-date cards.

This also is a good time to visit stores to create registry gift lists.

6 months out

Meet with potential florists and other vendors, like transportation companies and hotels, to secure these arrangements. Your place of worship also may require certain classes or preparatory meetings, so be sure to inquire about these.

Meet with a makeup and hair stylist and book a trial. Choose attire for groomsmen and give them a deadline for fittings and orders. If you will not be getting married in a place of worship, hire an officiant at this time.

4 months out

Grooms traditionally arrange the honeymoon, so this is a fine time to get those travel plans in order. If you need passports, you should secure them as early as possible, and no later than four months prior to the wedding to ensure processing times. Book cake tast-

ings and order the cake if it is not part of the venue food and beverage package. If you haven't already done so, the bride should have an initial gown fitting, and wedding invitations should be ordered at this time.

2 months out

Secure your wedding license and buy wedding party gifts. Address and mail the wedding invitations. Undergo a second gown fitting and work with the seamstress for the final fitting date just before the wedding. Finalize any song selections with the DJ or band.

The final details will occur in the last weeks before the wedding. Buy all the small accessories and items, undergo final fittings and check in with all vendors for final payments and to ensure they are on schedule. Notify the reception hall of the final guest count.

Once the wedding day arrives, couples who have done their best to stay on schedule can relax and have a great time with family and friends.
