LAC STE ANNE FOOD BANK NEEDS YOU!

Submitted by Lac Ste Anne East Food Bank

Last year the Lac Ste Anne Food Bank provided almost 80 hampers to those in need in Onoway and the surrounding county area and we are expecting at least that many again this year. Most of us are aware of the rising cost of groceries and, as Charles Dicken's Ghost of Christmas Present pointed out, this is felt even keener by low-income families at this time of year. Our annual Food Bank Christmas Hamper drive is once again upon us. Starting on November 11 those needing a hamper can call 780-271-3131 or emailing clientcare@lsaefb.org. You can also pick up an order form at our office on Wednesday mornings from 9-10 am at 5031 48 Ave in Onoway. Phone requests will be available until December 11, 2026 and our pick-up date will be December 16, 2026 from 9-12 at the Onoway Baptist Church. How can you help those in need this Christmas?

IT'S ALBERTA TIME

Submitted by Government of Alberta

Albertans will no longer have to change their clocks as the province will be on permanent daylight time, known as Alberta Time, starting Nov. 1.

Starting this weekend, Albertans will no longer need to change their clocks twice a year as the province moves to permanent daylight time, known as Alberta Time (ABT). That means no more turning the clocks back in November or moving them forward in March. Albertans will now have one consistent time throughout the year.

"Albertans are tired of changing their clocks twice a year. Permanent daylight time means more evening sunshine to enjoy with family and friends, while keeping

Continued on Page 3

Remembering our veterans

On Remembrance Day, we honor the members of our armed forces who served and made the ultimate sacrifice. Their courage and dedication will always be remembered.

Lest we forget.

Lac Ste Anne Food Bank Needs You!

Continued from Page 1

We provide many ways for you to get involved:

•Sponsor a family. Would your family, church, or organization like to sponsor a family by providing a hamper filled with food and gifts? Contact us by email or telephone.

•Donate food items. 80+ hampers require a lot of canned and dry goods. Consider providing a case of canned vegetables or stuffing. Food can be dropped in our bins at ATB and Bigway Foods For more information, email mhartwig@lsaefb.org.

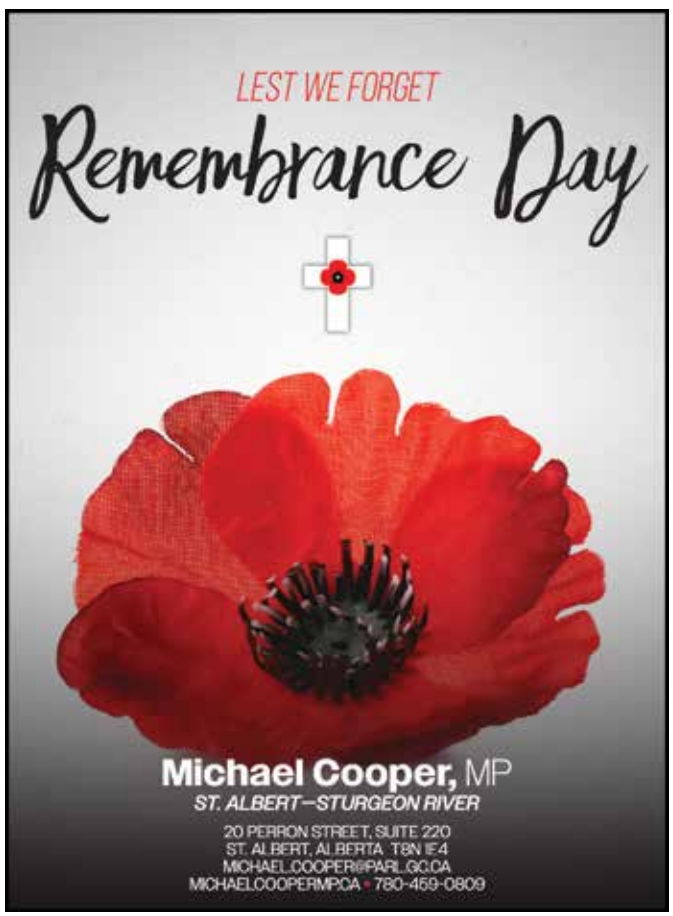

•Donate. Last year the Food Bank spent over $10,000 on our hampers and so we can expect an even higher bill this year. Your donations help provide a Christmas hamper for families in need. A $125 donation will provide for one family in need. You can mail a cheque to Box 300 Onoway AB, T0E 1V0, or use Interac to treasurer@lsaefb.org, please provide your name and mailing address in the message so we can issue you a tax deductible receipt.

If you would like any more information please contact me at chair@lsaefb.org.

