MASSIVE EXPANSION OF PROVINCIAL TESTING FAILS THE GRADE

Submitted by Alberta Teachers' Association

Students need more supports not more tests, according to Alberta Teachers' Association (ATA) President Jason Schilling. On the first Friday of summer break, the Alberta government quietly released changes to provincial testing for the upcoming school year. In an email to school boards, government announced all schools will be required to administer provincially mandated numeracy and literacy tests to students in Grades 1 to 3 up to three times each school year. For the first time in Alberta, Kindergarten students will also now be subjected to standardized testing.

"When so many kids are falling through the cracks, we need to be giving them a safety net instead of measuring how fast they're falling. Teachers don't need a test to identify which students are struggling; they need smaller classes and more supports to get those kids additional help."

–Jason Schilling, ATA President

New provincial assessments are also being added in Grades 4 and 5,

DRAYTON VALLEY RCMP ARREST AND CHARGE MALE FOR FIREARMS OFFENCES

Submitted by Drayton Valley RCMP

On July 8, 2024, at 5 p.m., Drayton Valley RCMP received a report that a male suspect had brandished a firearm from his backpack and pointed it at the victim who was seated in his parked vehicle. The victim did not know the suspect but was able to provide police with a good description and direction of travel for the suspect who left on foot. Officers responded to the area and the suspect was located walking into the popular Rotary Park, where many children and families were gathered at the local splash park. The suspect was quickly taken into custody without incident. A search incidental to arrest located a loaded firearm and additional ammunition.

Joshua Spiker (27), a resident of Drayton Valley, was arrested and has been charged with 12 offences, some of which include:

•Careless use of a firearm (x2)

•Use of a firearm while attempting to commit an indictable offence

•Pointing a firearm

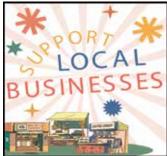

•Possession of a weapon for a dangerous purpose

•Possession of a controlled substance

After a Judicial Interim Release Hearing, Spiker was released from custody to appear in Alberta Court of Justice in Leduc on July 11, 2024.

Massive Expansion Of Provincial Testing Fails The Grade

Continued from Page 1

meaning the students who struggle the most could be subjected to as many as 32 standardized tests by the time they leave elementary school. The previous total was 10.

Schilling says the time and energy required by teachers to administer tests takes away from time teachers could actually be helping kids.

"While the government claims to have listened to experts, it's clear they did not hear what actual teachers had to say. Politicians and bureaucrats who have little knowledge and experience of the realities of Alberta's classrooms might think this is a great idea, but teachers, who will end up spending hours administering tests and preparing students for them in September, January and June, do not.

All this is being foisted on the same teachers who are still trying to implement new curriculum across multiple grades and subject areas."

–Jason Schilling, ATA President

A better approach, Schilling says, is to respect teachers' professional judgment and allow them to determine which students could benefit from an assessment and when, rather than repeatedly testing every student. More fundamentally, the province needs to stop the distractions and deal with the real issue in public education-the gross lack of appropriate funding.

"Alberta spends the least per student on public education in Canada. That's why we have large and growing class sizes, inadequate supports for students with special needs, shortages of aides and substitutes, and good teachers leaving the profession. Alberta is not going to test its way out of underfunding. It's time our provincial leaders got their priorities right."

–Jason Schilling, ATA President

The Alberta Teachers' Association, as the professional organization of teachers, promotes and advances public education, supports teachers' professional practice and serves as the advocate for its 46,000 members.

Somebody has stolen our tent!"

CONTRACTING

CITIZEN OF THE YEAR 2024

Submitted by Darwell & District Agricultural Society

Marilyn (McDonald) Alexander

I was born and raised in Darwell. My grandparents moved to Darwell in 1935, first farming then eventually opening up a local business which evolved to become Darwell Motors/ Dale's Garage. I was fortunate to grow up in the center of Darwell with my parents, siblings, and a large extended family. As a child," Fair Day" was the highlight of the summer. Living right in Darwell, we were able to watch with anticipation, the preparation for the big weekend!

