STANDING AGAINST BULLYING – PINK SHIRT DAY: MINISTERS TURTON AND NICOLAIDES

Submitted by Government of Alberta

Minister of Children and Family Services Searle Turton and Minister of Education Demetrios Nicolaides issued the following statements on Pink Shirt Day:

“I’m proud to join millions of Albertans and Canadians on Pink Shirt Day in taking a

stand against bullying in all its forms. Bullying is never acceptable and always preventable, especially when we work together as allies.

“Each and every one of us has the power to make a difference by creating safe and inclusive environments wherever we go. Sometimes it is the smallest actions that make the biggest difference.

By demonstrating kindness and modelling healthy relationships with our friends, family, co-workers and within our community, we can help prevent bullying and the devastating long-term health and social impacts it can have.

“If you are experiencing bullying, please know

COUNCIL HIGHLIGHTS

Submitted by Yellowhead County

2024 RCMP Priorities – Representatives from the Edson, Hinton, and Evansburg detachments presented Council with their detachment’s policing priorities for the upcoming year. Input from Council was also requested regarding the detachment’s priorities which included property related thefts and community relations.

Hinton Destination Management Organization – Council declined the offer from the Hinton and District Chamber of Commerce to have a Yellowhead County representative sit on the Hinton Destination Management Organization Society Board.

Empyrean Cemetery Ownership – Council directed Administration to pursue the ownership of the Empyrean Cemetery and enter into a manage-

ment agreement with the Shiloh Centre for Multicultural Roots, with the intent to transfer ownership to the Shiloh Centre for Multicultural Roots after two years of operations.

Community Futures Funding Request – Council approved a request of \$10,000 from Community Futures West Yellowhead for inclusion in the 2024 final budget.

Standing Against Bullying – Pink Shirt Day: Ministers Turton And Nicolaides

Continued from Page 1

that help is available by calling or texting the confidential 24-7 Bullying Helpline at 310-1818 or by using the online webchat.”

Searle Turton, Minister of Children and Family Services

“All students have the right to feel safe, welcome and included. On Pink Shirt Day, we follow in the footsteps of the courageous students who started it all back in 2007, standing up proudly to show that bullying has no place in school – or anywhere else.

“When we wear our pink shirts each year, we’re reminding ourselves and each other that doing the right thing is even more power-

ful when you do it together. Whether in the classroom or out in the community, making sure nobody is left out is a simple way to foster a culture of kindness.”

Demetrios Nicolaides, Minister of Education

JOKE of the week

Three guys had to cross a lake. The first one prayed to God for the strength, he swam across the lake, but almost died 5 times.

The second guy prayed to God for the strength and the tools, he made a boat, and rowed himself across the lake, he almost died 3 times.

The third guy prayed to God for the strength, the tools, and the brains. He turned into a girl, walked 4 yards, and crossed the bridge.

ALBERTA WOMAN STUNNED BY \$100K EXTRA WIN!

Submitted by Western Canada Lottery Corporation

“It just feels awesome!”

Paula Huckerby is one of several Albertans who have recently seen “winner” flash across their mobile screen while checking LOTTO 6/49 tickets. The Leduc local won a cool \$100,000 on the December 27 EXTRA draw.

Huckerby says she buys her tickets every Saturday as part of her regular routine and was not expecting to see her Lotto Spot app light up with the win.

“The first people I told were my parents,” she said while claiming her prize. “We were all stunned!”

The winner is still tossing ideas around about how to spend the new windfall.

“This will definitely help with savings for retirement!” she said. “It just feels awesome. It’s amazing, really.”

Huckerby purchased her LOTTO 6/49 and EXTRA ticket for \$10 from High End Husky located at 102 Southfork Drive in Leduc. She won her prize by matching the last six digits of the EXTRA draw on December 27–1741439.

The February 14 LOTTO 6/49 Gold Ball Jackpot is an estimated \$46 million! Tickets for the draw are available until 8:30 pm MT on the night of the draw at all Lotto Spot locations, Play Alberta, and the Lotto Spot app.

\$100,000 EXTRA WIN IN SPRUCE GROVE!

Submitted by Western Canada Lottery Corporation

“It felt like I drank 50 cups of coffee!”

Wendy Cooper got the boost she needed after checking her DAILY GRAND ticket and learning she had won \$100,000 on the January 29 EXTRA draw.

I felt like I drank about 50 cups of coffee!” she laughed. “I honestly just lost it.”

Cooper said she had one thing on her mind after discovering her win: a wheelchair accessible vehicle.

“When we found out we’d won, we walked straight to the car dealership and told them what we needed,” she said. “It turns out someone else had just completed all the accessibility modifications and could no longer purchase the vehicle.”