JOKE of the week

Two guys were riding in a car, arguing about how to say the name of the city that they were in. One said "Louieville" and the other "Louiseville." They went on arguing and arguing, until they came upon a fast-food restaurant. The one guy goes inside and says to the waitress, "Tell me the name of the place where I am right now really, really, really slowly." The waitress goes,"Bur-ger-King."

It's Alberta Time

Continued from Page 1

us aligned with our western neighbours and making everyday life a little simpler."

Dale Nally, Minister of Service Alberta and Red Tape Reduction

Permanent daylight time also avoids extremely early summer sunrises, which could occur as early as 4 a.m. in some Alberta communities under permanent standard time.

Technology providers have been very aware of the transition to Alberta Time and Alberta's government has worked very closely with them for months. While most smartphones, computers, tablets and other connected devices are expected to update automatically, provided they have current software and automatic time-zone settings enabled, there may be some systems that do not update seamlessly. The province will continue to encourage technology providers to provide updates.

Albertans are encouraged to ensure their devices have the latest software updates installed and automatic time-zone settings enabled before Nov. 1. Some older or unsupported devices may need to be updated or adjusted manually.

RESTORING PROPERTY RIGHTS FOR ALBERTA FARMERS

Submitted by Government of Alberta

Alberta is restoring private property rights for farmers by removing unnecessary regulatory barriers that restrict how they manage water on their own cropland.

Restoring Alberta farmers' ability to manage water on their land, like the one pictured here.

This fall, Alberta's government will remove Water Act approval requirements for routine agricultural activities involving ephemeral water bodies and temporary and seasonal wetlands on private cropland.

"Farmers should not have to spend thousands of dollars and wait on government approval to carry out routine work on their own land. We are restoring private property rights and getting government out of the way where it doesn't need to be. These common-sense changes will save farmers time and money and give them greater control over how they manage their own property."

Grant Hunter, Minister of Environment and Protected Areas

The changes respond directly to concerns raised by Alberta farmers and agricultural organizations about unnecessary regulatory burden.

Under the current system, routine farming activities can trigger regulatory requirements if they affect a temporary or seasonal wetland. In some cases, a farmer may have to hire a qualified wetland professional, complete an assessment, wait for government review and pay wetland replacement costs before proceeding.

"Farmers have faced unnecessary administrative burden for routine low-risk activities on their own land for too long. These common-sense changes will give producers more flexibility to manage water and improve field conditions while providing practical tools to improve productivity and manage water on their operations."

Tara Sawyer, Minister of Agriculture and Irrigation

The changes will make it easier for farmers to cultivate, seed, spray, ditch, drain and infill on their own cropland without going through an unnecessary approval process.

"This change allows early treatment of excess temporary water on the landscape which will help pulse farmers reduce the risks associated with waterlogged soils. Pulse crops such as peas and lentils are highly vulnerable to excess moisture. It will give pulse farmers more flexibility to make effective water management decisions and provide the best opportunity for healthy, productive crops while still supporting core wetland habitat."

Will Muller, chair, Alberta Pulse Growers

Under the new approach, those approval and replacement requirements will be removed for specified farming activities on private cropland. Water associated with these exemptions will continue to be managed on the farmer's property, helping ensure neighbouring landowners and downstream infrastructure are protected.

"Temporary standing water causes production inefficiencies and by managing these short-lived wet areas and reducing their impacts earlier in the season, it allows farmers to have greater efficiency in the field."

Sarah Weigum, chair, Alberta-British Columbia Seed Growers Association

Instead of requiring a lengthy Water Act approval, Alberta will develop a clear code of practice for tile drainage on private cropland.

Alberta's government is also reducing red tape for farmers who use tile drainage to manage excess subsurface water and improve growing conditions.

"Farmers care about wetlands, the environment and the wildlife that lives on the landscape. Water, in wet years like this year, can have a detrimental and long-term impact through flooding and erosion. These management changes will allow farmers to protect our soils while continuing to provide habitat for birds, mammals and other species."

Andre Harpe, chair, Alberta Canola

The code will establish straightforward, enforceable standards while allowing farmers to proceed through notification rather than a full regulatory approval. Where water could affect downstream landowners, their consent will be required.

"Respect for property rights means trusting landowners to responsibly manage their land, and Alberta farmers have demonstrated that responsibility for generations. These changes recognize that routine farming decisions are best made by the people who know the land best."

Peter J. Dobbie, KC, farmers' and property rights advocate of Alberta

Together, these reforms mean fewer unnecessary approvals, lower costs and less time waiting on government.

Alberta will continue removing regulatory barriers that do not provide a meaningful benefit while maintaining appropriate protections for neighbouring landowners, infrastructure and higher-value wetlands.

BUILDING A HEALTHIER ALBERTA

Submitted by Government of Alberta

Alberta's government is investing $14 million to support sport and recreation infrastructure projects throughout the province.

