TRAFFIC SIGNALS NOW OPERATIONAL AT HIGHWAY 16A AND RANGE ROAD 20

Submitted by Parkland County

Parkland County welcomes the activation of new traffic signals at the intersection of Highway 16A and Range Road 20. The signals were installed by the Government of Alberta following ongoing advocacy from Parkland County and continued collaboration with provincial partners and the RCMP to improve safety on local roads.

For several years, residents have raised concerns about safety at this busy intersection. Council made these concerns a priority and worked with the Province to support improvements that help make travel safer for drivers, passengers, school buses and commercial vehicles.

"Keeping our communities safe is one of Council's top priorities," said Parkland County Mayor Rod Shaigec. "We heard from residents about safety concerns at this intersection and continued to advocate for improvements. We are pleased to see these signals in operation and thank the Province for helping make this important safety improvement a reality."

As part of the project, the speed limit through the intersection was reduced from 90 km/h to 80 km/h when the signals were activated.

Council remains committed to working with the Government of Alberta, regional partners and the RCMP to support initiatives that improve safety and strengthen the well-being of communities across Parkland County.

JOKE of the week

The teacher of the school geography class was lecturing on map reading.

After explaining about latitude, longitude, degrees and minutes the teacher asked:

"Suppose I asked you to meet me for lunch at 23 degrees, 4 minutes north latitude and 45 degrees, 15 minutes east longitude...?"

After a confused silence, little Johnny volunteered - "I guess you'd be eating alone!"

SUDOKU of the week

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