I began school in Darwell, and graduated from Onoway Junior Senior High. After high school, I worked in Edmonton for a bit, then attended the U of A to obtain my teaching degree which led to my first job at Darwell School. I loved it so much I spent my entire teaching career there. My time in Darwell also allowed me the pleasure of teaching multiple generations of families.

I married Woody(Marwood) Alexander, gaining an instant family with two teenagers, Jennie and Jason. A year later, we welcomed our daughter Erin. Our family has grown to include our children's spouses and grandchildren who live in BC and Ontario. Our home is south of Stony Plain, and we enjoy family time with my siblings and their families at our shared property in Darwell.

When people ask me about Darwell, I tell them it is a tiny town with a huge community! Over the years I have been involved in the community; coaching, playing sports, volunteering, and being a member of various community organizations.. However, connecting students with the community has always been a focus for me. Highlights of this include Darwell School Safari, the school choir, community Christmas concerts, Junior Ag, and introducing students to our local seniors through various activities. I am recently retired, but stay connected to the school through substitute teaching and volunteering.

Being recognized as Citizen of the Year is quite the honour, and I appreciate the acknowledgment. The school and this community will continue to be a big part of my life!

Thank you Chantelle Lalonde President Darwell & District Agricultural Society

Page 4 Community VOICE July 17, 2024 ENHANCED EARLY YEARS ASSESSMENT FRAMEWORK

Submitted

Dear colleagues:

I am pleased to announce an enhanced early years assessment framework for Kindergarten to Grade 6. The enhanced early years assessment framework is based on stakeholder input and expert advice and will support our youngest learners to succeed.

As you know, students de-

velop critical foundational knowledge in literacy and numeracy in the early years of education. Assessing students in their early years provides essential information to teachers, schools, parents, and Alberta Education about potential student learning issues and needs and ensures that students requiring additional supports receive the help they need early in their education.

Beginning in the 2024/25 school year, the following changes to the mandatory literacy and numeracy screening requirement will take effect:

• Kindergarten: Starting in January 2025, screening will be required in literacy and numeracy for all students in January of each year.

· Grades 1 to 3: Mandato-

ry screening assessments will continue in Grades 1 to 3; however, the timing and frequency of these assessments will change. Starting in September 2024, the literacy and numeracy screening for students in Grades 1 to 3 will now be completed in September and January, with an additional assessment in June for those students

identified in January as requiring additional supports. The administration window to complete all screening assessments in these grades will be extended to three weeks.

• Grade 3: Student Learning Assessments will be permanently discontinued and will no longer be available for use.

• Grades 4 and 5: Starting in September 2026, screening assessments in literacy and numeracy for students in Grades 4 and 5 will be introduced. Further information about this requirement will be shared at a future date.

• Grade 6: Provincial achievement tests for students in Grade 6 will continue to occur in May and June.

This revised approach to early years assessment will ensure that the literacy and numeracy skills of all students in these grades are assessed, and that students receive the necessary intervention supports in the critical early years of their education.

Further details related to the early years assessment framework will be provided to school authorities in the near future.

Thank you for your ongoing commitment to supporting the success of Alberta students.

Best,

Demetrios Nicolaides ECA PhD

Minister of Education

extra hand earlier on in a student's education journey.

"Supporting our youngest learners as they develop essential literacy and numeracy skills is fundamental for their success in school and life. These skills are the foundation for living, working and succeeding in our modern world. These additional assessments will tell teachers, schools and parents about potential learning issues and better position them to support students."

Demetrios Nicolaides, Minister of Education

Under the new requirements, beginning in fall 2024, students in grades

VISA

1 to 3 will be assessed twice a year, and students receiving extra support will be assessed a third time in June to monitor their progress. In January 2025, an early literacy and numeracy screening will be introduced for kindergarten students, and in September 2026, there will be new screening requirements for students in grades 4 and 5.