Through the Active Communities Initiative, Alberta's government is supporting 20 sport and recreation infrastructure projects across the province. From St. Paul and Innisfail to Taber and Chestermere, these investments will help Albertans stay active, connected and healthy, while supporting local economic growth and community development.

Alberta's growing communities need new and revitalized facilities to support kids sports and active lifestyles. The expansion and creation of these facilities will strengthen local economies as they stimulate more than $46 million in estimated economic activity and create both short-term and long-term employment opportunities across the province.

"I am proud to support active and healthy lifestyles for Albertan families through the Active Communities Initiative. These investments will enhance recreation opportunities and create lasting benefits for athletes of all ages across the province."

Andrew Boitchenko, Minister of Tourism and Sport

The Active Communities Initiative is Alberta's first grant program dedicated exclusively to sport and recreation infrastructure. The funding is open to eligible community groups, non-profit organizations and societies, including First Nations and Metis Settlements, to build or enhance active spaces that support sport and recreational opportunities for their communities.

"We're incredibly grateful for this grant that will breathe life into a project that has been close to our hearts for several years. Visitors of all ages will benefit from this fun and energizing outdoor space. We're so proud to welcome all Calgarians to our much-loved community of Meadowlark Park."

Amanda Lovig Hagg, director of community engagement, Meadowlark Park Community Association

One of the 20 projects receiving funding is the Meadowlark Park Green Space Revitalization project, which will include upgrades to a pump track, bike skills park, outdoor workout circuit and connecting pathways, creating a free and accessible recreation hub for residents of all ages and abilities. The Chestermere Boxing Club also received funding for a new multi-use boxing and fitness facility. This project will expand access to year-round sport and recreation programming for all ages while supporting participation in boxing, fitness and community sport.

"This facility will bring together local organizations under one roof, creating a space for collaboration, community programs and opportunities for athletes. We are grateful for the Alberta government's support in helping us turn this vision into a reality."

Alex Halat, co-chair, Chestermere Boxing Club

Applications for the 2027 Active Communities Initiative will open in the spring of 2027.

NEW WAY FOR ALBERTANS TO RECEIVE CANCER SCREENING NOTIFICATIONS

Submitted by PCA

Primary Care Alberta's (PCA) Screening Programs is updating its communication methods to better serve Albertans.

Cancer screening notifications are moving towards becoming paperless. Starting in the fall of 2026, mailed invitation and reminder notifications for cancer screening will be phased out when possible and patients will get notifications and information through MyHealthAlberta's MyChart online platform.

The Alberta Cervical Cancer Screening Program implemented this change first on September 15, 2026. The Alberta Colorectal Cancer Screening Program and Alberta Breast Cancer Screening Program will follow in 2027.

"Albertans increasingly expect to access services and information digitally. Moving cancer screening notifications to MyChart is a practical step that improves access to personal health information, supports participation in life-saving screening programs, and ensures we are delivering services in a more efficient and sustainable way."

Justin Wright, Minister of Primary and Preventative Health Services

Patients not enrolled in MyChart will continue to receive printed letters. Normal screening results will be available via MyChart or communicated through the patient's appropriate care provider. Abnormal test results will be mailed, available via MyChart or communicated through the patient's appropriate care provider.

This shift ensures Albertans have improved access to their health information, when and where they want it. Albertans who are able and not already signed up, are encouraged to set up a MyChart account by visiting myhealth.alberta.ca/help/KB/setting-up-my-health-records.