“We now have the vehicle we need to accommodate our family!”

The Spruce Grove winner said there were many happy tears over this win.

“It’s really all just worked out perfectly,” she said. “It’s a bit surreal as well!”

Cooper purchased her \$6 DAILY GRAND and EXTRA ticket from the Circle K at 9375 215 Street NW in Edmonton. She won her prize by matching the last six digits of the EXTRA number drawn on January 29 – 5 5 1 8 9 0 1.

Yellowhead County Agricultural Services Department

FARM SAFETY TIPS

- Never adjust machinery when it’s powered.
- Don’t wear loose fitting clothing around moving machinery parts.
- Obtain proper training for the machinery you are using – and know its limitations.
- Go over basic farm safety knowledge with your kids regularly.

Remember, Yellowhead County offers farming related workshops throughout the year.

Don’t forget about the Ag Recycling Project for plastics.
Go to www.yhcounty.ca for more information.

TAX CREDIT SPROUTS MORE LITTLE POTATO PRODUCTS

Submitted by Government of Alberta

The Little Potato Company has qualified for Alberta's Agri-Processing Investment Tax Credit program by building a new facility to produce ready-to-cook spuds.

Agriculture is Alberta's oldest industry and continues to be a strong contributor to economic growth and diversification. In 2023, Alberta produced more potatoes than any other prov-

ince in Canada. On an annual basis, potato production contributes more than \$2 billion to Alberta's economy.

To help further grow and diversify the agriculture industry, Alberta's government introduced the Agri-Processing Investment Tax Credit program in spring 2023 and it is already attracting large-scale investment in value-added agricultural manufacturing. The Little Potato Company is building a new \$39.5-million project in

Nisku to double its processing capacity and produce more packaged potatoes with seasonings that can be quickly roasted, microwaved or grilled.

"Our government developed Alberta's Agri-Processing Investment Tax Credit program with corporations like The Little Potato Company in mind. The program is providing the right conditions for food and ag processors to invest in our province, grow their business and create more jobs for Alber-

tans. Through incentives like this tax credit, we're building on Alberta's competitive advantages and continuing to drive economic growth and diversification."

RJ Sigurdson, Minister of Agriculture and Irrigation

To be considered for the tax credit program, corporations must invest at least \$10 million in a project to build or expand a value-added agri-processing facility in Alberta. The program offers a 12 per cent non-refundable tax credit for eligible capital expenditures. Through this program, Alberta's government has given conditional approval for a tax credit to The Little Potato Company estimated at about \$1.3 million.

"Agri-Processing is an important and growing industry, supporting our economy and creating jobs for hard-working Albertans. The agri-processing tax credit is an excellent tool to help businesses set up and expand here in Alberta."

Grant Hunter, parliamentary secretary for agrifood development

The Little Potato Company's new facility currently employs 224 Albertans. The 240,000-square-foot facility in Nisku will be able to process about 125 million pounds of potatoes, up from 65 million pounds at the former Edmonton location.

"We are honoured and grateful for this generous tax credit from the Government of Alberta. The investment elevates our efforts to grow, pack and bring more convenient, nourishing and flavourful Little Potatoes to busy families. We share our heartfelt thanks for this funding as we open our new Nisku packaging facility, which allows us to better serve our family farmers, communities, customers, consumers, climate, soil and water – and all of us."

Angela Santiago, co-founder and CEO, The Little Potato Company

FARM SAFETY & HEALTH WEEK

Keep an eye for safety

The type of safety eye protection you should wear depends on the hazards in your workplace. If you are working in an area that has particles, flying objects, or dust, you must at least wear safety glasses with side protection (side shields). If you are working with chemicals, you should wear goggles. If you are working near hazardous radiation (welding, lasers, or fibre optics) you must use special-purpose safety glasses, goggles, face shields, or helmets designed for that task.

Farm Safety & Health Week

Teach small children the rudiments of safety, such as which areas are off-limits. As they grow older, explain why certain things are dangerous. When they start helping with the work, make sure they are properly trained, keeping their limited strength and experience in mind. The safe way to do things is not always obvious to a child, so always explain and enforce the safety aspects of the job.

FARM SAFETY WEEK

Preventing Crushes

• From rolling machinery to falling front-end loaders there are countless crush hazards on a farm. While farm operators and workers can't prevent every hazard on a farm, they should prevent every hazard they can by taking simple preventative measures while working.

• Failure to block-up equipment safely can result in a fatal crushing injury. A jack may slip, a hose or overhead support may break, or the equipment may roll. Always take the precaution of placing support blocks under the equipment prior to working with raised machinery for any reason.