"Research studies around the world have clearly shown that there should be early screening and frequent monitoring of children's reading and mathematics performance. Alberta's new framework for Early Learning Assessments is perfectly in line with this research. Early screening and monitoring of children's literacy and numeracy skills is a human right, and I am happy to see Alberta's government prioritize this."

Dr. George K. Georgiou, Professor, Faculty of Education, University of Alberta

Alberta's government is committed to ensuring

each and every Alberta student has a supportive learning environment where they thrive. The new early years assessment framework was developed with input from school authorities, academic experts and other education stakeholders. School authorities will be provided with a list of approved assessments for staff and will have the autonomy to select the screening and assessment tools needed to support their students. The assessments will enable school authorities to make local decisions to better support students' specialized learning needs.

120 St. Matthews Ave, Spruce Grove

FIVE TOP GOLF TIPS TO HELP BOOST YOUR GAME

When it comes to golf, it's the little things that can have the biggest impact on your game. Whether it's your first attempt, or 10th season, golf expert Bob Weeks has got you covered at the links this summer with these five tips:

Choose the right clubs: Regardless of your experience or skill level, choosing the right equipment can be the difference between duffing it and striking the ball straight down the fairway. It's important to work with a professional to get the clubs best-suited to your game and then, to have them custom fit. You should be fit for the length, loft, lie angle, shaft flex and even the grip size. If your clubs aren't custom fit, it will be like walking around in shoes that are the wrong size.

Get on the ball: Choose the right kind of golf ball for your game. While golf balls all look the same, it's what's inside that determines if it's right for you. Golf balls fall into two categories: distance or control. Distance balls are generally twopiece balls with a large core and a cover. They are harder and better suited for higher handicappers or beginners. Control balls, usually threeor four-piece balls, are softer and spin more meaning they will land on the green and stop. More skillful players should use these.

Consider the elements: Weather is always a factor in golf and dealing with it must always be considered. For instance, in cold temperatures, the ball will travel shorter distances, so take more club. The opposite is true for warmer temperatures. If you're playing into the wind, swing easy as that will keep the ball from spinning too much and rising up into the breezes. And downwind, make sure to judge the intensity of the breezes so you can choose the proper club. Your ball will roll further than normal on a downwind shot so take that into account.

Putting and chipping is priority: Lots of players like to boom their drives and will spend a lot of time on the range hitting their

drivers. But if you want to improve your scores, you should spend more time working on your putting and chipping. Since most average players miss a lot of greens, the best way to save strokes is by chipping it close and making more putts. Focus more on your short game than your drive and you will improve.

Play the 19th hole: Win or

lose, there's no better way to celebrate than hitting the 19th hole. Less is often more in golf and the same applies when considering what to eat and drink after a round. Molson Canadian 67 for example is specially brewed with 67 calories and an ABV of 3% per 341ml, offering a light, refreshing alternative for active players.

Page 8 CommunityVoice July 17, 2024 SETTING THE FOUNDATION FOR A REFOCUSED HEALTH SYSTEM

Submitted by Government of Alberta

Proposed legislation would support the refocusing of Alberta's health care system to ensure Albertans get the care they need when and where they need it.

On Nov. 8, 2023, Alberta's government announced plans for a refocused health care system to ensure patients are receiving the care they need, when and where they need it. To achieve this, Alberta's government will be creating four new organizations, one for each priority health services sector: acute care, primary care, continuing care and mental health and addiction.

If passed, the Health Statutes Amendment Act would enable the government to take the necessary next steps to refocus the province's health care system. The legislation would ensure Albertans have a system that works for them by prioritizing their need to find a primary care provider, receive urgent care without long waits, have access to the best continuing care options and obtain excellent mental health and addiction treatment.