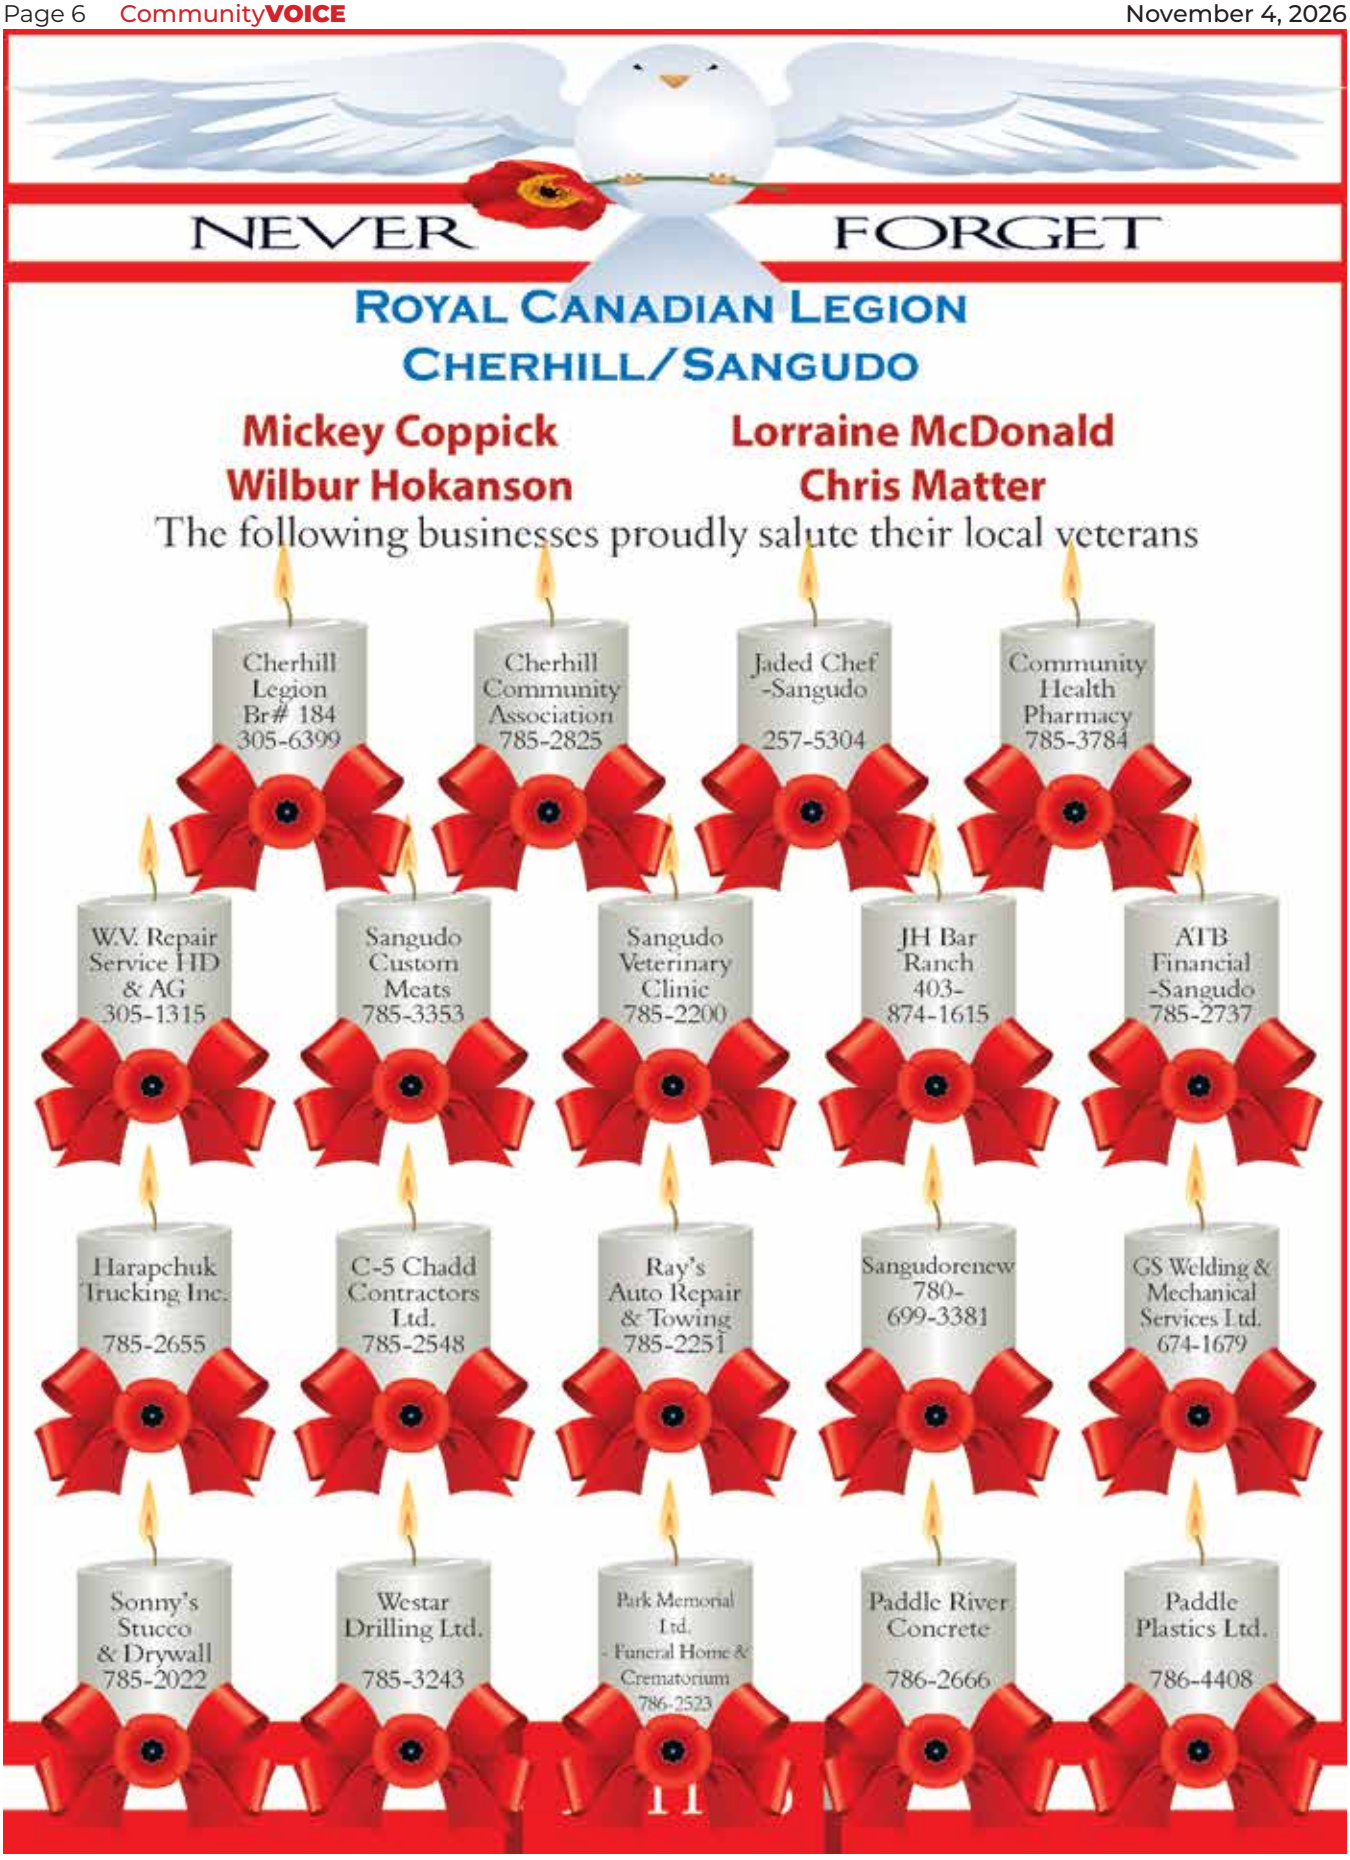

If you still receive paper letters and are concerned your mailing address is incorrect, call Primary and Preventative Health Services at 310-0000 (toll free) then dial 780-427-1432. If you'd prefer to make these changes by mail or in person, please visit Alberta Health Care Insurance Plan to find out how: alberta.ca/ahcip.

For additional information about screening, talk to your primary care provider or visit screeningforlife.ca.

Care is a lifelong commitment for Primary Care Alberta. We plan, fund and support primary healthcare across the province, improving access to care providers and offering front-line services through Health Link 811 and public health teams. Throughout the health journey, we are by your side – managing, preventing and reducing illness. Along with our partners, we nurture the connections our communities need to thrive and strengthen the health of all Albertans.

TAX PREPAYMENT PLAN OFFERS CONVENIENT MONTHLY PAYMENTS

LSAC.ca/tpp

Property taxes are one of the largest annual expenses many property owners face. The County's Tax Prepayment Plan (TPP) offers a simple and convenient way to spread property tax payments over the year through manageable monthly instalments, helping make budgeting easier and eliminating the need for a single lump-sum payment.

Enrolling in the Tax Prepayment Plan means your monthly payments are automatically adjusted to reflect any changes in your annual tax levy. Once property tax notices are issued, the updated monthly payment amount will be identified on your notice, ensuring your payments stay aligned with your current taxes.

The Tax Prepayment Plan provides several advantages for property owners, including:

- Convenient monthly payments instead of one annual payment
- No waiting in line to make tax payments
- No missed payment deadlines
- No concerns about payments being delayed or lost in the mail
- No tax penalties, provided monthly payments remain current
- Easier household budgeting throughout the year

Property owners can enrol in the Tax Prepayment Plan at any time. To get started, simply complete the pre-authorized monthly instalment tax payment agreement and submit it by email to the Taxation department at taxes@LSAC.ca or drop it off at the County Administration Office.

Enrol today and enjoy the convenience of spreading your property tax payments throughout the year.

COUNTY AND NEIGHBOURING MUNICIPALITIES AGREE THAT AN INTERMUNICIPAL COLLABORATION FRAMEWORK IS NOT REQUIRED

LSAC.ca/news

County Council has approved resolutions with three neighbouring municipalities confirming that the development of Intermunicipal Collaboration Frameworks (ICFs) is not required at this time.