3 WAYS TO CONSERVE FUEL DURING YOUR DAILY COMMUTE

Commuting is a part of daily life for many working professionals. According to the U.S. Census Bureau's 2011 American Community Survey, the average American spends 25 minutes commuting to work each day. However, Citi's 2015 Thank You Premier Commuter Index says the average commute time in the United States is 45 minutes. The reasons for that disparity are unknown, though if one accepts the latter statistic as more accurate than the years-old Census Bureau data, it's fair to say Americans spend far more time getting to work than their neighbors to the north. But commutes in Canada also can be lengthy, as Canada's National Household Survey found that, in 2011,

commuters in Canada spent an average of roughly 25 minutes traveling to work each day.

While many people enjoy their daily commutes, feeling it's a time to prepare for the day ahead and, if using public transportation, to relax and let someone else do the work, it's fair to say the majority of commuters would like to spend less time getting to and from work. Many would also like to spend less money getting to and from their offices, and finding ways to conserve fuel is an effective way to do just that.

1. Maintain your vehicle.

Poorly maintained vehicles endure undue stress that can be prevented by adhering to routine maintenance sched-

ules. Peruse your vehicle's owner's manuals to determine the recommended intervals to change the oil and replace the air filter and spark plugs. These

simple maintenance tasks are easy and inexpensive, but they make it easier for engines to run smoothly

3 Ways To Conserve Fuel During Your Daily Commute

Continued from Page 13

and make efficient use of fuel.
2. Keep tires properly inflated. Properly inflated tires reduce

drag on the engine. Engine drag makes the vehicle work hard to move, and that wastes fuel. But the type of tires a vehicle has also can affect how efficiently it uses

fuel. According to the Transportation Research Board, tires that reduce rolling resistance by 10 percent can improve gas mileage by as much as 2 percent. While that figure might seem insignificant, that 2 percent savings can add up to a substantial amount of money for commuters who spend 50 minutes every day getting to and from work.

3. Drive a vehicle with stop/start technology.

Stop/start systems, in which engines shut off automatically when drivers brake and restart automatically when the driver lifts his or her foot off the brake pedal, can make more efficient use of fuel. Once exclusive to hybrid cars, stop/start technology is now more widely available

and can cut back on fuel consumption and vehicle emissions. That's especially attractive to eco-conscious commuters who live in big cities where stop-and-start traffic is unavoidable. What's more, many modern air conditioning compressors operate off electricity and not via a car's engine, meaning vehicles with stop/start technology will stay cool in the summer even when the engine shuts off.

Commuting to and from work may not seem like the most eco-friendly daily ritual. But there are ways to commute and conserve fuel at the same time.

WORLD DAY OF PRAYER 2024

Submitted by Lorraine Taylor

On Friday, March 8th at 2:00 PM all community members are invited to join friends and family for an inter-denominational World Day of Prayer service at Zion United Church. A committee of Christian women of Palestine have prepared the service this year. The

service includes a video led by women across Canada and a time of fellowship with a light lunch.

World Day of Prayer is an international, inter-church event that began around 100 years ago bridging social, geographic, and political barriers in 146 countries. Offerings received through the World Day of Prayer transform our prayers into

action in the form of project grants empowering women and children in Canada and throughout the world. In Canada, the World Day of Prayer (WDP) is coordinated by the Women's Inter-Church Council of Canada (WICC), one of the original founders of this prayer movement.

This year's service is hosted by members of St.

Joseph Catholic Church, Wabamun and Zion United Church, Alberta Beach. We are meeting at Zion United Church, south of Alberta Beach in Paradise Estates, lot #15 on Township Road 542 between Range Road 35 and 40. For information call Betty at 780-902-1850.

LAKE ISLE COMMUNITY HALL NEWS

Submitted by Lake Isle Community Hall

The Lake Isle Farmers Association (owner/operator of the Lake Isle Community Hall) held it's AGM February 22, 2024. The elected executive is as follows: President - Hal Clee; Vice-President - Mathew Shukalek; Treasurer - Jean Henderson; Secretary - Laura Hannah.

Event Planning has begun for this year:

Hypnotist Dinner & Show! Saturday, March 23. Featuring Hypnotist Shane

Lystang. \$40/person. Advanced ticket sales only. Dinner menu is lasagna, salads, buns/garlic toast, and dessert. This is sure to be a fun evening so get your tickets fast! Doors open 5:30pm, dinner 5:45pm with show to follow at 7 pm. Get your tickets at www.showpass.com/hypnotist OR by calling 780-725-2533.

Mothers' Day Breakfast Sunday, May 12. 9:30am - 11:30am. Entry is by cash donation.