"We are taking another step toward improving health care by updating legislation and enabling the governance and oversight required to refocus the health system. The critical improvements to transparency and accountability will help support the successful refocusing of the health care system to one that is responsive, effective and reflects the needs and priorities of Albertans today and for future generations."

Adriana LaGrange, Minister of Health

The Health Statutes Amendment Act will enable the transition from one regional health authority, Alberta Health Services, to an integrated system of four sector-based provincial health agencies including primary care, acute care, continuing care and mental health and addiction. The agencies will be responsible for delivering integrated health services, ensuring Albertans receive timely access to care, regardless of where they live.

The Health Statutes Amendment Act establishes roles for an oversight minister and sector minister. The Minister of Health will take on the role of oversight minister, responsible for setting the strategic direction of the overall health system. A sector minister will be responsible for a specific health services sector. For example, the sector minister for Recovery Alberta is the Minister of Mental Health and Addiction. On the recommendation of the oversight minister, additional health service sectors may be established and designate a minister responsible for that newly created sector.

Enhanced government oversight will help Alberta's government to better direct resources to the front lines where they are needed the most, improve patient care overall and support health care professionals.

"Mental health and addiction have been growing issues within our society and need to be prioritized within our health care system. Amid an addiction crisis, a refocused health system will allow for mental health and addiction services to get the attention, oversight and focus they need. Recovery Alberta would allow for improved mental health and addiction care across the province as an important part of an integrated health system."

Vellowhead County

at 1-800-665-6030 or 780-723-4800.

Page 10 Community VOICE July 17, 2024 Setting The Foundation For A Refocused Health System

Continued from Page 8

Dan Williams, Minister of Mental Health and Addiction

"Refocusing Alberta's healthcare system is a crucial step towards ensuring that we can deliver a framework that prioritizes accessibility, accountability, and patient-centered care. By streamlining operations, improving oversight and fostering collaboration, we are setting a strong foundation for a healthcare system that is better equipped to address the diverse needs of each of our communities."

Jason Nixon, Minister of Seniors, Community and Social Services

The legislation will enable the minister of health to transfer employees or classes of employees from AHS to the new sector-based organizations, once established. During the transition period, AHS will be enabled to continue operating as a regional health authority. Employee transfers will be seamless, maintaining existing bargaining relationships and collective agreements. This will ensure stability for the workforce, unions and government as the health system refocus is implemented. There will be no job losses for staff who transition into the new organizations.

Amendments to be made to existing legislation

The Health Statutes Amendment Act includes amendments to the Regional Health Authorities Act and the Health Information Act, which have not been updated since the 1990s.

As part of these amendments, the name of the Regional Health Authorities Act will change to the Provincial Health Agencies Act. The amended Provincial Health Agencies Act will remove outdated references to allow the transition from a single regional health authority to a unified, sector-specific provincial health system. This will clarify the scope and accountabilities of provincial health agencies and health service providers going forward.

The amendments will also place responsibility on the provincial health agencies for operational planning and oversight of clinical service delivery across the province. This will enable provincial health agencies to set priorities in the provision of health service delivery. The agencies will also be tasked with sharing information and collaborating closely to support seamless patient care as the transition to the refocused health care system takes place.

Alberta's government is committed to ensuring that patient information continues to remain safe and secure through this transition. Amendments to the Health Information Act will be introduced to support the new health system refocus and to support the establishment of the Canadian Centre of Recovery Excellence. These amendments will allow the Ministry of Health, the Ministry of Mental Health and Addiction, the four new provincial health agencies, the Health Quality Council of Alberta and Canadian Centre of Recovery Excellence to have the authority to use health information for health system purposes.

If passed, the Health Statutes Amendment Act will enable Recovery Alberta, the mental health and addiction provincial health agency, to begin operating in the summer of 2024. The primary care, acute care and continuing care provincial health agencies are expected to be established in the fall.