On September 24, 2026, Council approved resolutions regarding Sturgeon County and Parkland County, and at the October 8 Council Meeting, Council passed a resolution for County of Barrhead. Corresponding resolutions were approved by Sturgeon County Council on August 25, 2026, and by Parkland County Council on October 13, and the County of Barrhead Council on October 20, 2026.

The resolutions followed administrative discussions and reviews of existing intermunicipal relationships, service delivery arrangements, and opportunities for formal collaboration. Through this process, the municipalities determined that resident needs are being effectively met through existing agreements and service delivery models and that no additional shared service arrangements are required at this time.

Under the *Municipal Government Act*, municipal districts (counties) that share a common boundary may agree that an Intermunicipal Collaboration Framework is not necessary where both municipalities determine that one is not required.

The resolutions reflect the strong working relationships that already exist between the municipalities and recognize that collaboration can take many forms, including ongoing communication, mutual support, and service-specific agreements where appropriate.

Lac Ste. Anne County remains committed to maintaining productive relationships with neighbouring municipalities and working collaboratively on matters of mutual interest. Should future circumstances warrant additional formal collaboration, the municipalities have agreed to work together in accordance with provincial legislation.

"This is a positive outcome that recognizes the effectiveness of our existing relationships with neighbouring municipalities," said County CAO Ann Mitchell. "We value regional cooperation and will continue working together to serve residents and address shared opportunities and challenges."

REMINDER: SNOWPLOW FLAG PROGRAM SUSPENDED & COMPASSIONATE SNOW REMOVAL SUBSIDY PROGRAM IN EFFECT

LSAC.ca/snow

The County has suspended the Private Driveway (Snowplow Flag) Program for the next two years. As part of this change, County equipment will no longer be used for private driveway maintenance, allowing Public Works resources to remain focused on maintaining core municipal road infrastructure.

To continue supporting residents facing medical, accessibility, or financial challenges, the County has introduced the Compassionate Snow Removal Subsidy Program. Under this new model, eligible residents can hire a private snow removal contractor and apply for County funding assistance to help offset service costs. This approach provides residents with greater flexibility while supporting local snow removal businesses and ensuring County graders remain dedicated to roadway operations.

Additional program details including eligibility requirements and application forms will be available soon at the website page indicated above, or by calling 780.785.3411. Watch the County website and social media channels for updates.

The County is also updating its registry of contractors interested in providing snow clearing services through the subsidy program. Local contractors wishing to participate are encouraged to contact the County's Public Works department by emailing publicworks@LSAC.ca with their business information and service areas.

DISCRETIONARY DEVELOPMENT PERMITS

LSAC.ca/permits

The development permits below have been conditionally approved under the provisions of the Land Use Bylaw (LUB). This list does not include permitted uses. Please contact County Planning & Development to request additional information on permits listed.

Anyone who claims to be affected and who wishes to lodge an appeal against any of these developments must do so in writing, using the applicable form on or before 4:30 pm on the noted date(s) to the appropriate appeal body:

Subdivision & Development Appeal Board (SDAB)
Secretary of the Subdivision and Development Appeal Board

WHITECOURT TOWN COUNCIL UPDATE

Submitted by Town of Whitecourt

Whitecourt Town Council held its annual Organizational Meeting on October 26, 2026, and made a number of Council appointments to internal and external committees. Councillor Mike Braun was also appointed Deputy Mayor from December 1, 2026, to March 31, 2027.

A number of public appointments were made to Council Committees. To everyone that submitted applications for Council Committees – thank you for your commitment and willingness to serve our community. All applicants will be contacted in the coming days regarding the status of Council Committee appointments.

Council has adopted a new False Alarm Bylaw to help reduce the number of false alarms and improve the effi ciency of emergency services. Whitecourt has had fees associated with false alarm calls for a number of years, but the new bylaw aims to reduce unnecessary emergency responses and associated expenses, and includes a fee rebate system to encourage updates and improvements to alarm systems to reduce the likelihood of future false alarms. Further details on the new legislation will be posted online at www.whitecourt.ca.

The Fees, Rates and Charges Bylaw has been updated to refl ect the new False Alarm fee, and to remove the Residential Curbside Recycling Fee as Circular Materials now manages the local recycling program.

November has been recognized as Family Violence Prevention Month, and the Whitecourt Family Violence Initiative is hosting a number of events to raise awareness and inspire change. For details, follow the Whitecourt Family Violence Initiative on Facebook.

• Shine A Light is scheduled for November 1, and Whitecourt residents are encouraged to turn on their outside porch lights, or pick up a purple glow stick, to shine a light on the issue of family violence. Glowsticks are available for free at the Allan & Jean Millar Centre.

• On November 4, resource packages will be distributed to local businesses to help educate and raise awareness of this issue.

• On November 6 members of the Whitecourt Family Violence Initiative will be distributing purple ribbons and bracelets at the Whitecourt Wolverines hockey game.