Fathers' Day Breakfast Sunday, June 16. 9:30am

- 11:30am. Entry is by cash donation.

Pub Nights: We are a back with our summer time pub nights! Live band; pub food; no cover charge.

Dates: June 7; July 12; August 9; September 6. Stay tuned for more information

Our facility and ball diamond with picnic area is available for rentals. For more information please call or text to 780-725-2533 or by email to: lakeislefarmersassociation@gmail.com.

Our hall board has been

working hard the past 2 years fundraising in order to complete much needed renovations. We have accomplished much all ready, however, we still have more work to do. Thank you to everyone who has come to our past events. Your support has meant the world to us. We look forward to seeing you again in 2024!!

Lake Isle Community Hall - Where Friends meet!

LITERACY AND NUMERACY PRACTICES

Submitted by GYPSD

Assistant Superintendent Carra Aschenmeier recently shared an information report identifying the specific programs and practices engaged by teachers not only for literacy but numeracy as well at the January Public Board Meeting. In January, kindergarten learners were assessed with the Reading Readiness Screening Tool, and Grade 1 students were screened as per Alberta Education's mandatory literacy and numeracy screens. The student learning data collected through the screening process alerts teachers to students who will need additional support - including small group or

individual plans - to catch students early.

Student data is essential information for teachers, informing their instructional design and activities. The data gathered at the beginning of the school year, a semester, a unit, or a topic in a subject area provides teachers with a baseline from which to identify gaps in student understanding or necessary skills. The data they gather after instruction has occurred provides feedback on the effectiveness of instructional choices. The data and action cycle informs each school's improvement plan; annually, all the schools' data is aggregated and analyzed to inform the Division's Edu-

cation Plan.

The Board also heard from École Mountain View Elementary School Principal Kurt Scobie who explained his school's approach to literacy instruction, highlighting the scientific, re-

search-based practice teachers use to ensure students have the foundational skills they need to successfully read and comprehend the various texts they encounter across subject areas.

February 15, 2024

Showcasing Literacy and Numeracy Practices

Board Priority 1: Student Learning

OUR FOCUS

All teachers will focus on creating strong readers in their classes. We will start with a focus on Phonological Awareness, Fluency, Fluency, Vocabulary and Comprehension.

All teachers will focus on student thinking, reasoning and fact recall through discussion, debate, and deliberate teaching. This is the contribution of Number Talks.

Farm Safety Week

Entanglements

° The average farm is full of machinery and device that can grab, cut, smash and entangle fingers, hands, toes, and feet causing injury to the extremities and even death. The sad truth is that most of these injuries can be avoided.

°Some of the key entanglement prevention measures to implement when working with or near machinery are:

- Before operating any machine or equipment, ensure that all guards are in place and in good condition.
- Wear tight fitting clothing, such as overalls. Avoid wearing any items that could become entangled, such as long coats or scarves.

-Never step over a PTO shaft or conveyer belt while it is still running.

°Ensure that anyone working with augers, PTOs, and other extremely hazardous machinery receives appropriate safety instruction and adequate supervision.

°Keep young children out of the farm or ranch work site, especially areas where there is moving machinery

FARM SAFETY & HEALTH WEEK

Farm Safety Tips

When farming please follow these precautions in order to keep yourself, your family and your workers safe:

• Decrease your risk of being crushed by using lockout procedures before beginning any maintenance or repair work. Lockout means to physically neutralize all energies in a piece of equipment. Machines, devices or power transmission lines can be de-energized by applying blocks to all parts under tension or pressure, bleeding the hydraulic pressure from the lines or by releasing pressure from a coil or spring.

• Provide a safe, fenced play area for all children and supervise closely. The working area of the farm is not a playground any more than a construction site or other industrial area would be a play area. Review the safety rules on your farm with your family often. Fence off all manure, retaining ponds and dugouts, and lock buildings containing hazardous goods.

FARM SAFETY WEEK

is a great opportunity to stress the importance of keeping our Farm families safe and healthy. The agriculture industry is unique in that so many of its members live, work and play at the worksite. This often increases the level to which farmers and their families are exposed to dangerous chemicals, machinery and livestock. Because of this potentially hazardous environment, it's essential that each and every person on the farm is experienced and knowledgeable in the area of farm safety.

- Handle cattle with respect and awareness. They have the strength and speed to cause serious injury.
 - Never operate machinery when you are fatigued, stressed or highly medicated.
 - Always read and follow owner's manuals and safety decals on all equipment.
 - Outfit all farm buildings with smoke detectors and fire extinguishers.

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

ANSWER:

4	7	1	9	6	8	5	2	3
9	2	8	5	3	7	1	6	4
