Megan is a proud GYPSD alumna, having been born and raised in Edson and graduating from Parkland Composite High School. Her deep roots in the community and her previous experience

in administrative and support roles provide her with a unique perspective and a strong foundation for her new responsibilities.

A 2022 graduate of NorQuest College, Megan is currently further specializing her skills by pursuing a Human Resources Certificate through Mount Royal University.

In her new role, Megan will be instrumental in supporting the Division's core HR functions. Her focus will include:

- Enhancing Employee Relations: Serving as a key point of contact for staff.

- Streamlining Processes: Improving administrative efficiency to better serve the Division.

"We are excited to welcome Megan to the Division in this professional capacity," said Richelle Campbell, Director of Human Resources. GROWING ALBERTA'S FRESH FOOD FUTURE

Submitted by Government of Alberta

A new program funded by the Sustainable Canadian Agricultural Partnership will accelerate expansion in Alberta greenhouses and vertical farms.

Albertans want to keep their hard-earned money in the province and support producers by choosing locally grown, high-quality produce. The new three-year, \$10-million Growing Greenhouses program aims to stimulate industry growth and provide fresh fruit and vegetables to Albertans throughout the year.

"Everything our ministry does is about ensuring Albertans have secure access to safe, high-quality food.

We are continually working to build resilience and sustainability into our food production systems, increase opportunities for producers and processors, create jobs and feed Albertans. This new program will fund technologies that increase food production and improve energy efficiency."

RJ Sigurdson, Minister of Agriculture and Irrigation

"Through this investment, we're supporting Alberta's growers and ensuring Canadians have access to fresh, locally-grown fruits and vegetables on grocery shelves year-round. This program strengthens local communities, drives innovation, and creates new opportunities for agricultural entrepreneurs, reinforcing Canada's food

system and economy."

Heath MacDonald, federal Minister of Agriculture and Agri-Food

The Growing Greenhouses program supports the controlled environment agriculture sector with new construction or expansion improvements to existing greenhouses and vertical farms that produce food at a commercial scale. It also aligns with Alberta's Buy Local initiative launched this year as consumers will be able to purchase more local produce all year-round.

The program was created in alignment with the needs identified by the greenhouse sector, with a goal to reduce seasonal import reliance entering fall, which increases fruit and vegetable prices.

"This program is a game-changer for Alberta's greenhouse sector. By investing in expansion and innovation, we can grow more fresh produce year-round, reduce reliance on imports, and strengthen food security for Albertans. Our growers are ready to meet the demand with sustainable, locally grown vegetables and fruits, and this support ensures we can do so while creating new jobs and opportunities in communities across the province. We are very grateful to the Governments of Canada and Alberta for this investment in our sector and for working collaboratively with us."

Michiel Verheul, president, Alberta Greenhouse Growers Association

SUDOKU

of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box.

**ANSWER:
Last Weeks**

You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