• The Candlelight Vigil is scheduled on November 19 at the Twice Is Nice store in Midtown Mall and will include a walk through the downtown to honour victims and show solidarity with survivors.

The Canfor Culture & Events Centre hosted its inaugural event on October 16, and a phased opening of areas of the facility is underway.

The Whitecourt Town Office is scheduled to open at its new location by the end of November, and the Whitecourt & District Public Library will move in the new year. A grand opening event will be held in the spring of 2027. For information on upcoming events and to purchase tickets visit whitecourtlive.ca.

Whitecourt Town Council received a quarterly financial report that includes an operating report, and information on key accomplishments, innovations and efficiencies realized by the Town of Whitecourt up to the end of September 2026. Council also had the opportunity to review the 2026 Project List. Both reports are available for viewing on www.whitecourt.ca.

A Special Meeting of Council is scheduled for December 16, 2026 to discuss the 2027 Budget.

Over the last several months, Whitecourt and Woodlands County have been working to review the Intermunicipal Collaboration Framework (ICF) Agreement. The framework formalizes how the municipalities manage growth, coordinate service delivery, and optimize resources for citizens. Whitecourt, at the recommendation of a joint ICF Committee, has deemed the review complete.

Two members of Whitecourt Town Council will be attending the Rural Municipalities of Alberta Convention with Woodlands County Council.

Street closures in the downtown area have been approved for the November 27 Santa Claus Parade hosted by the Whitecourt & District Chamber of Commerce.

RCMP WARN PUBLIC OF WALLET THEFT AND BANK IMPERSONATION SCAMS

Submitted by RCMP

Strathcona County RCMP are warning residents about a sophisticated scam involving the theft of wallets and purses, followed by fraudulent calls from individuals impersonating financial institution employees.

The RCMP are reminding residents that losing a wallet can put more than credit cards at risk. In some cases, suspects may use stolen banking information to target victims with follow-up phone calls designed to obtain personal banking information, including PINs and verification codes.

Suspects may steal wallets or purses using distraction techniques or pickpocketing including in busy public places such as restaurants, cafés and retail locations. Shortly after the theft, the victim may receive a phone call from someone claiming to be from their financial institution's fraud department. The caller may use a spoofed phone number that appears legitimate and may create a sense of urgency and claim they are trying to protect the victim's account. They may then ask for a PIN, password, verification code or other banking information. Once the suspect has obtained the necessary information, they may attempt unauthorized ATM withdrawals, purchases or other fraudulent transactions.

Strathcona County RCMP are sharing the following tips:

•Avoid placing your wallet or purse in an easily accessible location. When shopping, dining or in other public places, keep your belongings secured within sight and close to you.

•Never provide your PIN or password over the phone. Legitimate financial institutions will not ask you to disclose your PIN.

•Don't trust the caller ID. A phone number can be spoofed to appear as though it belongs to your bank.

•If you receive a suspicious call, end the call and contact your financial institution by attending in person, using the official number on the back of your bank card or through its official website or banking app.

•Turn on transaction alerts. Real-time notifications can help you identify suspicious activity quickly.

•Act immediately if your wallet is lost or stolen. Freeze or cancel your cards through your banking app or by contacting your financial institution.

•Monitor your accounts. Regularly review your bank and credit card statements for transactions you don't recognize.

"Having your wallet stolen is stressful enough without then receiving a phone call from someone claiming they can help protect your accounts," says Cst. Cheri-Lee Smith, Strathcona County RCMP Public Information Officer. "If you receive a suspicious call, hang up and contact your financial institution directly using a trusted number or by attending in person."

Anyone who believes they have been the victim of a wallet theft or fraud should contact their financial institution immediately to secure their accounts and report any unauthorized transactions. Victims should also report the theft or suspected fraud to their police of jurisdiction.

CRACKING DOWN ON ILLEGAL DUMPING

Submitted by Government of Alberta

Alberta's government is cracking down on illegal dumping and high-risk waste facilities to protect communities, private property and the environment.

A heap of garbage left in the northeast Calgary community of Saddle Ridge on Thursday, Aug. 13, 2026. Credit to CTV.

This fall, Alberta's government plans to introduce legislation to strengthen penalties for illegal dumping and increase oversight of large waste facilities. The proposed amendments to the Environmental Protection and Enhancement Act would significantly increase fines, with individual offenders facing penalties of $10,000 to $100,000 and corporations facing fines of $100,000 to $1 million. Courts would also have the authority to impose jail sentences of a minimum of 30 days to a maximum of six months.

Illegal dumping continues to create serious problems across Alberta, with garbage and construction debris left along roadsides, on farmland, private property and public lands. When waste is dumped illegally, communities, landowners and taxpayers are often left to deal with the clean-up costs and environmental damage. Strengthening penalties will hold offenders accountable, protect private property and public lands, and deter illegal dumping.

"Albertans work hard to keep their communities, farms and public lands clean. Illegal dumping damages our environment, violates private property and leaves Albertans paying for someone else's mess. Waste must be disposed of responsibly. We're cracking down so those who choose to break the law face tougher penalties and serious consequences."

Danielle Smith, Premier

"With stronger oversight of higher-risk waste and storage facilities and tougher penalties for illegal dumping, Alberta is protecting our environment, strengthening communities and standing up for private property owners."

Grant Hunter, Minister of Environment and Protected Areas

In addition to increasing penalties for illegal dumping, Alberta's government will strengthen oversight of higher-risk waste transfer and storage facilities. Lower-risk facilities could continue under the existing streamlined notification process, while higher-risk facilities handling larger volumes or storing waste for longer periods would be required to obtain provincial registration and meet additional operating requirements. This would focus stronger oversight where it is needed most without adding unnecessary requirements for lower-risk facilities.

"Illegal dumping is not a victimless act. These proposed changes will make Alberta's penalties the most severe in the country and send a clear message that those who break the law should bear the costs of their actions."

Mickey Amery, Minister of Justice

"These proposed changes would strengthen enforcement, increase penalties and help ensure those who dump waste illegally face meaningful consequences for their actions. By giving officers stronger tools to investigate and enforce the law, we are sending a clear message that illegal dumping will not be tolerated in Alberta."

Mike Ellis, Minister of Public Safety and Emergency Services

"Alberta communities invest in waste and recycling facilities so residents have responsible options to dispose of unwanted materials. These tougher penalties are about respect: respect for property, respect for the taxpayers who shouldn't foot the bill, and respect for the neighbours who work hard to keep our communities clean."

Dan Williams, Minister of Municipal Affairs

Alberta's government will continue working with municipalities, agricultural organizations, industry and enforcement partners to strengthen compliance, improve public reporting and raise awareness about the impacts of illegal dumping.

RIGHTING A HISTORIC WRONG FOR ALBERTA RANCHERS

Submitted by Government of Alberta

Alberta is reopening a registration program so eligible ranchers can have their long-standing water rights recognized.

For generations, Alberta's ranchers have relied on water sources on public land to raise livestock and support their operations. Now, Alberta's government is giving eligible ranchers a new opportunity to have long-standing agricultural water use properly recognized.

When Alberta's Traditional Agricultural Registration program closed in 2001, grazing leaseholders on Crown land could not apply directly because they did not own the land. Registrations were submitted on their behalf, and subsequent reviews have identified errors and omissions in some historic records that may have left eligible agricultural water use unrecognized.

The change follows a review undertaken with the Alberta Grazing Leaseholders Association after concerns were raised about inaccuracies in historic registrations on grazing leases. That work confirmed examples of errors and omissions that could affect ranchers' access to water sources that otherwise may have qualified for registration.

"Ranchers should not lose recognition of long-standing water rights because of mistakes or gaps in government records from more than two decades ago. We are righting that historic wrong and giving eligible ranchers a fair opportunity to correct the record and have the water use they have relied on for generations properly recognized."

Grant Hunter, Minister of Environment and Protected Areas

Alberta is reopening the registration process for eligible historical agricultural water use on unpatented Crown land. This will give ranchers an opportunity to correct the record, have eligible long-standing water use reviewed and receive the recognition and priority associated with that historical use.

The reopened program applies to eligible agricultural water use that occurred before Jan. 1, 1999. Applications will be reviewed using available historical information, including aerial imagery and water well drilling records where appropriate.

About 6,800 registrations on unpatented Crown land may be eligible for review through the reopened program.

"Alberta's producers have been responsible stewards of our land and water for generations. Reopening this program gives eligible ranchers a fair opportunity to have long-standing water use recognized, helping support the continued success of Alberta's agricultural sector while improving the accuracy of provincial water records."

Tara Sawyer, Minister of Agriculture and Irrigation

"Ranchers should not be stuck with a paperwork error they had no hand in. This gives grazing leaseholders a clear, straightforward way to get their water use recognized and keep doing what they do best, raising one of Alberta's greatest products."

Todd Loewen, Minister of Forestry and Parks

"Alberta Grazing Leaseholders Association appreciates the government recognizing this long-standing issue and giving eligible ranchers a fair opportunity to have their historical water use reviewed."

Darwayne Claypool, chairman, Alberta Grazing Leaseholders Association

By reopening the program, Alberta's government is providing a practical path to correct those historic records while improving the accuracy of the province's water information.

SUDOKU of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

				1	8	6	7	4
